

APPENDIX 'A'

CERTIFICATE of the QUALIFIED PERSON

I, John Ostler, of 1015 Clyde Avenue in the City of West Vancouver, Province of British Columbia do hereby certify:

That I am a consulting geologist with business address at 1015 Clyde Avenue, West Vancouver, British Columbia;

That this Certificate of the Qualified Person applies to the Technical Report entitled "Exploration of Noranda/Kuroko-type Mineralization on the Scotch Creek Property" dated effective February 23, 2013;

That I am a graduate of the University of Guelph, Ontario where I obtained my Bachelor of Arts degree in Geography (Geomorphology) and Geology in 1973, that I am a graduate of Carleton University of Ottawa, Ontario where I obtained my Master of Science degree in Geology in 1977, that I am registered as a Professional Geoscientist with the Association of Professional Engineers and Geoscientists of British Columbia, and that I have been engaged in the study and practice of the geological profession for more than 40 years;

That I have participated in exploration for volcanogenic massive sulphide deposits since 1977 for clients, for one of my own public companies, and on my own behalf in Canada, the United States of America, and Chile;

That I have read the definition of Qualified Person set out in Part 1.1 of National Instrument 43-101 and I hereby certify that because of my education, professional affiliation, and relevant experience, I am a Qualified Person with regard to the Scotch Creek property as defined in Part 1.1 of National Instrument 43-101;

That I conducted or supervised all of the 2010 exploration on the Scotch Creek property during the following times during 2010: May 31 to June 3, June 11 to 15, August 30 to September 17, and September 21 to October 2, that I conducted or supervised the 2012 grid construction on the property from June 5 to 10, June 12 to 14, June 16 to 20, and from June 23 to July 5, 2012, that I examined various parts of the 2012 exploration area on the property at several occasions during my work on a near-by property from September 5 to 25, 2012, that my examination of the records of Signal Exploration Inc. indicates that no work has been conducted on the property since September 25, 2012, that the property has been snowbound and inaccessible from November, 2012 until the date of this report being February 23, 2013, and that my attendance on the property from September 5 to 25, 2012 represents a Current Personal Inspection of the Scotch Creek property in compliance with part 6.2 of National Instrument 43-101;

That I am responsible for all of the Technical Report entitled "Exploration of Noranda/Kuroko-type Mineralization on the Scotch Creek Property" dated effective February 23, 2013;

That because the client's agent, Barry Hartley, was out of communication at the time, I map-staked the SOUTHERN CROSS 1 (794642) and SOUTHERN CROSS 2 (794662) claims on June 18, 2010 to cover un-staked ground east of the property and that I transferred those claims to Barry Hartley at cost, on June 24, 2010;

That I am independent of the Scotch Creek property and of Signal Exploration Inc. as is defined in Part 1.5 of National Instrument 43-101;

That my involvement with the Scotch Creek property prior to the 2010 exploration program was my review of previous published exploration in the property-area on behalf of Joseph Lawrence and Bruce Squinas in 2008, presentation of the property to clients in 2009 and 2010, and review of exploration data in the Discovery Consultants property files on April 15, 2010;

That I have read National Instrument 43-101 and that the Technical Report entitled "Exploration of Noranda/Kuroko-type Mineralization on the Scotch Creek Property" dated effective February 23, 2013 complies with the current version of National Instrument 43-101 and 43-101F1 which became effective on June 30, 2011; and

That as of the date of this certificate, to the best of my knowledge, information, and belief, the Technical Report entitled "Exploration of Noranda/Kuroko-type Mineralization on the Scotch Creek Property" dated effective February 23, 2013 contains all scientific and technical information that is required to be disclosed to make said Technical Report not misleading.

John Ostler; M.Sc., P.Geo.
Consulting Geologist

West Vancouver, British Columbia
Effective February 23, 2013
