

TORONTO, ON., November 9, 2021 – **BacTech Environmental Corporation** (OTC:BCCEF, CSE:BAC, FSE:0BT1) (“BacTech or the Company”), a commercially proven environmental technology company delivering effective biomining metal recovery and eco-friendly remediation solutions, announced today that it has reached agreements with 83.1% of its current debenture and loan payable holders convert \$642,500 of the Company’s outstanding debt and \$557,585 accrued interest into 12,000,854 Units. The Units are the same as those issued recently to raise \$351,000 as announced on October 15, 2021. The Company issued 12,000,854 common shares and 12,000,854 share purchase warrants. Each share purchase warrant will entitle the holder to acquire one additional common share in the capital of the Company at a price of \$0.20 for a period of two years from the date the Units are issued. If during the exercise period of the Warrants the Company's shares trade at \$0.40 per share or higher for a period of 20 consecutive trading days on the CSE, the Company may provide notice in writing to the holders of the Warrants that the expiry date will be accelerated thirty days from the date of providing such notice. Since the debentures were not originally convertible into common shares of BacTech the units will be subject to a 4-month hold similar to the recent private placement.

“I think it goes without saying that we are very thankful to the people who have stuck with us through some pretty dark times. This conversion to liquidity, I am sure, is welcome by all.”

### **About the Ponce Enriquez Bioleaching Project**

BacTech is planning to build a new owner-operated bioleaching facility in Ponce Enriquez, Ecuador, in a region where arsenic is associated with gold ore (Arsenopyrite). The Company’s plan is to build a 50 tpd bioleach plant capable of treating high gold/arsenic material. A 50 tpd

plant, processing 1.5 ounces of gold per tonne of feed, similar to feeds available to the Company, would produce approximately 26,000 ounces per year. Plant designs are modular and can be expanded without affecting ongoing production.

BacTech continues to investigate the prospects of establishing additional modern mining operations across other areas of Ecuador, Peru, Colombia, and Central America. Where possible, the Company will partner with national and local governments, non-governmental organizations (NGOs), and others to assist with the funding of these projects.

### **About BacTech Environmental Corporation**

BacTech is a proven environmental technology company, delivering effective and eco-friendly biomining and remediation solutions to commercial operations to smartly process and recover preferred metals (gold, silver, cobalt, and copper) and safely remove and transform harmful contaminants like arsenic into benign EPA-approved products for landfill. Tapping into numerous environmental and economic advantages of its proprietary method of bioleaching, BacTech uses naturally occurring bacteria, harmless to both humans and the environment, to neutralize toxic mining sites with high-pay potential. BacTech is publicly traded on the CSE under the symbol “BAC” and on the OTC as “BCCEF”.

## Special Note Regarding Forward-Looking Statements

This news release contains “forward-looking information”, which may include, but is not limited to, statements with respect to future tailings sites, sampling or other investigations of tailing sites, the Company’s ability to make use of infrastructure around tailings sites or operating performance of the Company and its projects.

Often, but not always, forward-looking statements can be identified using words such as “plans”, “expects”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or believes” or variations (including negative variations) of such words and phrases, or state that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance, or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Forward-looking statements contained herein are made as of the date of this news release and the Company disclaims, other than as required by law, any obligation to update any forward-looking statements whether because of new information, results, future events, circumstances, or if management’s estimates or opinions should change, or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, the reader is cautioned not to place undue reliance on forward-looking statements.
