Hemplix™ CBD oil was developed in Switzerland by Swiss pharmacists, using organically cultivated cannabis plants. The CBD oil is extracted using a specialized ultrasonic process at low temperatures before being dissolved in organic hempseed oil, reducing the bitter taste often found in CBD oil solutions. The Hemplix™ “Classic Natural Line” ranges from 6% CBD to 24% CBD and “flavoured” Hemplix™ products are available in cassis, cherry, coconut and orange. Additional products include a 6% CBD ointment and pure CBD globules. A vegan 3% CBD oil, gluten and lactose free, is also available for dogs and cats.

“We are pleased to partner with Pivot to develop, commercialize and co-market products across the globe. This Agreement represents a significant milestone for us,” said Pascal Siegrist and Claudio Iannuzzi, Directors of S.T.U. GmbH and the owners of the Hemplix™ brand. “Our products are carefully produced in Switzerland using 100% organic raw materials. The extraction process allows us to retain all of the beneficial properties of the cannabis plant, such as CBD, CBDA, as well as CBG and many other secondary plant ingredients. Pivot’s impressive product portfolio will be a welcome addition to the EU market. We look forward to introducing the “Pivot Naturals” brand of topical creams and lotions, oral solutions and capsules to our customers via our growing retail and online sales channels.”

“Claudio and Pascal have developed an outstanding portfolio of high-quality CBD-based products that are currently being sold in the EU with great consumer demand and customer satisfaction,” said Dr. Patrick Frankham, CEO of Pivot Pharmaceuticals. “Hemplix™ is a recognized Swiss-made brand which we will launch in the Americas. This Agreement also provides Pivot with immediate access to hundreds of retail outlets and millions of online consumers, in the largest cannabis market in the world, for our basket of Pivot Naturals products.”

Dr. Frankham continued, “As we continue to execute on our business plan, Pivot has positioned itself to have the largest portfolio of bio-cannabis based health and wellness derivatives in the industry. To date, our team has secured a strong intellectual property portfolio; completed development of scientifically-based and patented product formulations; established manufacturing facilities in Canada and California; and solidified branding, marketing and distribution in major markets. Pivot is now well positioned to rapidly gain market share in the cannabis market resulting in significant revenue beginning in Q4 2018.”

With a market of over 742 million people, and total healthcare spend of €2.3T, Europe is the largest medical cannabis market in the world. The European medical cannabis market could be worth €55B by 2023 once all markets have implemented legislation and market infrastructure. The European Industrial Hemp Association (EIHA), nova-Institute and HempConsult estimate that the European market for CBD as a pharmaceutical product is already worth €2b alone.¹
