Notes to the Interim Condensed Financial Statements For the three months ended March 31, 2014 and 2013 (unaudited)

1. Organization:

SGX Resources Inc. (the "Company") was incorporated under the Canada Business Corporations Act on December 5, 2008. The Company acquires, explores, and develops mineral properties in the Timmins region of Ontario, Canada.

The Company's corporate head office is located at 646 Erin Street, Winnipeg, Manitoba, R3G 2V9. The registered office of the Company is Aikins, MacAulay & Thorvaldson LLP, 30th Floor, 360 Main Street, Winnipeg, MB R3C 4G1. The Company is listed on the TSX Venture Exchange. The Company's common shares trade under the symbol "SXR".

For the three month period ended March 31, 2014, the Company had a loss of \$321,299 (2013 - \$2,696,417) and, as of that date, the Company's current liabilities exceed its current assets by \$1,095,941 (December 31, 2013 - \$774,712) and the Company has a deficit of \$24,417,771 (December 31, 2013 - \$26,801,910). In addition to ongoing working capital requirements, the Company may be required to secure sufficient funding for exploration and development programs, general and administration costs. Although management may have been successful in the past in undertaking financing, there can be no assurance that management will be able to do so in the future on terms acceptable to the Company.

These financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize assets and discharge liabilities in the normal course of operations for the foreseeable future. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported revenues and expenses, and statement of financial position classifications that may be necessary were the going concern assumption inappropriate. These adjustments could be material.

The Company's interim condensed financial statements for the three months ended March 31, 2014, were authorized for issue by the Board of Directors on May 28, 2014, after which date the interim condensed financial statements may only be amended with Board of Directors approval.

2. Summary of significant accounting policies:

a) Basis of presentation:

These interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. Accordingly, certain disclosures included in the annual financial statements prepared in accordance with IFRS as issued by the IASB have been condensed or omitted and these interim financial statements should be read in conjunction with the Company's audited annual financial statements for the year ended December 31, 2013. The accounting policies applied in preparation of these interim financial statements are consistent with those applied and disclosed in the Company's audited annual financial statements for the year ended December 31, 2013.

These interim financial statements are presented in Canadian dollars, which is also the Company's functional currency as it is the currency of the primary economic environment in which the transactions are undertaken. All reference to dollars (\$) are to Canadian dollars unless otherwise noted. The financial statements have been prepared on a historical cost basis.

Notes to the Interim Condensed Financial Statements For the three months ended March 31, 2014 and 2013 (unaudited)

2. Summary of significant accounting policies (continued):

b) Accounting estimates

The preparation of interim financial statements in conformity with IFRS requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the interim financial statements and the reported amounts of revenues and expenses during the reporting period. The critical accounting estimates and judgments applied in the preparation of the Company's interim financial statements are consistent with those applied and disclosed in the Company's audited annual financial statements for the year ended December 31, 2013.

c) Recent accounting pronouncements

Effective January 1, 2014, the Company adopted IFRIC 21, "Levies" (IFRIC 21), sets out the accounting for an obligation to pay a levy that is not income tax. The interpretation addresses what the obligating event is that gives rise to pay a levy and when a liability should be recognized. The adoption of IFRIC 21 did not have an impact on the Company's financial statements.

IFRS 9 - replaces IAS 39 - Financial Instruments: Recognition and Measurement, retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. In February 2014, the IASB tentatively determined that the revised effective date for IFRS 9 would be January 1, 2018. The Company is currently evaluating the impact of this standard on its financial statements.

3. Mining claims:

Partner	Location	Agreement entered	March 31, 2014 Carrying Value	Commitment for option
Bristol- Carscallen Claims	Timmins, Ontario 15 claims	May 2008	\$845,300 (December 31, 2013 - \$845,300) 2% net smelter return with the right to buy back 1% for \$1,000,000	As at March 31, 2014 commitments were met.

Mining claims	(1,637,100)	(1,637,100)
Deferred income tax asset	3,065,800	2,981,700
Valuation allowance	(3,065,800)	(2,981,700)
Deferred income tax asset, end of period	\$ -	\$ -

The Company has non-capital loss carry forward amounts available for income tax purposes of \$6,423,000 that expire \$9,000 in 2028, \$116,000 in 2029, \$593,000 in 2030, \$1,890,000 in 2031, \$1,909,000 in 2032, \$1,550,000 in 2033 and \$356,000 in 2034. The Company has \$10,221,000 (December 31, 2013 - \$10,160,500) of unused cumulative Canadian exploration and development costs available to offset future taxable income. The tax benefits pertaining to these expenses are available for carry forward indefinitely.

Notes to the Interim Condensed Financial Statements For the three months ended March 31, 2014 and 2013 (unaudited)

9. Advances to related party, due to related parties and related party transactions:

Advances to related party are to Wynne Drilling Ltd., a company controlled by a director. The advances are non-interest bearing, unsecured and have no set terms of repayment. Subsequent to quarter-end this amount was repaid.

Due to related parties includes \$1,088,102 (December 31, 2013 - \$1,088,102) due to San Gold Corporation for the issue of share capital by San Gold Corporation to meet certain mining claim commitments as well as exploration expenditures incurred on behalf of the Company. San Gold Corporation owns approximately 29% (December 31, 2013 - 29%) of the common shares of the Company and exerts significant influence over the Company. Also included in due to related parties is \$21,000 (December 31, 2013 - \$21,000) payable to a director for director fees.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the group, directly and indirectly, include any director (whether executive or otherwise) of the Company. Total salaries and other short-term compensation expense for the three months ended March 31, 2014 is \$104,251 (2013 - \$139,749).

The Company paid \$7,663 to a spouse of a member of key management for services during the three months ended March 31, 2014 (2013 - \$17,243).

The Company purchased \$5,259 of promotional merchandise from IceTime Sports Inc. during the three months ended March 31, 2014 (2013 - \$nil). IceTime Sports Inc. is a related party as a director of the Company exerts significant influence over IceTime Sports Inc.

10. Commitments:

The Company has entered into lease commitments for equipment and premises with minimum lease payments as follows:

2014	19,308
2015	14,522
2016	1,661

11. Capital management:

The Company's total capital of \$5,081,779 (December 31, 2013 - \$5,403,008) consists of \$27,192,486 (December 31, 2013 - \$27,192,486) of share capital, \$2,307,064 (December 31, 2013 - \$5,012,432) of contributed surplus and an offsetting deficit of \$24,417,771 (December 31, 2013 - \$26,801,910).

The Company's objectives when managing capital, which consists of shareholders' equity, are to safeguard its ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company sets the amount of capital in proportion to risk. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the

Notes to the Interim Condensed Financial Statements For the three months ended March 31, 2014 and 2013 (unaudited)

11. Capital management (continued):

Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

The Company monitors capital from time-to-time using a variety of measures. Monitoring procedures are typically performed as a part of the overall management of the Company's operations. The Company's strategy during the period, which was unchanged from the prior period, was to maintain its ability to secure access to financing at a reasonable cost. The requirements and terms of sources of capital cannot be predicted and change in ways the Company cannot predict.

12. Risk management and fair values:

Management's risk management policies are typically performed as a part of the overall management of the Company's operations. Management is aware of risks related to these objectives through direct personal involvement with employees and outside parties. In the normal course of its business, the Company is exposed to a number of risks that can affect its operating performance. Management's close involvement in operations helps identify risks and variations from expectations. The Company has not designated transactions as hedging transactions to manage risk. As a part of the overall operation of the Company, management considers the avoidance of undue concentrations of risk. The risks and the actions taken to manage them include the following:

Liquidity risk

Liquidity risk is the risk that the Company cannot meet its financial obligations associated with financial liabilities in full. The Company's main sources of liquidity are its operations and external borrowings. The funds are primarily used to finance working capital and capital expenditure requirements and are adequate to meet the Company's financial obligations associated with financial liabilities. The Company's current liabilities exceed its current assets by \$1,095,941 (December 31, 2013 - \$774,712).

Accounts payable and due to related parties are due within one year.

Credit risk

Credit risk arises from the possibility that debtors may be unable to fulfill their commitments. For a financial asset, this is typically the gross carrying amount, net of any amounts offset and any impairment losses. The Company has credit policies to address credit risk on accounts receivable, which may include the analysis of the financial position of the debtor and review of credit limits. The Company also may review credit history before establishing credit and review credit performance. An allowance for doubtful accounts or other impairment provisions are established based upon factors surrounding credit risk, historical trends and other information.

A financial asset is past due when a debtor has failed to make a payment when contractually due. The Company has no financial assets that are past due and does not have an allowance for doubtful accounts receivable.

Notes to the Interim Condensed Financial Statements For the three months ended March 31, 2014 and 2013 (unaudited)

12. Risk management and fair values (continued):

Currency risk

Currency risk is the risk that changes in foreign exchange rates may have an effect on future cash flows associated with financial instruments. Changes in the applicable exchange rate may result in a decrease or increase in foreign exchange income or expense. The Company only enters into transactions in Canadian dollars and is not exposed to currency risk.

Other price risk

Other price risk is the risk that changes in market prices, including commodity or equity prices, will have an effect on future cash flows associated with financial instruments. Mineral prices are affected by numerous factors such as the sale or purchase by various central banks and financial institutions, interest rates, exchange rates, inflation or deflation, fluctuations in the value of the US dollar and other foreign currencies, global and regional supply and demand, and the political and economic conditions of major gold-producing countries throughout the world.

Fair values

The fair values of the Company's financial assets and liabilities consisting of cash, GST/HST recoverable, advances to related party, accounts payable and due to related parties approximate their recorded values as at March 31, 2014 and December 31, 2013 due to their short-term nature.

Fair value is an estimate of the amount at which items might be exchanged in an arm's length transaction between knowledgeable willing parties who are under no compulsion to act. Fair value should not be interpreted as an amount that could be realized in immediate settlement of the instruments. The estimate of fair value at the end of the periods may not represent fair values at any other date. The determination of fair value is also affected by the use of judgment and by uncertainty.

13. Subsequent events:

Subsequent to March 31, 2014 the Company issued 250,000 common shares to meet certain mining claim commitments.

Subsequent to March 31, 2014 the Company issued 6,351,000 common shares in full payment of \$317,550 owing by the Company to San Gold Corporation. As a result of this transaction, San Gold Corporation now holds approximately 32% of the common shares of the Company.
