Lifestyle Delivery Systems Requests And Receives Inspection Date

Vancouver, British Columbia, Canada, August 25, 2017, Lifestyle Delivery Systems Inc. (CSE: LDS), (OTCQB: LDSYF) and (Frankfurt: LD6, WKN: A14XHT) (“LDS” or the “Company”) announces that on August 24, 2017 it requested the San Bernardino County Fire Department to inspect the CSPA Group, Inc. facility. This inspection is required by the new ordinance for extraction in the City of Adelanto and the subsequent issuance of a Certificate of Occupancy, which is required prior to commencing manufacturing operations at the facility. The San Bernardino County Fire Department has scheduled the inspection for September 1, 2017. Subsequent to the Fire Department approving the building for extraction operations, the City of Adelanto’s Building and Safety Department will conduct a final inspection. Passing the final inspection by the Adelanto’s Building and Safety Department is required prior to issuance of the Certificate of Occupancy.

Lifestyle Delivery Systems subsidiaries, LDS Agrotech and LDS Scientific, along with the fire suppression and alarm system contractors have all been working closely with the San Bernardino County Fire Department to develop the new operational infrastructure and safety equipment to meet the revised extraction ordinance in the City of Adelanto. LDS CEO, Brad Eckenweiler, commented, “Our state-of-the-art manufacturing facility would not have been possible without the tireless efforts of the staff in the Building Department, Code Enforcement, the City Council of Adelanto and Mayor Richard Kerr. Now we are ready to move forward with the business of manufacturing medical cannabis into CannaStrips.” The Company expects the manufacturing facility to be operational in September.

About Lifestyle Delivery Systems Inc.

The Company’s technology produces infused strips (similar to breath strips) that are not only a safer, healthier option to smoking, but also a new way to accurately meter the dosage and assure the purity of the product. In addition to entering into management services agreements with NHMC, Inc. and CSPA Group, Inc., the Company has begun its foray into direct involvement in growing medicinal ingredients for, and the manufacturing of, its products. From seed to sale, the Company’s products and ingredients will be tested for quality and composition throughout the formulation and production processes, resulting in a delivery system that is safe, consistent and effective.

On behalf of the board of directors of Lifestyle Delivery Systems Inc.

Brad Eckenweiler, CEO & Director
