As previously announced, Foremost's largest shareholder, Denison Mines Corp. (TSX:DML, NYSE American: DNN) ("**Denison**"), has indicated that it will participate in the Offering up to an amount that will maintain its holdings in Foremost at approximately 19.95% following the completion of the Offering, pursuant to its rights under the Option Agreement with Foremost announced on September 24, 2024. Denison is a leading Athabasca Basin-focused uranium mining, development, and exploration company with a market capitalization of approximately C\$2.7 billion. Denison's current focus is advancing the development-stage Wheeler River project, which represents the largest undeveloped uranium mining project in the infrastructure rich eastern portion of the Athabasca Basin.

Subject to compliance with applicable regulatory requirements and in accordance with National Instrument 45-106 – Prospectus Exemptions ("**NI 45-106**"), the Units and Charity FT Units (collectively, the "**LIFE Securities**") will be offered for sale to purchasers in the provinces of Alberta, British Columbia, Manitoba, Ontario, Québec and Saskatchewan (the "**Canadian Selling Jurisdictions**") pursuant to the listed issuer financing exemption under Part 5A of NI 45-106 (the "**Listed Issuer Financing Exemption**"). The Unit Shares, FT Shares and Warrant Shares issuable pursuant to the sale of the LIFE Securities are expected to be immediately freely tradeable under applicable Canadian securities legislation if sold to purchasers resident in Canada.

Any Units and Charity FT Units sold in excess of gross proceeds of C\$5,000,000 as well as the FT Units (collectively, the "**Non-LIFE Securities**") will be offered by way of the "accredited investor" and "minimum amount investment" exemptions under NI 45-106 in the Canadian Selling Jurisdictions, or in the case of the Units, also in offshore jurisdictions and the United States on a private placement basis pursuant to one or more exemptions from the registration requirements of the U.S. Securities Act. The Unit Shares, FT Shares and Warrant Shares issuable pursuant to the sale of the Non-LIFE Securities will be subject to a hold period ending on the date that is four months plus one day following the closing date of the Offering under applicable Canadian securities laws.

The Company intends to use the net proceeds from the Offering primarily for exploration expenditures on the Company's uranium properties in the Athabasca Basin in Saskatchewan as well as for working capital and general corporate purposes.
