1. NATURE OF OPERATIONS AND GOING CONCERN

Canadian Data Preserve, Inc. ("the Company") was incorporated on June 11, 2010 under the Laws of British Columbia. The Company is traded on the Canadian Security Exchange ("CSE").

The financial statements of the Company are presented in U.S. dollars, which is the functional currency of the Company, unless otherwise indicated.

The financial statements were prepared on a going concern basis, under the historical cost convention. The Company's ability to continue as a going concern is dependent upon the ability of the Company to obtain financing and generate positive cash flows from its operations. The Company has minimal capital resources presently available to meet obligations which normally can be expected to be incurred by similar companies and has a working capital deficit of $551,275 (May 31, 2015 - $448,686), a loss for the period of $102,589 (2015 - $81,559) and a deficit of $1,187,392 (May 31, 2015 - $1,084,803).

Management of the Company does not expect that cash flows for the Company's operations will be sufficient to cover all of its operating requirements, financial commitments and business development priorities during the next twelve months. Accordingly, the Company expects that it will need to obtain further financing in the form of debt, equity or a combination thereof for the next twelve months. There can be no assurance that additional funding will be available to the Company, or, if available, that this funding will be on acceptable terms. If adequate funds are not available, the Company may be required to delay or reduce the scope of any or all of its operations.

2. BASIS OF PRESENTATION & CHANGES TO THE ACCOUNTING POLICIES

Statement of compliance

The interim condensed financial statements for the nine months ended February 29, 2016 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at May 31, 2015.

These condensed interim financial statements were authorized by the audit committee and board of directors of the Company on April 25, 2016.

2. BASIS OF PRESENTATION & CHANGES TO THE ACCOUNTING POLICES (cont'd…)

Use of estimates and judgments

The preparation of the financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statement. Actual results could differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting year, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

a) Recovery of deferred tax assets

Judgment is required in determining whether deferred tax assets are recognized on the statement of financial position. Deferred tax assets, including those arising from un-utilized tax losses require management to assess the likelihood that the Group will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Company to realize the net deferred tax assets recorded at the reporting date could be impacted.

Additionally, future changes in tax laws in the jurisdictions in which the Company operates could limit the ability of the Company to obtain tax deductions in future periods.

b) Contingencies

By their nature, contingencies will only be resolved when one or more future events occur or fail to occur. The assessment of contingencies inherently involves the exercise of significant judgment and estimates of the outcome of future events.

Determination of functional currency

The functional currency is the currency of the primary economic environment in which the entity operates. Management has determined that the functional currency for the Company is the United States Dollar. The functional currency determination was conducted through an analysis of the consideration factors identified in IAS 21, *The Effects of Changes in Foreign Exchange Rates*.

2. BASIS OF PRESENTATION & CHANGES TO THE ACCOUNTING POLICES (cont'd…)

Foreign exchange

Transactions in currencies other than the US dollar are recorded at exchange rates prevailing on the dates of the transactions. At the end of each reporting period, the monetary assets and liabilities of the Company that are denominated in foreign currencies are translated at the rate of exchange at the statement of financial position date while non-monetary assets and liabilities are translated at historical rates. Revenues and expenses are translated at the exchange rates approximating those in effect on the date of the transactions. Exchange gains and losses arising on translation are recognized through profit or loss.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial risk management

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's financial instruments consist of receivables, accounts payable and accrued liabilities and due to related parties.

The fair value of cash is measured on the statement of financial position using level 1 of the fair value hierarchy. The fair values of receivables, accounts payable and accrued liabilities and due to related parties approximate their book values because of the short-term nature of these instruments.

Financial instrument risk exposure

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management processes.

Credit risk

Credit risk is the risk of financial loss to the Company if counterparty to a financial instrument fails to meet its payment obligations. The Company has no material counterparties to its financial instruments with the exception of the financial institutions which hold its cash.

The Company manages this credit risk by ensuring that these financial assets are placed with a major financial institution with strong investment grade ratings by a primary ratings agency. The Company's receivables consist primarily of harmonized sales tax due from the Canada Revenue Agency. The Company does not believe it has a material exposure to credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure as described in Note 4. There is a risk that the Company may not be able to meet its financial obligation when they are due. All of the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms. As of November 30, 2015 the Company has no financial assets that are past due or impaired due to credit risk defaults.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd…)

Foreign exchange risk

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the foreign currency exchange rates. The Company's functional currency is the U.S. dollar. All of the Company's financial instruments are denominated in U.S. dollars. In management's opinion there is no significant foreign exchange risk to the Company.

Transaction Costs

Transaction costs attributable to the acquisition or issue of financial assets or financial liabilities, other than those classified as held-for-trading, are added to the initial fair value amount to match the costs with the related transactions. Purchases and sales of securities are accounted for on the settlement date basis

<u>Financial assets</u>

The Company classifies its financial assets into one of the following categories, depending on the purpose for which the asset was acquired. The Company's accounting policy for each category is as follows:

Fair value through profit or loss - This category comprises derivatives, or assets acquired or incurred principally for the purpose of selling or repurchasing it in the near term. They are carried in the statement of financial position at fair value with changes in fair value recognized through profit or loss.

Loans and receivables - These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are carried at cost less any provision for impairment. Individually significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default.

Held-to-maturity investments - These assets are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company's management has the positive intention and ability to hold to maturity. These assets are measured at amortized cost using the effective interest method. If there is objective evidence that the investment is impaired, determined by reference to external credit ratings and other relevant indicators, the financial asset is measured at the present value of estimated future cash flows. Any changes to the carrying amount of the investment, including impairment losses, are recognized through profit or loss.

Available-for-sale - Non-derivative financial assets not included in the above categories are classified as available-for-sale. They are carried at fair value with changes in fair value recognized directly in equity. Where a decline in the fair value of an available-for-sale financial asset constitutes objective evidence of impairment, the amount of the loss is removed from equity and recognized through profit or loss.

The Company has not classified any financial assets as held-to-maturity or available for sale.

All financial assets except for those at fair value through profit or loss are subject to review for impairment at least at each reporting date. Financial assets are impaired when there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described above.

(Expressed in US dollars)

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd…)

The Company's receivables are classified as loans and receivables.

Financial liabilities

The Company classifies its financial liabilities into one of two categories, depending on the purpose for which the asset was acquired. The Company's accounting policy for each category is as follows:

Fair value through profit or loss - This category comprises derivatives, or liabilities acquired or incurred principally for the purpose of selling or repurchasing it in the near term. They are carried in the statement of financial position at fair value with changes in fair value recognized through profit or loss.

Other financial liabilities: This category includes promissory notes, amounts due to related parties and accounts payable and accrued liabilities, all of which are recognized at amortized cost. The Company's accounts payable and accrued liabilities and due to related parties are classified as other financial liabilities.

Interest-bearing loans and other borrowings

Interest-bearing loans and other borrowings are recognized initially at fair value less related transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortized cost with any difference between cost and redemption value being recognized in the income statement over the period of borrowings on an effective interest basis.

4. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Due within the next twelve months		February 29, 2016		May 31, 2015
Trades payable	$	59,768	$	43,155
Accrued liabilities		17,475		17,637
Total	$	77,243	$	60,792

There are no government remittances payable as at February 29, 2016.

5. SHARE CAPITAL

a) Common stock

Authorized

Unlimited common shares without par value
Unlimited preferred shares without par value

Issued and outstanding

During the year ended May 31, 2011, the Company:

	Number of Shares	Amount
Balance, May 31, 2015 and February 29, 2016	15,638,667	$ 275,000

6. RELATED PARTY TRANSACTIONS

The Company's related parties consist of companies owned in whole or in part by executive officers and directors as follows:

Name	Position and nature of transactions
Advantive Information Management, Inc.	Common Director - Management services
Brian Cameron	Director - Consulting services
Jack Saltich	Director - Consulting services
Van Potter	Director - Consulting services
Certive Solutions Inc.	Common Director - Management services
Certive Technologies Arizona Inc.	Common Director - Management services

(Expressed in US dollars)

6. RELATED PARTY TRANSACTIONS (cont'd…)

The Company incurred the following fees in the normal course of operations in connection with companies owned by key management and directors. Expenses have been measured at the exchange amount which is determined based on actual cost.

	February 29, 2016	May 31, 2015
Advantive Information Management, Inc.	$ (61,675)	$ (61,675)
Brian Cameron	(380)	(380)
Certive Solutions Inc.	(23,552)	(21,638)
Certive Technologies Arizona Inc.	(367,142)	(282,374)
Total	$ (452,749)	$ (366,067)

The remuneration of directors and other members of key management personnel during the year ended February 29, 2016 and 2015 were as follows:

	Febuary 29, 2016	Febuary 28, 2015
Consulting fees	$ 80,000	$ 64,000
Total	$ 80,000	$ 64,000

7. LOANS PAYABLE

The loans are made of the following:

	February 29, 2016	May 31, 2015
Chuck Bowen	$ 12,500	$ 12,500
Jim Doyle	10,000	10,000
Total	$ 22,500	$ 22,500

The Company owes its former directors Chuck Bowen and Jim Doyle, $12,500 and $10,000 respectively. There are no set terms for repayment, the loans are unsecured, and the interest rates for the $12,500 and $10,000 are 10% and 12%.

(Expressed in US dollars)

8. INCOME TAXES

A reconciliation of income taxes at statutory rates with the reported taxes is as follows:

		February 29, 2016		February 28, 2015
Loss for the period	$	(102,589)	$	(81,559)
Expected income tax (recovery)		(25,647)		(20,390)
Change in statutory rates		-		-
Change in unrecognized deductible temporary differences		25,647		20,390
Total income tax expense (recovery)	$	-	$	-

The significant components of the Company`s deferred tax assets are as follows:

		February 29, 2016		February 28, 2015
Deferred tax assets (liabilities)				
Non-capital losses available for future period	$	648,033	$	545,444
Unrecognized deferred tax assets		(648,033)		(545,444)
Net deferred tax assets	$	-	$	-

The deferred tax assets have not been recognized in these financial statements as it is not probable that they will be realized.

The significant components of the Company`s unrecognized temporary differences and tax losses are as follows:

		February 29, 2016		February 28, 2015	Expiry Date Range
Temporary differences					
Non-capital losses available for future period	$	648,033	$	545,444	2031-2035

Tax attributes are subject to review, and potential adjustment by tax authorities.
