

# Spearmint Engages Ridgeline to Commence a Work Program on the 'Goose' Gold Project Directly Bordering the New Found Gold Discovery in Newfoundland

Vancouver, British Columbia--(Newsfile Corp. - August 28, 2020) - **Spearmint Resources Inc. (CSE: SPMT) (OTC Pink: SPMTF) (FSE: A2AHL5)** (the "**Company**") is pleased to announce that it has engaged Ridgeline Exploration Services Inc. for a planned work program on the 100% owned 'Goose' Gold Project directly bordering the discovery made by New Found Gold. New Found Gold had recent drill intercepts of 92.9 g/t Au over 19.0m, which was one of the best drill intercepts globally in 2020. Spearmint's 'Goose' Gold Project is the closest property to the New Found Gold discovery (see map). In a recent news release announced on August 17, 2020, New Found Gold has commenced a 100,000-meter drill program on its Queensway project. The Trans-Canada Highway runs just south of the 'Goose' Project providing year-round access. Management cautions that past results or discoveries on properties in proximity to Spearmint may not necessarily be indicative to the presence of mineralization on the Company's properties.

James Nelson, President of Spearmint, stated "We are excited to have engaged Ridgeline for our planned phase one work program on this highly prospective gold project in Newfoundland directly bordering the recent discovery by New Found Gold. The fact that New Found Gold has just commenced a 100,000-meter drill program to build upon its world class discovery demonstrates the tremendous potential of the Central Newfoundland Gold Belt. Spearmint is well-funded for, and plans to be underway with work programs on multiple projects shortly including the Perron-East Gold project in Quebec as well as a drill program on our Clayton Valley lithium project in Nevada. We are also expecting to receive results from the BC Hammernose Gold Project work program in the coming weeks. Spearmint will be very active in September."
