

ALBERT LABS INTERNATIONAL CORP. (FORMERLY ALBERT LABS INC.)
MANAGEMENT'S DISCUSSION AND ANALYSIS
THREE MONTHS ENDED MARCH 31, 2022

DATE AND SUBJECT OF REPORT

The following is management's discussion and analysis ("MD&A") in respect of the results of operations and financial position of Albert Labs International Corp., Formerly Albert Labs Inc., (the "Company" or "Albert Lab") for the three months ended March 31, 2022. This MD&A should be read in conjunction with the Company's condensed interim consolidated financial statements for the same period which are presented in Canadian dollars and prepared in accordance with International Financial Reporting Standards ("IFRS").

The date of this MD&A is May 30, 2022

FORWARD LOOKING STATEMENTS

This MD&A contains statements concerning future results, future performance, intentions, objectives, plans and expectations that are, or may be deemed to be, forward-looking statements. These statements concerning possible or assumed future results of operations of the Company are usually preceded by, followed by or include the words 'believes', 'expects', 'anticipates', 'estimates', 'intends', 'plans', 'forecasts', 'may', 'will', or similar expressions, although not all forward-looking statements contain these words. Forward-looking statements are not guaranteeing of future performance.

These forward-looking statements are based on management's current expectations and involve numerous risks and uncertainties, including, but not limited to, those identified in the Risks & Uncertainties section. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive, and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and while many of which underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate. These factors should be considered carefully, and readers should not place undue reliance on forward-looking statements. The Company reviews its forward looking statements on an ongoing basis and updates this information when circumstances require it.

COMPANY OVERVIEW & OVERALL PERFORMANCE

Albert Labs Inc., ("AL") was incorporated under the Business Corporation Act (British Columbia) on September 16, 2020. The Company's head and registered office address is 201-6996 Merritt Avenue, Burnaby, BC, V5J 4R6.

MEC was incorporated under the Business Corporation Act (British Columbia) on October 16, 2009. Before the Completion of the RTO, MEC's shares commenced trading on the Canadian Securities Exchange ("CSE") under the symbol MEC. MEC's head office is #201 - 6996 Merritt Avenue, Burnaby, BC V5J 4R6, Canada.

On March 10, 2022, AL and MEC completed a share exchange agreement (the "Transaction") whereby AL has become the wholly owned subsidiary of MEC. However, for accounting purposes, the Transaction is considered a reserve-take-over ("RTO") as the shareholders of AL acquired control of MEC. Consequently AL is considered the accounting acquirer for the RTO. At the date of acquisition, MEC did not meet the definition of a business and, accordingly, the transaction has been accounted for as an acquisition of assets. The acquisition is accounted for in accordance with IFRS 2 Share Based Payments and IFRS 3 Business Combination ("IFRS 3"). MEC did not qualify as a business as defined in IFRS 3 as there were no substantive processes in place.

MEC changed its name to Albert Labs International Corp. ("AL Intl" or the "Company") upon the completion of the RTO. The Company's shares commenced trading on the CSE under the name ABRT commencing March 10, 2022.

The Company's principal line of business is to research and develop drugs to ensure accelerated access to safe and effective psychedelic-assisted therapy for patients with urgent, unmet needs.

ALBERT LABS INTERNATIONAL CORP. (FORMERLY ALBERT LABS INC.)
MANAGEMENT'S DISCUSSION AND ANALYSIS
THREE MONTHS ENDED MARCH 31, 2022

The net assets and liabilities of MEC have been measured at their fair value on the acquisition date with the allocation of proceeds as follow:

Proceeds of the acquisition	\$
Fair value of 9,668,734 common shares issued to MEC's shareholders	2,417,184
Elimination of amounts due from MEC upon the completion of the RTO	128,321
Assumption of accounts payable and due to related parties	481,549
	3,027,054

As the fair value of tangible and intangible assets held by MEC was \$Nil at completion of the RTO, the whole amount of proceeds of acquisition has been expensed as listing expenditures for the Company to list its common shares on the CSE.

Events after the quarter ended March 31, 2022

The Company issued 883,233 common shares at \$0.25 per share in April and May 2022 for new subscription, subscriptions previously received, and for services rendered by consultants

Travel	12,728	-
Net loss	(3,830,491)	(171,388)

(i) The listing expenses incurred during the Current Quarter are non-cash in nature which was the sum of the fair value of shares issued to shareholders of MEC plus the assumption of liabilities of MEC.

(ii) During the Current Quarter, the Company engaged additional consultants to enhance the business combination between MEC and AL, and to develop the Company's business. As a result, consulting fees increased.

The Company have been actively to build its business and conducting research activities regarding psychedelic-assisted therapy for patients with urgent, unmet needs. As at march 31, 2022 and the date of this report, the Company had three employees.

During the Current Quarter, the Company's main assets and liabilities movements are as follows:

- Cash increased by \$933,173 (2022/3/31:\$1,042,870; 2021/12/31: \$76,697)
Amounts receivable decreased by \$128,321 (2022/3/31:\$2,696; 2021/12/31: \$131,017)

The Company received cash of 1.39 million which was partially offset by the use of \$0.42 million to finance the Company's operations. As December 31, 2021, AL's amounts receivable comprised of mainly a receivable of \$0.13 million due from MEC. This amounts of receivable was eliminated when AL and MEC completed the RTO.

LIQUIDITY & CAPITAL RESOURCES

As at March 31, 2022, the Company had a working capital of \$1.37 million. The Company realizes that the current resources are not adequate for the Company to achieve its long- term objectives. The Company considers different financing options, including, but not limited to, further debt or equity financing, or share for debt settlement, to secure addition financing to provide adequate capital resource for the Company to meet its long-term business objective.

Readers should be cautioned that the Company's continuation as a going concern is dependent whether the Company can develop an economically viable business and generate funds there from and/or raise equity capital to meet current and future obligations. The Company has not yet achieved profitable operations and expects to incur further losses in the development of its business. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

FINANCIAL INSTRUMENT RISK EXPOSURE AND RISK MANAGEMENT

Financial Risk Management

The Company is exposed in varying degrees to a variety of financial instrument related risks.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's exposure to credit risk is on its cash held. The Company's cash is deposited in two banks with high creditworthy.

ALBERT LABS INTERNATIONAL CORP. (FORMERLY ALBERT LABS INC.)
MANAGEMENT'S DISCUSSION AND ANALYSIS
THREE MONTHS ENDED MARCH 31, 2022

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash. Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

The Company's liquidity risk as assessed as high.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in its functional currency. The Company does not manage currency risk through hedging or other currency management tools.

As at March 31, 2022 and December 31, 2021, the Company's exposure to foreign currency risk on its financial instruments is as follows:

	March 31, 2022	December 31, 2021
Cash	GBP 636,349	GBP 20,139
Canadian dollar equivalent	\$ 1,028,000	\$ 35,000

A 10% change in the British Pound against the Canadian dollar at March 31, 2022 would have an impact of \$102,800 to the Company's comprehensive loss.

Interest Rate Risk

Interest rate risk refers to the risk that fair values of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company does not have material financial assets or liabilities that are exposed to fluctuation of interest rate. As a result, the exposure to interest rate risk is not significant.

Classification of financial instruments

Financial instruments included in the statement of financial position are as follows:

	March 31, 2022	December 31, 2021
	\$	\$
Amortized cost:		
Cash	1,042,870	76,697
Amounts receivable	2,696	131,017
Accounts payable accrued liabilities	(516,794)	(37,457)
Due to related parties	(4,199)	(4,199)

Fair value

The Company does not have financial instruments that are measured at their fair values. The financial instruments that are not measured at their fair value have their carrying values approximate their fair values due to their short-term nature.

MANAGEMENT'S DISCUSSION AND ANALYSIS
THREE MONTHS ENDED MARCH 31, 2022

RISKS AND UNCERTAINTIES

Readers are cautioned that the foregoing lists of risks, uncertainties and other factors are not exhaustive.

Capitalization Risk

It is anticipated that the Company will require additional capital to fully execute its long-term business objectives. There can be no assurance that it will be able to obtain any capital in the future or that attempts to obtain capital in the future will result in terms beneficial to existing investors.

Dilution to the Existing Shareholders

The Company has no other capital resources other than the ability to use its common stock to raise additional capital. The issuance of additional equity securities by the Company could result in a significant dilution in the equity interests of existing shareholders.

Management Risk

The Company's success will largely depend on the capability of its management; management has limited experience in managing the growth of a developing business.

Reliance on Management's Expertise

The Company strongly depends on the business acumen and expertise of its management team and there is little possibility that this dependence will decrease in the near term. The loss of the services of any member of the team could have a material adverse effect on the Company. The Company does not have any key person insurance in place for management.

Profitability Risk

Although the Company will work to become profitable, there can be no assurance that factors beyond its control, such as, but not limited to, successful development of its technology into commercial viable products to the oil and gas industry. No assurances can be provided that the Company can do so.

Key Personnel Risk

The Company is highly dependent upon the services from external consultants. Loss of these external consultants would adversely affect the achievement of the Company's objectives.

Risks Inherent in the Nature of the Psychopharmacological Industry

Changes in operating costs (including costs for maintenance, insurance), inability to obtain permits required to conduct the Company's business, changes in health care laws and governmental regulations, and various other factors may significantly impact the ability of the Company to generate revenues. Certain significant expenditures, including legal fees, borrowing costs, maintenance costs, insurance costs and related charges, must be made to operate the business, regardless of whether the Company is generating revenue. Government Regulations, Permits and Licenses The Company's operations may be subject to governmental laws or regulations promulgated by various legislatures or governmental agencies from time to time. A breach of such legislation may result in the imposition of fines and penalties. The cost of compliance with changes in governmental regulations has the potential to reduce the profitability of operations. The Company intends to fully comply with all governmental laws and regulations. The physicians that recommend psychedelic therapy to the Company's patients will be subject to various federal, provincial and municipal laws in each jurisdiction. If any permits are required for the Company's operations and activities in the future, there can be no assurance that such permits will be obtainable on reasonable terms or on a timely basis, or that applicable laws and regulations will not have an adverse effect on the Company's business. Psilocybin is currently a controlled substance with no medicinal approved use in Canada or the United Kingdom. If a medical use for psilocybin is not developed or if developed, is not approved for use in Canada, the United Kingdom and other jurisdictions, the commercial opportunity that the Resulting Issuer is pursuing may be highly limited. The current and future operations of the Resulting Issuer are and will be governed by laws and regulations governing the health care industry, labour standards,

occupational health and safety, land use, environmental protection, and other matters. Amendments to current laws, regulations and permits governing operations and activities of patient therapies, or more stringent implementation thereof, could have a material adverse impact on the Resulting Issuer and cause increases in capital expenditures or costs, or reduction in levels of its business operations.
