Canna Delivery Systems Inc.

Canna Delivery Systems produces a smokeless alternative option to medical and recreational users of cannabis. Canna’s technology produces infused strips (similar to breath strips) that are not only a safer, healthier option to smoking but also a new way to accurately meter the dosage and assure the purity of the product. From start to finish, the CannaStrip production process test for quality and composition of all the ingredients used in each and every CannaStrip, resulting in a delivery system that is safe, consistent and effective.

Concurrent Financing

In connection with the Transaction, Kariana intends to complete an offering (the “**Offering**”) by way of a non-brokered private placement of up to 3,333,334 subscription receipts (the “**Subscription Receipts**”). The Offering will be priced at \$0.15 per Subscription Receipt for aggregate gross proceeds of up to \$500,000. Each Subscription Receipt will be automatically converted, without payment of any additional consideration, into one unit of the Company (a “**Unit**”) upon the satisfaction of certain escrow release conditions, including the completion of the Transaction (the “**Escrow Release Date**”). Each Unit will be comprised of one Kariana common share (a “**Share**”) and one half of one common share purchase warrant (each whole warrant, a “**Warrant**”). Each Warrant will entitle the holder to purchase one additional Share at a price of \$0.30 for the first year and \$0.45 for the second year from the Escrow Release Date.

In connection with the Offering and the Transaction, the Company intends to pay finder’s fees in cash, securities or a combination of both, up to the maximum permitted by the policies of the CSE.

All securities issued in connection with the Offering will be subject to a four month hold period in accordance with applicable securities legislation. The Company intends to use the net proceeds of the Offering to fund the costs of the Transaction and to fund the general working capital expenses of the resulting issuer.
