## **GLOBAL HEMP GROUP ANNOUNCES JEFF NAGEL AS PRODUCT MANUFACTURING ADVISOR**

Vancouver, BC -- (March 30, 2023) -- GLOBAL HEMP GROUP INC. ("GHG" or the "Company") ([CSE: GHG](#) / [OTC Markets: GBHPF](#) / [FRANKFURT: GHG](#)) is pleased to announce that Jeff Nagel has joined the Company's Advisory Board as its Product Manufacturing Advisor.

Mr. Nagel is a veteran in the natural biologics drug discovery and manufacturing space, with more than 15 years' experience in the industry. He brings with him a wealth of knowledge and expertise that will be invaluable to Global Hemp Group Inc. both as an advisor to the R&D Division in their ongoing development of various hemp-based products and technologies, as well assisting Management in their continuing discussions with various manufacturers and distributors in the sublicensing of its exclusive license of Patents and Intellectual Property acquired from Apollon Formularies, plc ("Apollon") earlier this year.

Jeff is currently Vice-President and Director of Medical Product Development at Apollon Formularies plc and was responsible for the production and manufacturing of all of the Apollon products demonstrated to be successful in killing breast and prostate cancer cells in Apollon's preclinical independent testing at BIOENSIS laboratories and currently sold by physician prescription in Jamaica. He was also responsible for manufacturing all of the natural biologics based medical products for the cancer clinical trials.

In the event that GHG exercises its option to acquire the entirety of the Apollon assets per the binding Letter of Intent executed between the Parties (for further detail on the transaction, see the news release of [January 11, 2023](#) and [March 20, 2023](#)), the Company will look to bring on Mr. Nagel as its Vice-President and Director of Global Manufacturing ("DGM"). As VP and DGM Jeff's role will be to oversee the Company's global manufacturing operations of the Apollon products, including product development, quality control, and supply chain management, and work closely with the Company's executive team to develop and execute manufacturing strategies that align with the company's overall goals and objectives.

"I am excited to join the team at Global Hemp Group, Inc. and contribute to the growth and success of the company," said Nagel. "I believe that the recent exclusive intellectual property licenses procured from Apollon opens the door for the creation of some amazing and innovative new products in the natural biologics space!"

"Jeff's extensive experience and expertise in manufacturing and product formulation will greatly assist the Company as it talks to manufacturers and distributors about sublicensing and monetizing GHG's exclusive licenses from Apollon" said Stephen Barnhill, Jr, Interim CEO of Global Hemp Group, Inc. "We are thrilled to have him on board and look forward to working with him to take this segment of our business to the next level."

### **About Global Hemp Group Inc.**

Global Hemp Group Inc. (CSE: GHG / OTC: GBHPF / FRANKFURT: GHG) is focused on developing and promoting hemp-based products that are sustainable, environmentally friendly, and have a positive

impact on society. To further support and innovate, GHG has established a R&D Division to actively pursue the development of Intellectual Property that can be patented for implementation at its projects and beyond. The Division is led by Prof. Víctor M. Castaño, Ph.D. whose career has focused in the areas of applied science and technology. The R&D team is initially focused on development of Environmentally Friendly Construction Materials, Nanofertilizers and Enhanced Cannabinoid Extraction from Hemp.
