Westridge Resources Inc.

Consolidated Financial Statements

Nine Months Ended April 30, 2015 and 2014

(Expressed in Canadian Dollars)

(Unaudited)

NOTICE TO READER

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim condensed consolidated interim financial statements have been prepared by and are the responsibility of the management.

The Company's independent auditor has not performed a review of these financial statements in accordance with the standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

The accompanying notes are in integral part of these consolidated financial statements

1. Nature of operations

Westridge Resources Inc. ("the Company or Westridge") is an exploration stage company incorporated under the laws of the Province of British Columbia on April 30, 2007. The Company is focused on the acquisition, evaluation and exploration of mineral resource properties. The Company trades on the TSX Venture Exchange under the stock symbol WST.

The head office, principal and registered address and records office of the Company are located at 888 Dunsmuir Street, Suite 1100, Vancouver, B.C. V6C 3K4.

2. Basis of presentation and Statement of Compliance

These condensed consolidated interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at April 30, 2015 the Company is not able to finance day to day activities through operations. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the company's ability to continue as a going concern.

The Company's continuation as a going concern is dependent upon the successful results from its current initiative to obtain a viable project. Currently, the Company does not have operations or an exploration and evaluation activities and is therefore unable to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management intends to finance operating costs over the next twelve months with loans from directors and companies controlled by directors and or private placement of common shares.

There is, however, no assurance that the sufficient sources of funding or projects described above will be available to the Company, or that they will be available on terms and timely basis that are acceptable to the Company. Accordingly, these financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported expenses and the statement of financial position classifications used that would be necessary should the Company be unable to continue as a going concern. These adjustments could be material.

As at April 30, 2015, the Company had a net working capital deficiency of $722,655 (July 31, 2014 - $750,803) and an accumulated deficit of $5,965,901 (July 31, 2014 - $5,894,049) since inception and expects to incur further losses.

The Company prepares its consolidated financial statements in accordance with International Financial Reporting Standards ("IFRS") as set out in Part 1 of the Handbook of the Chartered Professional Accountants of Canada ("CPA Handbook").

These condensed consolidated financial statements for the six month period ended April 30, 2015, are prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34"), and do not include all the information required for annual consolidated financial statements. These interim consolidated financial statements should be read in conjunction with the Company's July 31, 2014 annual audited consolidated financial statements.

Westridge's Board of Directors approved these condensed interim consolidated financial statements on June 29, 2015.

3. Significant judgments, estimates and assumptions

The preparation of the Company's condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the condensed consolidated interim financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results could differ from these estimates by a material amount.

Matters that require management to make significant judgments, estimates and assumptions in determining carrying values include, but are not limited to:

Deferred taxes

The Company recognizes the deferred tax benefit of deferred tax assets to the extent their recovery is probable. Assessing the recoverability of deferred tax assets requires management to make significant estimates of future taxable profit. In addition, future changes in tax laws could limit the ability of the Company to obtain tax deductions from deferred tax assets.

Share-based payments

Share-based payments are determined using the Black-Scholes Option Pricing Model based on estimated fair values of all share-based awards at the date of grant. The Black-Scholes Option Pricing Model utilizes assumptions such as expected price volatility, the expected life of the option and the number of options that may be forfeited. Changes in these input assumptions may affect the fair value estimate.

Impairment of assets

The carrying amount of the Company's assets (which include equipment and exploration and evaluation assets) is reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognized in the statement of income and comprehensive loss.

The recoverable amount of assets is the greater of an asset's fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is only reversed if there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount, however, not to an amount higher than the carrying amount that would have been determined had no impairment loss been recognized in previous years.

Convertible Loan

The convertible loan is initially recorded at fair value and subsequently measured at amortized cost. The convertible loan is allocated between the debt and equity components using the residual method at the date of issuance and is recorded net of transaction costs. The debt component is accreted to the face value using the effective interest method, with the resulting charge recorded as accretion on convertible loan, which is included in interest on convertible loan in the consolidated statement of operations.

(Expressed in Canadian dollars - unaudited)

3. Significant judgments, estimates and assumptions *(continued)*

In instances where the Company issues equity instruments to settle all or a part of the outstanding debt, the equity instruments are treated as consideration paid and are measured initially at fair value of the equity instruments issued, or when not reliably measurable, at the fair value of the financial liability extinguished. Any difference between the carrying amount of the financial liability extinguished and the consideration paid is recognized in profit or loss. If the financial liability is not fully extinguished, and terms related to the remaining portion have been modified, the Company allocates the consideration paid between the extinguished portion and the modified portion.

4. Cash and cash equivalents

The components of cash and cash equivalents are as follows:

	April 30, 2015	July 31, 2014
Cash at bank	$ 6,451	$ 3,657

5. Accounts payable and accrued liabilities

	April 30, 2015	July 31, 2014
Accounts payable and accrued liabilities	$ 663,391	$ 578,715
Amounts due to related parties (Note 8)	13,853	117,783
	$ 677,244	$ 696,498

6. Convertible debenture

Under the terms of the Loan Agreement ("the Loan") effective February 22, 2012, the Company has issued a convertible debenture in the principal amount of $258,000 bearing interest at a rate of 10% per annum, calculated and payable monthly.

Pursuant to the Loan Agreement, the Company has the right to redeem, at any time, any portion of the principal amount outstanding by payment of that portion of the principal amount that is being redeemed to the creditor. Pursuant to the Loan Agreement, the creditor may convert the convertible debenture, in whole and not in part, by providing notice to Westridge into common shares of the Company at a price of $0.65 per common share until February 1, 2013. Within 14 days following the receipt by Westridge of the Conversion Notice, Westridge has the options exercisable at its sole discretion to either: (i) issue that number of common shares to the creditor as set out in the Loan Agreement as above; (ii) direct the creditor to transfer the convertible debenture to a third party by paying to the creditor 5% of the principal amount then outstanding; or (iii) redeem the principal amount by paying that portion of the principal amount being redeemed to the creditor.

Westridge may, at its option, extend the maturity date of February 1, 2013 for an additional 12 months by making a payment of 3% of the principal amount then outstanding to the creditors. An initial fee of $7,749 was paid to the creditor as part of the Agreement.

For accounting purposes, the Loan contains both a liability component and an equity component, being the lender's conversion option to shares, which have been separately presented on the consolidated statement of financial position. The Company allocated the original $258,000 principal of the Loan to the individual liability and equity components by establishing the fair value of the liability component at the date of issue and then allocating the remaining balance of the net proceeds to the equity component. The fair value of the liability component was determined by discounting the stream of future payments of interest and principal amounts at the estimated prevailing market rate at the date of issuance of 10% for a debt instrument of similar maturity and credit quality but without any share conversion option for the lenders. Including the impact of the costs of issuance, applying the effective interest method, the liability component of the Loan bears an effective annual interest rate of 10%.

(Expressed in Canadian dollars - unaudited)

6. Convertible debenture *(continued)*

During the year ended July 31, 2014, the Company accrued interest expense of $15,480 (2013 - $20,640) related to the Loan, of which $nil (2013 - $5,160) was paid. In April 2014, the Company converted the principal amount into 5,160,000 common shares, and settled interest payable by issuing 309,600 common shares.

As at April 30, 2015, there is no convertible debenture balance outstanding.

The convertible loan is broken down as follows:

	April 30, 2015	July 31, 2014
Equity component	**$ -**	**$ -**
Liability component, at the date of issuance	**$** -	**$** 258,000
Accretion of interest	-	(258,000)
Liability component, end of the period	**$ -**	**$ -**

7. Share capital

Authorized share capital

Unlimited number of common shares without par value.

	Number of shares	Share Capital
Balance, July 31, 2014	21,639,020	$ 4,263,325
October 15, 2014 Private placement	2,000,000	100,000
Balance, April 30, 2015	23,639,020	$ 4,363,325

(i) On August 15, 2012 a private placement consisted of 1,589,600 units at a price of $0.25 per Unit for gross proceeds of $397,400 has been closed. Each Unit consists of one common share of the Company and one-half of one common share purchase warrant. Each Warrant entitles the holder to acquire one additional common share of the Company at a price of $0.35 until August 15, 2014. The Company paid arm’s length finders a total cash commission of $23,750 and issued to the finders 95,000 common share purchase warrants. Each Finders’ Warrant entitles the holder to purchase one common share of the Company at a price of $0.35 until August 15, 2014.

(ii) On October 15, 2014 2,000,000 shares at a price of $0.05 were issued to a non-related party.

Basic and diluted loss per share

The calculation of basic and diluted loss per share for the three month period ended April 30, 2015 was based on the loss attributable to common shareholders of $26,590 (2014 - $78,984) and the weighted average number of common shares outstanding of 23,082,243 (2014 – 17,739,815). Diluted loss per share did not include the effect of nil (July 31, 2014– nil) stock options and nil (July 31, 2014 – 444,900) warrants as the effect would be anti-dilutive.

Stock options

(Expressed in Canadian dollars - unaudited)

The Company has a stock option plan under which it is authorized to grant options to executive officers, directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common stock of the Company. Under the plan, the exercise price of each option equals the market price of the Company's stock, less applicable discount, as calculated on the date of grant. The options can be granted for a maximum term of 5 years with vesting determined by the board of directors.

The Company had no stock options outstanding as at April 30, 2015.

7. Share capital *(continued)*

Warrants

The changes in warrants during the nine month period ended April 30, 2015 and the year ended July 31, 2014 are as follows:

	April 30, 2015		July 31, 2014	
	Number of warrants	Weighted average exercise price	Number of warrants	Weighted average exercise price
Warrants outstanding, beginning of the period	444,900	$ 0.70	444,900	$ 0.70
Warrants granted	-	-	-	-
Warrants exercised	-	-	-	-
Warrants expired	(444,900)	-	-	-
Warrants outstanding, end of the period	-	$ -	444,900	$ 0.70

All remaining outstanding warrants expired during the quarter ended April 30, 2015.

8. Related party transactions

The following amounts due to related parties are included in accounts payable and accrued liabilities:

	April 30, 2015	July 31, 2014
Amounts due to directors and officers of the Company	$ 13,853	$ 117,783

These amounts are unsecured, non-interest bearing and have no fixed terms of repayment.

The Company incurred the following transactions with companies that are controlled by directors and officers of the Company.

	Nine months ended April 30, 2015	2014
Accounting fees	$ -	$ 7,500
Management fees	$ 22,500	$ 91,000

The following amounts due to related parties are included in current liabilities:

	April 30, 2015	July 31, 2014
Shareholder loan	$ 86,263	$ 86,263

These amounts are unsecured, bearing interest at 10% per annum and have no fixed terms of repayment. Included in these amounts are $66,748 of principle and $19,515 of accrued interest.

9. Subsequent Events

There were no subsequent events.
