Form 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended October 31, 2012 or

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 333-161157

NEUROKINE PHARMACEUTICALS INC.

(Exact name of registrant as specified in its charter)

British Columbia

N/A

(State or other jurisdiction of incorporation or organization)

(IRS Employer Identification No.)

1275 West 6th Avenue, Vancouver, British Columbia, Canada

V6H 1A6

(Address of principal executive offices)

(Zip Code)

(604) 805-7783

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a small reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

(Do not check if a smaller reporting

Non-accelerated filer company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act

YES NO

**APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY
PROCEEDINGS DURING THE PRECEDING FIVE YEARS**

Check whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Exchange Act after the distribution of securities under a plan confirmed by a court.

YES NO

APPLICABLE ONLY TO CORPORATE ISSUERS

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

35,767,073 common shares issued and outstanding as of December 11, 2012.

NEUROKINE PHARMACEUTICALS INC.

(A Development Stage Company)

Notes to the Financial Statements

Period ended October 31, 2012

(Expressed in Canadian dollars)

(Unaudited)

1. Nature of Operations and Continuance of Business

Neurokine Pharmaceuticals Inc. (the “Company”) was incorporated in British Columbia under the Business Corporations Act on June 10, 2002. The Company is a development stage company, as defined by Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 915, *Development Stage Entities*, and is in the business of developing and commercializing new uses for existing prescription drugs for diseases mediated by acute and chronic inflammatory reactions as well as developing proprietary encapsulation technology in the treatment of neurodegenerative diseases.

These financial statements have been prepared on the going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at October 31, 2012, the Company has not earned any revenue, has a working capital deficit of \$582,272 and an accumulated deficit of \$2,091,458. The continued operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. These factors raise substantial doubt about the Company’s ability to continue as a going concern. These financial statements do not include any adjustments to the recorded assets or liabilities that might be necessary should the Company be unable to continue as a going concern.

2. Significant Accounting Policies

(a) Basis of Presentation

The financial statements and the related notes of the Company are prepared in accordance with generally accepted accounting principles in the United States and are expressed in Canadian dollars. The Company’s fiscal year-end is January 31.

(b) Use of Estimates

The preparation of these financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the recoverability of long-lived assets, valuation of convertible debentures, assumptions used to determine the fair value of stock-based compensation and derivative liabilities, and deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company’s estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

(c) Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents. As at October 31, 2012 and January 31, 2012, the Company had no cash equivalents.

(d) Property and Equipment

Property and equipment is comprised of office equipment and is recorded at cost. The Company amortizes the cost of equipment on a straight-line basis over their estimated useful life of five years.

NEUROKINE PHARMACEUTICALS INC.

(A Development Stage Company)

Notes to the Financial Statements

Period ended October 31, 2012

(Expressed in Canadian dollars)

(Unaudited)

2. Significant Accounting Policies (continued)

(e) Long-lived Assets

In accordance with ASC 360, "Property, Plant and Equipment", the Company tests long-lived assets or asset groups for recoverability when events or changes in circumstances indicate that their carrying amount may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in the market price of the asset; significant adverse changes in the business climate or legal factors; accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of the asset; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and current expectation that the asset will more likely than not be sold or disposed significantly before the end of its estimated useful life. Recoverability is assessed based on the carrying amount of the asset and its fair value, which is generally determined based on the sum of the undiscounted cash flows expected to result from the use and the eventual disposal of the asset, as well as specific appraisal in certain instances. An impairment loss is recognized when the carrying amount is not recoverable and exceeds fair value.

(f) Stock-Based Compensation

The Company records stock-based compensation in accordance with ASC 718, *Compensation – Stock-Based Compensation*, using the fair value method. All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable.

(g) Derivative Financial Instruments

Derivative financial instruments that are not classified as equity and are not used in hedging relationships are measured at fair value. Subsequent changes to fair value are recorded in the statement of operations.

(h) Basic and Diluted Net Loss Per Share

The Company computes net loss per share in accordance with ASC 260, *Earnings Per Share*. ASC 260 requires presentation of both basic and diluted earnings per share ("EPS") on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti dilutive.

(i) Comprehensive Loss

ASC 220, *Comprehensive Income*, establishes standards for the reporting and display of comprehensive loss and its components in the financial statements. As at October 31, 2012 and January 31, 2012, the Company had no items representing comprehensive income or loss.

(j)

Research and Development Costs

Research costs are expensed in the period that they are incurred.

NEUROKINE PHARMACEUTICALS INC.

(A Development Stage Company)

Notes to the Financial Statements

Period ended October 31, 2012

(Expressed in Canadian dollars)

(Unaudited)

2. Significant Accounting Policies (continued)

(k) Financial Instruments and Fair Value Measures

ASC 820, *Fair Value Measurements*, requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 prioritizes the inputs into three levels that may be used to measure fair value:

Level 1

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The Company's financial instruments consist principally of cash, amounts receivable, accounts payable and accrued liabilities, amounts due to related parties, and convertible debentures. Pursuant to ASC 820, the fair value of our cash is determined based on "Level 1" inputs, which consist of quoted prices in active markets for identical assets. We believe that the recorded values of all of our other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

(l) Foreign Currency Translation

The Company's functional currency and its reporting currency is the Canadian dollar and foreign currency transactions are primarily undertaken in United States dollars. Monetary assets and liabilities are translated using the exchange rate prevailing at the balance sheet date. Non-monetary assets and liabilities denominated in foreign currencies are translated at rates of exchange in effect at the date of the transaction. Expenses are translated at average rates for the period. Gains and losses arising on translation or settlement of foreign currency denominated transactions or balances are included in the determination of income.

(m) Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NEUROKINE PHARMACEUTICALS INC.

(A Development Stage Company)

Notes to the Financial Statements

Period ended October 31, 2012

(Expressed in Canadian dollars)

(Unaudited)

3. Property and Equipment

| | Cost \$ | Accumulated amortization \$ | October 31, 2012 Net carrying value \$ | January 31, 2012 Net carrying value \$ |
|--------------------------------|------------|-----------------------------------|--|---|
| Office furniture and equipment | 2,276 | 835 | 1,441 | 1,783 |

4. Note Payable

On March 30, 2012, the Company issued a note to a non-related party for \$30,000. The note is unsecured, bears interest at 24% per annum, and is due on March 30, 2013.

5. Convertible Debentures

- (a) On December 17, 2010, the Company issued a convertible debenture with a non-related party for \$65,079 (US\$65,000). The debenture is unsecured, bears interest at 8% per annum, and matured on September 17, 2011. The note is convertible into common shares at a conversion price equal to 55% of the average closing market price of the lowest three trading prices of the Company's common stock during the preceding ten days prior to conversion. The Company recorded the conversion feature of the convertible debenture as a derivative liability at an estimated fair value of \$65,079 with a corresponding discount to the convertible debenture. On June 23, 2011, the Company issued 145,455 to convert \$11,674 (US\$12,000). On June 29, 2011, the Company issued 169,697 common shares to convert \$13,792 (US\$14,000). During the nine months ended October 31, 2012, the Company recorded accretion expense of the discount on the convertible debenture of \$nil (2011 - \$21,169). As of October 31, 2012, the carrying value of the convertible debenture is \$38,961 (US\$39,000) (January 31, 2012 - \$39,178 (US\$39,000)), plus the accrued default penalty of \$21,374 (US\$21,395). As of October 31, 2012, the fair value of the conversion option derivative liability was \$36,452 (January 31, 2012 - \$228,914).
- (b) On February 23, 2011, the Company issued a convertible debenture with a non-related party for \$37,944 (US\$40,000). The debenture is unsecured, bears interest at 8% per annum, and matured on December 23, 2011. The note is convertible into common shares at a conversion price equal to 55% of the average closing market price of the lowest three trading prices of the Company's common stock during the preceding ten days prior to conversion. The Company recorded the conversion feature of the convertible debenture as a derivative liability at an estimated fair value of \$37,944 with a corresponding discount to the convertible debenture. On July 11, 2011, the Company issued 230,303 common shares to convert \$18,270 (US\$19,000). During the nine months ended October 31, 2012, the Company recorded accretion expense of the discount on the convertible debenture of \$nil (2011 - \$8,277). As of October 31, 2012, the carrying value of the convertible debenture is \$20,979 (US\$21,000) (January 31, 2012 - \$21,096 (US\$21,000)), plus the accrued default penalty of \$13,890 (US\$13,904). As of October 31, 2012, the fair value of the conversion option derivative liability was \$19,628 (January 31, 2012 - \$123,261).

NEUROKINE PHARMACEUTICALS INC.

(A Development Stage Company)

Notes to the Financial Statements

Period ended October 31, 2012

(Expressed in Canadian dollars)

(Unaudited)

5. Convertible Debentures (continued)

(c) On July 4, 2011, the Company issued a note payable with a non-related party for \$85,000. The note was unsecured, due interest at 24% per annum, and due on October 4, 2011. On October 4, 2011, the note was extended to January 4, 2012 under the same terms of the original agreement.

On December 4, 2011, the Company agreed to modify the principal balance owing of \$85,000 and accrued interest of \$8,551 into a new \$100,000 note payable, which is unsecured, due interest at 24% per annum, and due on December 3, 2012. In addition, the note became convertible into common shares of the Company at a conversion rate of \$0.001 per share. As part of the conversion to extend the note, the Company issued 10,000,000 common shares with a fair value of \$225,000 as a termination fee of the original note agreement.

As the modified debt terms include a beneficial conversion feature, the Company accounted for the modified debt terms in accordance with ASC 470, *Debt – Debt with Conversions and Other Options*. The conversion feature resulted in a discount on the convertible note of \$100,000. During the nine months ended October 31, 2012, the Company recorded accretion expense of \$73,238 (2011 - \$nil). As of October 31, 2012, the carrying value of the convertible debenture is \$77,479 (January 31, 2012 - \$4,241).

6. Derivative Liabilities

Derivative liabilities consist of convertible debentures with variable conversion prices and share purchase warrants originally issued in private placements with conversion/exercise prices denominated in United States dollars, which differs from the Company's functional currency. The fair values of these derivative liabilities are as follows:

| | October 31, 2012 \$ | January 31, 2012 \$ |
|--|---------------------------|---------------------------|
| December 2010 convertible debenture | 36,452 | 228,914 |
| February 2011 convertible debenture | 19,628 | 123,261 |
| Default penalty on convertible debenture | 32,993 | 207,190 |
| 100,000 warrants expiring on April 6, 2012 | – | 17 |
| 75,000 warrants expiring on July 4, 2013 | – | 346 |
| 3,800,000 warrants expiring on July 30, 2015 | 32,393 | 160,796 |
| | <u>121,466</u> | <u>720,524</u> |

NEUROKINE PHARMACEUTICALS INC.

(A Development Stage Company)

Notes to the Financial Statements

Period ended October 31, 2012

(Expressed in Canadian dollars)

(Unaudited)

6. Derivative Liabilities (continued)

The fair values of derivative financial liabilities were determined using the Black-Scholes option pricing model, using the following assumptions:

| | Expected Volatility | Risk-free Interest Rate | Expected Dividend Yield | Expected Life (in years) |
|--|------------------------|----------------------------|-------------------------------|--------------------------------|
| As at issuance date: | | | | |
| December 2010 convertible debenture | 125% | 1.19% | 0% | 0.75 |
| February 2011 convertible debenture | 125% | 1.27% | 0% | 0.75 |
| Default penalty on convertible debenture | 125% | 0.08% | 0% | 0.50 |

7. Share Purchase Warrants

The following table summarizes the continuity of share purchase warrants:

| | Number of Warrants | Weighted Average Exercise Price \$ |
|----------------------------------|-----------------------|--|
| Balance, January 31, 2012 | 3,975,000 | 0.01 |
| Expired | (100,000) | 0.15 |
| Balance, October 31, 2012 | 3,875,000 | 0.01 |

As at October 31, 2012, the following share purchase warrants were outstanding:

| Number of Warrants | Exercise Price \$ | Expiry Date |
|--------------------|-------------------------|---------------|
| 3,800,000 | 0.005 | July 30, 2015 |
| 75,000 | 0.15 | July 4, 2013 |
| 3,875,000 | | |

NEUROKINE PHARMACEUTICALS INC.

(A Development Stage Company)

Notes to the Financial Statements

Period ended October 31, 2012

(Expressed in Canadian dollars)

(Unaudited)

8. Stock Options

The following table summarizes the continuity of the Company's stock options:

| | Number of options | Weighted average exercise price (US\$) | Weighted average remaining contractual life (years) | Aggregate intrinsic value (US\$) |
|--|----------------------|---|---|---|
| Outstanding and exercisable, October 31 and January 31, 2012 | 800,000 | 0.005 | 2.6 | 4,000 |

Additional information regarding stock options as of October 31, 2012, is as follows:

| Number of Options | Exercise Price \$ | Expiry Date |
|----------------------|-------------------------|--------------|
| 800,000 | 0.005 | May 25, 2015 |

As of October 31, 2012, the Company had no unrecognized compensation expense relating to unvested options.

9. Related Party Transactions

- As at October 31, 2012, the Company owed \$189,891 (January 31, 2012 - \$155,441) to the former President of the Company, which is unsecured, non-interest bearing, and due on demand.
- As at October 31, 2012, the Company owed \$30,000 (January 31, 2012 - \$7,500) to the President of the Company, which is unsecured, non-interest bearing, and due on demand.
- During the nine months ended October 31, 2012, the Company incurred \$45,000 (2011 - \$15,834) of management fees to directors and officers of the Company.

10. Subsequent Events

The Company has evaluated subsequent events through the date of issuance of the financial statements, and did not have any material recognizable subsequent events.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This report on Form 10-Q contains certain forward-looking statements. All statements other than statements of historical fact are “forward-looking statements” for purposes of these provisions, including any projections of earnings, revenues, or other financial items; any statements of the plans, strategies, and objectives of management for future operation; any statements concerning proposed new products, services, or developments; any statements regarding future economic conditions or performance; statements of belief; and any statement of assumptions underlying any of the foregoing. Such forward-looking statements are subject to inherent risks and uncertainties, and actual results could differ materially from those anticipated by the forward-looking statements.

These forward-looking statements involve significant risks and uncertainties, including, but not limited to, the following: competition, promotional costs and the risk of declining revenues. Our actual results could differ materially from those anticipated in such forward-looking statements as a result of a number of factors. These forward-looking statements are made as of the date of this filing, and we assume no obligation to update such forward-looking statements. The following discusses our financial condition and results of operations based upon our unaudited financial statements which have been prepared in conformity with accounting principles generally accepted in the United States. It should be read in conjunction with our financial statements and the notes thereto included elsewhere herein.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are stated in Canadian Dollars (CDN\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in Canadian Dollars (CDN\$) and all references to “common shares” refer to the common shares in our capital stock.

As used in this quarterly report, the terms “we”, “us”, “our” and “our company” mean Neurokinine Pharmaceuticals Inc., unless otherwise indicated.

General Overview

We are a development stage biopharmaceutical company. We were incorporated in the Province of British Columbia, Canada under the name “649186 B.C. Ltd.” on June 10, 2002. On September 9, 2003, we changed our name to “Xerxes Health Corp.” and on June 26, 2007, we adopted our current name, “Neurokinine Pharmaceuticals Inc.”. We have no subsidiaries.

Our principal executive office is located at 1275 West 6th Avenue, Vancouver, British Columbia, Canada, V6H 1A6. Our telephone number is (604) 805-7783.

We are engaged in the development and commercialization of therapeutic pharmaceutical products with a strategic emphasis on research and development to innovate applications for existing drugs. This is commonly known as drug re-profiling. Our research and development activities are focused on assessing known drugs and compounds, developing hypotheses concerning their usage for new indications (diseases), and conducting experimentation and clinical research to test those hypotheses. Where appropriate based on our research, we intend to depart from a strict re-profiling strategy to develop new variants of, or delivery methods for, existing drugs or compounds.

Our Current Business

We are a development stage biopharmaceutical company engaged in the development and commercialization of therapeutic pharmaceutical products, with a strategic emphasis on the innovation of new therapeutic uses for existing drugs. This is commonly known as drug re-profiling. Our research and development activities are focused on assessing known drugs and compounds, developing hypotheses concerning their usage for new indications (diseases), and conducting experimentation and clinical research to test those hypotheses. Where appropriate based on our research, we intend to depart from a strict re-profiling strategy to develop new variants of, or delivery methods for, existing drugs or compounds. Our focus on drug re-profiling, although not uncommon amongst pharmaceutical companies, differs from traditional drug development practices which focus largely on the development of new drugs.

To date, we have concentrated our research on innovating applications for existing drugs for the treatment of diseases and conditions mediated by acute and chronic inflammatory reactions. The diseases and conditions that have been the subject of our research include:

- neurocognitive impairment, and specifically, neurocognitive impairment in post-coronary artery bypass graft (also known as “CABG” or “heart bypass”) surgery patients;
- degenerative central nervous system diseases, and specifically, Alzheimer’s disease; and
- degenerative disk disease, and specifically, discogenic neck and back pain conditions.

Through our research we have identified and, where required, secured the rights necessary to develop two anti-inflammatory products, NK-001 and NK-002, that we believe hold promising prospects for the treatment of neurocognitive impairment and Alzheimer’s disease, respectively. Of these, NK-001 falls under our re-profiling strategy, as it is a new application of the drug Etanercept, which is marketed under FDA approval as a treatment for rheumatoid arthritis. Accordingly, we do not anticipate that NK-001 will require pre-clinical, preliminary safety or pharmacokinetic (the process by which the drug is metabolized by the body) studies. Because Etanercept has already been the subject of safety studies on a patient population similar to patients targeted by NK-001, we do not anticipate requiring additional pre-clinical or safety studies before proceeding to later stage clinical trials, and we have received approval to conduct clinical trials in South Africa on that basis.

In contrast, NK-002 is a new formulation for the delivery of Etanercept and is therefore properly classified as a new drug. As a new drug, NK-002 will require a full development program, including a full range of successful pre-clinical, safety, and pharmacokinetic studies before advanced clinical testing will be permitted to occur. Both of our planned products, including our flagship product NK-001, are in the development stage as of the date of this quarterly report and neither has been approved for sale to the public in any country.

The research and development activities required to produce the intellectual property underlying our two product candidates, NK-001 and NK-002, was carried out by Dr. Ahmad Doroudian, our director and former president, chief executive officer and secretary, Jonathan Willmer, our former chief medical officer and former director, and Dr. Hassan Salari, a former officer and former director. To date, we have outsourced all other research and development work to third parties, including clinical trial planning, laboratory services, data management, statistical services and report writing. We have relied primarily on three contractors in this regard. The first, Globe Laboratories Inc., is a center for drug research and development founded and controlled by Julian Salari, a former officer and former director of our company, which provides us with expertise in manufacturing certain generic drugs that are the basis of our planned products. The second, Virtus Clinical Development (Pty.) Limited is a South African firm that specializes in the planning and execution of clinical trials and has developed the clinical protocol of NK-001 on our behalf and entered into an agreement with us to conduct that clinical trial. The third, Northern Lipids Inc., assisted us to develop certain liposomal encapsulations for our development of NK-002. We anticipate that we will continue to rely on third parties to satisfy our research and development requirements until such time as it becomes cost effective to hire employees to satisfy those requirements.

Results of Operations

The following summary of our results of operations should be read in conjunction with our financial statements for the quarter ended October 31, 2012, which are included herein.

Our operating results for the three and nine months ended October 31, 2012 and 2011 are summarized as follows:

| | Three Months Ended October 31, | | Nine Months Ended October 31, | |
|------------------------------|---|-------------|--|--------------|
| | 2012 | 2011 | 2012 | 2011 |
| Revenue | \$ Nil | \$ Nil | \$ Nil | \$ Nil |
| Amortization | \$ 113 | \$ 113 | \$ 342 | \$ 341 |
| Foreign exchange (gain) loss | \$ (393) | \$ 1,944 | \$ (357) | \$ 3,489 |
| General and administrative | \$ 5,051 | \$ 132,249 | \$ 14,123 | \$ 262,934 |
| Management fees | \$ 15,000 | \$ 12,325 | \$ 45,000 | \$ 45,185 |
| Professional fees | \$ 4,811 | \$ 7,737 | \$ 34,115 | \$ 40,623 |
| Research and development | \$ Nil | \$ Nil | \$ Nil | \$ 48,541 |
| Net Income (Loss) | \$ (60,651) | \$ 129,573 | \$ 410,339 | \$ 2,378,087 |

For the three months ended October 31, 2012, our net income decreased by \$190,224 as compared to the three months ended October 31, 2011. For the nine months ended October 31, 2012, our net income decreased by \$1,967,748 as compared to the nine months ended October 31, 2011. Our income decreased primarily due to an increase in accretion of discount on convertible debt and a smaller gain on change in fair value derivative liability. Our net loss from inception is \$2,091,458.

Revenue

We have not earned any revenues since our inception and we do not anticipate earning revenues in the upcoming quarter.

Liquidity and Financial Condition

Working Capital

| | At | |
|---------------------------|-----------------------------|-----------------------------|
| | October 31, 2012 | January 31, 2012 |
| Current Assets | \$ 5,181 | \$ 2,061 |
| Current Liabilities | \$ 587,453 | \$ 866,265 |
| Working Capital (Deficit) | \$ (582,272) | \$ (864,204) |

Our total current assets as of October 31, 2012 were \$5,181 as compared to total current assets of \$2,061 as of January 31, 2012. The increase was primarily due to increased amounts receivable. Our total current liabilities as of October 31, 2012 were \$587,453 as compared to total current liabilities of \$866,265 as of January 31, 2012. The decrease in current liabilities was attributed to a decrease in fair value of derivative liabilities.

Cash Flows

| | Nine Months Ended | |
|---|--------------------------|--------------|
| | October 31, | |
| | 2012 | 2011 |
| Net Cash Provided by (Used) in Operating Activities | \$ (30,767) | \$ (132,381) |
| Net Cash Provided by (Used) in Financing Activities | \$ 30,000 | \$ 122,870 |
| Increase (Decrease) in Cash During the Period | \$ (767) | \$ (9,511) |

Operating Activities

Cash used by operating activities decreased from \$132,381 to \$30,767 as there is less cash provided by financing activities, which continues to limit our company's ability to repay its obligations.

Investing Activities

We did not have any investing activities during the nine months ended October 31, 2012 and 2011.

Financing Activities

The decrease in cash provided by financing activities during the nine month period ended October 31, 2012 continues to be primarily a result of less financing opportunities available in the marketplace.

We will require additional funds to fund our budgeted expenses over the next 12 months. These funds may be raised through equity financing, debt financing, or other sources, which may result in further dilution in the equity ownership of our shares. There is still no assurance that we will be able to maintain operations at a level sufficient for an investor to obtain a return on his investment in our common stock. Further, we may continue to be unprofitable. We need to raise additional funds in the immediate future in order to proceed with our budgeted expenses.

Specifically, we estimate our operating expenses and working capital requirements for the next 12 months to be as follows:

| Description | Estimated Expenses |
|------------------------------------|---------------------------|
| | \$ |
| Sales and Marketing Costs: | |
| Advertising | 3,600 |
| Investor Relations | 60,000 |
| Literature | 6,000 |
| Conference Attendance | 21,000 |
| Travel | 42,000 |
| Entertainment and Promotions | 2,400 |
| Marketing Costs | 115,000 |
| Operating Expenses: | |
| Professional Fees | 140,000 |
| Employee Salaries and Benefits | 384,000 |
| Office Equipment | 1,600 |
| Office Supplies | 1,200 |
| Office and Lab Lease | 40,000 |
| Telephone, Fax, Cellular, Internet | 6,000 |
| Vehicles and Transportation | 14,400 |
| Total | 837,200 |

Based on our planned expenditures, we will require additional funds of approximately \$837,200 to proceed with our business plan over the next 12 months. If we secure less than the full amount of financing that we require, we will not be able to carry out our complete business plan and we will be forced to proceed with a scaled back business plan based on our available financial resources.

Inflation

The amounts presented in the financial statements do not provide for the effect of inflation on our operations or financial position. The net operating losses shown would be greater than reported if the effects of inflation were reflected either by charging operations with amounts that represent replacement costs or by using other inflation adjustments.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with the accounting principles generally accepted in the United States of America. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. We believe that understanding the basis and nature of the estimates and assumptions involved with the following aspects of our financial statements is critical to an understanding of our financial statements.

Basis of Presentation

The financial statements and the related notes of our company are prepared in accordance with generally accepted accounting principles in the United States and are expressed in Canadian dollars. Our company's fiscal year-end is January 31.

Use of Estimates

The preparation of these financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Our company regularly evaluates estimates and assumptions related to the recoverability of long-lived assets, valuation of convertible debentures, assumptions used to determine the fair value of stock-based compensation and derivative liabilities, and deferred income tax asset valuation allowances. Our company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by our company may differ materially and adversely from our company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Cash and Cash Equivalents

Our company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents. As at October 31, 2012 and January 31, 2012, our company had no cash equivalents.

Property and Equipment

Property and equipment is comprised of office equipment and is recorded at cost. Our company amortizes the cost of equipment on a straight-line basis over their estimated useful life of five years.

Long-lived Assets

In accordance with ASC 360, "Property, Plant and Equipment", our company tests long-lived assets or asset groups for recoverability when events or changes in circumstances indicate that their carrying amount may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in the market price of the asset; significant adverse changes in the business climate or legal factors; accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of the asset; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and current expectation that the asset will more likely than not be sold or disposed significantly before the end of its estimated useful life. Recoverability is assessed based on the carrying amount of the asset and its fair value, which is generally determined based on the sum of the undiscounted cash flows expected to result from the use and the eventual disposal of the asset, as well as specific appraisal in certain instances. An impairment loss is recognized when the carrying amount is not recoverable and exceeds fair value.

Stock-Based Compensation

Our company records stock-based compensation in accordance with ASC 718, *Compensation – Stock-Based Compensation*, using the fair value method. All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable.

Derivative Financial Instruments

Derivative financial instruments that are not classified as equity and are not used in hedging relationships are measured at fair value. Subsequent changes to fair value are recorded in the statement of operations.

Basic and Diluted Net Loss Per Share

Our company computes net loss per share in accordance with ASC 260, *Earnings Per Share*. ASC 260 requires presentation of both basic and diluted earnings per share (“EPS”) on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti dilutive.

Comprehensive Loss

ASC 220, *Comprehensive Income*, establishes standards for the reporting and display of comprehensive loss and its components in the financial statements. As at October 31, 2012 and January 31, 2012, our company had no items representing comprehensive income or loss.

Research and Development Costs

Research costs are expensed in the period that they are incurred.

Financial Instruments and Fair Value Measures

ASC 820, *Fair Value Measurements*, requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument’s categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 prioritizes the inputs into three levels that may be used to measure fair value:

Level 1 - Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 - Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3 - Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

Our company’s financial instruments consist principally of cash, amounts receivable, accounts payable and accrued liabilities, amounts due to related parties, and convertible debentures. Pursuant to ASC 820, the fair value of our cash is determined based on “Level 1” inputs, which consist of quoted prices in active markets for identical assets. We believe that the recorded values of all of our other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

Foreign Currency Translation

Our company's functional currency and its reporting currency is the Canadian dollar and foreign currency transactions are primarily undertaken in United States dollars. Monetary assets and liabilities are translated using the exchange rate prevailing at the balance sheet date. Non-monetary assets and liabilities denominated in foreign currencies are translated at rates of exchange in effect at the date of the transaction. Expenses are translated at average rates for the period. Gains and losses arising on translation or settlement of foreign currency denominated transactions or balances are included in the determination of income.

Recent Accounting Pronouncements

Our company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

As a "smaller reporting company", we are not required to provide the information required by this Item.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures, as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934 (the "Exchange Act"), that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our president (our principal executive officer) and our chief financial officer (principal financial officer and principal accounting officer), as appropriate to allow timely decisions regarding required disclosure.

We carried out an evaluation, under the supervision and with the participation of our management, including our president (our principal executive officer) and our chief financial officer (principal financial officer and principal accounting officer), of the effectiveness of the design and operation of our disclosure controls and procedures as of quarter covered by this report. Based on the evaluation of these disclosure controls and procedures the president (our principal executive officer) and our chief financial officer (principal financial officer and principal accounting officer) concluded that our disclosure controls and procedures were not effective.

Changes in Internal Controls

During the quarter covered by this report there were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

We know of no material, existing or pending legal proceedings against us, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our company.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits
