**Lifestyle Delivery Systems Inc. announces CSPA Group, Inc. and LDS Agrotech Prepare for Natural Gas Power Generation at Cultivation and Nursery Facility**

Vancouver, British Columbia, Canada, May 7, 2018, Lifestyle Delivery Systems Inc. (CSE: LDS), (OTCQX: LDSYF), (Frankfurt: LD6, WKN: A14XHT) (“LDS” or the “Company”) announces that CSPA Group, Inc. (“CSPA”) together with LDS Agrotech Inc. (“LDS Agro”) are preparing for commencement of natural gas power generation at the cultivation and nursery facility scheduled for the last week of May 2018.

CSPA and LDS Agro are finishing the installation of a 4-inch gas line to the natural gas generator and associated electrical connections to supply 480 3-phase power of over 4,200 amps to the cultivation and nursery facility in Adelanto. This is the final step in the completion of the cultivation and nursery projects. Upon completion, the Company will schedule its final inspection for the Certification of Occupancy of the cultivation division. Once the final Certificate of Occupancy is issued, CSPA will be able to apply for the State License to begin its cultivation of isogenic strains, specifically developed for the CannaStrips™ and Rêveur product lines.

Brad Eckenweiler, CEO of LDS, stated, “This is an important step in controlling the ingredients that are used in our manufacturing process, which in turn allows for consistent quality and repeatable results in each of our products every time.” CSPA intends to sell specific strains of seedlings to contract growers and repurchase the mature harvested plants for its manufacturing and production of CannaStrips™ and Rêveur products.

CSPA has also taken delivery of 1,500 pounds of biomass for contract extraction with an anticipated yield of between 60 to 70 liters of high-grade extraction. CSPA continues to expand its extraction capabilities both in its quality and the daily quantity. The initial extraction results and the associated feedback from the biomass providers has caused CSPA to begin preparing the facility for possible long term contracts for producing white label extraction and distillation products. The Company will continue to keep the shareholders informed as information becomes available.

**About Lifestyle Delivery Systems Inc.**

Lifestyle Delivery Systems Inc. is a licensed, state-compliant vertically integrated cannabis-related company. From our isogenic pollination nursery to our cutting edge, state-of-the-art production facility located in Southern California, LDS has become one of the most diverse, innovative and scientifically based cannabis companies throughout North America. The Company’s technology produces infused strips (similar to breath strips) that are not only a safer, healthier option to smoking but also a new way to
