1. NATURE AND CONTINUANCE OF OPERATIONS

Explorex Resources Inc. (the "Company") was incorporated under the Business Corporations Act (British Columbia) on January 6, 2011. The head office of the Company is located at 488 – 625 Howe Street, Vancouver, British Columbia, V6C 2T6. The registered office of the Company is located at Suite 400-725 Granville Street, Vancouver, British Columbia, V7Y 1G5. The Company does not have any subsidiaries.

These condensed interim consolidated financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going-concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. Accordingly, it does not give effect to adjustments, if any that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts which may differ from those shown in the condensed interim consolidated financial statements.

The ability of the Company to continue as a going concern is dependent on its ability to obtain additional equity financing and achieve future profitable operations. As at September 30, 2019, the Company had working capital of \$118,829, had not yet achieved profitable operations and has an accumulated deficit of \$4,666,099 since its inception. The Company expects to incur further losses in the development of its business, all of these circumstances comprise a material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern. The Company will require additional financing in order to explore new business opportunities, meet its ongoing levels of corporate overhead and discharge its liabilities as they come due. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future.

2. BASIS OF PRESENTATION

Basis of presentation

The condensed interim consolidated financial statements have been prepared in accordance to IAS 34 Interim Financial Reporting using accounting policies consistent with the International Financial Reporting Standards ("IFRSs") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

The condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at revalued amounts or fair values, as explained in the accounting policies below. In addition, the condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow disclosure. These condensed interim consolidated financial statements do not include all the information required for full annual financial statements. The condensed interim consolidated financial statements should be read in conjunction with the Company's annual financial statements for the year ended March 31, 2019.

These condensed interim consolidated financial statements are presented in Canadian dollars, which is also the Company and its subsidiary's functional currency.

Basis of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary 1223104 B.C. LTD. from the date of formation September 12, 2019. The Company's subsidiary is a holding company. All significant intercompany accounts and transaction between the Company and its subsidiary have been eliminated upon consolidation.

Notes to the Condensed Interim Consolidated Financial Statements

For the period ended as at September 30, 2019 (Expressed in Canadian Dollars) (Unaudited)

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied in preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the year ended March 31, 2019, except for the following:

In June, 2016 the IASB issued IFRS 16 which introduces new or amended requirements with respect to lease accounting. IFRS 16 introduced significant changes to the lessee accounting by removing the distinction between operating and finance leases and requiring the recognition of right-of-use assets and lease liabilities at the lease commencement for all leases, except for short-term leases and leases of low value assets. In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged. IFRS 16 was issued in January 2016 and applies to annual financial reporting periods beginning on or after January 1, 2019.

IFRS 16 has changed how the Company accounts for leases previously classified as operating leases under IAS 17, which were off-balance sheet. Applying IFRS 16 for all except for short term leases and leases of low-value assets, the Company will (i) recognize 'right-of-use' assets and lease liabilities in the statement of financial position, initially measured at the present value of future lease payments discounted at the incremental borrowing rate; (ii) recognize depreciation of right-of-use assets and interest on lease liabilities in the statement of loss; and (iii) separate the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within operating activities) in the statement of cash flows. At April 1, 2019, the Company adopted this standard and there was no material impact on the Company's unaudited condensed interim consolidated financial statements.

In June, 2017, the IASB issued IFRIC Interpretation 23 Uncertainty over Income Tax Treatments. The Interpretation provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments. The Interpretation is applicable for annual periods beginning on or after January 1, 2019. At April 1, 2019, the Company adopted this standard and there was no material impact on the Company's unaudited condensed interim consolidated financial statements.
