DESCRIPTION OF BUSINESS

The Company was incorporated under the laws of the Province of British Columbia on August 6, 2010.

Bravura Ventures Corp. (the “Company”) was incorporated on August 6, 2010 under the British Columbia Business Corporations Act. The Company is domiciled in Canada and is a reporting issuer with its common shares publicly traded on the TSX-Venture exchange under the stock symbol “BVQ”. The Company is primarily engaged in the acquisition, exploration and development of mineral properties. The address of its head office is Suite 800 - 1199 West Hastings Street, Vancouver, British Columbia, Canada, V6E 3T5

The Company is a junior mineral exploration company engaged in the business of acquiring, exploring and evaluating natural resource properties. The Company is currently focusing its financial resources on conducting an exploration program on the Greenhorn Property in British Columbia and three graphite properties in Quebec. The Company has not yet determined whether this property contains reserves that are economically recoverable. The recoverability of amounts shown for resource property and related deferred exploration expenditures are dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development of the resource property and upon future profitable production or proceeds from the disposition thereof.

On April 3, 2013, the Company entered into a letter of intent (“LOI”) with RedLion Resources Corp. (“RedLion”), a British Columbia privately-held junior exploration company that holds, through its wholly-owned Colombian subsidiary RedLion Resources Colombia S.A.S, a 50% interest in a registered mining concession known as Quebrada Grande in Colombia. The LOI outlines the general terms and conditions pursuant to which the Company and RedLion would complete a transaction resulting in a reverse take-over of Bravura by the shareholders of RedLion. The LOI is to be superseded by a definitive agreement to be executed on or before June 30, 2013 (or such other date as may be mutually agreed between the parties). This transaction is subject to requisite regulatory approval.

CHANGES IN ACCOUNTING POLICIES

See Note 2 "Significant Accounting Policies" and Note 3 "Application of New and Revised International Financial Reporting Standards" of the financial statements for the three months ended April 30, 2013.

CRITICAL ACCOUNTING POLICIES

Financial Instruments

The Company classifies financial assets and liabilities as held-for-trading, available-for-sale, loans and receivables or other financial liabilities depending on their nature. Financial assets and financial liabilities are recognized at fair value on their initial recognition, except for those arising from certain related party transactions which are accounted for at the transferor's carrying amount or exchange amount.

Financial assets and liabilities classified as held-for-trading are measured at fair value, with gains and losses recognized in net income. Financial assets classified as held-to-maturity, loans and receivables, and financial liabilities other than those classified as held-for-trading are measured at amortized cost, using the effective interest method of amortization. Financial assets classified as available-for-sale are measured at fair value, with unrealized gains and losses being recognized as other comprehensive income until realized, or if an unrealized loss is considered other than temporary, the unrealized loss is recorded in income. The Company has elected to account for transaction costs related to the issuance of financial instruments as a reduction of the carrying value of the related financial instruments.

Financial instruments included in the balance sheet are comprised of cash, accounts payable and due to directors. The Company is not exposed to any derivative instruments and currency exchange rate. The Company does not have foreign exchange hedges in place at this time. It is management's opinion that the Company is not exposed to significant interest rate or credit risks.
