HARRYS MANUFACTURING INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE YEAR ENDED JULY 31, 2020

The following Management's Discussion and Analysis ("MD&A") is dated November 30, 2020 and should be read in conjunction with the consolidated financial statements of Harrys Manufacturing Inc. ("Harrys" or the "Company") for the year ended July 31, 2020.

FORWARD-LOOKING INFORMATION

Statements herein that are not historical facts and are forward-looking statements that are subject to risks and uncertainties. Words such as "expects", "intends", "may", "could", "should", "anticipates", "likely", "believes" and words of similar import also identify forward-looking statements. Forward-looking statements are based on current facts and analyses and other information that are based on forecasts of future results, estimates of amounts not yet determined and assumptions of management, including, but not limited to, the Company's ability to raise additional debt and/or equity financing to fund operations and working capital requirements. Actual results may differ materially from those currently anticipated due to a number of factors including, but not limited to, general economic conditions, the Company's ability to generate sufficient cash flows from operations and from financing to support general operating activities and capital expansion plans, and laws and regulations and changes thereto that may affect operations, and other factors beyond the reasonable control of the Company.

Management periodically reviews information reflected in forward-looking statements. The Company has and continues to disclose in its Management's Discussion and Analysis and other publicly filed documents, changes to material factors or assumptions underlying the forward-looking statements and to the validity of the statements themselves, in the period the changes occur.

Historical results of operations and trends that may be inferred from the above discussions and analysis may not necessarily indicate future results from operations.

BUSINESS DESCRIPTION AND READER GUIDANCE

Harrys was incorporated under the laws of the Province of British Columbia in 2007, formerly under the name of Westridge Resources Inc.. The Company had previously focused on the acquisition, evaluation and exploration of mineral resource properties. In 2012, the Company focused its exploration activities on the Mount Sicker property in the south-eastern area of Vancouver Island, B.C. The Company also acquired an option to acquire certain concessions in the United Mexican States known as the Charay Project. However, in 2013, the Company allowed the leases on the properties to lapse. As a result, the Company was currently pursuing investment opportunities. The Company formerly traded on the TSX Venture Exchange but was relegated to the NEX Exchange. On October 17, 2017, the Company requested that its shares be voluntarily delisted from the NEX Exchange and commenced trading on the Canadian Securities Exchange under the stock symbol WST.

On May 4, 2017, the Company entered into an option agreement with Intact Gold Corp. ("Intact") to acquire a 100% right, title and interest in and to those certain mineral claims comprising the Black Jack Gold Property (the "Agreement"), located in the townships of Kirkup and Manross in the Kenora mining division of Ontario, approximately 20 km south east of the city of Kenora, (the "Property"). Pursuant to the Agreement, the Company was granted the sole and exclusive right and option (the "Option") to acquire a 100% right, title and interest in the Property. In fiscal 2018 Harrys decided not to exercise the Option and has abandoned the mineral property claim.

On December 22, 2017, the Company entered into a Letter of Intent with Harrys International Manufacturing Inc. ("HIMI") to acquire all of the issued and outstanding common shares of HIMI (the "HIMI Shares") in exchange for the common shares of the Company. HIMI's principal business is the sale and distribution of tobacco products to both domestic and international purchasers.

On January 22, 2018, the Company entered into a Share Exchange Agreement with HIMI. Pursuant to the agreement, the Company agreed to acquire all of the issued and outstanding shares of HIMI in exchange for the issuance of

28,500,100 shares of common stock of the Company to the shareholders of HIMI. The Acquisition closed on October 4, 2018. On October 4, 2018, the Company also changed its name from Westridge Resources Inc. to Harrys Manufacturing Inc. On October 17, 2018 the Company shares commenced trading on the CSE under the symbol "HARY".

Tobacco Cigarette Sales

The Company initially focused its efforts on tobacco cigarette sales to international customers, specifically to take advantage of referrals and relationships previously established by HIMI management. However, over the past 18 months the international market has become increasingly challenging with not only the long standing dominance of large tobacco companies but many cheap, lower quality cigarette brands being manufactured in China and India, making it difficult to compete against. During this period, several opportunities fell through due to Harrys' inability to match or beat pricing, as well as a large pilot project opportunity to supply a division of the military in China with premium quality Canadian brand cigarettes that suddenly stalled. The Company believes this was due to China changing policies to restrict purchases of certain Canadian goods.

The Company has therefore switched its efforts to focus on tobacco sales in Canada. Last year Health Canada announced that it will be introducing new plain packaging regulations in 2020 on Tobacco products sold in Canada. The new regulations prohibit brand colors, graphics and logos on packages, making all packaging identical other than the product name, which has to be displayed in identical font. Harrys management saw this as an opportune time to enter the Canadian market and started inquiring into all the necessary requirements, guidelines, steps and whether it could even gain access to the distributors and retail markets in Canada to generate sales. The North American market is predominantly dominated by the big three or four tobacco companies, and up until recently it was difficult to brand a new product in the Canadian market.

Management announced on December 19, 2019 that it signed an independent sales agreement with Altabac Inc. & Ken Storey who has over 35 years' experience in the North American tobacco industry. Through this relationship and Altabac's connections to distributors and retail chains in Canada and the elimination of any branding on packaging, management felt confident that 2020 would be ideal timing to focus on entering the Canadian tobacco cigarette market, as a premium brand, value priced product.

The Company currently has tobacco wholesale license applications that are pending or under review for approval in British Columbia, Manitoba, Ontario and Quebec, as well as approved wholesale tobacco licenses for the provinces of Alberta and Saskatchewan.

Management continues to work with its exclusive Canadian manufacturer to receive registration approvals from the Canada Revenue Agency Excise Duties and Taxes Division to facilitate ordering the required Tobacco Stamps. The Stamps are placed on Harrys tobacco cigarette products destined for sale in the designated Canadian Provinces where the Company has received a wholesale tobacco license.

Reader Guidance

The Company's consolidated financial statements were prepared in accordance with IFRS that are applicable to a going concern, which contemplate the realization of assets and the settlement of liabilities and commitments in the normal course of business. At July 31, 2020, the Company had an accumulated deficit of \$22,420,108 since inception (July 31, 2019 - \$21,314,463), and net working capital of \$180,507 (July 31, 2019 - \$303,435).

The Company's continuation as a going concern is dependent upon its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management intends to finance operating costs over the next twelve months from working capital, cash flow from operations and, if necessary, from loans from directors and companies controlled by directors and/or exercise of outstanding options and warrants and private placement of common shares. Management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. Management believes that the Company's capital resources should be adequate to continue operating and maintaining its business strategy. However, if the Company is unable to raise additional capital or achieve profitability in the near term, management expects that the Company may need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures. The consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that

might be necessary should the Company be unable to continue as a going concern.

Impact of COVID-19 on the Financial Position of the Company

In December 2019, a strain of novel coronavirus (now commonly known as "COVID-19") was reported to have surfaced in Wuhan, China. COVID-19 has since spread rapidly throughout many countries, and, on March 11, 2020, the World Health Organization declared COVID-19 to be a pandemic. In an effort to contain and mitigate the spread of COVID-19, many countries, including the United States and Canada, have imposed unprecedented restrictions on travel, and there have been business closures and a substantial reduction in economic activity in countries that have had significant outbreaks of COVID-19.

At this time the Company remains open for business, however significant uncertainty remains as to the potential impact of the COVID-19 pandemic on our operations, and on the global economy as a whole. Government-imposed restrictions on travel and other "social-distancing" measures such restrictions on assembly of groups of persons, have the potential to disrupt supply chains for parts and sales channels for our products, and may result in labor shortages.

It is currently not possible to predict how long the pandemic will last or the time that it will take for economic activity to return to prior levels. We will continue to monitor the COVID-19 situation closely, and intend to follow health and safety guidelines as they evolve.

OVERALL PERFORMANCE

Selected Annual Information

The following table sets forth selected annual information of the Company for the last three fiscal years. This financial information has been prepared using IFRS:

	2020	2019	2018	
Revenue	\$ -	\$ 7,500	\$ -	
Net loss for the year	(1,683,854)	(14,072,793)	(665,083)	
Net and comprehensive loss	(1,683,854)	(14,072,793)	(665,083)	
Loss per share - basic and diluted	(0.02)	(0.19)	(0.02)	
Cash used in operations	(618,440)	(1,027,937)	(564,825)	
Total assets	655,725	1,346,245	4,086,502	
Capital expenditures	120,621	-		

During the fiscal year end July 31, 2020, Harrys developed its strategic objectives and operations for future growth. Management continues to focus on generating revenue from cigarette sales for fiscal 2021. The Company spent \$120,621 on the purchase of equipment and leasehold improvements during the year ended July 31, 2020 and did not have any capital expenditures during the prior two fiscal years. For the year ended July 31, 2020, loss from continuing operations was \$1,683,854 (2019 - \$14,072,793). The decrease in net loss is primarily due to an impairment of goodwill of \$11,645,331 in fiscal 2019, as well as from a decrease in share-based compensation expense from \$1,137,688 in 2019 to \$390,638 in 2020. For the year ended July 31, 2018, loss from continuing operations was \$665,083. The increase in net loss from 2018 to 2019 was primarily from the impairment of goodwill recorded during the year ended July 31, 2019.

SELECTED QUARTERLY FINANCIAL INFORMATION

The following information is derived from the Company's quarterly financial statements for the past eight quarters and has been prepared using IFRS:

	Three Months		Three	e Months	Three Months		Three Months		
	Ended		Ended		Ended		Ended		
	July 31, 2020		April 30, 2020		January 31, 2020		October 31, 2019		
Revenue	\$	Nil	\$	Nil	\$	Nil	\$	Nil	
Loss for the period	(660,839)		((193,878)		(526,241)		(302,896)	
Loss per share - basic and diluted	(0.01)			(0.00)		(0.01)		(0.00)	
Total assets	655,725		1,410,343		895,154		1,148,244		

	Three Months		Three Months		Three Months		Three Months	
	Ended July 31, 2019		Ended April 30, 2019		Ended January 31, 2019		Ended October 31, 2018	
Revenue	\$	Nil	\$	7,500	\$	Nil	\$	Nil
Loss for the period	(12,276	5,109)		(273,893)		(1,352,364)		(170,427)
Loss per share - basic and diluted	(0.17)		(0.00)		(0.02)		(0.00)	
Total assets	1,346,245		1	13,467,604		13,692,530		13,935,551

Fluctuations in the Company's expenditures reflect the variations in the timing of general operations, and the ability of the Company to raise capital for its projects, including share-based payments during certain quarters. No additional funds are required for the production of tobacco cigarettes destined for sale outside of Canada, as the Company requires a 50% deposit upon receipt of all purchase orders, which covers the cost of production. The 50% balance is paid prior to shipping of the finished products. For any future tobacco cigarette sales in Canada the Company will rely on existing funds to cover the cost of manufacturing and the cost of the required Federal Excise Tax stamps, prior to receiving payment from its Canadian wholesale distributor.

Net loss increased during the three-month period ended July 31, 2020 over the three months April 30, 2020, as a result of an impairment of equipment recorded, offset by a reversal of accrued wages payable recognized during the three months July 31, 2020.

Net loss decreased during the three-month period ended July 31, 2020 over the three months July 31, 2019, as a result of an impairment of goodwill recorded during the three months July 31, 2019.

Net loss decreased during the three-month period ended April 30, 2020 over the three months January 31, 2020, as a result of decreased share-based payments during the three months April 30, 2020.

Net loss decreased during the three-month period ended April 30, 2020 over the three months April 30, 2019, as a result of a decrease in salaries and wages offset by an increase in consulting fees.

Net loss decreased during the three-month period ended January 31, 2020 over the three months January 31, 2019, as a result of decreased share-based payments during the three months January 31, 2020.

Net loss increased during the three-month period ended January 31, 2020 over the three months October 31, 2019, as a result of increased share-based payments during the three months January 31, 2020.

Net loss increased during the three-month period ended October 31, 2019 over the three months October 31, 2018, as a result of increased share-based payments during the three months October 31, 2019.

RESULTS OF OPERATIONS

Operating expenses of \$1,261,468 decreased for the year ended July 31, 2020 as compared to \$2,126,041 in 2019. Significant expenses during the year ended July 31, 2020 were professional fees of \$99,514 (2019 - \$113,497), consulting fees of \$201,466 (2019 - \$121,750), share based payments of \$390,638 (2019 - \$1,137,688), management fees of \$149,700 (2019 - \$388,234), office and administrative of \$116,034 (2019 - \$58,055), depreciation expense of \$248,848 (2019 - \$193,344), and transfer agent and filing fees of \$52,177 (2019 - \$43,745).

During the year ended July 31, 2019, the Company had a general increase in operations from the acquisition of HIMI, which resulted in an increase in many operating expenses, particularly management fees, share based payments and salaries and wages. The Company also recorded an impairment of goodwill of \$11,945,531. The decrease to nil on this was then offset by an increase in consulting fees and office and administrative expenses during the year ended

July 31, 2020.

FOURTH QUARTER - Result of Operations

For the three months ended July 31, 2020, the Company recorded net loss of \$661,839 (\$0.01 loss per share) compared to a net loss of \$12,276,109 (\$0.17 loss per share) for the three months ended July 31, 2019. The loss is mainly comprised of an equipment impairment of \$578,209 (2019 - \$nil), a goodwill impairment of \$nil (2019 - \$11,945,531), amortization expense of \$68,784 (2019 - \$84,346), consulting fees of \$50,266 (2019 - \$75,750), management fees of \$35,550 (2019 - \$278,584), and share-based payments of \$nil (2019 - \$124,693). The larger share-based payments and the impairment of goodwill during 2019 was the result of the acquisition of HIMI during the year ended July 31, 2019.

LIQUIDITY AND CAPITAL RESOURCES

During the year ended July 31, 2020, the Company's working capital decreased from \$303,435 as at July 31, 2019 to working capital of \$180,507 as at July 31, 2020. The decrease was a result of a decrease in cash from \$526,682 on July 31, 2019 to \$239,121 on July 31, 2020, offset by a decrease in current liabilities from \$229,954 at July 31, 2019 to \$93,684 at July 31, 2020.

During the year ended July 31, 2020, net cash used in operations was \$618,440 (2019 - \$1,027,937), net cash used in investing activities was \$120,621 (2019 - provided by \$18,549), and net cash provided by financing activities was \$451,500 (2019 - \$10,000).

Investing activities during the year ended July 31, 2020 related to purchases of equipment and leasehold improvements of \$120,621 in total. Investing activities during the year ended July 31, 2019, was the result of \$18,549 cash acquired upon the acquisition of HIMI.

Financing activities during the year ended July 31, 2020 include receipt of \$475,000 from share issuances and lease repayments of \$23,500. Financing activities during the year ended July 31, 2019 was from receipt of \$10,000 from share issuances.

The Company's entire non-derivative financial liabilities are due within one year.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements and exercise of stock options and warrants, and loans from related parties. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

BUSINESS RISKS

In the normal course of business, the Company is exposed to a variety of risks and uncertainties. In addition to the risks associated with liquidity and capital resources, critical accounting estimates, financial instruments, credit risk and market risk described in this MD&A, the Company is exposed to various operational, technical, financial and regulatory risks and uncertainties, many of which are beyond its control and may significantly affect future results. Operations may be unsuccessful or delayed as a result of competition for products and services, supplies and equipment, mechanical and technical difficulties, the ability to attract and retain employees and contractors on a cost-effective basis, commodity and marketing risk and seasonality.

The Company is exposed to considerable risks and uncertainties including, but not limited to;

- financial risks including access to debt or equity markets which the Company is dependent upon in order to meet obligations and liabilities as they falldue;
- obtaining timely regulatory and license approvals;
- fluctuations in commodity prices;
- adverse factors including climate, geographical and weather conditions and labor disputes;
- timing of future debt and other obligations;
- regulatory legislation and policies, including the fulfilment of contractual minimum work programs, the compliance with which may require significant expenditures and non-compliance with which may result in

fines, penalties, production restrictions, suspensions or revocations of contracts;

- changes to taxation policies, laws and interpretations thereof; and,
- obtaining comprehensive and appropriate insurance coverage at reasonable rates;

CRITICAL ACCOUNTING ESTIMATES AND POLICIES

The preparation of the Company's consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results could differ from these estimates by a material amount. Matters that require management to make significant judgments, estimates and assumptions in determining carrying values include, but are not limited to share-based payments, incremental borrowing rate used to initially measure the right-of-use asset and lease lability, useful life and recovery of long-lived assets, deferred income taxes, going concern and business combinations. Please refer to Note 3 of the Company's consolidated financial statements for a full discussion regarding critical accounting estimates and policies.

CHANGE IN ACCOUNTING POLICY AND NEW ACCOUNTING STANDARDS

Please refer to Note 3 of the Company's consolidated financial statements for changes in accounting policy and new accounting standards.

LEASES

Effective August 1, 2019, the Company adopted IFRS 16 – Leases ("IFRS 16") which replaced IAS 17 – Leases and IFRIC 4 – Determining Whether an Arrangement Contains a Lease. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases. IFRS 16 eliminates the classification of leases as either operating leases or finance leases for a lessee. Instead, all leases are treated in a similar way to finance leases applied in IAS 17. IFRS 16 does not require a lessee to recognize assets and liabilities for short-term leases (i.e. leases of 12 months or less), leases with certain variable lease payments and leases of low-value assets.

The Company applied IFRS 16 using the modified retrospective method, which did not result in material opening adjustment. At inception of a contract, the Company will assess whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company assesses whether the contract involves the use of an identified asset, whether the right to obtain substantially all of the economic benefits from use of the asset during the term of the arrangement exists, and if the Company has the right to direct the use of the asset. The Company has implemented the following accounting policies under the new standard:

The calculated right-of-use ("ROU") asset is initially recorded at cost, which comprises the initial amount of the lease liability and any initial direct costs incurred less any lease payments made at or before the initial adoption date. The ROU is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term. The lease term includes periods covered by an option to extend if the Company's intention is to exercise that option. The ROU asset is periodically reduced by impairment losses, if any, and adjusted for re-measurements of the lease obligation.

The Company incorporates both the lease and non-lease components as part of the total lease payment, as the Company elected not to separate non-lease components. The lease liability is measured at the present value of the expected lease payments over the lease term, discounted at the interest rate implicit in the lease; if the rate cannot be determined, the incremental borrowing rate is used. The liability is increased for the passage of time and payments on the lease are offset against the lease liability. The liability is subsequently re-measured when there is a change in the lease agreement, such as a change in future lease payments or if the Company decides to purchase, extend or terminate the lease option. When the lease liability is re-measured, an adjustment is applied to the carrying value of the ROU asset.

FINANCIAL INSTRUMENTS

Financial instruments are accounted for in accordance with IFRS 9 Financial Instruments: Classification and

Measurement. A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

The Company's financial instruments consist of cash, receivables, accounts payable and accrued liabilities, and wages payable. Receivables are initially recognized when they are originated. All other financial assets and liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

On initial recognition, a financial asset is classified as measured at: amortized cost; fair value through other comprehensive income ("FVOCI") – debt investment; FVOCI - equity investment; or fair value through profit or loss ("FVTPL"). Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Financial assets at amortized cost: These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in the consolidated statement of loss and comprehensive loss. Any gain or loss on derecognizion is recognized in the consolidated statement of loss and comprehensive loss

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. The Company enters into transactions whereby it transfers assets recognized in its consolidated statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition.

Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the consolidated statement of loss and comprehensive loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the consolidated statement of loss and comprehensive loss. Any gain or loss on derecognition is also recognized in the consolidated statement of loss and comprehensive loss.

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in the consolidated statement of loss or comprehensive loss.

Please refer to Note 3 of the Company's consolidated financial statements for a full discussion of accounting for leases and financial instruments.

RISKS

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established the Audit and Risk Management Committee, which is responsible for developing and monitoring the Company's compliance with risk management policies and procedures. The committee reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company,

through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

The Company is exposed to the following risks:

(a) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts. The majority of cash is deposited in bank accounts held with major banks in Canada. As most of the Company's cash is held by one bank there is a concentration of credit risk. This risk is managed by using major banks that are high credit quality financial institutions as determined by rating agencies. The Company's secondary exposure to this risk is on its receivables. The Company also has minimal risk relating to a small amount of refundable sales taxes.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash and similar source.

As at July 31, 2020, the Company's liabilities consisted of accounts payable and accrued liabilities of \$31,998 (2019 – \$29,767) and wages payable of \$53,016 (2019 - \$200,187). The Company's cash was \$239,121 (2019 - \$526,682) at July 31, 2020 and was sufficient to fulfil these liabilities.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements, and loans from related parties. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant funding.

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market price risk is comprised of three types of market price changes: foreign currency exchange rates, interest rates and commodity prices.

(i) Foreign currency exchange risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company's risk to foreign exchange is limited since it holds only Canadian dollars.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not carry significant financial instruments that are exposed to interest rate risk. The amount advanced from a related party which was at a fixed interest rate and was repaid in full within the year (Note 9), In addition, the Company manages interest rate risk by maintaining an investment policy that focuses primarily on preservation of capital and liquidity. Accordingly, the Company is not subjected to interest rate risk.

(iii) Commodity price risk

The Company does not hold any financial instruments that have direct exposure to commodity or other price risks.

OFF-BALANCE SHEET ARRANGEMENTS

Disclosure is required of all off-balance sheet arrangements that are reasonably likely to have a current or future effect on the results of operations or financial condition of the Company. Harrys does not have such off-balance sheet arrangements.

TRANSACTIONS WITH RELATED PARTIES

The Company incurred key management compensation as follows:

Year ended July 31,	2020	2019
Management fees accrued or paid to President and CEO, CFO and directors	\$ 149,700	\$ 386,734
Management fees accrued or paid to former directors	-	1,500
Interest paid to President and CEO	1,338	-
Share-based payments	79,705	655,593
Total fees paid to related parties	\$ 230,743	\$ 1,043,827

During the year ended July 31, 2020, the President and CEO of the Company advanced payments of \$66,884 in total on behalf of the Company towards the leasehold improvement costs. As of July 31, 2020, the Company has fully repaid the amount outstanding plus \$1,338 for interest incurred.

On January 16, 2020, the Company granted 500,000 stock options exercisable at \$0.16 per share for five years after the date of grant to the CFO of the Company. The Company recorded \$79,705 (2019 - \$655,593) in share-based payments related to the grant of these stock options.

On April 1, 2020, the Company entered into an agreement to lease a distribution warehouse facility with a company controlled by the family of the President and CEO of the Company.

Wages Payable

As at July 31, 2020, \$33,794 (2019 - \$148,793) in wages payable is outstanding in relation to transactions with related parties, which are non-interest bearing, unsecured and due on demand.

During the year ended July 31, 2020, the Company reversed wages payable of \$176,596 (2019 – nil) related to management fees incurred previously as it was determined the Company would not be required to pay the amount accrued. As a result, \$29,425 was adjusted to prepaid expense for the associated taxes and deductions previously remitted the government authority that was determined to be overpayment.

CONTROLS AND PROCEDURES

Disclosure controls and procedures ('DC&P') are intended to provide reasonable assurance that information required to be disclosed is recorded, processed, summarized and reported within the time periods specified by securities regulations and that information required to be disclosed is accumulated and communicated to management. Internal controls over financial reporting ('ICFR') are intended to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. TSX Venture listed companies are not required to provide representations in filings relating to the establishment and maintenance of DC&P and ICFR, as defined in Multinational Instrument MI- 52-109. In particular, the CEO and CFO certifying officers do not make any representations relating to the establishment and maintenance of (a) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation, and (b) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial

statements for external purposes in accordance with the issuer's GAAP. The issuer's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in their certificates regarding absence of misrepresentations and fair disclosures of financial information. Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer to design and implement on a cost-effective basis DC&P and ICFR as defined in MI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.
