ELIGIBILITY FOR INVESTMENT

In the opinion of Fasken Martineau DuMoulin LLP, counsel to the Company, based on the current provisions of the *Income Tax Act* (Canada) (the "**Tax Act**") and the regulations thereunder the Payment Shares, if issued on the date hereof and listed on a designated stock exchange (which currently includes the TSX) would be "qualified investments" under the Tax Act for trusts governed by a registered retirement savings plan ("**RRSP**"), a registered retirement income fund ("**RRIF**"), a registered education savings plan, a registered disability savings plan, a deferred profit sharing plan and a tax-free savings account ("**TFSA**"), each as defined in the Tax Act.

Notwithstanding that the Payment Shares may be qualified investments as described above, the holder of a trust governed by a TFSA or the annuitant under a RRSP or RRIF that holds Payment Shares will be subject to a penalty tax if such Payment Shares are a "prohibited investment" for the purposes of the Tax Act. The Payment Shares will generally not be a "prohibited investment" for these purposes unless the holder of the TFSA or the annuitant under the RRSP or RRIF, as applicable, (i) does not deal at arm's length with the Company for purposes of the Tax Act, or (ii) has a "significant interest" as defined in the Tax Act in the Company. In addition, the Payment Shares will generally not be a "prohibited investment" if the Payment Shares are "excluded property" as defined in the Tax Act for TFSAs, RRSPs or RRIFs. Holders or annuitants should consult their own tax advisors with respect to whether the Payment Shares would be prohibited investments having regard to their particular circumstances.

Other

On 14 November 2013, the Company announced that the Macquarie Bank Finance Facility (the “**Macquarie Facility**”) was amended to increase the amount available by US\$10,000,000, in two separate

US\$5,000,000 tranches (Tranche 3 and Tranche 4), increasing the total amount available under the Macquarie Facility to US\$30,000,000. The Macquarie Facility interest rate remains LIBOR plus a 5.0% margin; however, as a condition of drawing down on each US\$5,000,000 tranche a 0.5% gross revenue royalty on gold production from the Company's Ollachea gold project for the life of mine will be granted to Macquarie Bank ("**Macquarie Royalty**"). Once granted, the Company would have the right to buyback and cancel each tranche of the Macquarie Royalty by paying a buyback fee (the "**Buyback Fee**"). The Buyback Fee would be calculated as the amount required to generate an internal rate of return ("**IRR**") to Macquarie Bank of 25% for each tranche, but shall not be less than US\$2,500,000 for each 0.5% gross revenue royalty.

On 28 November 2013, the Company announced that Courtney Chamberlain, the Executive Chairman of the Company purchased 200,000 Ordinary Shares at a price of 9.00 pence per Ordinary Share, increasing his beneficial interest in the Company to 2.02% of the issued share capital of the Company as at that date.

On 24 December 2013, the Company announced it has entered into an agreement with Rio Tinto Mining and Exploration Limited ("**Rio Tinto**") to pay 100% of the first instalment of the US\$21,500,000 due to Rio Tinto by issuing Ordinary Shares to Rio Tinto. The first instalment is 34% of the total amount due to Rio Tinto in respect of the final Ollachea payment, or US\$7,310,000. The first instalment was satisfied by the Company on 28 January 2014 by issuing 44,126,780 Ordinary Shares at a price of \$0.179 per Ordinary Share. As a result of this issuance, Rio Tinto now owns approximately 19.44% of the Company on a non-diluted basis.

The payment terms on the final instalment, representing the remaining 66% of the total amount, or US\$14,190,000, due on 1 July 2016 remain unchanged. At the Company's election, up to 80% of the principal amount may still be settled in Ordinary Shares. The Company also has the right to settle up to 100% of the amounts outstanding to Rio Tinto in cash, at any time. Both instalments accrue interest at a rate of 7% per annum. The final instalment interest payments are payable, in cash, on the first day of July in 2014, 2015 and 2016, respectively.

Additionally, should Rio Tinto not sell any Ordinary Shares that it receives as consideration for the first instalment for a period of one year, Rio Tinto shall be entitled to a cash share hold incentive payment. The share hold incentive payment, which is subject to certain qualifying exceptions, will be equal to 10% of the market value of any Ordinary Shares provided as part of the payment of the first instalment.

There are no other outstanding payments due to Rio Tinto, or any other party, for the Ollachea Gold Project. The amount owing to Rio Tinto continues to be secured against the Ollachea mining tenements.

USE OF PROCEEDS

The Company has agreed to issue the Payment Shares to the Creditor, without further consideration, to settle an aggregate of \$343,250 of indebtedness for services provided by the Creditor to the Company. The purchase price payable by the Company for the settlement of the debt will be calculated based on the principal amount of the debt at time of the closing of the Shares-for-Debt Offering.

CONSOLIDATED CAPITALIZATION

Except as described herein, there have been no material changes in the Company's share and loan capital on a consolidated basis since 30 September 2013. On 10 October 2013 the Company issued 9,146,341 Ordinary Shares to Compañía Inversora de Minas S. A. at a price of US\$0.328 per Ordinary Share. On 28 January 2014 the Company issued 44,126,780 Ordinary Shares to Rio Tinto at a price of \$0.179 per Ordinary Share. On 7 November 2013, Tranche 3 of the Macquarie Facility, totalling \$5,000,000, was drawn by the Company and the corresponding 0.5% gross revenue royalty was registered against the Ollachea property in favour of Macquarie Bank.

PLAN OF DISTRIBUTION

The Payment Shares are being issued at a Price of \$0.1790 (£0.10 per ordinary share, converted at the Bank of Canada daily noon rate on 29 January 2014 and rounded to the nearest penny) per Payment Share. The Price was determined by negotiation between the Company and the Creditor and is equal to the volume weighted average price per share of the Ordinary Shares on the TSX for the five trading days immediately preceding December 20, 2013 and is the price per share which the Company issued Ordinary Shares to Rio Tinto in satisfaction of the first instalment of the final Ollachea payment, as described under “Recent Developments - Other”. The closing of the Shares-for-Debt Offering will take place on or about 31 January 2014.

As required by the Company’s Articles of Association, the shareholders of the Company must approve, by way of an ordinary resolution (requiring simple majority approval), the issuance of the Payment Shares. The Company’s Articles of Association provide the shareholders of the Company with a pre-emptive right in respect of the issuance of any Ordinary Shares. Shareholder approval by way of a special resolution of shareholders must also be sought for the waiver of the application of such pre-emptive rights in connection with the issuance of the Payment Shares. The approvals described above were sought at an Annual General Meeting of the shareholders of the Company held on 10 July 2013, where such approvals were obtained.

The Payment Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws, and may not be offered or sold within the United States, except in transactions exempt from the registration requirements of the U.S. Securities Act and applicable state securities laws.

Until 40 days after the commencement of this Shares-for-Debt Offering, an offer or sale of the Payment Shares in the United States by any dealer (whether or not participating in this Shares-for-Debt Offering) may violate the registration requirements of the U.S. Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from such registration requirements.

The Company has received conditional approval from the TSX for the listing of the Payment Shares on the TSX. The Company has applied for the admission of such shares to trading on AIM and will apply for the admission of such shares on the BVL. Listing will be subject to the Company fulfilling all listing requirements of the TSX and requirements for admission to trading on AIM and the BVL.

DESCRIPTION OF SECURITIES BEING DISTRIBUTED

The authorized share capital of the Company consists of an unlimited number of Ordinary Shares of no par value, of which, as at the date hereof, there are 226,951,005 Ordinary Shares issued and outstanding.

All of the issued Ordinary Shares are fully paid and are not subject to any future call or assessment. The Ordinary Shares are without par value and entitle the holders thereof to receive notice of, attend and vote at all meetings of shareholders of the Company. Each Ordinary Share carries one vote at such meetings. All Ordinary Shares rank equally as to dividends, voting powers and participation in assets upon a dissolution or winding up of the Company.

While there is no pre-emptive right pursuant to the Jersey Companies Law, the Company’s Articles of Association provide for pre-emptive rights on the issuance of relevant securities, including Ordinary Shares. Apart from certain exceptions for the issuance of relevant securities for consideration other than cash and relevant securities issued pursuant to an employee share scheme, if the Company proposes to allot relevant securities or rights thereto, the Company must first make an offer to each shareholder of the Company to allot to them, on the same or more favourable terms, a proportion of those securities in proportion to their respective shareholding. A shareholder shall have at least 21 days to accept or reject such offer. Shareholders may, by special resolution, resolve to dis-apply the pre-emption rights in respect of certain allotments of relevant securities or otherwise apply the right to an allotment with such modifications as may be specified in the resolution. At the Company’s Annual General Meeting held on 10 July 2013, the Company’s shareholders authorized the issuance of 130,258,413 Ordinary Shares. With respect to these 130,258,413 Ordinary Shares, the shareholders of the Company have waived their pre-emptive rights. On 17 May 2013, the Company issued 425,000 options, subject to the approval of the Company’s stock option plan which was obtained at the Company’s Annual General Meeting. If the Company

intends to issue Ordinary Shares in excess of 76,560,292, it will require an additional waiver of the pre-emptive right by shareholders or it will have to comply with the pre-emptive right.

As of the date hereof, options to acquire 30,796,525 Ordinary Shares at an average exercise price of approximately \$1.18 are outstanding.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Fasken Martineau DuMoulin LLP, counsel to the Company, the following is, as of the date of this Prospectus Supplement, a summary of the principal Canadian federal income tax considerations under the Tax Act that generally apply to holders who acquire beneficial ownership of Payment Shares under the Shares-for-Debt Offering. This summary assumes that the Company is not resident in Canada for the purposes of the Tax Act. This summary is applicable only to a holder who, at all relevant times, for the purposes of the Tax Act: (i)

deals at arm's length and is not affiliated with the Company; (ii) who acquires and holds the Payment Shares as capital property; and (iii) who is or is deemed to be a resident of Canada (a "**Canadian Holder**"). Payment Shares will generally be considered to be capital property to a Canadian Holder unless the Canadian Holder holds such shares in the course of carrying on a business or has acquired them in a transaction or transactions considered to be an adventure or concern in the nature of trade for the purposes of the Tax Act.

This summary does not apply to a Canadian Holder: (i) that is a "financial institution" as defined in the Tax Act for purposes of the mark-to-market rules; (ii) that is a "specified financial institution" as defined in the Tax Act; (iii) an interest in which would be a "tax shelter investment" for the purposes of the Tax Act; (iv) in respect of whom the Company would be a "foreign affiliate" for the purposes of the Tax Act; (v) that has made a functional currency election under section 261 of the Tax Act; or (vi) that has entered into a "derivative forward agreement" with respect to Payment Shares, as defined in the Tax Act. Additional considerations, not discussed herein, may be applicable to a Canadian Holder that is a corporation that is, or becomes as part of a transaction or event or series of transactions or events that includes the acquisition of Payment Shares, controlled by a non-resident corporation for the purposes of the foreign affiliate dumping rules in section 212.3 of the Tax Act. Such purchasers should consult their own tax advisors.

This summary is based upon the current provisions of the Tax Act and regulations thereunder in force as of the date hereof, all specific proposals (the "**Proposed Amendments**") to amend the Tax Act that have been publicly announced by, or on behalf of, the Minister of Finance (Canada) prior to the date hereof and counsel's understanding of the current published administrative policies and assessing practices of the Canada Revenue Agency ("**CRA**") that are publicly available. No assurance can be given that any Proposed Amendments will be enacted in their current proposed form, or at all. This summary does not take into account or anticipate any other changes to the law, whether by legislative, governmental or judicial decision or action, nor does it take into account provincial, territorial or foreign income tax legislation or considerations, which may differ from the Canadian federal income tax considerations. Generally, for the purposes of the Tax Act, all amounts relating to the acquisition, holding and disposition of Payment Shares (including dividends, adjusted cost base and proceeds of disposition) must be expressed in Canadian dollars. Amounts denominated in a foreign currency must be converted into Canadian dollars based on the exchange rates as determined in accordance with the Tax Act.

This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any particular Holder and no representations with respect to the income tax consequences to any particular Holder or a prospective Holder is made. Prospective holders should consult their own tax advisors for advice with respect to the tax consequences to them of acquiring, holding and disposing of Payment Shares, having regard to their particular circumstances. The discussion below is qualified accordingly.

This summary does not discuss the Canadian federal income tax consequences applicable to prospective purchasers of Payment Shares resulting from the sale or settlement of the debt owed to them by the Company pursuant to the Shares-for-Debt-Offering. Such prospective purchasers of Payment Shares should consult their own tax advisors for advice with respect to the tax consequence to them, having regard to their particular circumstances.

Dividends

Dividends received (or deemed to be received) on the Payment Shares, including the amount of any taxes withheld thereof, will be included in computing the Canadian Holder's income. In the case of a Canadian Holder that is an individual, as the Company is not a Canadian corporation, such dividends will not be subject to the gross-up and dividend tax credit rules that apply to taxable dividends received from taxable Canadian corporations (as defined in the Tax Act). In the case of a Canadian Holder that is a corporation, such dividends will not be deductible in computing the taxable income of the holder under the rules that generally apply to dividends received from taxable Canadian corporations.

Subject to the detailed rules in the Tax Act, a Canadian Holder may be entitled to a foreign tax credit or deduction for any foreign withholding tax paid with respect to dividends that the Canadian Holder receives on Payment Shares.

Disposition of Payment Shares

A disposition or deemed disposition by a Canadian Holder of Payment Shares will generally give rise to a capital gain (or capital loss) equal to the amount by which the proceeds of disposition, net of any reasonable costs of disposition, are greater (or less) than such Canadian Holder's adjusted cost base of such shares. The adjusted cost base to a Canadian Holder of Payment Shares acquired pursuant to this Shares-for-Debt Offering will be determined by averaging the cost of such Payment Shares with the adjusted cost base of any other shares of the same class owned by the Canadian Holder as a capital property at such time.

One-half of any capital gain will be included in income as a taxable capital gain and one-half of any capital loss may normally be deducted as an allowable capital loss against taxable capital gains realized in the taxation year of disposition. Any unused allowable capital losses may be applied to reduce net taxable capital gains realized in the three preceding taxation years or any subsequent taxation year, subject to the detailed provisions of the Tax Act in that regard. Subject to the detailed rules in the Tax Act, a Canadian Holder may be entitled to a foreign tax credit or deduction for any foreign tax paid with respect to gains that the Canadian Holder realizes on a disposition of Payment Shares. Prospective Canadian Holders should consult their own tax advisors with respect to the availability of a foreign tax credit or deduction, having regard to their own particular circumstances.

Other Taxes

A Canadian Holder that is throughout the relevant taxation year a "Canadian-controlled private corporation" (as defined in the Tax Act) also may be liable to pay an additional refundable tax of 6 2/3% on its "aggregate investment income" for the year, including taxable capital gains realized on a disposition (or deemed disposition) of Payment Shares. This refundable tax generally will be refunded to a corporate holder at the rate of \$1 for every \$3 of taxable dividends paid by such Canadian Holder while it is a private corporation.

Individuals and certain trusts may be subject to alternative minimum tax in respect of realized capital gains as calculated in accordance with the detailed rules set out in the Tax Act.

Foreign Property Information Reporting

A Canadian Holder that is a "specified Canadian entity" for a taxation year or a fiscal period and whose total "cost amount" of "specified foreign property" (as such terms are defined in the Tax Act), including Payment Shares, at any time in the year or fiscal period exceeds \$100,000 will be required to file an information return for the year or period disclosing prescribed information. Subject to certain exceptions, a Canadian Holder will generally be a specified Canadian entity.

In the 2013 Federal Budget, the Minister of Finance (Canada) proposed that the existing reporting requirements with respect to "specified foreign property" be expanded so that more detailed information is available for audit use. Revised reporting requirements reflecting this proposal were released on June 25, 2013. Prospective investors should consult their own tax advisors regarding the applicability of these rules, including any expansion thereof pursuant to the 2013 Federal Budget, to their own particular circumstances.

Offshore Investment Fund Property Rules

The Tax Act may, in certain circumstances, require a Canadian Holder to include an amount in income in each taxation year in respect of the acquisition and holding of Payment Shares, if:

- (a) the value of such shares may reasonably be considered to be derived, directly or indirectly, primarily from portfolio investments in: (i) shares of one or more corporations, (ii) indebtedness or annuities, (iii) interests in one or more corporations, trusts, partnerships, organizations, funds or entities, (iv) commodities, (v) real estate, (vi) Canadian or foreign resource properties, (vii) currency of a country other than Canada, (viii) rights or options to acquire or dispose of any of the foregoing, or (ix) any combination of the foregoing ("**Investment Assets**"); and

- (b) it may reasonably be concluded that one of the main reasons for the Canadian Holder acquiring or holding Payment Shares was to derive a benefit from portfolio investments in Investment Assets in such a manner that the taxes, if any, on the income, profits and gains from such Investment Assets for any particular year are significantly less than the tax that would have been applicable under Part I of the Tax Act if the income, profits and gains had been earned directly by the holder.

If applicable, these rules would generally require a Canadian Holder to include in income for each taxation year in which such holder holds the Payment Shares, an imputed amount determined by applying a prescribed rate of interest to the “designated cost” (as defined for purposes of the offshore investment fund property rules) to the holder of the Payment Shares at the end of each month in the year, less the amount of income for the year (other than a capital gain) of the holder from the Payment Shares. Any amount required to be included in computing a Canadian Holder’s income in respect of an Payment Share under these rules would be added to the adjusted cost base to the holder of such Payment Share.

These rules are complex and their application depends, in part, on the reasons for a Canadian Holder acquiring or holding Payment Shares. Prospective investors are urged to consult their own tax advisors regarding the application and consequences of these rules in their own particular circumstances.

Risks related to the Shares-for-Debt Offering

Additional issuances of Ordinary Shares may result in dilution

Future Sales of Ordinary Shares by the Creditor

The sale of a substantial number of Ordinary Shares by the Creditor in the public market, could cause the trading price of the Ordinary Shares to decrease, even substantially. In addition, the perception among the public that such sale may occur could also result in a reduction in the trading price of the Ordinary Shares.

A decline in the price of the Ordinary Shares could affect the Company's ability to raise further working capital and adversely impact operations

A decline in the trading price of the Ordinary Shares could result in a reduction in the liquidity of the Ordinary Shares and a reduction in the Company's ability to raise additional capital for its operations. A decline in the trading price of the Ordinary Shares could have an adverse effect upon the Company's liquidity and continued operations. A reduction in the Company's ability to raise equity capital in the future would have a material adverse effect upon the business plan and operations, including the Company's ability to continue current operations. If the Ordinary Share price declines, the Company may not be able to raise additional capital or generate funds from operations sufficient to meet its obligations.

NON-GAAP PERFORMANCE MEASURES

“Cash operating cost” figures are calculated in accordance with standards developed by The Gold Institute, which was a worldwide association of suppliers of gold and gold products and included leading North American gold producers. The Gold Institute ceased operations in 2002, but the standard is the accepted standard of reporting cash costs of production in North America. Adoption of the standard is voluntary and the cost measures presented in this Prospectus may not be comparable to other similarly titled measures of other companies. Cash operating costs include mine site operating costs such as mining, processing and administration, but are exclusive of depreciation and amortization, reclamation, capital, development, exploration costs, royalties, taxes (including workers profit participation) and regional and environmental community costs. These costs are then divided by ounces sold to arrive at the cash operating cost per ounce. Management believes this information is useful to investors because this measure is considered to be a key indicator of a company’s ability to generate operating earnings and cash flow from its mining operations. Management uses cash operating cost as a key performance indicator to assess the performance of mining operations. Management compares the cash operating cost of mining operations on a monthly basis. This data is furnished to provide additional information and is a non-GAAP and non-

IFRS measure which does not have any standardized meaning prescribed by GAAP or IFRS and is therefore unlikely to be comparable to similar measures presented by other issuers. It should not be considered in isolation as a substitute for measures of performance prepared in accordance with Canadian GAAP or IFRS and is not necessarily indicative of operating costs presented under Canadian GAAP or IFRS. Costs of Sales is the most directly comparable GAAP financial measure to the non-GAAP financial measure of cash operating cost. See the reconciliation table under “Recent Developments – Corihuarmi Gold Mine”.

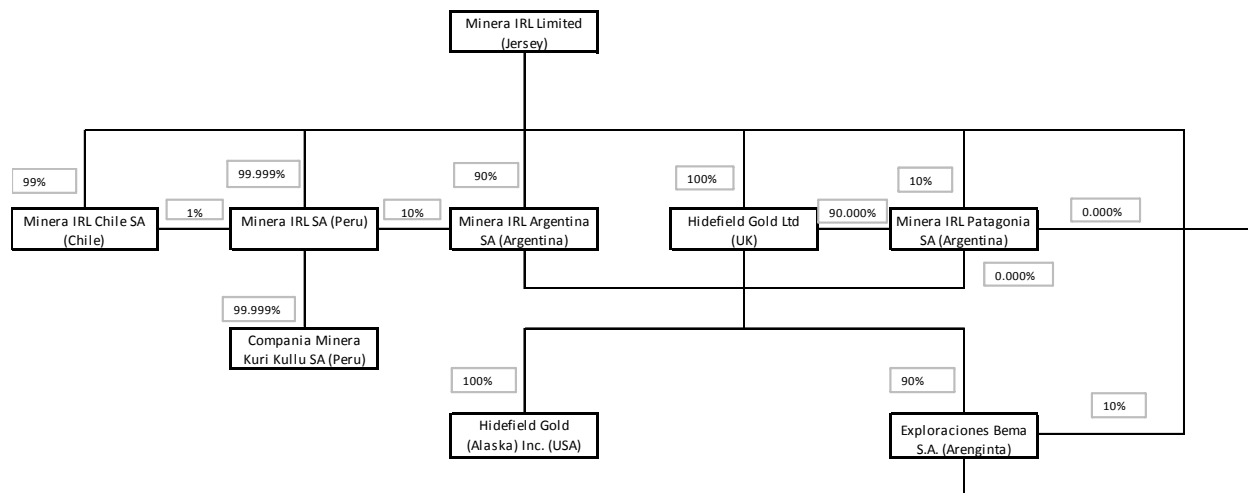

THE COMPANY

Minera was incorporated in the Cayman Islands on 27 August 2003 as “Goldmin Holdings” under the Cayman Islands Companies Law (2003 Revision) as an exempted company.

Don Nicolás Project

The Don Nicolás Project is located in the Santa Cruz Province of Argentina. The Company acquired the Don Nicolás Project in December 2009 as part of the Company's acquisition of Hidefield Gold Plc (as Hidefield Gold Ltd. was then known) pursuant to a take-over bid, completed via a scheme of arrangement. The following information has been derived from and is based on the assumptions, qualifications and procedures set out in the technical report entitled "Technical Report Feasibility Study Don Nicolás Gold Project, Santa Cruz Province, Argentina" dated 14 February 2012 (the "**Don Nicolás Technical Report**") prepared by Callum Grant, P.Eng., Hassan Ghaffari, P.Eng., André DeRuijter, Pr. Eng (RSA), P.Eng., and Steven Osterberg, P.Geo. (USA), of Wardrop (a Tetra Tech Company); Doug Corley, MAIG R.P. Geo. of Coffey Mining Pty Ltd (Australia); Carlos Guzmán, Registered Member Chilean Mining Commission (Chile), of NCL Ingeniería y Construcción Ltda; Alistair Cadden, C.Eng. (UK), of Golder Associates Argentina SA; and Tony Sanford, Pr. Sci. Nat. (South Africa), of Ausenco Vector, each of whom is a "qualified person" and "independent" as those terms are defined in NI 43-101. For full technical details, reference should be made to the complete text of the Don Nicolás Technical Report which has been filed with the various securities regulatory authorities in certain of the Provinces of Canada and is available on SEDAR under the Company's profile at www.sedar.com.

The Don Nicolás Project is located in Santa Cruz Province, Argentina. A feasibility study was completed in February 2012 with the objective of developing an open pit gold mine and treatment plant by fourth quarter 2013.

The Don Nicolás feasibility study is based on a NI 43-101 compliant "High Grade" (above a 1.6g/t gold cut-off) Measured and Indicated Resource totalling 1.5 million tonnes, grading 6.0g/t gold and 13g/t silver containing 280,000 ounces gold and 630,000 ounces silver. Mine design and production scheduling on this resource has resulted in Proven and Probable Mineral Reserves of 1.2 million tonnes grading 5.1g/t gold and 10g/t silver containing 197,000 ounces gold and 401,000 ounces silver (contained within the reported Measured and Indicated Resource).

An all open pit mining scenario has been adopted with ore production from two districts, Martinetas and La Paloma (location of the Sulfuro Vein), located approximately 50 km apart. The conventional crush, grind and carbon-in-leach (CIL) treatment plant at Martinetas will be designed to have a rate of 350,000 tonnes per annum providing a mine life of 3.6 years. Average annual steady state gold and silver production will be 52,400 ounces and 56,000 ounces respectively at a cash operating cost of US\$528 per ounce after silver credits. From the reserves outlined to date, peak production is scheduled to occur in Year 2 of operation at 63,800 ounces of gold and 92,200 ounces of silver. Logistics are excellent, with close proximity to a major highway. An adequate supply of ground water has been defined.

Key performance and economic indicators are shown in following table.

On 28 March 2012, the Company's wholly owned subsidiary, Minera IRL Patagonia SA, executed a lease agreement (the "**Lease Agreement**") with the owner of surface rights to a property known as La Paloma ranch, a 19,000 hectare parcel which overlaps some of the mineral rights of the Don Nicolás Project. The Lease Agreement provides Minera IRL Patagonia SA access to the La Paloma Ranch for the purpose of exploration, exploitation, production, use of water, line pipes and transmission lines. The Lease Agreement is for a period of 20 years.

On May 16, 2012, the Company announced the commencement of the permitting process for the Don Nicolás Project.

Ollachea Project

The Company continues to progress the Ollachea Feasibility Study and this is expected to be completed during the second half of 2012. Part of the Feasibility Study includes limited final resource in-fill drilling to further validate the current resource for any potential project debt financing. This drilling was completed during the second quarter 2012. An updated resource estimate was expected to be completed by the Company's resource consultants, Coffey Mining Pty Ltd, during the second quarter 2012; however, the completion of the resource update is now expected to be completed during the third quarter 2012.

On June 7, 2012, the Company announced that the Ollachea community has extended the surface rights agreement (the "**Surface Rights Agreement**") for the Ollachea Project for a period of 30 years. The Surface Rights Agreement also ratifies the commitment in the surface rights agreement signed in 2007 to grant the Ollachea community a 5% equity participation in Minera Kuri Kulla SA, which holds the Ollachea leases.

March 2012 Prospectus Offering

On March 5, 2012, the Company announced it had completed a best efforts offering of ordinary shares (the "Shares") of the Company at a price of \$1.13 per Share. The Company issued 29,260,000 Shares pursuant to this offering (including the over-allotment option) and raised gross proceeds of \$33.1 million. The principal use of the

net proceeds of this offering were to assist the Company in funding the exploration and development costs for the next 12 months on its portfolio of properties and in particular, the Ollachea Project and the Don Nicolás Project and for working capital and other general corporate purposes.

USE OF PROCEEDS

Unless otherwise specified in a Prospectus Supplement, the net proceeds from the sale of the Securities will be used to assist the Company in funding the development costs of the Ollachea Project and the Don Nicolás Project and exploration costs on its portfolio of properties. The balance of the net proceeds from the sale of the Securities, if any, will be used for other general corporate purposes and working capital. Each Prospectus Supplement will contain specific information concerning the use of proceeds from that sale of Securities.

All expenses relating to an offering of Securities and any compensation paid to underwriters, dealers or agents, as the case may be, will be paid out of the Company's general funds, unless otherwise stated in the applicable Prospectus Supplement.

CONSOLIDATED CAPITALIZATION

Except as described herein, there have been no material changes in the Company's share and loan capital on a consolidated basis since 31 December 2011.

On 5 March 2012, 29,260,000 Ordinary Shares were issued pursuant to a prospectus offering.

PLAN OF DISTRIBUTION

The Company may sell the Securities, separately or together, to or through underwriters or dealers purchasing for public offering and sale by them, and may also sell Securities to one or more other purchasers directly or through agents. Each Prospectus Supplement will set forth the terms of the offering, including the name or names of any underwriters, dealers or agents and any fees or compensation payable to them in connection with the offering and sale of a particular series or issue of Securities, the public offering price or prices of the Securities and the proceeds to Minera from any sale of the Securities.

The Securities may be sold, from time to time in one or more transactions at a fixed price or prices which may be changed or at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices, including sales in transactions that are deemed to be "at-the-market distributions" as defined in National Instrument 44-102 – *Shelf Distributions*, including sales made directly on the TSX, AIM, BVL or other trading markets for the Securities which may exist from time to time. The prices at which the Securities may be offered may vary as between purchasers and during the period of distribution. If, in connection with the offering of Securities at a fixed price or prices, the underwriters have made a *bona fide* effort to sell all of the Securities at the initial offering price fixed in the applicable Prospectus Supplement, the public offering price may be decreased thereafter, from time to time, to an amount not greater than the initial public offering price fixed in such Prospectus Supplement, in which case the compensation realized by the underwriters will be decreased by the amount that the aggregate price paid by purchasers for the Securities is less than the gross proceeds paid by the underwriters to Minera.

Underwriters, dealers and agents who participate in the distribution of the Securities may be entitled under agreements to be entered into with the Company to indemnification by the Company against certain liabilities, including liabilities under Canadian securities legislation, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof. The Securities have not been and will not be registered under the U.S. Securities Act or any state securities laws, and may not be offered or sold within the United States, or to or for the account or benefit of a U.S. Person or person in the United States, except in transactions exempt from the registration requirements of the U.S. Securities Act and applicable state securities laws. Each underwriter, dealer or agent will agree that it (or the U.S. broker-dealer affiliate of such underwriter, dealer or agent which conducts offers and sales in the United States or to or for the account or benefit of a U.S. Person or person in the United States) will not offer or sell the Securities within the United States, or to or for the account or benefit of a U.S. Person or person in the United States, except in accordance with exemptions from the registration requirements under the U.S. Securities Act and applicable state securities laws.

With respect to the United Kingdom, any offering of securities pursuant to this Prospectus together with a Prospectus Supplement will only be, and may only be, made to, and any Prospectus Supplement (together with this Prospectus) will only be, and may only be, distributed to and be directed at (i) persons outside the United Kingdom; or (ii) persons in the United Kingdom who are both (a) a “Qualified Investor” within the meaning of Section 86(7) of the FSMA and (b) within the categories of persons referred to in Article 19(5) (Investment professionals) or Article 49(2)(a) to (d) (High net worth companies, unincorporated associations etc.) of the Financial Promotion Order, or (iii) persons in the United Kingdom to whom the offering of securities may otherwise be made or to whom the offering of securities may otherwise be directed in the United Kingdom without an approved prospectus having been made available to the public in the United Kingdom before the offering of securities is made, and without making an unlawful financial promotion, all such persons together being referred to as “relevant persons”. Unless otherwise stated in any Prospectus Supplement, any securities being offered under this Prospectus together with any Prospectus Supplement will only be available to, and any invitation, offer or agreement to subscribe, purchase or otherwise acquire such securities will be engaged in only with, relevant persons. Unless otherwise stated in any Prospectus Supplement, any person who is not a relevant person should not act or rely on this Prospectus or any Prospectus Supplement or any of their respective contents. Unless otherwise stated in any Prospectus Supplement, this Prospectus and any Prospectus Supplement is not and will not be an “approved prospectus” within the meaning of Section 85(7) of FSMA, has not been and will not be prepared in accordance with the prospectus rules contained in the FSA handbook published and updated from time to time by the FSA (acting in its capacity as the United Kingdom Listing Authority of the FSA), and its contents have not been nor will be examined or approved by the FSA or London Stock Exchange plc, nor has it been nor will it be approved by an “authorised person” for the purposes of Section 21 of FSMA.

In connection with the offering of any Securities, other than an “at-the-market distribution”, the underwriters may over-allot or effect transactions which stabilize or maintain the market price of the Securities offered at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

EARNINGS COVERAGE RATIO

The following consolidated financial earnings coverage ratio is calculated for the year ended 31 December 2011 and gives effect to all long-term financial liabilities of the Company and the repayment, redemption or retirement thereof since that date and all serving costs incurred or expected to be incurred in connection with the same. The earnings coverage ratio, and the amount of earnings and interest expense set forth below do not purport to be indicative of earnings coverage ratios for any future periods. The earnings coverage ratio has been calculated based on IFRS. This coverage ratio, earnings or interest expenses do not give effect to the issuance of any Debt Securities that may be issued pursuant to any Prospectus Supplement, since the aggregate principal amounts and the terms of such Debt Securities are not presently known.

	12 months ended 31 December 2011
Earnings Coverage Ratio	39.4

Minera's interest expense requirements amounted to U.S.\$418,000 for the year ended 31 December 2011. Minera's net income before interest expense and income tax for the year ended 31 December 2011 was U.S.\$16,481,000, which is 39.4 times Minera's interest requirements for this period.

If the Company offers any Debt Securities having a term to maturity in excess of one year under a Prospectus Supplement, the Prospectus Supplement will include earnings coverage ratios giving effect to the issuance of such Debt Securities.

DESCRIPTION OF ORDINARY SHARES

The authorized share capital of the Company consists of an unlimited number of Ordinary Shares of no par value, of which, as at the date hereof, there are 151,902,884 Ordinary Shares issued and outstanding.

All of the issued Ordinary Shares are fully paid and are not subject to any future call or assessment. Each Ordinary Share carries one vote at such meetings. All Ordinary Shares rank equally as to dividends, voting powers and participation in assets upon a dissolution or winding up of the Company.

While there is no pre-emptive right pursuant to the Jersey Companies Law, the Company's Articles of Association provide for pre-emptive rights on the issuance of relevant securities, including Ordinary Shares. Apart from certain exceptions for the issuance of relevant securities for consideration other than cash and relevant securities issued pursuant to an employee share scheme, if the Company proposes to allot relevant securities or rights thereto, the Company must first make an offer to each shareholder of the Company to allot to them, on the same or more favourable terms, a proportion of those securities in proportion to their respective shareholding. A shareholder shall have at least 21 days to accept or reject such offer. Shareholders may, by special resolution, resolve to dis-apply the pre-emption rights in respect of certain allotments of relevant securities or otherwise apply the right to an allotment with such modifications as may be specified in the resolution. At the Company's annual general meeting held on 14 September 2011, the Company's shareholders authorized the issuance of 59,791,442 Ordinary Shares. DESCRIPTION OF DEBT SECURITIES

This description sets forth certain general terms and provisions that could apply to any Debt Securities that Minera may issue pursuant to this Prospectus. Minera will provide particular terms and provisions of a series of Debt Securities, and a description of how the general terms and provisions described below may apply to that series, in a Prospectus Supplement.

Unless the applicable Prospectus Supplement otherwise indicates, the Debt Securities may be issued under an indenture (the "**Indenture**") to be entered into between Minera as Issuer and one or more trustees (the "**Trustee**") that will be named in a Prospectus Supplement to this prospectus. The following summary highlights some of the provisions of the Indenture, and may not contain all of the information that is important to you. The applicable Prospectus Supplement will include details of the Indenture, if any, governing the Securities being offered. The specific terms of the Securities, and the extent to which the general terms described in this section apply to those Securities, will be set out in the applicable Prospectus Supplement. The term "Securities" as used under this section "Description of Debt Securities", refers to all securities issued under the Indenture, including the Debt Securities.

Minera may issue Debt Securities and incur additional indebtedness otherwise than through the offering of any Debt Securities pursuant to this Prospectus.

General

The Indenture does not limit the amount of Debt Securities which Minera may issue under the Indenture, and Minera may issue Securities in one or more series. Securities may be denominated and payable in any currency. Minera may offer no more than \$80,000,000 (or the equivalent in other currencies) aggregate principal amount of Securities pursuant to this Prospectus. Unless otherwise indicated in the applicable Prospectus Supplement, the Indenture permits Minera, without the consent of the holders of any Securities, to increase the principal amount of any series of Debt Securities Minera has previously issued under the Indenture and to issue such increased principal amount.

The applicable Prospectus Supplement will set forth the following terms relating to the Debt Securities offered by such Prospectus Supplement (the “**Offered Securities**”):

- the specific designation of the Offered Securities; any limit on the aggregate principal amount of the Offered Securities; the date or dates, if any, on which the Offered Securities will mature and the portion (if less than all of the principal amount) of the Offered Securities to be payable upon declaration of acceleration of maturity;
- the rate or rates at which the Offered Securities will bear interest, if any, the date or dates from which any such interest will accrue and on which any such interest will be payable and the record dates for any interest payable on the Offered Securities which are in registered form;

- whether the Offered Securities will be issuable in the form of registered global securities (“**Global Securities**”), and, if so, the identity of the depositary for such registered Global Securities;

- any other terms of the Offered Securities which apply solely to the Offered Securities, or terms generally applicable to the Debt Securities which are not to apply to the Offered Securities.

Unless otherwise indicated in the applicable Prospectus Supplement:

- holders may not tender Offered Securities to Minera for repurchase; and
- the rate or rates of interest on the Offered Securities will not increase if Minera becomes involved in a highly leveraged transaction or Minera is acquired by another entity.

Minera may issue Debt Securities and other Securities under the Indenture bearing no interest or interest at a rate below the prevailing market rate at the time of issuance and, in such circumstances, Minera will offer and sell those Debt Securities at a discount below their stated principal amount. Minera will describe in the applicable Prospectus Supplement any Canadian federal income tax consequences and other special considerations applicable to any discounted Debt Securities or other Debt Securities offered and sold at par which are treated as having been issued at a discount for Canadian federal income tax purposes.

Unless otherwise provided in the applicable Prospectus Supplement, any Debt Securities issued by Minera will be direct, unconditional and unsecured obligations of Minera and will rank equally among themselves and with all of Minera's other unsecured, unsubordinated obligations, except to the extent prescribed by law. Debt Securities issued by Minera will be structurally subordinated to all existing and future liabilities, including trade payables and other indebtedness, of Minera's subsidiaries.

Form, Denomination, Exchange and Transfer

Unless otherwise indicated in the applicable Prospectus Supplement, Minera will issue Debt Securities only in fully registered form without coupons, and in denominations of \$1,000 and multiples of \$1,000. Debt Securities may be presented for exchange and registered Debt Securities may be presented for registration of transfer in the manner set forth in the Indenture and in the applicable Prospectus Supplement, without service charges. Minera may, however, require payment sufficient to cover any taxes or other governmental charges due in connection with the exchange or transfer. Minera will appoint the Trustee as security registrar. Bearer Securities and the coupons applicable to bearer Securities thereto will be transferable by delivery.

Payment

Unless otherwise indicated in the applicable Prospectus Supplement, Minera will make payments on registered Debt Securities (other than Global Securities) at the office or agency of the Trustee, except that Minera may choose to pay interest (a) by cheque mailed to the address of the person entitled to such payment as specified in the security registrar or (b) by wire transfer to an account maintained by the person entitled to such payment as specified in the security registrar. Unless otherwise indicated in the applicable Prospectus Supplement, Minera will pay any interest due on registered Debt Securities to the persons in whose name such registered Debt Securities are registered on the day or days specified by Minera.

Registered Global Securities

Registered Debt Securities of a series may be issued in whole or in part in global form that will be deposited with, or on behalf of, a depositary identified in the Prospectus Supplement. Global Securities will be registered in the name of a financial institution that Minera selects, and the Debt Securities in the Global Securities may not be transferred to the name of any other direct holder unless the special circumstances described below occur. The financial institution that acts as the sole direct holder of the Global Securities is called the "Depositary". Any person wishing to own Debt Securities issued in the form of Global Securities must do so indirectly by virtue of an account with a broker, bank or other financial institution that, in turn, has an account with the Depositary.

Special Investor Considerations for Global Securities

Minera's obligations, as well as the obligations of the Trustee and those of any third parties employed by Minera or the Trustee, run only to persons who are registered as holders of Debt Securities. For example, once Minera makes payment to the registered holder, Minera has no further responsibility for the payment even if that holder is legally required to pass the payment along to an investor but does not do so. As an indirect holder, an investor's rights relating to a Global Security will be governed by the account rules of the investor's financial institution and of the Depositary, as well as general laws relating to Debt Securities transfers.

An investor should be aware that when Debt Securities are issued in the form of Global Securities:

- the investor cannot have Debt Securities registered in his or her own name;
- the investor cannot receive physical certificates for his or her interest in the Debt Securities;
- the investor must look to his or her own bank or brokerage firm for payments on the Debt Securities and protection of his or her legal rights relating to the Debt Securities;
- the investor may not be able to sell interests in the Debt Securities to some insurance companies and other institutions that are required by law to hold the physical certificates of Debt Securities that they own;
- the Depositary's policies will govern payments, transfers, exchange and other matters relating to the investor's interest in the Global Security. Minera and the Trustee will have no responsibility for any aspect of the Depositary's actions or for its record of ownership interests in the Global Security. Minera and the Trustee also do not supervise the Depositary in any way; and
- the Depositary will usually require that interests in a Global Security be purchased or sold within its system using same-day funds.

Special Situations When Global Security Will be Terminated

In a few special situations described below, a Global Security will terminate and interests in it will be exchanged for physical certificates representing Debt Securities. After that exchange, an investor may choose whether to hold Debt Securities directly or indirectly through an account at its bank or brokerage firm. Investors must consult their own banks or brokers to find out how to have their interests in Debt Securities transferred into their own names, so that they will be direct holders.

The special situations for termination of a Global Security are:

- when the Depositary notifies Minera that it is unwilling, unable or no longer qualified to continue as Depositary (unless a replacement Depositary is named); and
- when and if Minera decides to terminate a Global Security.

The Prospectus Supplement may list situations for terminating a Global Security that would apply only to the particular series of Debt Securities covered by the Prospectus Supplement. When a Global Security terminates, the Depositary (and not Minera or the Trustee) is responsible for deciding the names of the institutions that will be the initial direct holders.

Events of Default

The term "Events of Default" with respect to Debt Securities of any series means any of the following:

- (a) default in the payment of the principal of (or any premium on) any Debt Security of that series at its maturity;
- (b) default in the payment of any interest on any Debt Security of that series when it becomes due and payable, and continuance of such default for a period of 30 days;
- (c) default in the deposit of any sinking fund payment when the same becomes due by the terms of the Debt Securities of that series;
- (d) default in the performance, or breach, of any other covenant or agreement of Minera in the Indenture in respect of the Debt Securities of that series (other than a covenant or agreement for which default or breach is specifically dealt with elsewhere in that Indenture), where such default or breach continues for a period of 90 days after written notice to Minera by the Trustee or the holders of at least 25% in principal amount of all outstanding Debt Securities affected thereby;
- (e) certain events of bankruptcy, insolvency or reorganization; or
- (f) any other Events of Default provided with respect to the Debt Securities of that series.

If an Event of Default described in clause (a), (b) or (c) above occurs and is continuing with respect to Debt Securities of any series, then the Trustee or the holders of not less than 25% in principal amount of the outstanding Debt Securities of that series may require the principal amount (or, if the Debt Securities of that series are original issue discount securities or indexed securities) such portion of the principal amount as may be specified in the terms of that series) of all of the outstanding Debt Securities of that series and any accrued but unpaid interests on such Debt Securities be paid immediately. If an Event of Default described in clause (d) or (f) above occurs and is continuing with respect to Debt Securities of one or more series, then the Trustee or the holders of not less than 25% in principal amount of the outstanding debt Securities of all series affected thereby (as one class) may require the principal amount (or, if any of the Debt Securities of such affected series are original issue discount securities or indexed securities, such portion of the principal amount as may be specified in the terms of such affected series) of all of the outstanding Debt Securities of such affected series and any accrued but unpaid interests on such Debt Securities be paid immediately. If any Event of Default described in clause (e) above occurs and is continuing, then the Trustee or the holders of not less than 25% in principal amount of all outstanding Debt Securities (as a class) may require the principal amount (or, if the Debt Securities or any series are original discount securities or indexed securities, such portion of the principal amount as may be specified in the terms of that series) of all the outstanding Debt Securities and any accrued but unpaid interest on such Debt Securities be paid immediately. However, at any time after a declaration of acceleration with respect to Debt Securities of any series (or of all series, as the case may be) has been made and before a judgment or decree for payment of the money due has been obtained, the holders of a majority in principal amount of the outstanding Debt Securities of such series (or of all series, as the case may be), by written notice to Minera and the Trustee, may, under certain circumstances, rescind and annul such acceleration. The applicable Prospectus Supplement will contain provisions relating to acceleration of the maturity of a portion of the principal amount of original issue discount securities or indexed securities upon the occurrence of any Event of Default and the continuation thereof.

Except during default, the Trustee is not obligated to exercise any of its rights and powers under the Indenture at the request or direction of any holders, unless the holders have offered to the Trustee reasonable indemnity. If the holders provide reasonable indemnity, the holders of a majority in principal amount of the outstanding Debt Securities of all series affected by an Event of Default may, subject to certain limitations, direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee, with respect to the Debt Securities of all series affected by such Event of Default.

No holder of a Debt Security of any series will have any right to institute any proceedings, unless:

- such holder has previously given the Trustee written notice of a continuing Event of Default with respect to the Debt Securities of that series;

- the holders of at least 25% in principal amount of the outstanding Debt Securities of all series affected by such Event of Default have made a written request and have offered reasonable indemnity to the Trustee to institute such proceedings as trustee; and
- the Trustee has failed to institute such proceedings, and has not received from the holders of a majority in the aggregate principal amount of outstanding Debt Securities of all series affected by such Event of Default a direction inconsistent with such request, within 60 days after such notice, request and offer.

However, these limitations do not apply to a suit instituted by the holder of a Debt Security for the enforcement of payment of principal of or interest on such Debt Security on or after the applicable due date of such payment.

Minera will be required to furnish to the Trustee annually an officers' certificate as to the performance of certain of its obligations under the Indenture and as to any default in such performance.

Defeasance

When Minera uses the term "defeasance", Minera means discharge from some or all of its obligations under the Indenture with respect to Debt Securities of a particular series. If Minera deposits with the Trustee sufficient cash or government securities to pay the principal, interest, any premium and any other sums due to the stated maturity or a redemption date of the Debt Securities of a particular series, then at its option:

- Minera will be discharged from its obligations with respect to the Debt Securities of such series with certain exceptions, and the holders of the Debt Securities of the affected series will not be entitled to the benefits of the Indenture except for registration of transfer and exchange of Debt Securities and replacement of lost, stolen or mutilated Debt Securities and certain other limited rights. Such holders may look only to such deposited funds or obligations for payment; or
- Minera will no longer be under any obligation to comply with certain covenants under the Indenture, and certain Events of Default will no longer apply to it.

Unless otherwise stated in the applicable Prospectus Supplement, in order to exercise defeasance Minera must also deliver to the Trustee an opinion of Canadian counsel or a ruling from Canada Revenue Agency that there would be no such recognition of income, gain or loss for Canadian federal or provincial tax purposes and that holders of the Debt Securities of such series will be subject to Canadian federal and provincial income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance had not occurred.

In addition, no Event of Default with respect to the Debt Securities of the applicable series can have occurred and Minera cannot be an insolvent person under the *Bankruptcy and Insolvency Act* (Canada).

Modifications and Waivers

Minera may modify or amend the Indenture with the consent of the holders of a majority in aggregate principal amount of the outstanding Debt Securities of all securities affected by such modification or amendment provided, however, that Minera must receive consent from the holder of each outstanding Debt Security of such affected series to:

- change the stated maturity of the principal or interest on such outstanding Debt Security;
- reduce the principal amount of or interest on such outstanding Debt Security;
- reduce the amount of the principal payable upon the acceleration of the maturity of an outstanding original issue discount security;

- change the place or currency of payments on such outstanding Debt Security;
- impair the right to institute suit for the enforcement of any payment on or with respect to any Debt Security;
- reduce the percentage in principal amount of outstanding Debt Securities of such series from which the consent of holders is required to modify or amend the Indenture or waive compliance with certain provisions of the Indenture or waive certain defaults; or
- modify any provisions of the Indenture relating to modifying or amending the Indenture of waiving past defaults or covenants except as otherwise specified.

The holders of a majority in principal amount of Debt Securities of any series may waive Minera's compliance with certain restrictive provisions of the Indenture with respect to such series. The holders of a majority in principal amount of outstanding Debt Securities of all series with respect to which an Event of Default has occurred may waive any past default under the Indenture, except a default in the payment of the principal of or interest on any Debt Security or in respect of any item listed above.

The Indenture or the Debt Securities may be amended or supplemented, without the consent of any holder of such Debt Securities in order to, amount other things, cure any ambiguity or inconsistency or to make any change, in any case, that does not have a materially adverse effect on the rights of any holder of such Debt Securities.

Consent to Jurisdiction and Service

Under the Indenture, Minera will irrevocably appoint FMD Service (Ontario) Inc. at 333 Bay Street, Suite 2400, Bay Adelaide Centre, Box 20, Toronto, Ontario M5H 2T6 as its agent of service of process in any suit, action or proceeding arising out of or relating to the Indenture and the Debt Securities and for actions brought under federal or provincial securities laws brought in any federal or provincial court located in the city of Toronto (hereinafter referred to as a Toronto Court), and will submit to such non-exclusive jurisdiction.

Governing Law

The Indenture and the Debt Securities will be governed by and construed in accordance with the laws of the Province of Ontario.

The Trustee

The Trustee under the Indenture will be named in the applicable Prospectus Supplement. The Trustee under the Indenture or its affiliates may provide banking and other services to Minera in the ordinary course of their business. The Indenture will contain certain limitations on the rights of the Trustee, as long as it or any of its affiliates remains Minera's creditor, to obtain payment of claims in certain cases or to realize on certain property received on any claim as security or otherwise. The Trustee and its affiliates will be permitted to engage in other transactions with Minera. If the Trustee or any affiliate acquires any conflicting interest and a default occurs with respect to the Debt Securities, the Trustee must eliminate the conflict or resign.

Title to Mineral Properties

The acquisition of title to mineral properties is a very detailed and time-consuming process. Title to, and the area of, mineral concessions may be disputed. Although the Company believes it has taken reasonable measures

to ensure proper title to its properties, there is no guarantee that title to any of its properties will not be challenged or impaired. Third parties may have valid claims underlying portions of the Company's interests, including prior unregistered liens, agreements, transfers or claims, including native land claims, and title may be affected by, among other things, undetected defects. In addition, the Company may be unable to operate its properties as permitted or to enforce its rights with respect to its properties. Also, the Company is in the process of negotiating surface rights to certain of its mineral properties.

The Company's mining concessions may be terminated in certain circumstances. Liquidity

There can be no assurance that an active market for the Securities will develop or be sustained following the closing date of an offering of Securities. The market price of publicly traded stock is affected by many variables not all of which are directly related to the success of the issuer. In recent years, the securities markets have experienced a high level of price and volume volatility, and the market price of securities of many companies, has experienced wide fluctuations which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that such fluctuations will not affect the price of the Company's securities.

Recent Regulatory Developments Relating to the Company's Argentinean Operations

The Government of Argentina recently announced changes to its regulatory regime requiring mining exporters to repatriate all of their export revenue. The Company does not have existing arrangements or plans to export production, however, any future changes to the mining regime in Argentina or to the Company's existing arrangements or plans could have a material adverse effect on the Company.

The Debt Securities will be unsecured debt of the Company and will rank equally in right of payment with all other existing and future unsecured debt of the Company

The Debt Securities will be unsecured debt of the Company and will rank equally in right of payment (except as to sinking funds and as to claims preferred by operation of law) with all other existing and future unsecured debt of the Company. The Debt Securities will be effectively subordinated to all existing and future secured debt of the Company to the extent of the assets securing such debt. If the Company is involved in any bankruptcy, dissolution, liquidation or reorganization, the secured debt holders would, to the extent of the value of the assets securing the secured debt, be paid before the holders of unsecured debt securities, including the Debt Securities. In that event, a holder of Debt Securities may not be able to recover any principal or interest due to it under Debt Securities.

Holders of the Debt Securities will effectively be unsubordinated to the claims of the holders of third party indebtedness of the Company's subsidiaries

The Company conducts its operations through a number of subsidiaries and to the extent any such subsidiary has or incurs such indebtedness with a third party, the holders of the Debt Securities will effectively be subordinated to the claims of the holders of such third party indebtedness, including in the event of liquidation or upon a realization of the assets of any such subsidiary.

There is no established trading market for the Securities, other than the Ordinary Shares

There is no existing trading market for the Debt Securities, Warrants to purchase Ordinary Shares, Warrants to Purchase Debt Securities and Convertible Securities. As a result, there can be no assurance that a liquid market will develop or be maintained for those securities or that investors will be able to sell any of those securities at a particular time (if at all). The Company does not intend to list the Debt Securities, Warrants to purchase Ordinary Shares, Warrants to purchase Debt Securities or Convertible Securities on any national securities exchange. The liquidity of the trading market in those securities, and the market price quoted for those securities, may be adversely affected by, among other things: changes in the overall market for those securities; changes in the Company's financial performance or prospectus; the prospects for companies in the Company's industry generally; the number of holders of those securities; the interest of securities dealers in making a market for those securities; and prevailing market rates.

Credit ratings may not reflect all risks associated with an investment in the Debt Securities

Credit ratings may not reflect all risks associated with an investment in the Debt Securities. Any credit ratings applied to the Debt Securities are an assessment of the Company's ability to pay its obligations. Consequently, real or anticipated changes in the credit ratings will generally affect the market value of the Debt Securities. The credit ratings, however, may not reflect the potential impact of risks related to structure, market or other factors discussed in this Prospectus or the documents incorporated herein by reference on the value of the Debt Securities. There is no assurance that any credit rating assigned to the Debt Securities will remain in effect for any given period of time or that any rating will not be lowered or withdrawn entirely by the relevant rating agency.

Changes in interest rates may cause the value of the Debt Securities to decline

Prevailing interest rates will affect the market price or value of the Debt Securities. The market price or value of the Debt Securities may decline as prevailing interest rates for comparable debt instruments rise, and increase as prevailing interest rates for comparable debt instruments decline.

The creditworthiness of the Company may affect the market price or value and the liquidity of the Debt Securities

Any change or perceived change in the creditworthiness of the Company may affect the market price or value and the liquidity of the Debt Securities.

PURCHASERS' STATUTORY RIGHTS

Securities legislation in certain provinces of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment thereto, irrespective of the determination at a later date of the purchase price of the securities distributed. In several of the provinces, securities legislation further provides a purchaser with remedies for rescission, or, in some jurisdictions, revisions of the price or damages if the prospectus or any amendment contains a misrepresentation or is not delivered to the purchaser, provided that such remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. A purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal advisor.

Initial purchasers of securities which are convertible, exchangeable or exercisable into Ordinary Shares will have a contractual right of rescission against the Company in respect of the exercise of such securities. The contractual right of rescission will entitle such purchasers to receive the amount paid upon exercise, upon surrender of the underlying Ordinary Shares gained thereby, in the event that this Prospectus contains a misrepresentation, provided that: (i) the exercise takes place within 180 days of the date of the purchase of the exercisable security under this Prospectus; and (ii) the right of rescission is exercised within 180 days of the date of the purchase of the exercisable security under this Prospectus. This contractual right of rescission will be consistent with the statutory right of rescission described under section 130 of the *Securities Act* (Ontario), and is in addition to any other right or remedy available to original purchasers under section 130 of the *Securities Act* (Ontario) or otherwise at law.

Initial purchasers of securities which are convertible, exchangeable or exercisable into Ordinary Shares are further advised that in certain provinces the statutory right of action for damages in connection with a prospectus misrepresentation is limited to the amount paid for the convertible, exchangeable or exercisable security that was purchased under a prospectus, and therefore a further payment at the time of conversion, exchange or exercise may not be recoverable in a statutory action for damages. Such purchasers should refer to any applicable provisions of the securities legislation of the province in which the purchaser resides for the particulars of these rights, or consult with a legal advisor.
