

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

Management's discussion and analysis ("MD&A") is current to November 10, 2022 and is management's assessment of the operations and the financial results together with future prospects of Pima Zinc Corp. ("Pima" or the "Company"). This MD&A should be read in conjunction with our unaudited condensed interim consolidated financial statements and related notes for the three and nine months ended September 30, 2022 and 2021 prepared in accordance with International Financial Reporting Standards. All figures are in U.S. dollars unless stated otherwise. This discussion contains forward-looking statements that are not historical in nature and involves risks and uncertainties. Forward-looking statements are not guarantees as to Pima's future results as there are inherent difficulties in predicting future results. Accordingly, actual results could differ materially from those expressed or implied in the forward looking statements. The Company has adopted National Instrument 51-102F1 as the guideline in presenting the MD&A. Additional information relevant to Pima's activities, including Pima's Press Releases can be found on SEDAR at www.sedar.com.

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

1. Description of Business

Pima Zinc Corp. was incorporated under the laws of the State of Idaho in 1916. After several decades of dormancy, the Company reorganized in 1997 as an exploration stage company focused on evaluating, acquiring and exploring mineral prospects with potential for economic deposits. The Company was re-domiciled to the Cayman Islands in 2011. The Company filed a continuation application to continue out of the Cayman Islands under the provisions of the of the *Companies Law* (2020 Revision) and into the Province of British Columbia under the provisions of the *Business Corporations Act* (British Columbia) (the "Continuance"). The Continuance became effective on June 25, 2021.

As at the date of this report, the Company currently has no mineral property. The Company is seeking a strategic transaction to enhance shareholder value.

The profitability and operating cash flow of the Company is affected by various factors, including the market price of zinc and other commodities, operating costs, political risk, interest rates, regulatory and environmental compliance, general and administrative costs, the level of exploration and development expenditures and other discretionary costs. While Pima seeks to manage the level of risk associated with its business, many of the factors affecting these risks are beyond the Company's control.

On May 7, 2021, the Company amended its memorandum of association to consolidate all of the issued and outstanding ordinary shares ("Shares") of the Company by changing each block of twenty (20) pre-consolidation Shares of the Company into one (1) post-consolidation Share of the Company (the "Consolidation"), resulting in the previously outstanding Shares of the Company being consolidated into 1,267,139 Shares. No fractional Shares will be issued pursuant to the Consolidation and any fractional Shares that would have otherwise been issued have been rounded down to the nearest whole number. The Consolidation was approved by the members of the Company at the Annual and Special General Meeting of Shareholders held on February 8, 2021.

As at the date of this report, the directors and officers of the Company were:

Albert Contardi	Chief Executive Officer, Director
David MacMillan	Director
Daniel Nauth	Director
Arvin Ramos	Chief Financial Officer

2. Overall Performance

For the period ended September 30, 2022, the Company's cash position decreased to \$9,663 from \$10,600 at December 31, 2021. This decrease is due to bank charges.

Results of Operations

Selected Financial Information

	Nine months ended September 30, 2022	Year ended December 31, 2021	Year Ended December 31, 2020
	\$	\$	\$
Net loss	(161,502)	(116,717)	(65,888)
Net comprehensive loss	(153,019)	(121,013)	(67,173)
Loss per weighted average share – basic and fully diluted	(0.02)	(0.10)	(0.05)
Total Assets	9,663	10,600	11,181

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

Three months ended September 30, 2022 vs. September 30, 2021

The Company incurred a net comprehensive loss of \$26,534 or \$0.00 a share for the three-month period ended September 30, 2022, compared with a net comprehensive loss of \$24,273 or \$0.01 a share for the same period ended in 2021.

For the three-month period ended September 30, 2022, consulting fees were \$10,000 compared to \$10,000 in the same period in 2021. Consulting fees are made up of management fees.

Professional fees increased to \$22,025 during the three-month period ended September 30, 2022, compared to \$9,399 in the same period in 2021. The increase is attributable to higher legal fees.

For the three-month period ended September 30, 2022, general and administrative expenses were \$1,380 compared to \$170 in the same period in 2021.

Investor relations, transfer agent and filing fees during the three-month period ended September 30, 2022 were \$2,153 compared to \$4,563 in the same period in 2021.

Nine months ended September 30, 2022 vs. September 30, 2021

The Company incurred a net comprehensive loss of \$153,019 or \$0.02 a share for the nine-month period ended September 30, 2022, compared with a net comprehensive loss of \$94,938 or \$0.07 a share for the same period ended in 2021.

For the nine-month period ended September 30, 2022, consulting fees were \$30,000 compared to \$30,000 in the same period in 2021. Consulting fees are made up of management fees.

Professional fees increased to \$101,499 during the nine-month period ended September 30, 2022, compared to \$29,152 in the same period in 2021. The increase is attributable to higher legal fees.

For the nine-month period ended September 30, 2022, general and administrative expenses were \$4,167 compared to \$13,825 in the same period in 2021.

Investor relations, transfer agent and filing fees during the nine-month period ended September 30, 2022 were \$25,836 compared to \$22,114 in the same period in 2021.

3. Summary of Quarterly Results

Selected financial information for the eight quarters as follows:

	Sept 30, 2022 \$	June 30, 2022 \$	March 31, 2022 \$	Dec 31, 2021 \$
Total revenue	-	-	-	-
Expenses	(35,558)	(89,385)	(36,559)	(19,794)
Net comprehensive loss	(26,534)	(89,744)	(36,741)	(24,243)
Loss per share – basic and diluted	\$(0.00)	\$(0.01)	\$(0.01)	\$(0.02)
	Sept 30, 2021	June 30, 2021	March 31, 2021	Dec 31, 2020

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

	\$	\$	\$	\$
Total revenue	-	-	-	-
Expenses	(26,258)	(47,482)	(21,746)	(3,788)
Net comprehensive loss	(26,105)	(47,482)	(21,351)	(5,073)

Working Capital

As at September 30, 2022, the Company had a net working capital deficiency of \$233,186 compared to a deficiency of \$307,639 as at December 31, 2021.

A summary of the Company's cash position and changes in cash are provided below:

	September 30, 2022	September 30, 2021
Cash provided (used) in operating activities – net	\$ (9,420)	\$ (646)
Effect of foreign exchange translation	8,483	153
Decrease in cash	(937)	(493)
Cash, beginning of period	10,600	11,181
Cash, end of period	\$ 9,663	\$ 10,688

Liquidity and Capital Resources

Pima had cash of \$9,663 available at September 30, 2022, a decrease of \$937 from the balance at December 31, 2021 of \$10,600. The increase is due to general, administrative and operating activities.

On April 21, 2022, the Company settled an aggregate of \$285,000 of indebtedness to certain creditors of the Company through the issuance of 14,250,000 units in the capital of the Company (the "Units") at a price of \$0.02 per Unit (the "Debt Settlement"). Each Unit is comprised of one common share (each, a "Common Share") in the capital of the Company and one-half of one whole Common Share purchase warrant (each whole warrant, a "Warrant") (the "Debt Securities") in satisfaction of the Debt. Each Warrant will entitle the holder to acquire an additional Common Share at an exercise price of no less than \$0.50 for a period of two years from the date of issuance.

The Company has a need for equity capital and financing for working capital and to explore future business opportunities. Because of continuing operating losses, the Company's continuance as a going concern is dependent upon its ability to obtain adequate financing and/or to reach profitable levels of operation. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operations.

4. Related-party Transactions

During the nine months ended September 30, 2022, \$15,000 (2021 – \$15,000) was charged for services by the Chief Executive Officer.

During the nine months ended September 30, 2022, \$15,000 (2021 – \$15,000) was charged for services by the Chief Financial Officer.

These expenses have been measured at their exchange amount, being the amounts negotiated and agreed to by the parties to the transactions. As at September 30, 2022, \$47,090 (December 31, 2021 - \$90,000) of amounts due to related parties is included in accounts payable and accrued liabilities.

Management believes these transactions are in the normal course of business and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

Disclosure of Outstanding Share Data

As at the date of this report, the Company has the following issued and outstanding:

Common shares– issued and outstanding	15,517,139
Warrants	7,125,000

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements.

Dividends

The Company has neither declared nor paid any dividends on its Common Shares. The Company intends to retain its earnings, if any, to finance growth and expand its operation and does not anticipate paying any dividends on its Common Shares in the foreseeable future.

Assessment of Recoverability of Deferred Tax Assets

In preparing the financial statements, the Company is required to estimate its income tax obligations. This process involves estimating the actual tax exposure together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. The Company assesses, based on all available evidence, the likelihood that the future income tax assets will be recovered from future taxable income and, to the extent that recovery cannot be considered "more likely than not," a valuation allowance is established. If the valuation allowance is changed in a period, an expense or benefit must be included within the tax provision on the income statement.

Estimate of Stock-Based Compensation and Associated Assumptions

The Company recorded stock-based compensation based on an estimate of the fair value on the grant date of stock options issued. This accounting required estimates of interest rate, life of options, stock price volatility and the application of the Black-Scholes option pricing model.

Assessment of Recoverability of Receivables

The carrying amount of accounts receivables, are considered representative of their respective values. The Company assesses the likelihood that these receivables will be recovered and, to the extent that recovery is considered doubtful a provision for doubtful accounts is recorded.

Critical Accounting Policies

Share-based payments

Share-based payment transactions

Employees (including directors and senior executives) of the Company receive a portion of their remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

In situations where equity instruments are issued and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at fair value of the share-based payment.

Equity-settled transactions

The costs of equity-settled transactions with employees are measured by reference to the fair value at the date on which they are granted.

The costs of equity-settled transactions are recognized, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the "vesting date"). The cumulative expense is recognized for

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

equity-settled transactions at each reporting date until the vesting date reflects the Company's best estimate of the number of equity instruments that will ultimately vest.

The profit or loss charge or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and the corresponding amount is represented in share option reserve.

No expense is recognized for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vesting irrespective of whether or not the market condition is satisfied provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, the minimum expense recognized is the expense as if the terms had not been modified. An additional expense is recognized for any modification which increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee as measured at the date of modification.

The dilutive effect of outstanding options is reflected as additional dilution in the computation of earnings per share.

Taxation

Income tax expense represents the sum of tax currently payable and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the date of the statement of financial position.

Deferred income tax

Deferred income tax is provided using the liability method on temporary differences at the date of the statement of financial position between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized except:

- where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred income tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

The carrying amount of deferred income tax assets is reviewed at each date of the statement of financial position and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred income tax assets are reassessed at each date of the statement of financial position and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the date of the statement of financial position.

Deferred income tax relating to items recognized directly in equity is recognized in equity and not in the statement of comprehensive income.

Deferred income tax

Deferred income tax assets and deferred income tax liabilities are offset if, and only if, a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend to either settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be settled or recovered.

Loss per share

The basic loss per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the period. The diluted loss per share reflects the potential dilution of common share equivalents, such as outstanding stock options and share purchase warrants, in the weighted average number of common shares outstanding during the year, if dilutive. The "treasury stock method" is used for the assumed proceeds upon the exercise of the options and warrants that are used to purchase common shares at the average market price during the year. During the period ended September 30, 2022 and 2021, all the outstanding stock options and warrants were antidilutive.

Financial assets

Initial recognition and measurement

Non-derivative financial assets within the scope of IFRS 9 are classified and measured as "financial assets at fair value", as either fair value either through profit or loss ("FVPL") or through other comprehensive income ("FVOCI"), and "financial assets at amortized costs", as appropriate. The Company determines the classification of financial assets at the time of initial recognition based on the Company's business model and the contractual terms of the cash flows.

All financial assets are recognized initially at fair value plus, in the case of financial assets not at FVPL, directly attributable transaction costs on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

Financial assets with embedded derivatives are considered in their entirety when determining their classification at FVPL or at amortized cost.

Subsequent measurement – financial assets at amortized cost

After initial recognition, financial assets measured at amortized cost are subsequently measured at the end of each reporting period at amortized cost using the Effective Interest Rate ("EIR") method. Amortized cost is calculated by taking into account any discount or premium on acquisition and any fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statements of loss.

Subsequent measurement – financial assets at FVPL

Financial assets measured at FVPL include financial assets management intends to sell in the short term and any derivative financial instrument that is not designated as a hedging instrument in a hedge relationship. Financial assets measured at FVPL are carried at fair value in the statements of financial position with changes in fair value

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

recognized in other income or expense in the statements of loss. The Company does not measure any financial assets at FVOCI.

Subsequent measurement – financial assets at FVOCI

Financial assets measured at FVOCI are non-derivative financial assets that are not held for trading and the Company has made an irrevocable election at the time of initial recognition to measure the assets at FVOCI. The Company does not measure any financial assets at FVOCI.

After initial measurement, investments measured at FVOCI are subsequently measured at fair value with unrealized gains or losses recognized in other comprehensive income or loss in the statements of comprehensive income (loss). When the investment is sold, the cumulative gain or loss remains in accumulated other comprehensive income or loss and is not reclassified to profit or loss.

Dividends from such investments are recognized in other income in the statements of loss and when the right to receive payments is established.

Derecognition

A financial asset is derecognized when the contractual rights to the cash flows from the asset expire, or the Company no longer retains substantially all the risks and rewards of ownership.

Financial liabilities

Initial recognition and measurement

Financial liabilities are measured at amortized cost, unless they are required to be measured at FVPL as is the case for held for trading or derivative instruments, or the Company has opted to measure the financial liability at FVPL. The Company's financial liabilities include trade and other payables, which are measured at amortized cost. All financial liabilities are recognized initially at fair value and in the case of long-term debt, net of directly attributable transaction costs.

Subsequent measurement – financial liabilities at amortized cost

After initial recognition, financial liabilities measured at amortized cost are subsequently measured at the end of each reporting period at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and any fees or costs that are an integral part of the EIR. The EIR amortization is included in finance cost in the statements of loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires with any associated gain or loss recognized in other income or expense in the statements of loss.

Impairment of financial assets

The Company assesses at each date of the statement of financial position whether a financial asset is impaired.

Assets carried at amortized cost

If there is objective evidence that an impairment loss on assets carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the asset is then reduced by the amount of the impairment. The amount of the loss is recognized in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed to the extent that the carrying value of the asset does not exceed what the amortized cost would have been had the impairment not been recognized. Any subsequent reversal of an impairment loss is recognized in profit or loss.

In relation to trade receivables, a provision for impairment is made and an impairment loss is recognized in profit and loss when there is objective evidence (such as the probability of insolvency or significant financial difficulties

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

of the debtor) that the Company will not be able to collect all of the amounts due under the original terms of the invoice. The carrying amount of the receivable is reduced through use of an allowance account. Impaired debts are written off against the allowance account when they are assessed as uncollectible.

Impairment of non-financial assets

At each date of the statement of financial position, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is an indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the assets belong.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of comprehensive income, unless the relevant asset is carried at a re-valued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years.

Cash

Cash in the statement of financial position comprises cash at banks, in the Company's lawyers trust account, and on hand.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) that has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence, related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. Related party transactions that are in the normal course of business and have commercial substance are measured at the exchange amount.

Significant accounting judgments and estimates

The preparation of these financial statements requires management to make judgments and estimates and form assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, revenue and expenses. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions. The most significant estimates relate to recoverability of trade and other receivables,

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

valuation of deferred income tax amounts, impairment testing and the calculation of share-based payments. The most significant judgments relate to recognition of deferred tax assets and liabilities.

5. Financial Instruments and other Instruments

Fair Value of Financial Assets and Liabilities

The Company has designated its cash as FVTPL which are measured at fair value. Fair value of cash is determined based on transaction value and is categorized as a Level One measurement.

- Level One includes quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level Two includes inputs that are observable other than quoted prices included in Level One.
- Level Three includes inputs that are not based on observable market data.

Cash is measured using Level One inputs.

Environmental and Permitting

All phases of the Company's operations are subject to environmental regulation in the various jurisdictions in which it operates. These regulations, among other things, mandate the maintenance of air and water quality standards, land reclamation, transportation, storage and disposal of hazardous waste. Environmental legislation is evolving in a manner which will require stricter standards and enforcement, increased fines and penalties for non-compliance, more stringent environmental assessments of proposed projects and a heightened degree of responsibility for companies and their officers, directors, and employees. There is no assurance that future changes in environmental regulation, if any, will not adversely affect the Company's operations.

Acquisition

The Company uses its best judgment to acquire mining properties for exploration and development in pursuit of such opportunities, the Company may fail to select appropriate acquisition candidates or negotiate acceptable agreements, including arrangements to finance the acquisitions and development, or integrate such opportunity and their personnel with the Company. The Company cannot assure that it can complete any acquisition that it pursues or is currently pursuing, on favourable terms, or that any acquisition completed will ultimately benefit the Company.

Competition

The mining industry is intensely competitive in all of its phases, and the Company competes with many companies possessing greater financial resources and technical facilities than itself. Competition in the mining business could adversely affect the Company's ability to acquire suitable producing properties or prospectus for mineral exploration in the future.

Financial Risk Factors

Credit Risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and loans receivable. The Company has no significant concentration of credit risk arising from operations. Cash is held with reputable Canadian chartered banks which are closely monitored by management. Management believes that the credit risk concentration with respect to financial instruments included in cash and loans receivable is minimal.

Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at September 30, 2022, the Company had current assets of \$9,663 (December 31, 2021 - \$10,600) and current liabilities of \$242,849 (December 31, 2021 - \$318,239). All of the Company's financial liabilities and

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

receivables have contractual maturities of less than 90 days and are subject to normal trade terms. The Company currently has a working capital deficiency of \$233,186 (December 31, 2021 – \$307,639).

Market Risks

(i) Interest Rate Risk

The Company has cash balances and no variable interest-bearing debt. The Company has fixed rates on its debt changes in interest rates could result in fair value risk on the Company's fixed rate debt.

Internal Control over Financial Reporting

Internal controls over financial reporting are procedures designed to provide reasonable assurance that transactions are properly authorized, assets are safeguarded against unauthorized or improper use, and transactions are properly recorded and reported. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance with respect to the reliability of financial reporting and financial statement preparation.

During the most recent year end there were no changes in the Company's internal control over financial reporting that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Proposed Transaction

On December 10, 2021, the Company entered into a non-binding letter of intent ("LOI") with Scryb Inc. (formerly Relay Medical Corp.) ("Scryb Inc."), pursuant to which the Company will acquire all of the issued and outstanding common shares in the capital of and Cybeats Technologies ("Cybeats") from Scryb.

The Company has entered into an amalgamation agreement (the "Amalgamation Agreement") and with Scryb, Inc., 2635212 Ontario Inc. ("Subco"), and Cybeats dated August 11, 2022, pursuant to which the Company will acquire all of the issued and outstanding common shares and preferred shares of Cybeats pursuant to a three-cornered amalgamation in accordance with Section 174 of the Business Corporations Act (Ontario) (the "Proposed Transaction"). As consideration for the Proposed Transaction, the Company will issue Scryb an aggregate of 60,000,000 common shares in the capital of the Company.

The parties entered into an amending agreement ("Amending Agreement") dated November 1, 2022, whereas, the Company will also issue Scryb 10,000,000 common share purchase warrants. Each warrant will entitle Scryb to acquire one additional common share at a price of CDN\$0.60 per common share for a period of 18 months following the completion of the Proposed Transaction. In addition, pursuant to the Amending Agreement, the termination date for the Amalgamation Agreement was extended to December 31, 2022.

Pursuant to the Amalgamation Agreement and upon the satisfaction or waiver of the conditions set out therein, the following, among other things, are required to be prior to consummation of the Proposed Transaction:

- The Company shall change its name to "Cybeats Technologies Corp". The Company changed its name on November 9, 2022;
- Subco shall complete a non-brokered private placement financing (the "Financing") for minimum gross proceeds of CDN\$7,000,000.

The Financing was completed on November 4, 2022 through the issuance of 13,323,800 units (each, a "PP Unit") at a price of \$0.50 (the "Issue Price") per PP Unit for gross proceeds of \$6,661,900. Each PP Unit is comprised of one common share in the capital of Subco (each, a "Subco Share") and one Subco Share purchase warrant (each, a "PP Warrant"). Each PP Warrant shall entitle the holder thereof to acquire one

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

Common Share at a price of \$0.60 per Common Share for a period of 18 months following the completion of the Proposed Transaction. In addition, the Company issued 3,411,000 subscription receipts (the "Subscription Receipts") in the capital of Subco at a price of \$0.50 per Subscription Receipt for gross proceeds of \$1,705,500. Each Subscription Receipt entitles the holder thereof to receive, without payment of additional consideration, one unit (each, a Unit"). Each Unit shall be comprised of one Subco Share and PP Warrant.

In connection with the Financing, the Company paid certain eligible persons (each, a "Finder") a cash commission of \$40,000 equal to 8% of the gross proceeds of the PP Units delivered by the Finder and issued 80,000 broker warrants (the "Broker Warrants") equal to 8% of the number of PP Units delivered by the Finders pursuant to the Offering. Each Broker Warrant entitles the holder thereof to acquire one common share of the Company at a price of \$0.50 per common share for a period of 18 months from the completion of the Proposed Transaction. In addition, the Company paid Finders a cash commission of \$102,330 equal to 6% of the gross proceeds of the Subscription Receipts.

- Subco, a corporation formed solely for the purpose of facilitating the Proposed Transaction, will merge with and into Cybeats, pursuant to which, among other things, all outstanding Subco Shares all securities convertible into Subco Shares shall be exchanged for replacement securities of the resulting issuer, one-for-one basis, exercisable in accordance with their terms

In addition, pursuant to the Amalgamation Agreement, the Company will assume all of the obligations of Scryb pursuant to the share exchange agreement dated March 2, 2021 (the "Share Exchange Agreement"), between Scryb, Cybeats, and the shareholders of Cybeats with respect to the payment and the issuance of the aggregate performance consideration (the "Aggregate Performance Consideration") upon the closing of the Proposed Transaction. The Company and Scryb acknowledge and agree that those persons who are entitled to the payment and issuance of the Aggregate Performance Consideration must agree to receive payment from the Company. In the event that they do not agree, Scryb will continue its obligations pursuant to the Share Exchange Agreement and complete the Aggregate Performance Consideration for such persons. In the event that the persons who are entitled to the payment and issuance of the Aggregate Performance Consideration do not agree to receive payment from Pima, Pima shall issue such number of common shares in the capital of the Company to Scryb equal in value to the number of common shares in the capital of Scryb that Scryb issues pursuant to the Aggregate Performance Consideration.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to provide reasonable assurance that all relevant information is gathered and reported to senior management, including the Company's President and Chief Executive Officer and Chief Financial Officer, on a timely basis so that appropriate decisions can be made regarding public disclosure. As at the end of the year covered by this management's discussion and analysis, management of the Company, with the participation of the President and Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as required by Canadian securities laws. Based on that evaluation, the President and Chief Executive Officer and the Chief Financial Officer have concluded that, as of the end of the period covered by this management's discussion and analysis, the disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the Company's annual filings and interim filings (as such terms are defined under Multilateral Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings) and other reports filed or submitted under Canadian securities laws is recorded, processed, summarized and reported within the time periods specified by those laws and that material information is accumulated and communicated to management of the Company, including the President and Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

The Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") are responsible for the design and effectiveness of disclosure controls and procedures ("DC&P") and the design of internal control over financial reporting ("ICFR") to provide reasonable assurance that material information related to the Company is made known to the Company's certifying officers. The Company's controls are based on the Committee of Sponsoring Organizations ("COSO") 2013 framework. The Company's CEO and the CFO have evaluated the design and effectiveness of the Company's DC&P as of September 30, 2022 and have concluded that these controls and procedures are effective in providing reasonable assurance that material information relating to the Company is made known to them by others within the Company. The CEO and CFO have also evaluated the design and effectiveness of the Company's ICFR as of September 30, 2022 and concluded that these controls and procedures are effective in providing reasonable assurance that financial information is recorded, processed, summarized and reported in a timely manner.

During the current period there have been no changes in the Company's DC&P or ICFR that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

6. Cautionary Note Regarding Forward-Looking Statements

This Management's Discussion and Analysis includes "forward-looking statements", within the meaning of applicable securities legislation, which are based on the opinions and estimates of Management and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "budget", "plan", "continue", "estimate", "expect", "forecast", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar words suggesting future outcomes or statements regarding an outlook. Such risks and uncertainties include, but are not limited to, risks associated with the mining industry (including operational risks in exploration development and production; delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of reserve estimates; the uncertainty of estimates and projections in relation to production, costs and expenses; the uncertainty surrounding the ability of the Company to obtain all permits, consents or authorizations required for its operations and activities; and health safety and environmental risks), the risk of commodity price and foreign exchange rate fluctuations, the ability of Pima to fund the capital and operating expenses necessary to achieve the business objectives of Pima, the uncertainty associated with commercial negotiations and negotiating with foreign governments and risks associated with international business activities, as well as those risks described in public disclosure documents filed by the Company. Due to the risks, uncertainties and assumptions inherent in forward-looking statements, prospective investors in securities of the Company should not place undue reliance on these forward-looking statements. Statements in relation to "reserves" are deemed to be forward-looking statements, as they involve the implied assessment, based on certain estimates and assumptions, that the reserves described can be profitably produced in the future.

Readers are cautioned that the foregoing lists of risks, uncertainties and other factors are not exhaustive. The forward-looking statements contained in this press release are made as of the date hereof and the Company undertakes no obligation to update publicly or revise any forward-looking statements or in any other documents filed with Canadian securities regulatory authorities, whether as a result of new information, future events or otherwise, except in accordance with applicable securities laws. The forward-looking statements are expressly qualified by this cautionary statement.

7. Management's Responsibility for Financial Information

Management is responsible for all information contained in this report. The unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards and include amounts based on management's informed judgments and estimates. The financial and operating information included in this report is consistent with that contained in the unaudited condensed interim consolidated financial statements in all material aspects.

Management maintains internal controls to provide reasonable assurance that financial information is reliable and accurate and assets are safeguarded.

Pima Zinc Corp.

Management's Discussion and Analysis For the period September 30, 2022 and 2021

The Audit Committee has reviewed the unaudited condensed interim consolidated financial statements with management. The Board of Directors has approved the unaudited consolidated interim financial statements on the recommendation of the Audit Committee.
