**1. NATURE OF OPERATIONS AND GOING CONCERN**

Global Hemp Group (the “Company” or “GHG”) was incorporated on October 30, 2009 in British Columbia, Canada, originally under the name Arris Holdings Inc., and on March 24, 2014 changed its name to Global Hemp Group Inc. The Company operates in two primary business segments: Industrial Hemp and Health & Wellness (Biopharma).

The Company’s registered office is located at #106 – 1169 Mt. Seymour Road, North Vancouver, BC, V7H 2Y4. The Company’s common shares are traded on Canadian Securities Exchange under the symbol “GHG”, on Börse Frankfurt under the symbol “GHG”, and on the USA OTCQB Markets under the symbol “GBHPF”. Effective September 28, 2023, the Company consolidated its issued share capital on a ratio of twenty old common shares for every one new post-consolidated common share. All current and comparative references to the number of common shares, weighted average number of common shares, loss per share, stock options and warrants have been restated to give effect to this share consolidation (the “Share consolidation”).

On September 28, 2023, the Company consolidated its issued share capital on a ratio of twenty old common shares for every one new post-consolidated common share. All current and comparative references to the number of common shares, weighted average number of common shares, loss per share, stock options and warrants have been restated to give effect to this share consolidation (the “Share consolidation”).

These consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of operations. The Company’s continuation as a going concern is dependent upon its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with debt and or private placements of common shares. Should the Company be unable to continue as a going concern, the net realizable value of its assets may be materially less than the amounts on its consolidated statement of financial position.

**2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION**

These unaudited condensed interim financial statements of the Company for six months ended March 31, 2024, together with the comparative figures herein have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“ISAB”) and in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting. The significant accounting policies applied in these condensed interim financial statements are based on the IFRS issued and outstanding as of March 31, 2024.

**Basis of Preparation**

These consolidated condensed interim financial statements do not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that these condensed interim financial statements be read in conjunction with the audited annual financial statements of the Company for the most recent year ended September 30, 2023.

During the quarter the Company had no active subsidiaries.

**Significant estimates and assumptions**

The preparation of financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions concerning the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting period include determining the fair value of financial instruments and the recoverability and measurement of deferred tax assets.

**Significant judgments**

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments applied in the Company's financial statements include:

- the assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty; and
- whether the Company has control over entities in which it holds an interest.

The financial statements were approved and authorized for issue on May 30, 2024 by the directors of the Company.

**3. SIGNIFICANT ACCOUNTING POLICIES**

**Impairment of Non-Financial Assets**

The carrying amounts of non-financial assets are reviewed for impairment whenever facts and circumstances suggest that the carrying amounts may not be recoverable. If there are indicators of impairment, the recoverable amount of the asset is estimated in order to determine the extent of any impairment. For the purposes of measuring recoverable amounts, assets are grouped at the lowest levels for which there are separately identifiable potential cash flow generating units ("CGU's"). The recoverable amount is the higher of an asset's fair value less costs to sell and its value in use (being the present value of the expected future cash flows of the CGU). An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. Non-financial assets that have been impaired in prior periods are tested for possible reversal of impairment whenever events or changes in circumstances indicate that the impairment has reversed. If the impairment has reversed, the carrying amount of the asset is increased to its recoverable amount but not beyond the carrying amount that would have been determined had no impairment loss been recognized for the asset in the prior periods. A reversal of an impairment loss is recognized in the consolidated statement of loss and comprehensive loss.

**Intangible Assets**

Intangible assets are recorded at cost less accumulated amortization and impairment losses, if any. Intangible assets acquired in a business combination are measured at fair value at the acquisition date. Amortization of definite life intangible assets is recognized on a straight-line basis over their estimated useful lives.

---

**Loss per share**

Basic loss per share is computed by dividing net loss attributable to common shareholders by the weighted average number of shares outstanding in the period. Diluted loss per share is calculated by the treasury stock method. Under the treasury stock method, the weighted average number of common shares outstanding for the calculation of diluted loss per share assumes that the proceeds to be received on the exercise of dilutive share options and warrants are used to repurchase common shares at the average market price during the period.

**Financial instruments**

(i) Classification

The Company classifies its financial instruments in the following categories: at fair value through profit and loss ("FVTPL") at fair value through other comprehensive income (loss) ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or if the Company has opted to measure them at FVTPL.

The following table shows the classification under IFRS 9:

<b>Financial assets</b>	<b>Classification under IFRS 9</b>
Cash	FVTPL
Accounts receivables	Amortized cost
<b>Financial liabilities</b>	<b>Classification under IFRS 9</b>
Accounts payable and accrued liabilities	Amortized cost
Note payable	Amortized cost
Convertible debt	Amortized cost
Preference shares liability	Amortized cost
Conversion feature derivative liability	FVTPL

(ii) Measurement

Financial assets and liabilities at amortized cost:

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

**Financial assets and liabilities at FVTPL:**

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the consolidated statements of comprehensive loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the consolidated statements of comprehensive loss in the period in which they arise.

(iii) Impairment of financial assets

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at

**GLOBAL HEMP GROUP INC.****Notes to the Interim Condensed Consolidated Financial Statements****Six Months Ended March 31, 2024****(Expressed in Canadian Dollars)**

---

amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to twelve month expected credit losses. The Company shall recognize in the Consolidated Statements of Comprehensive Loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

(iv) DerecognitionFinancial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when the terms of the liability are modified such that the terms and / or cash flows of the modified instrument are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

Gains and losses on derecognition are generally recognized in profit or loss.

**Functional currency and foreign currency translation**

The functional currency of each entity is determined using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Canadian dollars which is the parent company's functional and presentation currency.

Transactions and balances:

Foreign currency transactions will be translated into the functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the period-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items or on settlement of monetary items are recognized in profit or loss in the period in which they arise, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognized in other comprehensive income to the extent that gains and losses arising on those non-monetary items are also recognized in other comprehensive income. Where the non-monetary gain or loss is recognized in profit or loss, the exchange component is also recognized in profit or loss.

Foreign operations:

The financial statements of foreign operations whose functional currency is different from the Company's

**(Expressed in Canadian Dollars)**

---

presentation currency will be translated as follows:

- assets and liabilities are translated at period-end exchange rates prevailing at that reporting date; and
- income and expenses are translated at average exchange rates for the period.

Exchange differences arising on translation of foreign operations are recorded to the Company's other comprehensive income.

**Research and development**

Research costs are expensed when incurred. Internally-generated technology costs are capitalized as intangible assets when the Company can demonstrate that the technical feasibility of the project has been established; the Company intends to complete the asset for use or sale and has the ability to do so; the asset can generate probable future economic benefits; the technical and financial resources are available to complete the development; and the Company can reliably measure the expenditure attributable to the intangible asset during its development. After initial recognition, internally generated intangible assets are recorded at cost less accumulated amortization and accumulated impairment losses. The Company did not have any development costs that met the capitalization criteria for the years ended September 30, 2023 and 2022.

**Share-based Payments**

The grant-date fair value of share-based payments awarded to employees settled in equity instruments is generally recognized as an expense determined using Black Scholes Option Pricing Model, with a corresponding increase in equity over the vesting period. The amount recognized as an expense is adjusted to reflect the number of awards for which it is estimated that the service and non-market performance conditions have been satisfied, in that the amount ultimately recognized is based on the actual number of awards that meet the service and non-market performance conditions at the vesting date. For share-based payment awards on shares with other vesting conditions, the measurement of fair value at the vesting date reflects these conditions, and differences between estimate and achievement are not subsequently adjusted.

**Warrants**

Proceeds from issuances of security units by the Company consisting of shares and warrants are allocated based on the residual method. The value of the warrants is determined to be the difference between gross proceeds over the estimated fair market value of the shares. If the proceeds from the offering are less than or equal to the estimated fair market value of shares issued, a fair value of \$Nil is assigned to the warrants.

**Income taxes**

Current income tax:

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date, in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognized directly in other comprehensive income or equity is recognized in other comprehensive income or equity and not in profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation.

Deferred income tax:

Deferred income tax is provided using the balance sheet method on temporary differences at the reporting date

**GLOBAL HEMP GROUP INC.**  
**Notes to the Interim Condensed Consolidated Financial Statements**  
**Six Months Ended March 31, 2024**  
**(Expressed in Canadian Dollars)**

---

between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. The carrying amount of deferred income tax assets is reviewed at the end of each reporting period and recognized only to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Accounting Standards Issued But Not Yet Applied

Accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

<sup>(1)</sup> \$134,952 of the total Trade payables has been disputed. Per the statute of limitations under the British Columbia Limitation Act for unsecured debt, the Company will look to write off this debt at year-end. Trade payables also include \$76,036 in bonuses paid to Senior Secured Convertible Debenture and Loan holders for extending the due date to March 8, 2025, as well as accrued interest on loans in the amount of \$53,526.

**5. ACQUISITION OF PREFERRED SHARES OF WESTERN SIERRA RESOURCE CORPORATION**

- (a) On February 8, 2021, the Company signed the Definitive Agreement with Prescient Strategies Group LLC ("PSG") and Western Sierra Resource Corporation (OTC: WSRC) to acquire 19,875,000 shares of WSRC non-participating Preferred A Class Share holdings ("WSRC Prefs"). The Definitive Agreement between WSRC, PSG, and GHG required a payoff / restructure of an existing US\$3,842,269 in secured WSRC debt by February 1, 2022. On February 2, 2022 US\$2,842,269 plus interest remained unpaid. The Company paid US\$50,000 on March 30, 2022. The Definitive Agreement was subsequently terminated on February 6, 2023.

Transaction Details:

Prescient Strategies Group LLC held 19,875,000 Series A WSRC non-participating Prefs (with Voting Rights of 100 votes per share) on February 8, 2021. On signing of the Definitive Agreement, GHG acquired 11,006,440 unencumbered WSRC Prefs from PSG in exchange for 11,006,400 GHG Preferred B shares ("GHG Prefs").

The remaining 8,868,560 WSRC Prefs held by PSG were to be transferred to GHG by PSG in return for a like number of GHG Class B Prefs upon payoff / restructure of the existing debt in the amount of

**GLOBAL HEMP GROUP INC.****Notes to the Interim Condensed Consolidated Financial Statements****Six Months Ended March 31, 2024****(Expressed in Canadian Dollars)**

---

US\$3,842,269 by GHG on or before February 1, 2022. GHG was not able to complete the payoff/restructuring the debt and the remaining WSRC Prefs were not transferred to GHG.

**GHG Pref Details:**

The GHG Prefs have a fixed redemption price of US\$0.50 per preferred share and a maturity date of ten years following their issuance. The GHG Prefs are non-voting, have been paying an annual dividend of US\$0.01 per share, paid in cash, and are convertible into two common shares of GHG for every GHG Pref held by each holder thereof. The GHG Prefs are secured by the WSRC Prefs. The GHG Prefs are redeemable by GHG at face value plus any accrued and unpaid dividends any time after the refinancing of the WSRC Debt and the term of the WSRC Debt has been extended to a period of at least three years or redeemable on or before the maturity date on May 14, 2031. Should PSG decide to sell its GHG Prefs in a private third-party transaction, GHG will be granted a thirty day Right of First Refusal (the "GHG ROFR") to match any *bona fide* offer by a third-party, before PSG can act on such third-party offer.

As at March 31, 2024, the advances GHG made for the settlement of WSRC debts totaling \$1,741,123 or US\$ 1,351,174 were written off to \$Nil. Pursuant to an agreement between GHG and WSRC, these advances were receivable from WSRC upon the refinancing of the WSRC Debt. GHG has not been able to raise the required funding relating to the WSRC debt per the definitive agreement. WSRC has not issued a note payable to GHG and the advances have been impaired due to the uncertainty of collection.

- (b) On May 14, 2021, PSG exchanged its 11,006,400 WSRC Prefs for 11,006,400 GHG Prefs. As a result, the Company had 46.85% of the voting rights of WSRC. The two directors of WSRC control 44.6% of the common shares of WSRC and one director controls the remaining 8,868,560 WSRC Prefs.

As at December 31, 2022, the fair value for the 11,006,400 WSRC Prefs held by the Company was determined to be \$NIL (September 30, 2022 - \$NIL). The Company determined the value to be \$NIL as until such time the GHG Prefs are redeemed the Company cannot sell, transfer or otherwise dispose of the WSRC Prefs.

**13. FINANCIAL INSTRUMENTS**

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's primary exposure to credit risk is on its cash. As most of the Company's cash is held by one bank, there is a concentration of credit risk. This risk is managed by using a major bank that is a high credit quality financial institution as determined by rating agencies.

Foreign exchange risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company's transaction currency with WSRC is in USD (Note 6) and two subsidiaries located in the United States. As at March 31, 2023 the Company has cash of US\$1,265, GHG Prefs debt host liability of US\$2,150,597, GHG Prefs Derivative Liabilities of US\$110,064 denominated in US dollars. Based on the net exposure at March 31, 2023, a 5% depreciation or appreciation in Canadian dollar against US dollar would result in a gain or loss of \$158,980.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk is minimal.

Liquidity Risk

Liquidity risk is the risk that the Company may be unable to meet its financial obligations as they fall due. The Company reviews its working capital position regularly to ensure there is sufficient capital in order to meet short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash. Liquidity risk is assessed as high.

Fair value

The Company categorizes its financial instruments measured at fair value using a hierarchy based on the inputs used to measure fair value. The fair value hierarchy has three levels based on the reliability of the inputs used to determine fair value as follows:

Level 1: observable inputs such as quoted prices in active markets.

Level 2: inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The fair value of the Company's financial assets and liabilities at amortized cost approximates the carrying amount due to their short-term nature. The derivative liability is measured at fair value using level 2 inputs.

**GLOBAL HEMP GROUP INC.****Notes to the Interim Condensed Consolidated Financial Statements****Six Months Ended March 31, 2024****(Expressed in Canadian Dollars)**

**14. CAPITAL MANAGEMENT**

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence, safeguard the Company's ability to support the Company's activities in the industrial hemp and Health & Wellness sectors, and to sustain future development of the business. The capital structure of the Company consists of working and share capital.

There are no restrictions on the Company's capital and there were no changes in the Company's approach to capital management during the year.

**15. EVENTS AFTER THE REPORTING PERIOD**

On May 29, 2024, the Company announced that it had increased the size of its non-brokered private placement from a total of 8,900,000 units (each a "Unit") at \$0.05 per Unit for gross proceeds of up to \$445,000 (the "Offering"), to 12,000,000 units at \$0.05 per Unit for gross proceeds of up to \$600,000. Each Unit is comprised of one common share in the capital of the Company (each a "Common Share") and one non-transferable Common Share purchase warrant (each a "Warrant"). Each Warrant entitles the holder to acquire one Common Share at a price of \$0.10 per share, exercisable until January 15, 2027. The Company intends to use the net proceeds from the Offering for general working capital purposes. It is anticipated that this placement will close in multiple tranches, with the first tranche of \$67,500 for 1,350,000 Units having been closed on January 26, 2024, and having a balance of \$532,500 remaining available for subscription.
