Pacific Therapeutics Ltd.

(A Development Stage Company)

Notes to Financial Statements

Three Months Ended March 31, 2013 and 2012

1. NATURE AND CONTINUANCE OF OPERATIONS

Pacific Therapeutics Ltd. ("the Company" or "PTL") was incorporated under the laws of the Province of British Columbia, Canada on September 12, 2005. The Company is a development stage company focused on developing proprietary drugs to treat certain types of lung disease including fibrosis. On October 14, 2011, the Company became a reporting company in British Columbia and was approved by the Canadian National Stock exchange ("CNSX") and opened for trading on November 16, 2011.

PTL has financed its cash requirements primarily from share issuances and payments from research collaborators. The Company's ability to realize the carrying value of its assets is dependent on successfully bringing its technologies to market and achieving future profitable operations, the outcome of which cannot be predicted at this time. It will be necessary for the Company to raise additional funds for the continuing development of its technologies.

The financial statements have been prepared on a going concern basis, which contemplates continuity of operations and the realization of assets and settlement of liabilities in the ordinary course of business. The Company is subject to risks and uncertainties common to drug discovery companies, including technological change, potential infringement on intellectual property of and by third parties, new product development, regulatory approval and market acceptance of its products, activities of competitors and its limited operating history. All of these factors create uncertainty in the Company's ability to successfully bring its technologies to market, to achieve future profitable operations and to realize the carrying value of its assets. Given these uncertainties, there is significant doubt as to the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of these uncertainties.

2. BASIS OF PRESENTATION

The unaudited condensed consolidated interim financial statements were authorized for issue on August 29, 2013 by the directors of the Company.

Statement of Compliance and conversion to International Financial Reporting Standards

These unaudited condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standard 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the IFRS Interpretations Committee.

These unaudited condensed consolidated interim financial statements do not include all of the information required of a full annual financial report and should be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2012.

5. DUE TO SHAREHOLDERS

(a) Shareholder demand loan

Shareholders of the Company are owed \$Nil as at June 30, 2013 (December 31, 2012 - \$45,553) consisting of short term amounts loaned to the company that are unsecured, non-interest bearing, and payable on demand.

(b) Due to shareholders

Due to shareholder balances are unsecured and non-interest bearing, with a due date of January 1, 2013. The balance as at June 30, 2013 was \$195,523 (December 31, 2012 - \$202,470). This loan is in default and due on demand.

6. CONVERTIBLE NOTES

On September 24, 2012 the Company issued a convertible note ("the Note") with a face value of \$30,000 plus 200,000 two year \$0.22 warrants (Bonus Warrants) for \$30,000 in cash. The Note has a term of one year and is repayable by the Issuer at any time. The holder of the Note may convert the whole note or any portion into units at any time. Each unit will consist of 1 common share (the Share Option) and 1 warrant (the warrant option), with each warrant option exercisable to acquire an additional common share for a period of 2 years from the date the warrant was issued. Subject to regulatory approval the conversion price per unit will be at a 25% discount to the ten day weighted average price of the issuer's shares at the date of conversion. Subject to regulatory approval the exercise price per warrant option will be at a 25% premium to the ten day weighted average price of the issuer's shares at the date of conversion. Each bonus warrant is exercisable to acquire an additional common share for a period of two years from the closing date at a price of \$0.22. The Note accrues interest at the rate of 1% per month, payable in quarterly installments.

The estimated fair value of the share options was calculated on the grant date as \$18,232.

Upon initial recognition, the Company bifurcated the \$30,000 proceeds between the component parts of the convertible note using the relative fair value method with \$12,317 allocated to convertible loan, \$12,248 to share and warrant option (derivative liability) and \$5,435 to warrant reserve.

The discount on the component parts of the convertible note are accredited as interest expense over the one year term of the note. As at June 30, 2013 the derivative liability was re-measured to fair value. This resulted in a loss on derivative liability being recognized on the face of the financial statements of \$13,255 (December 31, 2012 - \$18,641).

The fair value of share based awards is determined using the Black-Scholes option pricing model. The model utilizes certain subjective assumptions including the expected life of the option and expected future stock price volatility. Changes in these assumptions can materially affect the estimated fair value of the Company's stock options.

On April 4, 2013, the Company issued 350,000 five year stock options to purchase common shares of the company at \$0.10 per share to various employees and directors and consultants. The Company used the Black-Scholes pricing model to determine the value of the options granted. The assumptions used in the Black-Scholes option pricing model for the 350,000 options granted were:

Dividend yield	0%
Expected volatility	254.04%
Risk free interest rate	1.19%
Expected life in years	5
Fair value per share	\$10

9. FINANCIAL INSTRUMENTS AND RISK

As at June 30, 2013, the Company's financial instruments consist of cash and cash equivalents, accounts payable and accrued liabilities, shareholder demand loan, a convertible note and a derivative liability. The convertible note has been bifurcated and presented in the financial statements using its component parts.

The fair value of cash and cash equivalents, accounts payable and accrued liabilities and shareholder demand loans approximate their carrying values because of the short term nature of these instruments. These are classified as level 1 in the fair value hierarchy.

The derivative liability is measured at fair value at the end of each reporting period. Because revaluation at fair value includes the use of valuation techniques, the derivative liability is classified as level 3 in the fair value hierarchy.

Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risks consist principally of cash and cash equivalents. To minimize the credit risk the Company places these instruments with a high credit quality financial institution.

Liquidity Risk

The Company ensures its holding of cash and cash equivalents is sufficient to meet its short-term general and administrative expenditures. All of the Company's financial liabilities are subject to normal trade terms. The Company does not have investments in any asset-backed deposits. The Company's liabilities as at June 30, 2013, are due as follows:

Liabilities Outstanding		
On demand	\$	234,399
0 – 30 days		39,138
31-90 days		125,374
91-365 days		82,959
Over 365 days		164,870
Total	\$	646,740

Foreign Exchange Risk

The Company is not exposed to foreign exchange risk on its financial instruments.

Interest Rate Risk

At June 30, 2013 the Company is not exposed to significant interest rate risk as its interest bearing debt is at fixed rates.

11. SUBSEQUENT EVENTS

There were no reportable events occurred during the six month period ended June 30, 2013 to the date the consolidated condensed interim financial statements were authorized by the Board of Directors on August 29, 2013.
