## MANAGEMENT'S RESPONSIBILITY

To the Shareholders of Northern Iron Corp.:

Management is responsible for the preparation and presentation of the accompanying financial statements, including responsibility for significant accounting judgments and estimates in accordance with International Financial Reporting Standards. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of financial statements.

The Board of Directors and the Audit Committee are composed primarily of Directors who are neither management nor employees of the Company. The Board is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the financial information included in the annual report. The Board fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and the external auditors. The Audit Committee has the responsibility of meeting with management, and the external auditors to discuss the internal controls over the financial reporting process, auditing matters and financial reporting issues. The Board is also responsible for recommending the appointment of Northern Iron's external auditors.

The Company's independent auditor has not performed a review of these condensed interim financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

## NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

### NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

#### 1) Nature of operations and going concern

The Company was incorporated pursuant to the Company Act (Ontario) by registration of its Memorandum and Articles on 20 November 2009. On 09 July 2010 the Company registered in British Columbia for extra provincial registration as the Company's administrative office is located in British Columbia. The Company is classified as a 'Junior Natural Resource-Mining' company.

The Company is in the business of acquiring and exploring mineral properties in Red Lake Mining Division, Ontario and other locations. There has been no determination whether properties held contain ore reserves, which are economically recoverable. The recoverability of valuations assigned to mineral properties is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the properties, the ability to obtain the necessary financing to complete development, and future profitable production or proceeds from disposition.

These financial statements have been prepared on the basis of the accounting principles applicable to a going concern, which assumes the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

There are several adverse conditions that cast significant doubt upon the soundness of this assumption. The business of mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of resource property expenditures is dependent upon several factors. These include the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of mineral properties.

Consistent with other companies, in the sector of mineral exploration, the Company has incurred operating losses since inception, has no source of revenue, is unable to self-finance operations and has significant cash requirements to meet its overhead and maintain its mineral interests.

For the company to continue to operate as a going concern it must continue to obtain additional financing to maintain operations; although the Company has been successful in the past at raising funds, there can be no assurance that this will continue in the future.

If the going concern assumption were not appropriate for these financial statements then adjustments would be necessary to the carrying value of assets and liabilities, the reported expenses and the statement of financial position classifications used and such adjustments could be material.

	31 March 2012	30 September 2012
Working capital	\$ 1,816,000	\$ 5,779,000
Accumulated deficit	\$ (3,071,000)	\$ (2,424,000)

#### 2) Basis of preparation – Statement of compliance

These condensed interim financial statements have been prepared in accordance with IFRS as issued by the International Accounting Standards Board ("IASB") and in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting. The condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit

## Northern Iron Corp.

Canadian Funds

Unaudited

### NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

and loss, which are stated at their fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Since the unaudited condensed interim financial statements do not include all disclosures required by the International Financial Reporting Standards ("IFRS") for annual financial statements, they should be read in conjunction with the Company's audited annual financial statements for the year ended 30 September 2012.

The policies set out were consistently applied to all the periods presented unless otherwise noted below. The preparation of condensed interim financial statements in accordance with IAS 1 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies.

The preparation of condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, profit and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

#### 3) Summary of significant accounting policies

The accounting policies and methods of computation followed in preparing these condensed interim consolidated financial statements are the same as those followed in preparing the most recent audited annual consolidated financial statements. For a summary of significant accounting policies, please refer to the Company's audited annual consolidated financial statements for the year ended 30 September 2012.

#### 4) Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 3, management is required to make judgments, estimates and assumptions about the carrying amount and classification of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revisions affect only that period, or in the period of the revision and future periods, if the revision affects both current and future periods.

The following are the critical judgments and areas involving estimates, that management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amount recognized in the financial statements.

##### a) Key sources of estimation uncertainty

###### Useful life of plant and equipment

The Company reviews the estimated lives of its plant and equipment at the end of each reporting period. There were no material changes in the lives of plant and equipment as at 31 March 2013.

# Northern Iron Corp.

Canadian Funds

Unaudited

## NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

### Share based payments

Management assesses the fair value of stock options granted in accordance with the accounting policy. The fair value of stock options granted is measured using the Black-Scholes option valuation model ("BKS"), which was created for use in estimating the fair value of freely tradable, fully transferable options. The Company's stock options have characteristics significantly different from those of traded options, and changes in the highly subjective input assumptions can materially affect the calculated values. The fair value of stock options granted using the BKS do not necessarily provide a reliable measure of the fair value of the Company's stock option awards.

### Income Taxes

Provisions for income taxes are made using the best estimate of the amount expected to be paid based on a qualitative assessment of all relevant factors. The Company reviews the adequacy of these provisions at the end of the reporting period. However, it is possible that at some future date an additional liability could result from audits by taxing authorities. Where the final outcome of these tax-related matters is different from the amounts that were originally recorded, such differences will affect the tax provisions in the period in which such determination is made.

## 5) Financial instruments and risk management

### a) Financial instrument classification and measurement

Financial instruments of the Company carried on the Statement of Financial Position are carried at amortized cost with the exception of cash, which is carried at fair value. There are no significant differences between the carrying value of financial instruments and their estimated fair values as at 31 March 2013 and 30 September 2012.

The fair value of the Company's cash is quoted in active markets. The Company classifies the fair value of these transactions according to the following hierarchy.

- Level 1 – quoted prices in active markets for identical financial instruments.
- Level 2 – quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3 – valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The Company's cash has been assessed on the fair value hierarchy described above and classified as Level 1.

### b) Fair values of financial assets and liabilities

The Company's financial instruments include cash, amounts receivable, accounts payable and due to related parties. As at 31 March 2013 and 30 September 2012, the carrying value of cash is fair value. Accounts receivable, accounts payable and due to related parties approximate their fair value due to their short term nature.

### c) Market risk

Market risk is the risk that changes in market prices will affect the Company's earnings or the value of its financial instruments. Market risk is comprised of commodity price risk and interest rate risk. The objective of market risk

# Northern Iron Corp.

Canadian Funds

Unaudited

## NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

management is to manage and control exposures within acceptable limits, while maximizing returns. The Company is not exposed to significant market risk.

### d) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its bank accounts. The Company's bank accounts are held with major banks in Canada accordingly the Company believes it not exposed to significant credit risk.

### e) Interest rate risk

Interest rate risk is the risk of losses that arise as a result of changes in contracted interest rates. The Company is nominally exposed to interest rate risk.

### f) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. To manage this risk the Company maintains only the minimum amount of foreign cash required to fund its on-going exploration expenditures. As at 31 March 2013 and 30 September 2012, the Company holds no cash denominated in foreign currency and therefore is not exposed to significant foreign currency risk.

## 6) Exploration and evaluation assets

The Company is running an exploration program in the following properties to define iron ore economic resources. The Company holds outright five contiguous mineral properties located in the Red Lake Mining Division.

### a) El Sol property

100% interest in 4 mineral claims covering 1,024 hectares, known as the El Sol Property. This agreement is subject to a 2% Net Smelter Royalty ("NSR") upon commencement of commercial production. In quarter one, the Company purchased this 2% NSR for \$160,000 and signed an asset purchase agreement under which Ontario Iron Mining Inc. ("OIMI") will acquire 100% of the El Sol property. The Company has performed all of the requirements of the agreement, including the issuance of 9 million common shares. Subsequent to the end of the period under review OIMI announced their decision not to proceed at this time (note 15)

### b) Griffith Mine property

100% interest in 16 mineral claims covering 2,624 hectares, known as the Griffith Mine Property. The agreement is subject to a 1% NSR upon commencement of commercial production. On 17 December 2011, the Company entered into an agreement to acquire a 100% interest in 5 mineral claims located adjacent to the Griffith Mine property. These claims are also subject to a 1% NSR upon commencement of commercial production. The Company has performed all of the requirements of the agreement, as detailed below:

Date	Shares Issued	Cash Payment
05 January 2010	-	6,000 <sup>(ii)</sup>

## NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

(i) Issued

(ii) Paid

Additionally, the Company acquired a 100% interest in two mining claims, along with surface rights, adjacent to the past producing Griffith Mine Property. In consideration, the Company issued 1,500,000 common shares

### c) Karas property

100% interest in 15 mineral claims covering 3,200 hectares ("Karas A"). For details on requirements relating to this property, see the table included with Whitemud property, below.

Independent of the claims noted above, on 11 October 2012, the Company announced that it acquired a 100% interest in four mineral claims located in the Red Lake mining district of Ontario ("Karas B"). These claims are strategic and extend the Company's claims around the Karas A property. In consideration for the 100% interest in the Karas B claims, the Company issued 100,000 common shares.

### d) Whitemud property

100% interest in 28 mineral claims covering 5,168 hectares, known as Whitemud Property.

In order to keep the Karas A and Whitemud property agreements in good standing, the Company must perform the following by the dates specified below. During the Six months ended 31 March 2013, the Company signed an asset purchase agreement under which OIMI will acquire 100% of the Whitemud Property. Subsequent to the end of the period under review OIMI announced their decision not to proceed at this time (note 15)

<b>At 31 March 2013</b>	\$ 75,000	\$ 3,226	\$ 528,584	\$ 606,810

Property, plant and equipment are stated, in the statement of financial position, at cost less accumulated depreciation and accumulated impairment losses. Assets in the course of construction are carried at cost, less any recognized impairment loss. Depreciation of these assets commences when the assets are ready for their intended use. The cost of property, plant, and equipment includes directly attributed incremental costs incurred in their acquisition and installation.

Assets held under capital lease are depreciated over their expected useful lives on the same basis as owned assets, or where shorter, the term of the relevant lease. The gain or loss arising on the disposal or retirement of an item of equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognized in the statement of comprehensive income (loss).

## NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

### 9) Share capital

a) **Authorized: Unlimited common shares without par value.**

b) **Issued or allotted and fully paid:**

On 24 October 2012, the Company issued 100,000 common shares as compensation for a 100% interest in four mineral claims located in the Red Lake mining district of Ontario, strategically located around the Karas property. In addition the Company issued 1,500,000 common shares for a 100% interest in two mineral claims, along with surface rights, located adjacent to the Griffith property.

In June 2012, the Company issued 350,000 common shares upon the exercise of stock options at a price of \$0.10 per option.

On 10 January 2012, the Company issued 100,000 shares at a value of \$0.14 for a total value of \$14,000 for the acquisition of a resource property, details of which are disclosed in Note 7.

With an effective date of 31 December 2011, the Company renounced \$5,750,000 of flow-through share expenditures. This renunciation included all 17,424,243 flow-through shares issued in the Company's initial public offering, resulting in a deferred income tax adjustment of \$221,500.

On 25 October 2011, the Company issued 500,000 shares at a value of \$0.20 for a total value of \$100,000 for the acquisition of a resource property, details of which are disclosed in Note 7.

c) **Summary of stock option activity**

The Company has adopted an incentive stock option plan to grant options to directors, officers, and consultants for up to 10% of the outstanding common shares. The Board of Directors determines the exercise price per share and the vesting period under the plan. The options can be granted for a maximum term of five years.

Details of stock options outstanding as at 31 March 2013 are as follows:

Issuance Date	Expiry Date	Exercise Price	Fiscal 2013
01 April 2010	01 April 2015	\$0.10	500,000
01 April 2010	01 April 2015	0.10	25,000
11 June 2010	11 June 2015	0.10	1,050,000
01 July 2010	01 July 2015	0.10	25,000
28 March 2011	28 March 2013	0.30	300,000
13 October 2011	13 October 2016	0.30	200,000
21 December 2011	21 December 2016	0.30	1,025,000
23 May 2012	23 May 2017	0.10	600,000
10 July 2012	10 July 2017	0.15	725,000
01 December 2012	01 December 2014	0.07	100,000
			<u>4,550,000</u>

The outstanding options have a weighted average remaining life of the 3.26 years. As at 31 March 2013, 4,450,000 of these outstanding options had vested. Total exercisable is 4,550,000 with a weighted average exercise price of \$0.17 as at 31 March 2013. As at 30 September 2012, exercisable options totalled 4,450,000 with a weighted average exercise price of \$0.17.

## NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

### d) Warrants

There was no warrant activity during the six month period ended 31 March 2013 and the year ended 30 September 2012.

Details of warrants outstanding as at 31 March 2013 are as follows:

Issued	Expiry	Exercise Price	31 December 2013
23 August 2011	25 August 2013	\$ 0.50	40,644,077

### e) Stock-based compensation

Details of the Company's issued stock options to its directors, officers, and consultants and recognized stock-based compensation during the six month period ended 31 March 2013, and the year ended 30 September 2012 are as follows:

	31 March 2013	30 September 2012
Total options granted	100,000	2,650,000
Average exercise price	\$ 0.07	\$ 0.21
Estimated fair value of compensation – Expense	\$ 3,000	\$ 204,422
Estimated fair value of compensation – Exploration and evaluation	\$ -	\$ 6,578
Estimated fair value per option	\$ 0.03	\$ 0.08

The fair value of the stock-based compensation to be recognized in the accounts has been estimated using the Black-Scholes Option-Pricing Model with the following weighted-average assumptions:

	2013
Risk-free interest rate	1.06%
Expected dividend yield	0.00%
Expected stock price volatility	75%
Expected option life in years	2.00

Stock-based compensation for the options that vested during the period is as follows:

	31 March 2012	30 September 2012
Number of options vested	-	2,650,000
Total share-based payment	\$ 250	\$ 211,000

The Black-Scholes Option Pricing Model was created for use in estimating the fair value of freely tradable, fully transferable options. The Company's stock options have characteristics significantly different from those of traded options, and because changes in the highly subjective input assumptions can materially affect the calculated values, management believes that the accepted Black-Scholes model does not necessarily provide a reliable measure of the fair value of the Company's stock option awards.

## NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

### 10) Related party transactions

Transactions and balances with related parties not disclosed elsewhere in the financial statements are as follows for the three month periods ended 31 March 2013 and 2011.

#### RELATED PARTY DISCLOSURE

Name and Principal Position	Period <sup>(1)</sup>	Remuneration or fees <sup>(2)</sup>	Share-based awards	Accounts Receivable
Basil Botha - President CEO and Director	2013	\$ 120,000	\$ -	\$ -
	2012	185,000	-	-
Golden Hammer – a company of which the VP of Exploration is an owner– consulting fees	2013	30,000	-	-
	2012	185,000	-	6,576
1514380 Ontario – a company owned or controlled by a Director	2013	75,000	-	-
	2012	75,000	-	-
Clearline – a company of which the CFO is a director, professional fees	2013	31,368	-	-
	2012	30,001	-	10,520

(1) Six month periods ended 31 March 2013 and 31 March 2012.

(2) Amounts disclosed were paid or accrued to the related party.

These transactions were in the normal course of operations and are measured at their exchange amount, which is the amount of consideration established and agreed to by the related parties.

### 11) Segmented disclosure

The Company operates in only one industry segment, the exploration and development of resource properties, and holds assets only in Canada.

### 12) Capital management

The Company's capital consists of shareholders' equity. The Company's objective when managing capital is to maintain adequate levels of funding to support the development of its businesses and maintain the necessary corporate and administrative functions to facilitate these activities. This is done primarily through equity financing, selling assets, and incurring debt. Future financings are dependent on market conditions and there can be no assurance the Company will be able to raise funds in the future. The Company invests all capital that is surplus to its immediate operational needs in short-term, highly liquid, high-grade financial instruments. There were no changes to the Company's approach to capital management during the period. The Company is not subject to externally imposed capital requirements. The Company does not currently have adequate sources of capital to complete its exploration plan, current obligations and ultimately the development of its business, and will need to raise adequate capital by obtaining equity financing, selling assets and incurring debt. The Company may raise additional debt or equity financing in the near future to meet its current obligations.

### NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

#### 13) Deferred income taxes

The following table reconciles the expected income taxes (recovery) at the Canadian statutory income tax rates to the amounts recognized in the statements of operations for the period ended 31 March 2013 and the year ended 30 September 2012:

	31 March 2013	30 September 2012
Income (loss) before income taxes	\$ (850,000)	\$ (1,488,740)
Statutory tax rate	25.38	25.38%
Expected income tax (recovery)	(216,000)	(377,768)
Non-deductible items	9,000	61,558
Flow-through share premium	-	(662,121)
Change in enacted tax rate	3,000	(16,889)
Flow-through shares renounced	-	1,459,063
Share issuance cost	-	-
Change in deferred tax asset not recognized	-	(685,343)
Total income taxes (recovery)	\$ (204,000)	\$ (221,500)

Deferred income taxes reflect the tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes. Deferred tax assets (liabilities) at 31 March 2013, 30 September 2012 are comprised of the following:

	31 March 2013	30 September 2012
Non capital loss carryforwards	\$ 1,068,000	\$ 765,860
Mineral properties	(1,503,000)	(1,502,875)
Fixed assets	1,000	563
Financing costs	-	295,831
Deferred tax asset not recognized	197,000	-
Net deferred tax (liability)	\$ (237,000)	\$ (440,621)

The Company has non-operating loss carryforwards of approximately \$3,800,000 which may be carried forward to apply against future year income tax for Canadian income tax purposes, subject to the final determination by taxation authorities, expiring in the following years:

Year of Expiry	Taxable Loss
2029	\$ 401,000
2030	1,019,000
2031	1,643,000
2032	799,000
<b>Total</b>	<b>\$ 3,862,000</b>

The deferred tax assets have not been recognized because at this stage of the Company's development, it is not determinable that Deferred taxable profit will be available against which the Company can utilize such deferred income tax assets.

### NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

#### Accounting for Uncertainty for Income Taxes

Effective month, date and year, the Company adopted the interpretation for accounting for uncertainty in income taxes which was an interpretation of the accounting standard accounting for income taxes. This interpretation created a single model to address accounting for uncertainty in tax positions. This interpretation clarifies the accounting for income taxes, by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements.

#### 14) Commitment

During the year ended 30 September 2012, the Company entered into a contract for office rent which expires 30 June 2015. The following table summarizes the Company's total annual obligations under this agreement:

Fiscal 2013	\$	21,000
Fiscal 2014		28,000
Fiscal 2015		<u>21,000</u>
<b>Total</b>	<b>\$</b>	<b>70,000</b>

#### 15) Subsequent events

On 29 May 2013, the Company announced that OIMI had determined not to conclude the purchase of Northern Iron's El Sol and Whitemud properties at this time. The asset purchase agreement was set to expire on 31 May 2013 (notes (6)a), (6)d)).
