1. NATURE OF OPERATIONS AND GOING CONCERN

Aion Therapeutic Inc. (formerly, Osoyoos Cannabis Inc.) (“Aion” or the “Company”) was incorporated on January 13, 2011 under the *Business Corporations Act* (British Columbia). The head office of the Company is located at 45 Sheppard Avenue East, Suite 703, Toronto, Ontario, Canada, M2N 5W9. The Company is publicly traded on the Canadian Securities Exchange under the symbol “AION”.

Effective October 31, 2018, the Company was part of a three-cornered amalgamation among LKP Solutions Inc. (“LKP”), 1160516 B.C. Ltd. (a wholly owned subsidiary of LKP) and former Osoyoos Cannabis Inc. (“OSO”). The result of the transactions was that LKP acquired all of the issued and outstanding securities of former OSO on the basis of one share of LKP for each share of former OSO. At completion of the transactions, LKP changed its name to Osoyoos Cannabis Inc. and the former OSO was amalgamated into 1160516 B.C. Ltd. Effective August 26, 2020, the Company changed its name to Aion Therapeutic Inc. and began trading under its new name and symbol on August 28, 2020.

On June 30, 2020, the Company completed the acquisition of 1196691 B.C. Ltd. d/b/a “PCAI Pharma” and its wholly-owned subsidiary AI Pharmaceuticals Jamaica Limited (“AI Pharma”). The business of AI Pharma involves research and development, treatment, data mining and state-of-the-art artificial intelligence (machine learning) techniques, focused on the development of combinatorial pharmaceuticals, nutraceuticals and cosmeceuticals utilizing compounds from cannabis (cannabinoids), psychedelic mushrooms (psilocybin), fungi (edible mushroom), natural psychedelic formulations (ayahuasca), and other medicinal plants in a legal environment for this type of discovery.

The backbone of the Company’s combinatorial treatment formulation discovery platform is artificial intelligence techniques. Using artificial intelligence, the Company intends to create a full line of therapeutic products that includes combinatorial pharmaceuticals, nutraceuticals, and cosmeceuticals, as well as, individualized treatments for personalized medicine using human genome and other data unique to an individual. In addition, the Company is creating a strong international intellectual property portfolio related to its discoveries.

These condensed interim consolidated financial statements have been prepared using International Financial Reporting Standards (“IFRS”) on a going concern basis, which presumes the realization of assets and discharge of liabilities in the normal course of business, for the next fiscal year. At July 31, 2022, the Company had cash and cash equivalents of \$16,939 (April 30, 2022 - \$nil), working capital deficiency of \$2,001,592 (April 30, 2022 – \$2,406,609), and an accumulated deficit of \$19,012,450 (April 30, 2022 - \$19,820,543). The continuing operations of the Company are dependent on funding. The Company intends to finance its future requirements through a combination of debt and/or equity issuance. There is no assurance that the Company will be able to obtain such financings or obtain them on favorable terms. This uncertainty may cast significant doubt about the ability of the Company to continue as a going concern. These condensed interim consolidated financial statements do not include any adjustments to the carrying value or presentation of assets or liabilities that might be necessary should the Company be unable to continue as a going concern. These adjustments could be material.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business or ability to raise funds.

2. BASIS OF PRESENTATION

Basis of preparation

These condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for certain cash flow information. The functional currency of the Company and its subsidiaries is the Canadian dollar, which is also the Company's reporting currency.

Statement of compliance

These condensed interim consolidated financial statements have been prepared in conformity with International Accounting Standards ("IAS") 34 – *Interim Financial Reporting* and do not include all information required for full annual consolidated financial statements in accordance with IFRS and should be read in conjunction with the audited consolidated financials for the year ended April 30, 2022. These condensed interim consolidated financial statements of the Company and its subsidiaries were prepared using accounting policies consistent with IFRS as issued by the International Accounting Standards Board and interpretations of the IFRS Interpretations Committee ("IFRIC").

These condensed interim consolidated financial statements have been reviewed and approved by the Company's Audit Committee and its Board of Directors on November 4, 2022.

Basis of consolidation

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power, directly and indirectly, to govern the financial and operating policies of an entity and be exposed to the variable returns from its activities. The financial statements of the Company's subsidiaries are included in the condensed interim consolidated financial statements from the date that control commences until the date that control ceases. These condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries: Oservco Management Corp., 1160516 B.C. Ltd. and its wholly-owned subsidiary Bare Root Production Osoyoos Inc., and PCAI Pharma and its wholly-owned subsidiary AI Pharma. All inter-company transactions and balances have been eliminated on consolidation.

Significant accounting judgments and estimates

The preparation of these condensed interim consolidated financial statements in compliance with IFRS requires management to make certain critical accounting estimates and assumptions. These estimates and assumptions affect the reported amounts of assets, liabilities, shareholders' equity, and the disclosure of contingent assets and liabilities, as at the date of the financial statements, and expenses for the periods reported.

2. BASIS OF PRESENTATION (continued)

Significant accounting judgments and estimates (continued)

Critical Judgements

The preparation of these condensed interim consolidated financial statements requires management to make judgements regarding the going concern of the Company, as previously discussed in Note 1, as well as the determination of functional currency. The functional currency is the currency of the primary economic environment in which an entity operates and has been determined for each entity within the Company. The functional currency for the Company, Oservco Management Corp., 1160516 B.C. Ltd., Bare Root Production Osoyoos Inc., and PCAI Pharma have been determined to be the Canadian dollar. The functional currency of AI Pharma has been determined to be the Jamaican dollar.

Key Sources of Estimation Uncertainty

Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting periods. Actual results could differ from those estimates and such differences could be significant. Significant estimates made by management affecting the condensed interim consolidated financial statements include:

Share-based payments

Estimating fair value for granted stock options and warrants requires determining the most appropriate valuation model which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the option or warrant, volatility, dividend yield, and rate of forfeitures and making assumptions about them.

Discount rates used in convertible debentures

The Company calculates the liability portion of convertible debentures by calculating the present value of the debenture and related interest, using a discount rate equal to the market rate that would be given for similar debt, without a conversion feature. Management determines this rate by assessing what rate the Company could borrow funds at from an unrelated party.

Deferred tax assets and liabilities

The estimation of income taxes includes evaluating the recoverability of deferred tax assets and liabilities based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets and liabilities will not be realized. The ultimate realization of deferred tax assets and liabilities is dependent upon the generation of future taxable income, which in turn is dependent upon the successful execution of the Company's business plan. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets or liabilities, and deferred income tax provisions or recoveries could be affected.

2. BASIS OF PRESENTATION (continued)

Significant accounting judgments and estimates (continued)

Carrying values of tangible assets

The Company assesses the carrying value of its tangible assets annually or more frequently if warranted by a change in circumstances. If it is determined that carrying values of assets cannot be recovered, the unrecoverable amounts are charged against current net income (loss). Recoverability is dependent upon assumptions and judgements regarding market conditions, costs of operations and sustaining capital requirements. Other assumptions used in the calculation of recoverable amounts are discount rates, and future cash flows. A material change in the assumptions may significantly impact the potential impairment of these assets.

Leases

The Company estimates the lease term by considering the facts and circumstances that can create an economic incentive to exercise an extension option, or not exercise a termination option by assessing relevant factors such as store profitability. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated). The assessment of the lease term is reviewed if a significant event or a significant change in circumstance occurs, which affects this assessment and that is within the control of the lessee. The Company estimates the incremental borrowing rate used to measure our lease liability for each lease contract. This includes estimation in determining the asset-specific security impact.

Contingencies

By their nature, contingencies will only be resolved when one or more future events occur or fail to occur. The assessment of contingencies inherently involves the exercise of significant judgment and estimates of the outcome of future events.

Capitalization of development costs

Initial capitalization of development costs is based on management's judgment that technical and economic feasibility is confirmed. An intangible asset arising from development is recognized if the Company can demonstrate all of the following:

- a) the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- b) its intention to complete the intangible asset and use or sell it;
- c) its ability to use or sell the intangible asset;
- d) how the intangible asset will generate probable, future economic benefits;
- e) the availability of adequate technical, financial and other resources; and
- f) its ability to measure reliably the expenditure attributable to the intangible asset during its development phase.

2. BASIS OF PRESENTATION (continued)

Significant accounting judgments and estimates (continued)

Carrying values of goodwill and other intangible assets

The values associated with goodwill and other intangible assets involve significant estimates and assumptions, including those with respect to the determination of cash generating units (“CGUs”), future cash inflows and outflows, discount rates and useful asset lives. At least annually, the carrying amount of goodwill and other intangible assets are reviewed for potential impairment. Among other things, this review considers the recoverable amounts of the CGUs based on the higher of value in use or fair value less costs of disposal using discounted estimated future cash flows. These significant estimates require considerable judgment which could affect the Company’s future results if the current estimates of future performance and fair value change.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out in the consolidated financial statements at April 30, 2021 have been applied consistently to all periods presented in these condensed interim consolidated financial statements.

Fair value of available-for-sale (“AFS”) financial assets

The Company reviews AFS investments and records its fair value at each financial statement reporting date. For public companies, fair value is determined based on the quoted market value. For private companies, certain subjective measures, including recent share transactions, prices for comparable entities, review of cash flow projections and the company prospects, financial ratios and discounted cash flows are techniques used to determine fair value.

4. ACQUISITIONS

Acquisition of PCAI Pharma and AI Pharma

On June 30, 2020, the Company completed the acquisition of 1196691 B.C. Ltd. d/b/a “PCAI Pharma” and its wholly-owned subsidiary AI Pharma (the “Acquisition”), as described in Note 1. As consideration for the Acquisition, the Company issued 36,000,000 Common Shares of the Company at a price of \$0.07 per share for a total consideration of \$2,520,000 (the “Purchase Price”).

Consideration

36,000,000 Common Shares at a value of \$0.07 per share	\$ 2,520,000

	\$ 2,520,000

Following the Acquisition, the Company determined that the entire amount of goodwill was impaired and reduced the recoverable amount to \$nil, resulting in a loss on impairment of \$2,538,542. The entire amount of goodwill impairment was reported in the statement of loss and comprehensive loss during the year ended April 30, 2021.

- a) The equipment is comprised of two identical extraction systems (the "Extraction Systems"), which the Company acquired in 2019.
- b) During the year ended April 30, 2021, the Company assigned its sub-leased premises to a third party. As a result, an impairment expense in the amount of \$143,711 was recorded related to these leasehold improvements during the year ended April 30, 2021.
- c) In February 2021, the Company terminated an equipment lease and a profit-sharing agreement with 2623942 Ontario Limited which were to commence on November 1, 2020, and sold one of its Extraction Systems to an arm's-length party at a price of \$500,000 (Note 7).
- d) During the year ended April 30, 2021, the value of each Extraction Systems was estimated to be \$500,000 based on the selling price, and impairment expense of \$1,011,200 was recorded.
- e) During the year ended April 30, 2022, The Extraction System was returned to the Company, and the Company recorded the addition of equipment at \$500,000 (Note 7).
- f) Additions during the year ended April 30, 2022 related to the return of one of the Company's extraction system amounting to \$500,000 (Note 7).
- g) As at April 30, 2022, the two Extraction Systems were fully impaired to \$Nil due to no indication of a future economic benefit being generated. The two Extraction Systems have not been used since acquired by the Company and impairment expense of \$1,000,000 was recorded during the year ended April 30, 2022.

These intangible assets were currently in the development phase and were not yet in use. During the year ended April 30, 2021, these intangible assets were deemed to be impaired as a result of the lack of revenue from the AI Pharma. Accordingly, the intangible assets were determined to be impaired as at April 30, 2021.

7. OTHER RECEIVABLE

The equipment sale was completed on February 22, 2021 to 2623942 Ontario Limited, (the "Licensed Producer"). The total consideration for the sale of this equipment was \$565,000 including sales taxes, which has been recorded as other receivable. The sale consideration was to be settled by the issuance of the below (collectively, the "Debt"):

- i) a convertible debenture in the amount of \$400,000, bearing interest at 5% per annum accrued monthly in arrears, with the principal and interest convertible, at anytime prior to maturity, by the Company at \$0.0025 per common share of the Licensed Producer, maturing on February 22, 2024.
- ii) a promissory note in the amount of \$100,000, bearing interest at 10% per annum accrued monthly in arrears, maturing on February 22, 2022; and
- iii) a promissory note in the amount of \$65,000, bearing interest at 10% per annum accrued monthly in arrears, maturing on the earlier of the receipt of the sale tax refund amount from the Canada Revenue Agency by the Licensed Producer or August 22, 2021.

During the year ended April 30, 2022, the Company entered into a settlement agreement (the "Machine Settlement") with the Licensed Producer where the Company settled and retired the outstanding debt in the principal amount of \$565,000 in exchange for the return of the purchased equipment to the Company. This equipment was returned during the year ended April 30, 2022, resulting in \$500,000 being recorded as an addition to property and equipment (Note 5) with the remaining \$65,000 allocated to Harmonized sales tax receivable.

Other receivable as at July 31, 2022 and April 30, 2022 amounted to \$nil.

8. LOAN PAYABLE

During the three months ended July 31, 2022, the Company entered into various promissory notes with non-arm's length parties for the principal amount of \$139,000. These promissory notes are unsecured, bear interest at 18% per annum and are due on demand. The Company repaid \$20,000 of these promissory notes during the three months ended July 31, 2022.

Interest expense in the amount of \$34,031 was recorded for the three months ended July 31, 2022 (July 31, 2021 – \$296). As at July 31, 2022, the outstanding loans payable amounted to \$897,092 (April 30, 2022 – \$744,061).

9. CONVERTIBLE DEBENTURES

The Company has convertible debentures ("Debentures") with principal of \$500,000 bearing interest at 10% from a CSE-listed investment company. \$262,500 of Debentures were matured on November 1, 2020 and \$237,500 of Debentures were matured on December 10, 2020.

On October 29, 2020, the Company entered into an extension and amendment agreement (the "Amendment") with the debenture holder. Pursuant to the Amendment, the maturity dates of these Debentures were extended until April 30, 2021 (the "Amended Maturity Date") and the Company agreed to pay interest at a rate of 12% per annum on the Debentures from their respective maturity dates until the Amended Maturity Date. The Company also agreed to amend the conversion price of the Debentures from \$0.15 per Common Share to \$0.125 per Common Share and agreed to pay to the Debenture holder an extension fee of \$20,000. Furthermore, the Company settled \$61,822 representing (i) all interest payable on the Debentures up until the Amended Maturity Date in the aggregate amount of \$41,822, and (ii) the extension fee of \$20,000 through the issuance of 772,775 Common Shares at a price of \$0.08 per share (see Note 10(c)).

As a result of the Amendment, the Company allocated \$483,993 of the outstanding principal amount of \$500,000 of the Debentures to the liability component of the Debentures and the remaining amount of \$16,007 to the equity component of the Debentures. Furthermore, the extension fee of \$20,000 was recorded as a transaction cost, of which \$641 was recorded as issuance cost related to the equity component of the Debentures and the remaining amount of \$19,359 was allocated to the liability portion of the Debentures, to be accreted until the Amended Maturity Date. In May 2021, the Company repaid the outstanding Debenture balance of \$500,000. As a result of the repayment, the equity portion of the convertible debenture in the amount of \$109,670 was transferred to contributed surplus.

12. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and cash equivalents, due from related party, equity investments, accounts payable, loan payable, and convertible debentures.

The Company's cash and cash equivalents is measured at fair value under the fair value hierarchy based on level one quoted prices in active markets for identical assets or liabilities. The presentation of the Company's due from related party and accounts payable is fair value, taking into account their short-term nature. The fair value of convertible debentures and the loan payable are measured on the statement of financial position using level 3 of the fair value hierarchy.

The Company's financial instruments are exposed to certain financial risks, including currency risk, credit risk, liquidity risk, interest rate risk and price risk.

Financial risk management and objectives

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk, and market risk (including interest rate risk, foreign currency risk, and commodity price risk).

The Company thoroughly examines the various financial risks to which it is exposed and assesses the impact and likelihood of those risks. Where material, these risks are reviewed and monitored by the Board of Directors.

The Company's financial instruments are exposed to certain financial risks, including credit risk, liquidity risk, interest rate risk and market risk

Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company is not exposed to significant credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company's liquidity and operating results may be adversely affected if its access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or matters specific to the Company. The Company generates cash flows primarily from its financing activities.

The Company manages its liquidity needs by carefully monitoring scheduled costs. Liquidity is measured in various time bands, on day to day and week-to-week basis, as well as on long term liquidity needs over 180 day to 360 day look out periods. Funding for long term liquidity needs is based on the ability of the Company to successfully complete private placements as well as, in certain cases, to pay the outstanding balances owed in shares of the Company rather than in cash.

As at April 30, 2022, the Company had cash and cash equivalents of \$16,939 and current liabilities of \$2,206,942.

12. FINANCIAL INSTRUMENTS (continued)

Financial risk management and objectives (continued)

The Company considers expected cash flow from financial assets in managing liquidity risk. The Company's existing cash resources currently do not meet the current cash outflow requirements. As a result, the Company is at a risk of not being a going concern if management is unable to raise the appropriate funds prior to the maturity of the financial liabilities. Appropriate going concern disclosures have been made in Note 1.

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, commodity and equity prices, and foreign exchange rates.

(a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk.

(b) Price risk

The Company is not exposed to significant price risk as it does not possess investments in publicly traded securities.

(c) Currency risk

The Company is exposed to foreign currency risk from fluctuations in foreign exchange rates and the degree of volatility in these rates due to the timing of their accounts payable balances. This risk is mitigated by timely payment of creditors and monitoring of foreign exchange fluctuations by management. As at July 31, 2022 and April 30, 2022, the Company did not use derivative instruments to hedge its exposure to foreign currency risk.

13. Equity investments

On June 30, 2022, the Company entered into an asset purchase agreement (the "APA") with Apollon Formularies PLC ("Apollon"), pursuant to which the Company sold four patent applications, and all associated supporting data to Apollon (collectively, the "Intellectual Property"). In consideration for the Intellectual Property, Apollon: (i) issued the Company an aggregate of 4,348,679 common shares in the capital of Apollon at a deemed price of £0.066 per common share; and (ii) agreed to pay the Company an indefinite royalty fee of 4% of the global net revenue generated by the Intellectual Property (the "Royalty"). The Royalty is payable quarterly in arrears, commencing upon the first commercial product sales utilizing the Intellectual Property. As these patents were considered impaired and written off in the prior years, the Company accounted for the equity investment at fair valued at \$449,347 with a corresponding credit to gain on settlement.

16. CAPITAL MANAGEMENT

The Company's capital structure has been defined by management as being comprised of shareholders' equity. The Company's objectives when managing its capital structure are to preserve the Company's access to capital markets and its ability to meet its financial obligations and to finance its activities and general corporate costs. This is achieved by the Board of Directors review and acceptance of budgets that are achievable within existing resources made available from private placements or other funding.

The Company monitors its capital structure using annual forecasted cash flows, budgets and targets.

The Company currently has no source of revenues; as such the Company is dependent upon external financing to fund its activities. In order to carry future projects and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

Based on available funds, the Company manages its capital structure and makes adjustments to it to maintain flexibility while achieving the objectives stated above as well as support future business opportunities. To manage the capital structure the Company may adjust its operating expenditure plans, or issue new common shares and warrants.

The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company is not subject to externally imposed capital requirements or covenants.
