Lifestyle Delivery Systems Inc.'s Affiliate, CSPA Group, Inc., Submits for Permanent California State Manufacturing License

Vancouver, British Columbia, Canada, May 04, 2018, Lifestyle Delivery Systems Inc. (CSE: LDS), (OTCQX: LDSYF), (Frankfurt: LD6, WKN: A14XHT) (“LDS” or the “Company”) announces that its affiliate, CSPA Group, Inc., submitted an application with required exhibits to the State of California for an annual Volatile and Non-Volatile Extraction and Manufacturing License.

CSPA Group, Inc. received an extended Temporary State Volatile and Non-Volatile Extraction and Manufacturing License from the State of California Department of Public Health Manufacturing Cannabis Safety Branch. The extended Manufacturing License expires on July 28, 2018. The temporary license will allow CSPA Group, Inc. to continue to operate while the application for an annual license is being reviewed.

During the week of April 30, 2018, CSPA Group, Inc. received 240 pounds of cannabis bio-mass to convert into distillate for cartridges. The bio-mass will be tested prior to extraction and distillation. The resulting distillate will be tested for cannabinoid and terpene content, as well as its purity. Brad Eckenweiler, CEO of LDS, stated, “This delivery of bio-mass for extraction and distillate is the beginning of commercial extraction and distillation operations.” The CSPA Group, Inc. is confident that contract production of extracted products using the technology that is soon to be acquired from Quality Resources, LLC. will become a significant revenue stream for the Company in the very near future.

About Lifestyle Delivery Systems Inc.

Lifestyle Delivery Systems Inc. is a licensed, state-compliant vertically integrated cannabis-related company. From our isogenic pollination nursery to our cutting edge, state-of-the-art production facility located in Southern California, LDS has become one of the most diverse, innovative and scientifically based cannabis companies throughout North America. The Company’s technology produces infused strips (similar to breath strips) that are not only a safer, healthier option to smoking but also a new way to accurately meter the dosage and assure the purity of the product. From start to finish, the production process tests for quality and composition of all the ingredients used in each and every strip, resulting in a delivery system that is safe, consistent and effective.

On behalf of the board of directors of Lifestyle Delivery Systems Inc.
