The accompanying notes are an integral part of these condensed interim financial statements.

1. Nature of Operations and Going Concern

Kenna Resources Corp. (the "Company") was incorporated under the provisions of *The Business Corporations Act (Saskatchewan)* on September 25, 2009. On September 4, 2014, the Company completed its continuance to British Columbia under *The Business Corporations Act (British Columbia)*. The Company is in the business of mineral exploration. The Company's head office, principal address and the registered and records office are located at 1162 – 2096 West Broadway, Vancouver, BC V6K 2G8. The Company's shares trade on the TSX Venture Exchange ("TSX-V") under the symbol "KNA".

Going concern

These condensed interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. During the three months ended March 31, 2016, the Company had a net loss from operations of $67,515 and as at March 31, 2016, had a deficit in the amount of $1,150,173. The Company's continuing operations, as intended, are dependent on its ability to continue to raise adequate financing in order to explore and develop resource properties. The outcome of these matters cannot be predicted at this time. There can be no certainty as to the ability of the Company to recover its exploration and evaluation assets or to obtain sufficient financing to continue its operations. Accordingly, there is material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. These financial statements do not reflect any adjustments or other changes that may be required should the Company be unable to continue as a going concern. Such adjustments and changes could be material.

2. Significant Accounting Policies

The condensed interim financial statements were authorized for issue on May 30, 2016 by the directors of the Company.

Statement of compliance

These condensed interim financial statements were prepared using International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including International Accounting Standard 34, Interim Financial Reporting and have been prepared following the same accounting policies as the annual financial statements for the year ended December 31, 2015, but do not include all of the information required for annual financial statements. Accordingly, these condensed interim financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2015, which were prepared in accordance with IFRS as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

(Expressed in Canadian dollars – unaudited)

2. Significant Accounting Policies (continued)

Accounting standards issued but not yet effective

New standard IFRS 9 "Financial Instruments"

This new standard is a partial replacement of IAS 39 "Financial Instruments: Recognition and Measurement". IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted.

The Company has not early adopted this new standard and is currently assessing the impact that this standard will have on its financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

3. Accounts Receivable and Prepaid Expenses

		March 31, 2016		December 31, 2015
GST recoverable	$	8,156	$	5,640

4. Exploration and Evaluation Asset

The components of exploration and evaluation assets are as follows:

		March 31, 2016		December 31, 2015
Acquisition of mineral rights	$	181,418	$	181,418
Geophysical surveys		60,966		60,966
	$	242,384	$	242,384

On March 28, 2012, the Company acquired a 100% interest in the Elizabeth Lake copper, silver and gold project located in northern Saskatchewan (the "Property").

As consideration for the acquisition of the Property, the Company issued 1,000,000 common shares to BEC International Corp. (the "Vendor") with a fair value of $0.12 per share and paid $50,000 in cash consideration to the Vendor. In addition, the Company granted to the Vendor a two percent (2%) royalty on production from the Property, to a maximum amount payable of $5,000,000. A finder's fee was paid to an arm's length party through the issuance of 75,000 common shares of the Company at a price of $0.12 per share. During the year ended December 31, 2012, the Company incurred other acquisition costs of $2,418.

9. Capital Management

The Company’s objective is to maintain a strong capital base so as to have sufficient resources to acquire, explore and develop resource properties. The capital structure of the Company consists of equity and cash and cash equivalents. The Company is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management during the period.

10. Financial Instruments and Risk Management

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

10. Financial Instruments and Risk Management (continued)

Credit risk

Credit risk is the risk of financial loss to the Company if a counter-party to a financial instrument fails to meet its contractual obligations. The Company's maximum exposure to credit loss is the book value of its financial instruments. The Company's cash and cash equivalents is deposited with a major Canadian chartered bank and is held in highly-liquid investments. The Company's receivables consist of taxes receivable, and are therefore not subject to significant credit risk. This risk is minimal as receivables consist primarily of refundable government value added taxes.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. All of the Company's financial liabilities are due within one year. The Company manages liquidity risk through the management of its capital structure. As at March 31, 2016, the Company had a total of $538,316 in cash and cash equivalents.

Foreign exchange risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company is not exposed to foreign exchange risk.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company does not have any interest-bearing debt. The Company's cash and cash equivalent investments are not subject to interest rate risk. This risk is considered to be low.
