About Global Hemp Group Inc.

Global Hemp Group Inc. (CSE: GHG / OTC: GBHPF / FRANKFURT: GHG) is a dynamic company currently focused on two key business segments - Industrial Hemp and Biopharma.

The Industrial Hemp division’s primary focus lies in the environmental uses of hemp for construction and hemp for sustainable bio-energy sources, both contributing to a carbon-negative footprint. Our R&D team is engaged in developing Intellectual Property that can be patented and implemented within our projects and beyond.

The Health and Wellness Division is focused on the acquisition of exclusive patents and IP through licensing agreements. The Company acquired exclusive rights to key patents and IP of Apollon Formulaires plc., a UK-based international pharmaceutical company whose formulations and patents specialize in developing cancer treatments from natural biologics, including cannabinoids and functional mushrooms. More recently, the Company has signed a Letter of Intent with B-Organic R&D Corp. relating to the use of their Bioactive Lipid Agents (“BLA”) technology with cannabinoids, terpenes, flavonoids and mushroom extracts. BLA enhances the solubility and bioavailability of various “poorly soluble pharma ingredients”.

These strategic alliances form the basis for the commercialization of promising independently pre-clinically tested formulations, underscoring our commitment to cutting-edge innovation in the commercial biopharma sector.
