PRESS RELEASE

March 23, 2012

TSX-V: WST

WESTRIDGE ANNOUNCES ISSUANCE OF CONVERTIBLE DEBENTURE

VANCOUVER, B.C. – Westridge Resources Inc. (the “**Company**”) is pleased to announce it has received final approval from the TSX Venture Exchange with respect to the issuance of a convertible debenture pursuant to a convertible loan agreement (the “**Loan Agreement**”) between the Company and Fibre-Crown Manufacturing Inc. (“**Fibre-Crown**”), as previously disclosed in the Company’s news release dated February 24, 2012.

Under the terms of the Loan Agreement, the Company has issued a convertible debenture (the “**Convertible Debenture**”) in the principal amount of \$258,000 bearing interest at a rate of 8% per annum, calculated and payable monthly. Pursuant to the Loan Agreement, Fibre-Crown may convert the Convertible Debenture, by providing notice to Westridge (the “**Conversion Notice**”), into common shares of the Company at a price of \$0.65 per common share until February 1, 2013 (the “**Maturity Date**”). Within 14 days following the receipt by Westridge of the Conversion Notice, Westridge has agreed to either: (i) issue that number of common shares to Fibre-Crown as set out in the Conversion Notice; (ii) direct Fibre-Crown to transfer the Convertible Debenture to a third party by paying to Fibre-Crown 5% of the principal amount then outstanding; or (iii) redeem the principal amount by paying that portion of the principal amount being redeemed. Westridge may, at its option, extend the Maturity Date for an additional 12 months by payment of 3% of the principal amount then outstanding.

The Convertible Debenture is subject to a hold period expiring on July 16, 2012. The Company did not pay any finder’s fees in connection with the Loan Agreement.

About Westridge Resources

Westridge Resources Inc. is a Canadian-based mineral exploration company focused on the acquisition, evaluation and exploration of mineral resource properties. As announced in the Company’s news release dated January 27, 2012, Westridge has entered into an option agreement to acquire up to a 100% interest in the Charay Project, located in Sinaloa State, Mexico.

Forward Looking Statements

Statements contained in this news release that are not historical facts constitute “forward-looking statements” or “forward-looking information” within the meaning of applicable securities laws and are based on expectations, estimates and projections as of the date of this release. Forward-looking statements include, without limitation, possible events, statements with respect to possible events, the future price of gold and other commodities, the realization of mineral resource estimates and success of exploration activities. The words “is expected” or “estimates” or variations of such words and phrases or statements that certain actions, events or results “may” or “could” occur and similar expressions identify forward-looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements. Such factors include, but are not limited to: fluctuations in the spot and forward price of gold or certain other commodities; changes in national and local government legislation, taxation, controls, regulations and political or economic developments in Canada; business opportunities that may be presented to, or pursued by, the Company; operating or technical difficulties in connection with mining activities; the speculative nature of gold exploration and development, including the risks of obtaining necessary licenses and permits; diminishing quantities or grades of reserves; and contests over title to properties, particularly title to undeveloped properties. In addition, there are risks and hazards associated with the business of gold exploration, development and mining, including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins, flooding and gold bullion losses (and the risk of inadequate insurance, or the inability to obtain insurance, to cover these risks). Many of these uncertainties and contingencies can affect the Company’s actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, the Company. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are provided for the purpose of providing information about management’s expectations and plans relating to the future. All of the forward-looking statements made in this release are qualified by these cautionary statements and those made in our other filings with the securities regulators in Canada. These factors are not intended to represent a complete list of the factors that could affect the Company. Although the Company believes that the expectations in the forward-looking statements are reasonable, actual results may vary, and future results, levels of activity, performance or achievements cannot be guaranteed.
