

**MANAGEMENT'S DISCUSSION  
AND  
ANALYSIS**

**Quarter Ending September 30, 2012**

SGX Resources Inc.  
Corporate Office  
646 Erin Street  
Winnipeg, MB. R3G 2V9  
Canada

Date of Report: November 27th, 2012

The following management discussion and analysis of the financial condition and results of operations of SGX Resources Inc. (the “Company”) is prepared and reported as at September 30, 2012 and should be read in conjunction with the Company’s interim financial statements and notes thereto for the quarter ended September 30, 2012. Additional information about the Company has been filed with applicable Canadian securities regulatory authorities and is available at [www.sedar.com](http://www.sedar.com).

The information provided herein is given as of November 27<sup>th</sup>, 2012 unless otherwise indicated.

## **FORWARD LOOKING STATEMENT**

This management discussion and analysis contains “forward-looking statements” which reflect management’s expectations regarding the Company’s future growth, results of operations, performance and business prospects and opportunities. Such forward-looking statements may include, but are not limited to, statements with respect to the future financial or operating performance of the Company and its projects, the future price of gold or other metal prices, capital, operating and exploration expenditures, costs and timing of the development of new deposits, costs and timing of future exploration, requirements for additional capital, government regulation of mining operations, environmental risks, reclamation expenses, title disputes or claims, limitations of insurance coverage and the timing and possible outcome of regulatory matters. Often, but not always, forward-looking statements can be identified by the use of words such as “plans”, “expects”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “believes” or variations (including negative variations) of such words and phrases, or statements that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others: general business, economic, competitive, political and social uncertainties; the actual results of current exploration activities; conclusions of economic evaluations; fluctuations in currency exchange rates; changes in project parameters as plans continue to be refined; changes in labour costs; future prices of gold or other metal prices; possible variations of mineral grade; accidents, hazards, cave-ins, pit-wall failures, flooding, rock bursts and other acts of God or unfavourable operating conditions and losses, insurrection or war; delays in obtaining governmental approvals or financing or in the completion of development or construction activities; and actual results of reclamation activities. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are made as of the date of this management discussion and analysis and the Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.

## OVERVIEW OF THE BUSINESS

The Company was incorporated under the Canada Business Corporations Act on December 5, 2008. The Company did not commence active business operations until it acquired an interest in certain option agreements from San Gold Corporation (“San Gold”) on December 4, 2009. The current business of the Company is exploration and development of its mineral properties.

## OVERALL PERFORMANCE

On January 13, 2011, the Company entered into an option agreement (the “Option Agreement”) with each of Kimberly M. Cunnsion, Douglas J. Londry, Dale R. Pyke and Bruce N. Raine (collectively, the “Optionors”). Pursuant to the Option Agreement, the Optionors have provided SGX with an option to acquire a 100% undivided interest in 2 mineral claims (the “Properties”) held by the Optionors in Tisdale Township in the Timmins, Ontario area. Pursuant to the terms of the Option Agreement, SGX has the option to earn a 100% undivided interest in the Properties by making the following aggregate cash payments and issuing the following aggregate number of common shares of SGX (“Common Shares”) to the Optionors: (i) \$20,000 cash and 100,000 common shares on or before the date that is two years following the date that approval for the Option agreement is received from the TSX Venture Exchange (the “Approval Date”); (ii) \$40,000 cash on or before the third anniversary of the Approval Date; (iii) \$60,000 cash on or before the fourth anniversary of the Approval Date; and (iv) \$80,000 cash and 100,000 Common Shares on or before the fifth anniversary of the Approval Date. SGX is also required to undertake at least 1,000 metres of diamond drilling on the Property on or before the second anniversary of the Approval Date, with at least 300 metres being drilled within 6 months of the Approval Date. In addition, SGX must perform at least \$500,000 in exploration expenditures, including the cost of the diamond drilling, on or before the fifth anniversary of the Approval Date. Upon transfer of the 100% undivided interest in the Properties from the Optionors to SGX, the Optionors shall be entitled to an aggregate 3% net smelter return royalty on the Properties. At such time, SGX shall be entitled to purchase 2% of such net smelter royalty for \$1,000,000. If SGX does not purchase 2% of the net smelter royalty, then the net smelter royalty in favour of the Optionors shall automatically increase to 5%.

On September 8, 2011, the Company entered into an option agreement (the Option Agreement) with Caroline Creighton and Charles Creighton (collectively, the “Optionors”). Pursuant to the Option Agreement, the Optionors have provided the Optionees with an option to acquire a 100% undivided interest in one mineral claim (the “Property”) held by the Optionors in Tully Township in the Timmins, Ontario area. To maintain the Option in good standing and earn a 100% undivided recorded and beneficial interest in the Property, the Optionees must: within 30 days of the effective date: make the following cash payments and issue the following common shares of SGX (“SGX Shares”) to the Optionors as follows: \$20,000 to each of Caroline and Charles; and 20,000 SGX Shares to each of Caroline and Charles; on or before the date that is one year from the Effective Date and complete a minimum of \$250,000 in exploration expenditures on the Property; make the following cash payments and issue the following SGX Shares to the Optionors as follows: \$30,000 to each of Caroline and Charles; and 30,000 SGX Shares to each of Caroline and Charles; on or before the date that is two years from the Effective Date and complete a minimum of an additional \$400,000 in exploration expenditures on the Property; make the following cash payments and issue the following SGX Shares to the Optionors as follows: \$50,000 to each of Caroline and Charles; and 75,000 SGX Shares to each of Caroline and Charles; on or before the date that is three years from the Effective Date and complete a minimum of an additional \$500,000 in exploration expenditures on the Property.

## SGX Resources Inc. Management Discussion & Analysis

---

On December 21, 2011, the Company had completed the acquisition of five mineral claims (the “Salo Mineral Claims”) located in the Porcupine Mining Division, District of Cochrane, Ontario from Randall Salo (“Salo”). The consideration paid by SGX to Salo for the Salo Mineral Claims is 100,000 common shares of SGX and \$10,000 in cash. The Salo Mineral Claims are also subject to a 2% net smelter royalty in favor of Salo.

On December 21, 2011, the Company had completed the acquisition of four mineral claims (the “Bremner Mineral Claims”) located in Sothman Township in the Porcupine Mining Division, District of Cochrane, Ontario from Daryl Bremner (“Bremner”). The consideration paid by SGX to Bremner for the Bremner Mineral Claims is 120,000 common shares of SGX and \$2,000 in cash. The Bremner Mineral Claims are also subject to a 2% net smelter royalty in favor of Bremner.

As at April 10, 2012 the Company has completed the acquisition of three mineral claims (the “Mineral Claims”) located in Hutt Township and Halliday Township in the Porcupine Mining Division, District of Cochrane, Ontario from Yvan Verroneau (“Verroneau”). The consideration paid by SGX to Verroneau for the Mineral Claims consisted of 17,778 common shares of SGX.

As at April 18, 2012 the Company announces that San Gold and SGX have completed their previously announced sale by San Gold to SGX of all of the interests of San Gold in its mineral properties in Tisdale Township, in the Timmins, Ontario mining camp (the “Transaction”). The consideration paid by SGX to San Gold was 8,060,000 common shares of SGX (“SGX Shares”) at a deemed price of \$0.50 per SGX Share. These shares represent approximately 7.26% of the current issued and outstanding SGX Shares. The Transaction was completed pursuant to a purchase agreement between San Gold and SGX dated as of the date hereof. The Tisdale Township properties consist of a 31.5% ownership in 12 mineral claims known as the “Davidson-Tisdale Property” and a 100% interest in 13 mineral claims known as the “North Tisdale Property” as well as certain surface rights (collectively, the “Properties”). The remaining 68.5% of the Davidson-Tisdale Property is owned by Lexam VG Gold Inc. Laurion Mineral Exploration Inc. retains a 2% net smelter returns royalty on the North Tisdale Property, which is now an obligation of SGX.

As at June 1, 2012 the Company has entered into an option agreement (the “Option Agreement”) with James E. Croxall (the “Optionor”) dated as of June 1, 2012 (the “Effective Date”). Pursuant to the Option Agreement, the Optionor has provided SGX with an option to acquire a 100% undivided interest in seven mineral claims (the “Properties”) held by the Optionor in Zavitz Township, Porcupine Mining District in the Timmins, Ontario area. Pursuant to the terms of the Option Agreement, SGX has the option to earn a 100% undivided interest in the Properties by making the following aggregate cash payments and issuing the following aggregate numbers of common shares of SGX (“Common Shares”) to the Optionor: (i) \$10,000 cash and 30,000 Common Shares on the date of execution of the Option Agreement, which has been done; (ii) \$15,000 cash and 30,000 common shares on or before the date that is one year following the Effective Date; (iii) \$25,000 cash and 40,000 Common Shares on or before the second anniversary of the Effective Date; and (iv) \$50,000 cash and 150,000 Common Shares on or before the third anniversary of the Effective Date. In addition, SGX must incur at least \$200,000 in exploration expenditures on the Properties on or before the third anniversary of the Effective Date. Upon transfer of a 100% undivided interest in the Properties from the Optionor to SGX, the Optionor shall be entitled to an aggregate 2% net smelter returns royalty on the Properties. SGX shall be entitled to purchase half

# SGX Resources Inc. Management Discussion & Analysis

---

of such royalty (1%) from the Optionor for \$1,000,000 in cash, subject to an adjustment based on the change in the Consumer Price Index from the Effective Date until the time of such purchase.

As at July 9, 2012 – Dale Ginn, President and CEO of SGX Resources Inc., was pleased to announce that SGX has entered into an option agreement with each of Randall Salo, Michael Tremblay and Jacques Robert dated as of today. Pursuant to the Option Agreement, the Optionors have provided SGX with an option to acquire a 100% undivided interest in eight mineral claims held by the Optionors in Zavitz Township and Hincks Township in the Porcupine and Larder Lake Mining Districts in the Timmins, Ontario area.

August 21, 2012 – Dale Ginn, President and CEO of SGX Resources Inc. (“SGX”), was pleased to announce that SGX has entered into an option agreement (the “Option Agreement”) with each of Shoreacres Explorations Ltd., 2090720 Ontario Inc. and 2229667 Ontario Inc. (collectively, the “Optionors”) dated as of today. Pursuant to the Option Agreement, the Optionors have provided SGX with an option to acquire a 100% undivided interest in eight leased mineral claims (the “Properties”) held by the Optionors in Grenfell Township in the Larder Lake Mining District in the Kirkland Lake, Ontario area.

Pursuant to the terms of the Option Agreement, SGX has the option to earn a 100% undivided interest in the Properties by making the following aggregate cash payments and issuing the following aggregate numbers of common shares of SGX (“Common Shares”) to the Optionors: (i) \$25,000 cash and 100,000 Common Shares on or about the date that the TSX Venture Exchange accepts the terms of the Option Agreement (the “Effective Date”); (ii) \$25,000 cash and 100,000 common shares on or before the first anniversary of the Effective Date; (iii) \$25,000 cash and 100,000 Common Shares on or before the second anniversary of the Effective Date; (iv) \$37,500 cash and 150,000 Common Shares on or before the third anniversary of the Effective Date; and (v) \$62,500 cash and 250,000 Common Shares on or before the fourth anniversary of the Effective Date. There is no specific work commitment required by SGX pursuant to the Option Agreement.

Upon transfer of a 100% undivided interest in the Properties from the Optionors to SGX, the Optionors shall be entitled to an aggregate 1% net smelter returns royalty on the Properties.

This is in addition to the existing 2% net smelter returns royalty on the Property. SGX shall be entitled to purchase half of such royalty (1%) from the holder for \$1,000,000 in cash.

A summary of the obligations of the Company pursuant to all of its option agreements, including the cash payments, share issuances and work commitments required pursuant to such option agreements is contained in the interim financial statement of the Company for the quarter ended September 30, 2012.

During the quarter ended September 30, 2012, the Company undertook significant exploration work on certain of its properties. All of the properties of the Company are located in and around the Timmins, Ontario area. A summary of the properties of the Company and the exploration activities of the Company on such properties during the quarter is set forth below.

## **THE BIG MARSH PROPERTY (Bristol-Carscallen)**

The Big Marsh Property consists of 10 claims or 90 units in the east central part of Carscallen Township extending from Big Marsh Lake to the eastern boundary of the Carscallen Township, the total area being 1,440 hectares. All of the claims are contiguous, forming a relatively equidimensional block approximately 4.0 kilometres wide. The Big Marsh Property is located approximately 25km to the west-southwest of the core of Timmins, Ontario.

# SGX Resources Inc. Management Discussion & Analysis

## RESULTS OF OPERATIONS FOR THE QUARTER ENDED SEPTEMBER 30, 2012

It is the intention of the Company to continue the substantial exploration program on certain of its mineral properties in 2012, as set forth in the technical report with respect to the Properties entitled “Technical Report on the Timmins Area Properties for SGX Resources Inc.” Dated January 15, 2010 prepared by John R. Boissoneault, B.Sc, P.Eng. available on SEDAR at [www.sedar.com](http://www.sedar.com). The Company will also undertake exploration of its other properties not covered by this report. The Company also intends to acquire additional mineral properties in the Timmins, Ontario area.

The Company undertook significant exploration activities during the quarter ended September 30, 2012. As the Company is in the exploration phase and its properties are in the early stage of exploration, none of its properties are in production. Therefore, mineral exploration expenditures are not capitalized and losses are incurred as a result of exploration expenditures and administrative expenses relating to the operation of the Company’s business. Consequently the Company’s net income is not a meaning full indicator of its performance of potential. The key performance driver for the Company is the acquisition, exploration, and development of prospective mineral properties. By acquiring and exploring projects of superior technical merit, the Company increases the probability of finding and developing economic mineral deposits.

At this time the Company is not anticipating profit from operations in the near future. Until such time as the Company is able to realize profits from the production and marketing of commodities from its properties, the Company will report a deficit and will rely on its ability to obtain equity or debt financing to fund ongoing operations. Additional financing is required for new exploration and promotional initiatives. Due to the nature of the junior mineral exploration industry, the Company will have a continuous need to secure additional funds through the issuance of equity or debt in order to support its corporate and exploration activities, as well as its obligations relating to its properties.

During the three months ending September 30, 2012, the Company incurred exploration expenditures of \$2,774,168 on its properties. A summary of the exploration activities of the Company is set forth above under “Overall Performance”.

During the three months ended September 30, 2012, the Company incurred general and administrative expenditures of \$1,255,953. The general and administrative expenses incurred by the Company primarily related to share based compensation, professional fees, fees to the Exchange and general office and administration expenses. The Company had no income from business operations for the quarter ended for September 30, 2012.

## SUMMARY OF RESULTS

The following are the results for the three months ended September 30, 2012 and 2011;

	Sept. 30, 2012	Sept.30, 2011	Year-to-Date Sept. 30, 2012	Year-to-Date Sept.30, 2011
<b>Exploration Expenses</b>	\$2,774,168	\$1,076,301	\$5,974,480	\$3,677,595
<b>General &amp; Admin. Expenses</b>	\$1,255,953	\$668,657	\$1,991,768	\$1,020,360
<b>Mining claims</b>	\$0.00	\$49,750	\$0.00	\$286,000

# SGX Resources Inc. Management Discussion & Analysis

	Sept. 30, 2012	Sept. 30, 2011	Year-to-Date Sept. 30, 2012	Year-to-Date Sept.30, 2011
<b>Net income (loss)</b>	\$3,728,764	\$2,536,000	\$7,384,029	\$5,430,768
<b>Basic income (loss) per share</b>	(0.03)	(0.04)	(0.07)	(0.09)
<b>Diluted income (loss) per share</b>	(0.03)	(0.04)	(0.07)	(0.09)

The loss incurred by the Company in the three months ended September 30, 2012 is primarily due to the Company incurring exploration expenditures on its properties and general and administrative expenses.

The financial data of the Company has been prepared in accordance with International Financial Reporting Standards and is stated in Canadian dollars.

## LIQUIDITY AND SOLVENCY

The Company is in the exploration stage and therefore has no regular cash inflows. As at September 30, 2012, the Company had working capital of \$3,952,906.

The pace of development of its properties will determine how quickly the Company expends its working capital and how long it will take before the Company requires additional working capital. The ability of the Company to access new working capital through additional financings could be adversely affected by many factors including a downturn in mineral prices, a general economic downturn, poor results from exploration programs on its properties and a variety of other factors.

## RISK FACTORS

The business of the Company is subject to a number of risks and uncertainties that may impact the business of the Company. A summary of the risk factors that may affect the Company is set forth below.

## COMPETITION FOR MINERAL DEPOSITS

The mineral exploration and mining industry is competitive in all phases of exploration, development and production. The Company competes with a number of other entities and individuals in the exploration of search for and the acquisition of attractive mineral properties. As a result of this competition, much of which is with entities with greater financial resources than the Company, the Company may not be able to obtain funding for its exploration projects, obtain and maintain the necessary resources to carry out such exploration or acquire attractive properties in the future on terms it considers acceptable. The Company competes with other resource companies, many of whom have greater financial resources and/or more advanced properties that are better able to attract equity investment and other capital.

## RESOURCE EXPLORATION AND DEVELOPMENT INVOLVES A HIGH DEGREE OF RISK

Resource exploration and development is a speculative business and involves a high degree of risk. There is no known body of commercial ore on any of the properties of the Company. There is no certainty that any expenditure made by the Company in the exploration of any of its properties or otherwise will result in discoveries of commercial quantities of minerals. The marketability of natural resources which may be acquired or discovered by the Company will be affected by numerous factors beyond the control of the Company.

## **LAG TIME BETWEEN DISCOVERY AND PRODUCTION OF MINERAL RESOURCES**

The Company is unable to predict the amount of time which may elapse between the date when any new mineral resource may be discovered and the date when production, if any, will commence from any such discovery.

## **INFRASTRUCTURE REQUIREMENTS**

Exploration and development of mineral properties depend, to one degree or another, on adequate infrastructure. Reliable roads, bridges, power sources and water supply are important determinants which affect capital and operating costs. Unusual or infrequent weather phenomena, terrorism, sabotage, government or other interference in the maintenance or provision of such infrastructure could adversely affect the Company's operations, financial conditions and results of operations.

## **TITLE TO THE COMPANY'S PROPERTIES OR INTEREST MAY BE DISPUTED**

Title to and the area of resource concessions may be disputed. There is no guarantee of title to any of the Company's properties. The properties may be subject to prior unregistered agreements or transfers and title may be affected by undetected defects.

## **SURFACE ACCESS RIGHTS**

The Company does not have surface access rights to all of its mineral properties and will be required to obtain all necessary permits prior to carrying out any exploration activities on certain of its properties. According, the Company may be unable to access certain of its properties and related mineral exploration claims to carry out its proposed exploration activities.

## **ABORIGINAL LAND CLAIMS AND ABORIGINAL RIGHTS**

The mineral properties of the Company may in the future be the subject of aboriginal peoples' land claims or aboriginal rights claims. The legal basis of an aboriginal land claim and aboriginal rights is a matter of considerable legal complexity and the impact of the assertion of such a claim, or the possible effect of a settlement of such claim upon the Company cannot be predicted with any degree of certainty at this time.

## **ADDITIONAL FUNDS FOR FUTURE EXPLORATION AND DEVELOPMENT, DILUTION**

As a mineral exploration company, the Company does not generate cash flow from its activities and it must rely primarily on issuances of its securities or the borrowing of funds to finance its operations. The exploration and development of its properties will require substantial funds beyond those it has and there is no assurance that such additional funds will be available to the Company on commercially reasonable terms or in sufficient amounts to allow the Company to continue to pursue its objectives. The inability of the Company to raise further funds whether through additional equity issuances or by other means, could result in delays or the indefinite postponement of planned exploration and/or development activities or, in certain circumstances, the loss of some or all of its property interests or cessation of all mineral exploration and/or development activities.

## **RISKS ASSOCIATED WITH THE COMPANY'S ACTIVITIES MAY NOT BE ISURABLE**

The Company's business is subject to a number of risks and hazards and no assurance can be given that insurance will cover the risks to which the Company's activities will be subject or will be available at all or at commercially reasonable premiums.

## **THE COMPANY HAS NO HISTORY OF OPERATIONS, EARNINGS OR DIVIDENDS**

The Company was incorporated on December 5, 2008 and has no history of earnings or of a return on investment, and there is no assurance that it will generate earnings, operate profitably or provide a return on investment in the future. The Company has no plans to pay dividends.

## **STATUTORY AND REGULATORY COMPLIANCE IS COMPLEX AND MAY RESULT IN DELAY OR CURTAILMENT OF THE COMPANY'S OPERATIONS**

The current and future operations of the Company and any parties which may carry out exploration, development and mining activities on properties in which the Company holds an interest will be governed by laws and regulations governing mineral concession acquisition, prospecting, development, mining, production, exports, taxes, labour standards, occupational health, waste disposal, toxic substances, land use, environmental protection, mine safety and other matters. Companies engaged in exploration activities often experience increased costs and delays in production and other schedules as a result of the need to comply with applicable laws, regulations and permits. The Company will apply for all necessary permits for the exploration work it intends to conduct, however such permits are, as a practical matter, subject to the discretion of government authorities and there can be no assurance that the Company will be successful in obtaining or maintaining such permits.

## **THE COMPANY DEPENDS ON KEY MANAGEMENT AND EMPLOYEES**

Recruiting and retaining qualified personnel is critical to the Company's success. The number of persons skilled in acquisition, exploration and development of mining properties is limited and competition for such persons is intense. As the Company's business activity grows, the Company will require additional key financial, administrative and mining personnel as well as additional operations staff. There can be no assurance that the Company will be successful in attracting, training and retaining qualified personnel.

## **SHORTAGE OF SUPPLIES**

The Company may be adversely affected by shortages of critical supplies or equipment required to operate the business of the Company. Any shortage of critical supplies or equipment will affect the timeliness of the development of the Company and its business.

## **ESTIMATES OF MINERAL RESOURCES**

There are numerous uncertainties inherent in estimating ore reserves and mineral resources. The accuracy of any reserve or resource estimate is a function of the quantity and quality of available data and of the assumptions made and judgments used in engineering and geological interpretation. Fluctuations in precious or base metal prices, results of drilling or metallurgical testing, subsequent to the date of any estimate may require revision of such estimate. In addition, there can be no assurance that precious or base metal recoveries in small scale laboratory tests will be duplicated in larger scale tests under on-site conditions or during production.

## ENVIRONMENTAL FACTORS

All phases of the Company's operations are subject to environmental regulation in the jurisdictions in which it operates. Environmental legislation is evolving in a manner which will require stricter standards and enforcement, increased fines and penalties for non-compliance, more stringent environmental assessments of proposed projects and a heightened degree of responsibility for companies and their officers, directors and employees. There is no assurance that future changes in environmental regulation, if any, will not adversely affect the Company's operations. The Company's operations are subject to environmental regulations promulgated by various government agencies from time to time. Violation of existing or future environmental rules may result in various fines and penalties.

## CONFLICT OF INTEREST

Certain directors and officers of the Company are also directors, officers or shareholders of other companies that are similarly engaged in the business of acquiring, developing, and exploiting natural resource properties. In particular, many of the directors and officers of the Company are also directors and/or officers of San Gold. Such associations may give rise to conflicts of interest from time to time, including with respect to the obligations of the Company and San Gold pursuant to the Option Purchase Agreement. The directors of the Company are required by law to act honestly and in good faith with a view to the best interests of the Company and to disclose any interest which they may have in any project or opportunity of the Company.

## CAPITAL RESOURCES

As at September 30, 2012, the Company had the following commitments for capital expenditures:

<b>CAPITAL EXPENDITURE</b>	<b>AMOUNT</b>	<b>TIME FRAME</b>
To pay for the planned Phase 2 Exploration Program on certain Properties	\$1,500,000	3 months
To make the cash payments pursuant to its option agreements	\$812,000	3 Years
<b>TOTAL</b>	<b>\$2,312,000</b>	

## OFF BALANCE SHEET ARRANGEMENTS

There is no off-balance sheet arrangements to which the Company is committed.

## TRANSACTIONS WITH RELATED PARTIES

Included in accounts payable is \$192,987 (December 31, 2011 - \$90,158) payable to San Gold Corporation for the issue of share capital by San Gold Corporation to meet certain mining claim commitments net of costs incurred by the Company on behalf of San Gold Corporation. The Company also purchased \$4,030,000 of mining claims from San Gold Corporation during the nine months ended September 30, 2012. San Gold Corporation owns approximately 33% (December 31, 2011 - 34%) of the common shares of the Company and exerts significant influence over the Company.

# SGX Resources Inc. Management Discussion & Analysis

---

The Company paid \$16,612 to a spouse of key management for services during the nine months ended September 30, 2012 (September 30, 2012 - \$nil).

The Company purchased \$10,505 of promotional merchandise from IceTime Sports Inc. during the nine months ended September 30, 2012 (September 30, 2011 - \$nil). IceTime Sports Inc. is a related party as a director exerts significant influence over the entity.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the group, directly and indirectly, include any director (whether executive or otherwise) of the Company. Total salaries and other short-term compensation expense to key management and directors for the three and nine months ended September 30, 2012 was \$751,489 and \$1,142,028 (September 30, 2011 - \$440,394 and \$480,147) respectively.

## **FUTURE CHANGES TO SIGNIFICANT ACCOUNTING POLICIES**

The following new or amended standards have been issued by the IASB:

- IFRS 9 – replaces IAS 39 – Financial Instruments: Recognition and Measurement, retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets; amortized cost and fair value, effective for annual periods beginning on or after January 1, 2013 with earlier application permitted.
- IFRS 10 – Consolidated Financial Statements – replaces IAS 27 Consolidated and Separate Financial Statements and SIC-12 Consolidation – Special Purpose Entities, provides a single consolidation model that identifies control as the basis for consolidation for all types of entities, effective for annual periods beginning on or after January 1, 2013 with earlier application permitted.
- IFRS 11 – Joint Arrangements – supersedes IAS 31 Interests in Joint Ventures and SIC-13 – Jointly Controlled Entities-Non-monetary Contributions by Venturers, established principles for the financial reporting by parties to a joint arrangement, effective for annual periods beginning on or after January 1, 2013 with earlier application permitted.
- IFRS 12 – Disclosure of Interests in Other Entities – combines, enhances and replaces the disclosure requirements for subsidiaries, joint arrangement, associates and unconsolidated structured entities, effective for annual periods beginning on or after January 1, 2013 with earlier application permitted.
- In conjunction with IFRS 10, IFRS 11 and IFRS 12, the IASB also issued amended and retitled IAS 27 – Separate Financial Statements and IAS 28 – Investments in Associates and Joint Ventures, effective for annual periods beginning on or after January 1, 2013 with earlier application permitted.
- IFRS 13 – Fair Value Measurement – defines fair value, set out in a single IFRS a framework for measuring fair value and requires disclosure about fair value measurements, effective for annual periods beginning on or after January 1, 2013 with earlier application permitted.

The Company is currently evaluating the impact of these standards on its financial statements.

# SGX Resources Inc. Management Discussion & Analysis

## FINANCIAL INSTRUMENTS

Financial instruments of the Company consist mainly of cash, short term investments, GST/HST receivable, and accounts payable. It is management's option that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments and that the fair value of these financial instruments approximates their carrying values.

## ADDITIONAL DISCLOSURE FOR VENTURE ISSUERS WITHOUT SIGNIFICANT REVENUE

As the Company has had no significant revenue from operations since inception (December 5, 2008), the following is a breakdown of the material costs incurred by the Company:

	<b>Three months Ended September 30, 2012</b>	<b>Nine months Ended September 30, 2012</b>
Exploration and Development Costs	\$2,774,168	\$5,974,480
General and Administrative Expenses	\$1,255,953	\$1,991,768
Share based compensation (included in general and administrative)	\$823,000	\$823,000

Share capital, end of period	112,072,969	\$219,301	79,439,736	\$11,875,720

## **SUBSEQUENT EVENTS:**

On November 22, 2012 the Company entered into an agreement with Primary Capital Inc. and M Partners Inc. (the “Agents”) under which the Agents have agreed to sell, on a private placement basis, flow-through units of the Company at a price of \$0.35 per flow-through unit for gross proceeds of \$5.0 million. Each flow-through unit consists of one flow-through common share and one-half of one non-flow-through common share purchase warrant of the Company with each whole flow-through warrant exercisable into one common share at a price of \$0.45 for a period of 24 months following the closing. The gross proceeds from the sale of the flow-through units shall be used for Canadian exploration expenses. Closing of the offering is scheduled to occur on or about December 6, 2012. All securities issued will be subject to a four-month hold period. The offering is subject to a number of conditions, including, without limitation, receipt of all regulatory approvals.
