

Processing Waste Gas into Clean Power  
and Engineered Fuels  
with the Micro Refinery Unit

FOR IMMEDIATE RELEASE

## **MEC Announces Shareholder Approval to Changes to the Articles of Incorporation.**

**March 4, 2019 - VANCOUVER, BRITISH COLUMBIA** – ME Resource Corp. (the "Company" or "MEC") (CNSX: MEC | OTC: MEEFX) announces that shareholder approval was sought and obtained for the adoption of New Articles of the Company (the "New Articles"). By written consent, the shareholders approved a resolution approving the New Articles.

The board of directors of MEC have determined that it is in the best interest of the Company to adopt the New Articles. These New Articles reflect current updated business practices and will give the board greater flexibility in carrying out their obligations and in its business dealing with third parties.

A copy of the new articles has been posted to [www.SEDAR.com](http://www.SEDAR.com).

### **About ME Resources Corp.:**

ME Resource Corp. ("MEC") is a Canadian company focusing on the development, commercialization and deployment of an economical, mobile and modular waste natural gas processor, which synthesizes waste natural gas, both flared and vented, into green fuel - Engineered Fuel™ and Clean Power. ME Resource Corp. is also pursuing the acquisition, exploration and development of resource properties. The Company's objective is to explore and develop its current assets and pursue additional acquisitions. The Corporation intends to acquire a portfolio of properties through project acquisitions, joint ventures and alliances.
