**Item 4: Summary of Material Changes**

The Company announced director changes. See Item 5 for further details.

**Item 5: Full Description of Material Change**

The Company announced the appointment of Broderick Gunning as a member of the board of directors of the Company, effective June 7, 2023.

Broderick Gunning is an accomplished professional who holds senior positions in the technology and energy sectors across Asia and the Americas. With a forward-thinking and entrepreneurial mindset, he excels in helping businesses effectively convey their stories in diverse markets, industries, and cultures. Mr. Gunning is actively forging strong partnerships in both public and private sectors, fostering growth, executing strategic visions, and generating value for shareholders.

Mr. Gunning's primary focus lies in energy infrastructure, battery storage, battery recycling, e-mobility, ESG applications, and precious metals. His expertise extends to regions such as Canada, the United States, Mexico, China, Taiwan, and India. Throughout his career, Mr. Gunning has been involved in various fields, including digital assets, energy infrastructure, IoT, digital media, and manufacturing.

The Company also announces the resignation of Curtis Ingleton from the Board effective immediately. Mr. Ingleton will continue as Chief-Technical-Officer of wholly-owned subsidiary Greentech Hydrogen Innovations Corp.

Mr. Ingleton is an experienced technology developer and lead researcher who has guided several companies in start-up phase. He couples 20 years of computer networking experience with nearly a decade of work in Additive Manufacturing (AM) Technology, Applied Robotics and 3D Printing. With these skillsets he founded Genius IE: an engineering consortium focused on Additive Manufacturing Technology. Curtis conducts his research in cooperation with both industry and academia to create future materials, processes, and equipment. His services have been sought out by General Motors, Magna Corporation and Klik-Klik to name a few. Product development, process and equipment design are all experiential strengths Curtis draws on. He has been awarded Make Magazine's Worlds ' Best 3D Printer, Southern Ontario's Top 40 Under 40 Business People and has received a nomination for a McMaster University Honorary Degree.
