1. NATURE AND CONTINUANCE OF OPERATIONS

ME Resource Corp., (the "Company") was incorporated under the Business Corporation Act (British Columbia) on October 16, 2009. The Company's shares are traded on the Canadian Securities Exchange under the symbol MEC. The Company's head and registered office address is 900-555 Burrard Street, Vancouver, BC V7X 1M8.

The Company's principal line of business is research and development of a process to economically transform wasted or stranded natural gas to engineered fuels or clean power.

These financial statements have been prepared using International Financial Reporting Standards applicable to a going concern, which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. The Company's continuation as a going concern is dependent whether the Company can develop an economically viable business, and generate funds there from and/or raise equity capital to meet current and future obligations. The Company has not yet achieved profitable operations and expects to incur further losses in the development of its business. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Management is considering various options, including but not limited to obtaining equity financing, to finance operating costs over the next twelve months.

2. STATEMENT OF COMPLIANCE

These condensed interim financial statements for three and six months ended June 30, 2015 ("2015 Condensed Interim Financial Statements"), together with the comparative figures herein have been prepared in accordance with International Accounting Standards ("IAS") 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board and interpretations of the International Financial Reporting Interpretations Committee .

These 2015 Condensed Interim Financial Statements do not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that these 2015 Condensed Interim Financial Statements be read in conjunction with the most recent audited annual financial statements of the Company for the year ended December 31 2014.

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of measurement

The financial statements have been prepared on an accrual basis and are based on historical costs, except for certain financial instruments which are measured at fair value. The financial statements are presented in Canadian dollars, the functional currency of the Company.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Significant estimates and assumptions

The preparation of financial statements in accordance with IFRS requires the Company to make estimates and assumptions concerning the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised. Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the fair value measurements for financial instruments and the recognition and measurement of deferred tax assets.

Significant judgments

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgment in applying the Company's financial statements are the determination of revenue recognition and the assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty.

Adoption of new accounting standards and new accounting standard not yet effective

The Company has not adopted new accounting standards since it recent year ended December 31, 2014.

New accounting standard not yet effective is as follows:

New standard IFRS 9 "Financial Instruments" - This new standard is a partial replacement of IAS 39 "Financial Instruments: Recognition and Measurement". IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018.

The impact of this new accounting standard has not been determined.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

4. COMMITMENTS

a) On April 21, 2013, the Company entered into an assignment agreement (the "Assignment Agreement") with a company owned by a director of the Company (the "Related Party"). The Related Party had a license agreement (the "License Agreement") with ZTEK Corporation ("ZTEK"), whereby ZTEK will grant the Related Party a license to use certain of ZTEK's intellectual property. Under the Assignment Agreement, the Related Party agreed to assign the License Agreement to the Company or any other alternative development technology that the Related Party may produce or source that is acceptable to the Company for 25,000,000 shares of the Company.

   The 25,000,000 common shares were issued and placed in escrow to be released upon the completion of certain milestones and the approval of the board of directors. Per IFRS 2, "Share based payments", no amount is to be recognised for goods or services received if the equity instruments granted do not vest because of failure to satisfy a vesting condition.

(Unaudited - Expressed in Canadian Dollars)

4. COMMITMENTS (Continued)

As none of the milestones had been met as at December 31, 2014 and June 30, 2015, no value was recognized for the shares issued. As at December 31, 2014 and June 30, 2015, none of the escrowed shares have been released and the milestones have not been met.

During the year ended December 31, 2013 the Company and ZTEK mutually agreed that a research contract and consulting agreement outlined below would serve as the alternative development technology under the Assignment Agreement and the Company decided not to pursue the License Agreement.

b) On October 5, 2013, the Related Party arranged for a research contract (the "Research Contract") between the Company and La Corporation de L'Ecole Polytechnique de Montreal ("Polytechnique").

Under the Research Contract, the Company will pay Polytechnique an aggregate sum of $260,000 in instalments as follows:

- $65,000 within 15 days of signing the agreement (paid);
- $65,000 upon being invoiced on March 1, 2014 (paid);
- $65,000 upon being invoiced on June 1, 2014 (paid);
- $65,000 upon acceptance of the full report (paid).

c) On November 18, 2013, the Related Party assigned a consulting agreement (the "Consulting Agreement") between the Related Party and Dr. Gregory S. Patience, a director of the Company (the "Consultant"). Under the Consulting Agreement, the Company will reimburse all expenses in connection with the work performed and issue in aggregate 4,000,000 common shares of the Company in instalments upon the completion of several technical milestones. During the year ended December 31, 2014 1,300,000 common shares with a value of $130,000 were issued to the Consultant upon the completion of the first two milestones.

5. SHARE CAPITAL

Authorized share capital:	An unlimited number of common shares without par value.
	An unlimited number of preferred shares without par value.

Issued and outstanding:

25,000,000 of the Company's issued common shares are held in escrow as at June 30, 2015 (2014/12/31–25,000,000) (Note 4).

Transactions for six months ended June 30, 2015 were as follows:

In January 2015, the Company arranged a private placement offering of up to 2,000,000 common shares of the Company at a price of $0.10 per share for gross proceeds of up to $200,000. The Company has issued 1,400,000 million shares for proceeds of $140,000 of which $110,000 had been collected as at June 30, 2015. A further $30,000 was collected after June 30, 2015.

(Unaudited - Expressed in Canadian Dollars)

5. SHARE CAPITAL (Continued)

Stock options

The Company has a stock option plan which provides that the Board of Directors of the Company may grant to directors, officers, employees, and consultants to the Company, non-transferable options to purchase common shares. The number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares of the Company. The term of any options granted under the plan may not exceed 5 years. Vesting terms and conditions are established by the board of directors.

On February 27, 2014 the Company granted options to acquire 4,580,150 common shares to directors, officers, and consultants. The options are exercisable for a period of two years at a price of $0.25 each. These options vest 12.5% each quarter over the two year period. The company recognized stock based compensation expense of $698,143 and $143,681 in relation to the options which vested during fiscal 2014 and six months ended June 30, 2015 respectively.

On March 10, 2014, the Company granted options to acquire 650,000 common shares to consultants. The options vested immediately and were exercisable for a four month period at a price $0.285 each. The Company recognized stock based compensation expense of $80,275 in relation to these options. The options expired unexercised on July 10, 2014.

The Company used the Black-Scholes option pricing model and the following assumptions to determine the fair values of the stock options issued and vested during the year ended December 31, 2014 and during six months ended June 30, 2015 with the following weighted average assumptions:

Risk-free interest rate	1.05%
Expected life of options	1.89 years
