1. NATURE OF OPERATIONS AND GOING CONCERN

Arris Holdings Inc. (the "Company" or "AHI") was incorporated on October 30, 2009 in British Columbia, Canada. The company's principal activity was the exploration and development of mineral properties and the Company currently plans to pursue business opportunities in the industrial hemp sector. As a result, the Company's shareholders approved a name change to Global Hemp Group Inc. in the Company's annual general special meeting held on February 7, 2014. As of the date of this report, the changes in principal business and name change are pending regulator's approval (Note 9).

The Company's office is Suite 200 – 8338 120th Street, Surrey, BC, V3W 3N4. The Company's common shares are currently traded on Canadian Securities Exchange under the symbol "AAF", and on Boerse-Frankfurt Exchange under the symbol "ANI".

These condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of operations. The Company's continuation as a going concern is dependent upon its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with debt and or private placements of common shares. Should the Company be unable to continue as a going concern, the net realizable value of its assets may be materially less than the amounts on its statement of financial position.

2. STATEMENT OF COMPLIANCE

These condensed interim financial statements for the first quarter ended December 31, 2013, together with the comparative figures herein have been prepared in accordance with International Accounting Standards ("IAS") 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These condensed interim financial statements do not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that these condensed interim financial statements be read in conjunction with the audited annual financial statements of the Company for the most recent year ended September 30, 2013.

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

These financial statements have been prepared on an accrual basis and are based on historical costs, except for financial instruments measured at their fair value. These condensed interim financial statements are presented in Canadian dollars, unless otherwise noted.

The accompanying condensed consolidated interim financial statements include the accounts of the Company and the Company's wholly owned inactive subsidiary, Global Hemp Group, Inc. (incorporated in Nevada, U.S.A. on December 17, 2013). All intercompany transactions have been eliminated.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Adoption of new accounting standards

During the first quarter ended December 31, 2013, there were no significant changes in the accounting policies that were discussed in Note 3 of the Company's audited annual financial statements for the most recent year ended September 30, 2013 except for the following new standards:

IAS 1 – Presentation of Financial Statements amendment issued by the IASB in June 2011 provides improved consistency and clarity of the presentation of items of other comprehensive income. The main change was a requirement to group items presented in other comprehensive income on the basis of whether they are potentially reclassifiable to profit or loss subsequently.

IFRS 10 – Consolidated Financial Statements supersedes SIC 12 – Consolidation – Special Purpose Entities and the requirements relating to consolidated financial statements in IAS 27 – Consolidated and Separate Financial Statements. IFRS 10 establishes the principle and application of control as the basis for an investor to identify whether an investor controls an investee and thereby requiring consolidation. This standard is effective for annual periods beginning on or after January 1, 2013, with earlier application permitted.

IFRS 11 – Joint Arrangements establishes the principle a joint arrangement is classified as joint operations or joint ventures based on the rights and obligations of the parties to the joint arrangement, rather than its legal form. This standard is effective for annual periods beginning on or after January 1, 2013.

IFRS 12 – Disclosure of Interests in Other Entities requires the disclosure of information that enables users of financial statements to evaluate the nature of, and risks associated with, its interests in other entities and the effects of those interests on its financial position, financial performance and cash flows. This standard is effective for annual periods beginning on or after January 1, 2013.

IFRS 13 – Fair value measurements establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted.

Effective October 1, 2013, the beginning of the Company's fiscal 2014, the Company adopted all of the above standards. The adoption of these standards did not have a material impact on the condensed consolidated interim financial statements.

Accounting standards issued but not yet in effective

IFRIC 21 – Levies, an interpretation of IAS 37 was issued by the IASB in May 2013 and provides interpretation on when to recognize a liability for a levi imposed by a government and clarifies the criteria for the recognition of a liability. IFRIC 21 is effective for annual periods commencing on or after January 1, 2014. The Company is still in the process of assessing the impact of the application of IFRIC 21 on the Company's financial statements.
