(Unaudited - Expressed in Canadian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Business Combination

The accompanying consolidated financial statements have been prepared after giving effect to the reverse takeover (“RTO”) of ME Resources Corp. (“MEC”) by Albert Labs Inc. (“AL”) which was completed on March 10, 2022, whereby MEC has acquired AL as its wholly owned subsidiary. As the shareholders of AL acquired control of the combined entity, AL is considered the accounting acquirer of the RTO and AL is considered the accounting parent of MEC.

MEC was incorporated under the Business Corporation Act (British Columbia) on October 16, 2009. Before the Completion of the RTO, MEC’s shares commenced trading on the Canadian Securities Exchange (“CSE”) under the symbol MEC.

Albert Labs Inc., (“AL”) was incorporated under the Business Corporation Act (British Columbia) on September 16, 2020. The Company’s head and registered office address is 201-6996 Merritt Avenue, Burnaby, BC, V5J 4R6.

MEC has changed its name to Albert Labs International Corp. (“AL Intl” or the “Company”) upon the completion of the RTO. The Company’s shares commenced trading on the CSE under the name ABRT commencing March 10, 2022.

At the date of acquisition, MEC did not meet the definition of a business and, accordingly, the transaction has been accounted for as an acquisition of assets by AL. The acquisition is accounted for in accordance with IFRS 2 *Share Based Payments* and IFRS 3 *Business Combination* (“IFRS 3”). MEC did not qualify as a business as defined in IFRS 3 as there were no substantive processes in place. The net assets and liabilities of MEC have been measured at their fair value on the acquisition date with the allocation of proceeds as follow:

Proceeds of acquisition	\$
Fair value of 6,367,192 common shares of AL issued to MEC’s shareholders (Note 4)	1,591,798
Fair value of 3,301,542 common shares of AL issued to MEC’s creditors for debt settlement (Note 4)	825,386
Assumption of accounts payable and due to related parties of MEC	1,325,612
Gain from debt settlement with creditors of MEC (Note 4)	(825,356)
Listing expenses	2,917,440

As the fair value of tangible and intangible assets held by MEC was \$Nil when the RTO was completed, the whole amount of proceeds of acquisition has been expensed as listing expenditures for the Company to list its common shares on the CSE.

The Company’s principal line of business is to research and develop drugs to ensure accelerated access to safe and effective psychedelic-assisted therapy for patients with urgent, unmet needs.

Going Concern

These consolidated financial statements have been prepared using International Financial Reporting Standards applicable to a going concern, which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. The Company’s continuation as a going concern is dependent whether the Company can develop an economically viable business, and generate funds there from and/or raise equity capital to meet current and future obligations. The Company has not yet achieved profitable operations and expects to incur further losses in the development of its business. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern.

Should the Company be unable to continue as going concern, the net realizable value of its assets may be materially less than the amounts on its statements of financial position.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards (“IAS”) 34 *Interim Financial Reporting* and should be read in conjunction with the annual financial statements for the year ended December 31, 2022, which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

Basis of Preparation

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments carried at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These condensed consolidated interim financial statements incorporate the accounts of the Company and its wholly owned subsidiaries, Albert Labs UK Ltd., a company incorporated in the United Kingdom. A subsidiary is an entity in which the Company has control, where control requires exposure or rights to variable returns and the ability to affect those returns through power over the investees. All intercompany transactions and balances have been eliminated on consolidation.

The comparative figures of 2021 presented in these condensed consolidated financial statements belong to AL, which is the accounting parent of the RTO.

3. SIGNIFICANT ACCOUNTING POLICIES

The Company has not adopted new accounting policies since its recent year ended December 31, 2022.

The preparation of financial statements in accordance with IFRS requires the Company to make estimates and assumptions concerning the future. The Company’s management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised. Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the fair value measurements for financial instruments and the recognition and measurement of deferred tax assets.

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgment in applying the Company’s financial statements include:

- the classification of financial instruments;
- the assessment of the Company’s ability to continue as a going concern; and
- the determination of the recoverability of the Company’s deferred tax assets
- share-based payments and compensation

4. SHARE CAPITAL

a) Share capital

Authorized share capital: An unlimited number of common shares without par value.

Share consolidation: On March 10, 2022, the company completed a consolidation of its common shares on the basis of one post-consolidated share for every 10 pre-consolidated shares. All references to share and per share amounts in these financial statements have been retroactively restated to reflect the share consolidation.

Issued and outstanding:

2023

On February 22, 2023 the Company closed a non-brokered private placement for the issuance of 6,250,000 security units ("Unit") at a price of \$0.048 per Unit. Each Unit is comprised of one common share of Albert Labs and one non-transferable Common Share purchase warrant. Each warrant is exercisable to one common share of Albert Labs at an exercise price of \$0.07 for 24 months from issuance. In connection with this private placement, the Company applied \$50,000 from the \$106,000 subscription received in 2022 and received cash of \$250,000, totalling \$300,000.

2022

Following common shares of the Company were issued:

- Issuance of 8,826,740 common shares at \$0.25 per shares to settle accounts payable and for services rendered.
- Issuance of 6,540,927 common shares pursuant to a private placement at \$0.25 per share for cash with \$211,787 finder's fees paid.
- Issuance of 6,367,192 common shares to shareholders of MEC at \$0.25 per share in exchange for 6,367,192 common shares of MEC (Note 1) in connection with the RTO.
- Issuance of 3,301,542 common shares to creditors of MEC at \$0.25 per share (totalling \$825,356) for debt settlement of \$1,650,712. The Company recorded a gain of settlement of \$825,356 which was recorded as a reduction of the listing expenses (Note 1).
- Issuance of 71,468 common shares at \$0.25 per share to account for share subscription of \$18,037 received in 2021.

b) Stock option

The Company has a stock option plan under which employees, directors, and key consultants and/or advisors are eligible to be granted options. Under the stock option plan, which was approved by the shareholders, the maximum number of outstanding stock options under the plan is 10% of the number of the common shares outstanding. The number of stock options and the exercise price is set by the Company's Board of Directors based on the market value at the time of granting.

2023

There were no options granted, exercised, not cancelled

2022

On October 21 2022, the Company granted 5,325,000 stock options to the Company's directors and officers. These options have a five-year term, with an exercise price of \$0.10 per share, whereby 20% of these options vested at the grant date and at each of four consecutive anniversary thereafter.

On October 31, 2022, the Company granted 410,000 stock options to a consulting firm. These options have a two-year term, with an exercise price of \$0.25 per share, whereby 100% of these options vested at the grant date.

9. FINANCIAL INSTRUMENTS

Fair value

The fair value of the Company's financial assets and liabilities approximate their carrying amount due to their short terms to maturity.

Financial Risk Management

The Company is exposed in varying degrees to a variety of financial instrument related risks.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's exposure to credit risk is on its cash held. The Company's cash is deposited in two banks with high creditworthy.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash. Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding. The Company's liquidity risk as assessed as high.

Interest Rate Risk

Interest rate risk refers to the risk that fair values of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company does not have material financial assets or liabilities that are exposed to fluctuation of interest rate. As a result, the exposure to interest rate risk is not significant.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in its functional currency. The Company does not manage currency risk through hedging or other currency management tools.

As at December 31, 2023 and December 31, 2022, the Company's exposure to foreign currency risk on its financial instruments are not material.
