Supplemental disclosure with respect to cash flows - Note 9

The accompanying notes are an integral part of these condensed interim financial statements.

1. NATURE AND CONTINUANCE OF OPERATIONS

Shamrock Enterprises Inc. (the "Company") was incorporated pursuant to the provisions of the Business Corporations Act (British Columbia) on April 17, 2008 and has been a reporting issuer in British Columbia, Alberta and Ontario, and whose shares have traded on the Canadian Securities Exchange since November 10, 2010 under stock symbol SRS. The Company's registered and records office and corporate office address is Suite 500 – 666 Burrard Street, Vancouver, BC, Canada V6C 3P6.

The Company's financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they become due. Several conditions discussed below indicate the existence of a material uncertainty that may cast substantial doubt regarding this assumption. The Company's ability to continue as a going concern is however dependent upon its ability to obtain additional funding from loans or equity financings, option agreements or through other arrangements. There is no assurance that these activities will be successful. These financial statements do not contain any adjustments to the amounts and classifications of assets and liabilities, which might be necessary should the Company be unable to continue in business.

The Company is pursuing the acquisition, exploration and evaluation of mineral properties. At November 30, 2017, it had options to acquire a 100% interest in two mineral properties, as described in Note 5. The recoverability of amounts shown for a mineral property when acquired is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral property in accordance with industry practice, the ability of the Company to obtain necessary financing to complete the development, and upon future profitable production.

At November 30, 2017, the Company had unrestricted cash of \$1,177 (May 31, 2017: \$6,687) and a working capital deficiency of \$261,687 (May 31, 2017: \$245,739).

2. BASIS OF PRESENTATION

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34, Interim Financial Reporting. Since these condensed interim financial statements do not include all disclosure required by IFRS for annual financial statements, they should be read in conjunction with the Company's audited financial statements for the year ended May 31, 2017.

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The significant accounting judgements and estimates used in the preparation of these condensed interim financial statements are consistent with those applied and disclosed in Note 2 of the Company's audited financial statements as at and for the year ended May 31, 2017.

These condensed interim financial statements were authorized for issue by the Board of Directors on January 26, 2018.

3. SIGNIFICANT ACCOUNTING POLICIES

These unaudited condensed interim financial statements were prepared using the same accounting policies and methods as those used in the Company's audited financial statements for the year ended May 31, 2017.

Recently issued but not adopted accounting guidance includes IFRS 9 Financial Instruments.

IFRS 9 - Financial Instruments ("IFRS 9") was issued by the IASB on July 24, 2014, and will replace IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Two measurement categories continue to exist to account for financial liabilities in IFRS 9; fair value through profit or loss ("FVTPL") and amortized cost. Financial liabilities held-for-trading are measured at FVTPL, and all other financial liabilities are measured at amortized cost unless the fair value option is applied. The treatment of embedded derivatives under the new standard is consistent with IAS 39 and is applied to financial liabilities and non-derivative host contracts not within the scope of this standard. The effective date for this standard is for annual periods beginning on or after January 1, 2018.

The Company is currently evaluating the impact of IFRS 9 on its financial statements, which has not yet been determined.

4. RESTRICTED INVESTMENT

At November 30, 2017, the Company had \$7,000 (May 31, 2017 - \$7,000) invested in a Guaranteed Investment Certificate ("GIC") with a major Canadian bank. The GIC yields interest at prime minus 2.1%. The availability of the GIC to the Company is restricted, as it serves as the security required to be posted in connection with its Reclamation permit issued by the British Columbia Ministry of Energy, Mines and Petroleum Resources for the Company's Fireweed property. The Company expects to apply to have the restriction on this investment removed, based on ending its activities at the property as described in Note 5 and the reclamation work that has been completed. See Note 10.

5. EXPLORATION AND EVALUATION ASSETS

Fireweed Project

Based on management's evaluation of the benefits from continuing exploration work on the Fireweed property located near Smithers, British Columbia, the Company decided to cease all activities related to maintaining its option for a 50% interest in that property. On September 29, 2017 the Company provided 30 days written notice to Regulus Resources Inc. that it wished to withdraw from and terminate its option to acquire a 50% interest in the Fireweed property.

The recorded value had been written down to \$Nil at May 31, 2017. The Company believes that it has completed all reclamation work required under the terms of its option agreement for the property and as required by the British Columbia Ministry of Energy, Mines and Petroleum Resources. See Note 9.

5. **EXPLORATION AND EVALUATION ASSETS** (Continued)

Homathko Project

On July 6, 2017, the Company announced that it had entered into an option agreement to acquire nine staked claims, known as the Homathko Gold project, covering approximately 3,000 hectares located in the Caribou Regional District of British Columbia from Transition Metals Corp. of Sudbury Ontario ("Transition") (XTM – TSX.V). Under the terms of the option agreement, the Company can earn a 100% interest in the claims by providing Transition with \$5,000 cash, \$100,000 worth of the Company's stock and completing \$500,000 of exploration expenditures within three years. If the Company earns its interest, Transition will retain a 2% net smelter royalty (NSR), of which the Company can purchase half (1% NSR) for \$1,000,000 prior to the commencement of commercial production.

Based on its review of assay results and preliminary geological consulting work on the property, management decided not to pursue acquisition of the option. All related costs, including property acquisition (\$5,000) and exploration and evaluation (\$10,963) have been expensed in the current period.

Topley-Richfield Project

On August 22, 2017, the Company announced that it had signed an option agreement to acquire from two private vendors, a 100% interest in seven contiguous mineral claims covering an area of 2,313 hectares, known as the Topley-Richfield gold/copper/silver/lead/zinc project, located in the Bulkley Valley, 100 km southeast of Smithers, British Columbia. The Company can acquire a 100% interest in the project for total consideration of 1,000,000 shares, \$200,000 in cash payments and a \$200,000 work commitment over four years. The project vendors retain a 3% net smelter royalty with a buy-out of \$1 million for each 1%. An advanced royalty payment of \$20,000 per year begins on the 5th anniversary.

The Company incurred \$8,024 in exploration and evaluation costs prior to finalization of the option agreement, to assist in its decision to enter into the agreement. During the current period, the Company paid the project vendors \$10,000 and issued 100,000 shares at a current market value of \$3,500 towards the acquisition of the option.

Portland Project

On October 30, 2017, the Company announced that it had signed an Option Agreement to acquire from a private vendor a 100% interest in 16 mineral claims located near Stewart, British Columbia. The properties include the Portland Project, 22 km northeast of Stewart, consisting of 14 contiguous mineral claims covering an area of 2,416 hectares (over 24 sq. km) and two additional separate mineral claims, the American Creek and Kimball Lake claims, 37 km and 42 km northeast of Stewart, covering a combined area of 359 hectares. The Company can acquire 100% interest in the properties for total consideration of 2,300,000 shares, \$150,000 in cash payments and a \$300,000 work commitment over 3 years. The Vendor retains a 3% net smelter royalty with a buyout of any portion of up to 2% for \$2 million.

During the current period, the Company paid the project vendor \$15,000 and issued 500,000 shares at a current market value of \$20,000 towards the acquisition of the option.

6. LOANS PAYABLE

At November 30, 2017, the Company had the following loans payable:

- 1. From a non-related party, a series of unsecured loans totaling \$12,700 (May 31, 2017: \$12,700), with interest accruing at 12% per annum from the date of issue and no specific terms of repayment. During the six months ended November 30, 2017 \$764 (November 30, 2016: \$859) of interest was accrued on the loan amounts.
- 2. From a related party, a director, \$21,000 (May 31, 2017: \$21,000), unsecured, with interest at 12% per annum from June 1, 2015 and no specific terms of repayment. During the six months ended November 30, 2017 \$1,263 (November 30, 2016: \$1,263) of interest was accrued on the loan.

7. EQUITY AND RESERVES

Share Capital

The Company's authorized share capital consists of an unlimited number of commons shares without par value. At November 30, 2017, the Company had 31,653,165 (May 31, 2017: 26,853,166) common shares outstanding.

For the period ended November 30, 2017

On July 4 and July 25, 2017, the Company completed two tranches of a private placement whereby it sold 1,549,999 and 2,650,000 Units at \$0.03 per Unit for total gross proceeds of \$126,000. Each Unit was comprised of one common share without par value in the capital of the Company and one common share purchase warrant. Each such warrant entitles the holder to acquire one common share of the Company for a period of two years from the date of issuance of the warrant, with an exercise price of \$0.05 per share in the first year, and an exercise price of \$0.07 per share in the second year. The shares were issued on July 7 and July 26, 2017 respectively.

On August 23, 2017, the Company issued 100,000 shares of its common stock towards acquiring the Topley-Richfield property option (See Note 5). The shares were valued at \$3,500 based on the thencurrent market price.

On November 2, 2017, the Company issued 500,000 shares of its common stock towards acquiring the Portland property option (See Note 5). The shares were valued at \$20,000 based on the then-current market price.

For the year ended May 31, 2017

On January 13, 2017, the Company issued 100,000 shares of its common stock to maintain the Option on its Fireweed property. The shares were valued at \$2,000 based on the then-current market price.

7. **EQUITY AND RESERVES** (Continued)

On November 30, 2016, the Company completed a private placement of 2,325,000 flow-through units at \$0.04 per unit for gross proceeds of \$93,000. Each flow-through unit consisted of one flow-through common share and one share purchase warrant. Each warrant is exercisable to acquire one common share at \$0.07 per share in the first year and at \$0.09 per share in the second year from the date of issuance. The Company paid \$5,000 in cash finder's fees. The Company estimated the amount of the unit proceeds to allocate to the renounced expenditures to be \$Nil, which was determined using the residual value method.

On June 28, 2016, the Company completed a private placement of 5,200,000 Units at \$0.02 per Unit for gross proceeds of \$104,000. Each Unit was comprised of one common share without par value in the capital of the Company and one common share purchase warrant. Each such warrant entitles the holder to acquire one common share of the Company for a period of two years from the date of issuance of the warrant, with an exercise price of \$0.05 per share in the first year, and an exercise price of \$0.08 per share in the second year. The Company paid \$8,600 in cash finders' fees.

The Company issued 292,500 warrants as a finder's fee in connection with the June 28, 2016 private placement, having the same terms and conditions as the Unit warrants. The warrants were valued at \$11,700 using the Black-Scholes option pricing model with an average risk-free rate of 0.49%, estimated life of 2 years, volatility of 167.6% and dividend yield of 0%.

Stock Options

Stock-Option Plan

The Company has a stock option plan in place. Under the stock option plan the Company can issue up to 10% of the issued and outstanding Shares as incentive stock options to directors, officers, insiders, employees and other service providers to the Company. The stock option plan limits the number of incentive stock options which may be granted to any one individual to not more than 5% of the total issued Shares of the Company in any 12-month period. The number of incentive stock options granted to any one consultant or a person employed to provide investor relations activities in any 12-month period must not exceed 2% of the total issued Shares of the Company. The options granted under the Stock Option Plan are normally subject to the vesting schedule wherein 25% of the options will vest on the day which is 3 months from the day of grant and 25% of the options will vest every 3 months thereafter for a period of 12 months after the day of grant.

For the period ended November 30, 2017

A total of 450,000 options held by a director and by an officer of the Company were forfeited after their departures from the Company. The options had been fully expensed prior to the forfeiture date.

The Company incurred a stock-based compensation expense of \$207 during the period, which was charged to the statement of income and credited to Reserves.

7. **EQUITY AND RESERVES** (Continued)

For the year ended May 31, 2017

On May 16, 2017, 250,000 stock options were granted to a new director of the Company, exercisable at \$0.05 per share, with a five year expiry date from date of grant. The options were valued at \$6,250 using the Black-Scholes option pricing model, all of which was expensed in the current year, as the options vested immediately when granted. The option pricing model used an average risk-free rate of 1.01%, estimated life of 5 years, volatility of 139.07% and dividend yield of 0%.

On June 22, 2016, 450,000 stock options were granted to directors and officers of the Company, exercisable at \$0.05 per share. Also on June 22, 2016, 100,000 stock options were granted to a consultant of the Company, exercisable at \$0.05 per share. All of the options have a five year expiry date from date of grant. The options were valued at \$13,064 using the Black-Scholes option pricing model with the following weighted average assumptions: risk-free rate of 0.68%, estimated life of 4.38 years, volatility of 133.23% and dividend yield of 0%. \$12,857 was expensed in the current year.

As a result of the value attributed to options issued by the Company, a stock-based compensation expense of \$19,107 was incurred in the year ended May 31, 2017 (2016: \$5,920) which was charged to the statement of income and credited to Reserves.

Warrants

For the period ended November 30, 2017

In connection with the private placement in July 2017, the Company granted a total of 4,199,999 share purchase warrants. Each warrant entitles the holder to acquire one common share of the Company for a period of two years from the date of issuance of the warrant, with an exercise price of \$0.05 per share in the first year, and an exercise price of \$0.07 per share in the second year.

For the year ended May 31, 2017

In connection with a November 30, 2016 private placement, the Company granted 2,325,000 share purchase warrants. Each warrant entitles the holder to acquire one common share of the Company for a period of two years from the date of issuance of the warrant, with an exercise price of \$0.07 per share in the first year and \$0.09 per share in the second year from the date of issuance.

In connection with a June 28, 2016 private placement, the Company granted 5,200,000 share purchase warrants. Each warrant entitles the holder to acquire one common share of the Company for a period of two years from the date of issuance of the warrant, with an exercise price of \$0.05 per share in the first year, and an exercise price of \$0.08 per share in the second year. The Company also issued 292,500 warrants as a finder's fee in connection with the private placement, having the same terms and conditions as the share purchase warrants.

Summary of warrant activity			Weighted Average
