No information has been omitted.

8. Executive Officer

Mr. David Greenway, CEO and Chairman of the Company, is knowledgeable about the material change contained herein and may be reached at 778-588-5473.

9. Date of Report

This report is dated August 30, 2022

SCHEDULE "A"
to the Material Change Report dated August 30, 2022

**RECHARGE RESOURCES ADDS TO ADVISORY TEAM AHEAD OF DRILLING AT
POCITOS 1 LITHIUM SALAR**

Vancouver, BC – August 29, 2022 - Recharge Resources Ltd. ("Recharge" or the "Company") (RR: CSE) (RECHF: OTC) (SL5: Frankfurt) is pleased to announce the following appointments to the Company's Advisory Board.

The Company announces the addition of Mr. Brad Dixon to its Advisory Board. Mr. Dixon is an attorney based in Boise, Idaho, and a partner with Givens Pursley LLP. He is the co-chair of the Givens Pursley Litigation Group and focuses his practice on a variety of complex commercial litigation matters including construction litigation, secured transactions, real estate, employment, and natural resources.

The company further wishes to announce the appointment of Mr. Hani John El Rayess to its Advisory Board as a M&A and Business Development Advisor. Mr. El Rayess was instrumental in the introduction and acquisition of the Pocitos 1 lithium Salar project as well as numerous other battery metals assets in Recharge's growing portfolio.

Mr. El Rayess has spent 16 years as a capital market professional and has been a partner at Canada's Fortress Capital Group since 2014. Mr. El Rayess has acted in Consulting, M&A, Communication and Angel Investor roles across a number of sectors including Mining, Carbon offsets, Crypto, Tech, CleanTech, Telecom, Biotech, Agriculture and Oil and Gas. Mr. El Rayess studied Marketing Management at the British Columbia Institute of Technology, completed the Public Company course at Simon Fraser University and completed the Canadian Securities Course in 2007.

CEO and director, David Greenway states, *"Recharge continues to add to its team in Canada, the USA and in Argentina as we enter the most pivotal time in the company's history. The company continues to advance its portfolio of assets with two fully funded drill programs at Brussels Creek Copper-Gold Project and at the Pocitos 1 Lithium Brine Project in Argentina. We welcome Mr. Dixon and Mr. El Rayess to the Advisory Board and look forward to their valuable input."*

About Pocitos 1 Lithium Brine Project

The Pocitos Project is located approximately 10km from the township of Pocitos where there is gas, electricity, and telephone internet services. Pocitos I is approximately 800 hectares and is accessible by road. Previous exploration and development teams have spent over USD \$1.5 million exploring the project, including surface sampling, trenching, TEM geophysics and drilling two 400m holes that had outstanding brine flow results. Locations for immediate follow up drilling have already been designed and identified for upcoming exploration.

Lithium values of up to 125 ppm from Laboratory analysis conducted by Alex Stewart were recorded by A.I.S. Resources Ltd during the project's first drill campaign in May 2018. AIS used a double packer in HQ Diamond drill holes drilled to a depth of 409 metres and the flow rate of the hole was estimated to exceed 50,000 Litres per minute and observed to continue for more than 5 hours (Investors should note that these estimates were not NI43-101 compliant). Both drill holes had exceptional brine flow rates. Recharge's plan is to sample or twin the current drill holes and drill a further two holes to work towards a NI 43-101 resource calculation
