1. Nature and continuance of operations

Echelon Petroleum Corp. (the "Company") was incorporated in the name of Rara Terra Capital Corp. under the British Columbia Business Corporations Act on December 17, 2009. The Company was formed for the primary purpose of completing an Initial Public Offering ("IPO") on the TSX Venture Exchange ("Exchange") as a Capital Pool Company ("CPC") as defined in Policy 2.4 of the Exchange and in May 2011 completed its Qualifying Transaction and changed its name to Rara Terra Minerals Corp. In May 2013, the Company changed its name to Echelon Petroleum Corp. The Company is in the business of exploring resource properties.

The head office and principal address is located at 1030 West Georgia Street, Suite 1012, Vancouver, British Columbia, Canada, V6E 2Y3.

These condensed consolidated interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at September 30, 2014 the Company had not advanced its assets to commercial production and is not able to finance day to day activities through operations. The Company's continuation as a going concern is dependent upon the successful results from its exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These factors indicate the existence of a material uncertainty that may cast substantial doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs over the next twelve months from existing working capital and or the private placement of common shares.

2. Significant accounting policies and basis of preparation

These unaudited condensed consolidated interim financial statements were authorized for issue on November 27, 2014 by the directors of the Company.

Statement of compliance with International Financial Reporting Standards

These Interim Financial Statements have been prepared in accordance with International Accounting Standard ("IAS 34"), Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). They do not include all of the information required for full annual financial statements, and should be read in conjunction with the Company's financial statements as at and for the year ended March 31, 2014. Accounting policies applied in the preparation of these unaudited interim financial statements are the same as those applied in the preparation of the Company's annual financial statements for the year ended March 31, 2014.

Basis of preparation

The condensed consolidated interim financial statements have been prepared on an accrual basis and are based on historical costs, modified where applicable. The interim consolidated financial statements are presented in Canadian dollars unless otherwise noted.

2. Significant accounting policies and basis of preparation (cont'd)

Consolidation

The condensed consolidated interim financial statements include the accounts of the Company and its controlled entities. Details of controlled entities are as follows:

	Country of incorporatio	Percentage owned*	
		September 30,	March 31, 2014
0960128 B.C. LTD.	Canada	100%	100%

*Percentage of voting power is in proportion to ownership.

During the six months ended September 30, 2014, the Company's subsidiary, 0960128 BC LTD, was inactive.

Significant estimates and assumptions

The preparation of the Company's interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the recoverability of the carrying value of exploration and evaluation assets, fair value measurements for financial instruments, and the recoverability and measurement of deferred tax assets.

Significant judgments

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgment applied in preparing the Company's financial statements is the assessment of the Company's ability to continue as a going concern.

Echelon Petroleum Corp.
(formerly Rara Terra Minerals Corp.)
Notes to the Condensed Consolidated Interim Financial Statements
(Expressed in Canadian Dollars, Unaudited)
For the Six Months ended September 30, 2014 and 2013
