CAT STRATEGIC METALS CORPORATION (FORMERLY CHIMATA GOLD CORP.)

Notes to the Financial Statements

For the nine months ended September 30, 2021 and 2020

1. NATURE AND CONTINUANCE OF OPERATIONS

CAT Strategic Metals Corporation (formerly Chimata Gold Corp.) (the "Company") was incorporated under the Business Corporations Act (British Columbia) on November 16, 2010. The common shares of the Company began trading on TSX Venture Exchange ("TSXV") on September 16, 2011 under the symbol "CAT", and on the Frankfurt Exchange on July 29, 2014 under the symbol "8CH". Effective June 14, 2018, the Company's shares were transferred from TSXV to the Canadian Securities Exchange ("CSE") under the symbol "CAT". The decision to move the listing of its common shares from the TSXV to the CSE was taken by the Company as it deems that the CSE may be a more suitable stock exchange with respect to its development and its future expansion. Effective May 6, 2019, the Company's shares were halted for trading due to corporate reorganization. The trading of the Company's shares was subsequently resumed on May 6, 2020. The Company's principal activity is the acquisition and exploration of mineral properties.

On February 14, 2019, the Company changed its name to CAT Strategic Metals Corporation from Chimata Gold Corp.

The registered records office and place of business of the Company is 1010 – 789 West Pender Street, Vancouver, BC V6C 1H2.

These financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which assume that the Company will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the normal course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. The Company's continuation as a going concern is dependent upon the successful identification of an exploration and evaluation asset, its ability to raise equity capital, to obtain loans from related parties, and to attain profitable operations to generate funds and meet current and future obligations. As at September 30, 2021, the Company had not advanced any exploration and evaluation assets to commercial production and is not able to finance day to day activities through operations. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with cash on hand, loans from related parties and/or private placement of common shares.

2. STATEMENT OF COMPLIANCE

These condensed interim financial statements have been prepared in accordance with International Accounting Standards ("IAS") 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with the IFRS issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). Accordingly, certain disclosures required in annual financial statements have been condensed or omitted. These condensed interim financial statements are intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that these condensed interim financial statements be read in conjunction with the most recent audited annual financial statements of the Company for the year ended December 31, 2020.

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of measurement

The financial statements have been prepared on an accrual basis and are based on historical costs, except for financial instruments which are measured at fair value. The financial statements are presented in Canadian dollars.

Basis of Consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its subsidiaries (collectively, the "Company"). Intercompany balances and transactions are eliminated in preparing the consolidated financial statements. The following companies have been consolidated within these consolidated financial statements:

| Entity | Country of Incorporation | Voting Control | Functional Currency |
|----------------------------------|-----------------------------|----------------|---------------------|
| CAT Strategic Metals Corporation | Canada | Parent Company | Canadian Dollar |
| 1242006 B.C. Ltd. | Canada | 100% | Canadian Dollar |
| Grand Mines Ltd. | Canada | 100% | Canadian Dollar |
| CAT Strategic (Nevada) Inc. | USA | 100% | US Dollar |

Significant estimates and assumptions

The preparation of financial statements in accordance with IFRS requires the Company to make estimates and assumptions concerning the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the recoverability and measurement of deferred tax assets.

Significant judgments

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in applying the Company's financial statements include:

- the assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty; and
- the classification of expenditures as exploration and evaluation expenditures or operating expenses.

Accounting for Leases

On January 13, 2016, IASB issued IFRS 16, Leases ("IFRS 16"), which superseded IAS 17, Leases ("IAS 17"). IFRS 16 specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases, unless the lease term is twelve months or less or the underlying asset has a low value. Lessor accounting, however, remains largely unchanged from IAS 17 and the distinction between operating and finance leases is retained. IAS 17, as revised, now prescribes the accounting policies and disclosures applicable to leases, both for lessees and lessors.

The Company concluded that the adoption of IFRS 16 had no material impact on its financial statements given the extent of its current use of leases in the ordinary course of business.

a) South Preston, Saskatchewan, Canada

On February 15, 2021, the Company entered into a binding letter agreement with Grand Mines Ltd ("Grand Mines") which owns a 100% undivided interest in the South Preston Uranium Property located in Saskatchewan, Canada (the "Grand Mines Agreement"). On March 15, 2021, the Company entered into a definitive agreement with Grand Mines Ltd ("Grand Mines"), and acquired 100% of the issued and outstanding shares of Grand Mines by way of three-cornered amalgamation (the "Grand Mines Agreement"), in consideration of the issuance of 27,500,000 common shares ("Shares") of the Company issued at a deemed value of \$0.07 per Share and the payment of \$50,000 (paid). The Company has also assumed responsibility for a pre- existing 2% royalty on the South Preston Uranium Project.

On February 16, 2021, the Company purchased additional claims related to the South Preston Uranium Property by making a cash payment of \$25,000 (paid).

b) Gold Jackpot, Nevada, USA

On January 21, 2021, the Company entered into an exploration and option agreement (the "Agreement") for the Gold Jackpot Property ("Property"). The unpatented lode claims of the Property are located in Elko, Nevada.

The Agreement grants the Company the sole and exclusive right to acquire an undivided one hundred percent interest in the Gold Jackpot Property in exchange for a cash payment of US\$15,000 (paid) and the issuance of 2,000,000 common shares of the Company ("CAT Shares") (issued) at closing of the Agreement.

The CAT Shares are subject toa statutory hold period of four months plus a day from the date of issuance in accordance with applicable securities legislation. In addition, the Company is required to incur \$500,000 in exploration or expenditures related to the Property over a 4-year period, with no requirement for annual minimum expenditures, and annual payments of US\$10,000 commencing on the first anniversary date until such time the option is exercised. The Company will grantthe Vendor a 2% Net Smelter Royalty ("NSR") on the property, subject to an agreement that each 1% of the NSR on select claims could be repurchased by the Company for an amount of US\$1,000,000.

c) Burntland, New Brunswick, Canada

On September 10, 2020, the Company entered into an option agreement (the "Agreement") pursuant to an arm's length negotiation with the vendors (the "Vendors"). The Agreement gives the Company the exclusive right to acquire up to a 100% undivided ownership in the Burntland mineral property (the "Property") over a 4-year period from September 21, 2020 (the "Closing Date"). The Property is comprised of approximately 1,200 hectares located approximately 60 Km Northeast of Saint Quentin in the county of Restigouche, New Brunswick, Canada.

Pursuant to the Agreement, the Company issued 25,000,000 common shares valued at \$875,000 (based on stock closing quote on the date of share issuance) to the Vendors, must incur exploration and development expenditures on the Property necessary to maintain the minerals claims in good standing during the option period of 4 years, and will also make payments totaling \$1,000,000 to the Vendors as follows:

- \$250,000 due 12 months from the Closing Date;
- \$250,000 due 24 months from the Closing Date to acquire an earned-in interest of 51%;
- \$250,000 due 36 months from the Closing Date to acquire an additional earned-in interest of 24%, for a total 75% interest in the Property; and
- \$250,000 due 48 months from the Closing Date to acquire an additional earned-in interest of 25%, for a total 100% interest in the Property.

The Company has the right to pay up to half of each scheduled payment in common shares of the Company, such calculation based on the Volume Weighted Average Price (VWAP) of the Company's shares over the previous 20 trading day period.

In addition, the Company will also grant to the Property's Vendors a Net Smelter Return Royalty (NSR) equal to 2.0% resulting from the extraction and production of any mineral products on the Property.

d) Rimrock Gold Property, Nevada, USA

On November 02, 2020, the Company acquired all of the issued and outstanding shares of 1242006 BC Ltd. ("124BC"), a private company incorporated in BC, Canada, an arm's length party, by issuing 25,000,000 common shares of the Company, fair valued at \$750,000.

124BC holds a property earn-in and joint venture agreement to acquire up to an 80% undivided interest in the Rimrock Gold mineral property (the "Rimrock Property") from its 2 property owners. The Rimrock property is comprised of 81 unpatented lode mining claims situated in Elko County, Nevada, USA.

Pursuant to the earn-in and joint venture agreement, the Company is required to incur Cdn\$620,000 in exploration or expenditures related to the Rimrock Property over a 4-year period, of which \$210,000 must be spent within the first 12 months, after which the Company will have earned a 51% interest in the Rimrock Property. There are no annual minimum expenditures per year during the remainder of the term

regarding the remaining \$410,000 of expenditures. The Company will earn a 7.25% interest in the Rimrock Property for every \$102,500 spent, until such time as the80% participating interest in Rimrock is earned. The Company will grant the Vendors a 2% Net Smelter Royalty ("NSR") on Rimrock, subject to an agreement that each 1% of the NSR on select claims could be repurchased by the Company for an amount of US\$1,000,000.

Furthermore, the Company commits to retain one of the property owners for geological consulting services with a minimum retainer of US\$20,000 per year, with the first payment payable on the effective date and thereafter payable in advance on each anniversary of the effective date, until such time as the 80% participating interest in the property isearned. The Company also commits to pay US\$10,000 per year to the other property owner, with the first payment payable on the effective date and thereafter payable in advance on each anniversary date of the effective date, until such time as the 80% participating interest in the property is earned. This advance payment shall be deducted from the expenses or funding expenditures on or in relation to the property.

e) BAM, British Columbia, Canada

On December 1, 2017, the Company acquired a 100% interest in the Bam mineral property. The property is comprised of 1052 hectares located in the Pacific Golden Triangle mining district in northwest British Columbia, Canada.

Under the terms of the purchase agreement, the Company paid a total of \$60,000 cash and issued 600,000 common shares fair valued at \$54,000 to the vendor. During the year ended December 31, 2019, the Company let its claims for the BAM Property lapse and wrote-off costs of \$114,000.

5. LONG-TERM INVESTMENT

Long-term investment represents the fair value of the Company's 19% shareholdings in Zimbabwe Lithium Company (Mauritius) Limited ("Zimbabwe Lithium", or "ZIM"), a privately held company incorporated under the laws of Mauritius as at March 31, 2019. Zimbabwe Lithium has the right to develop mining properties in Zimbabwe (the "Properties").

On December 27, 2017 the Company entered into a binding letter of intent (the "LOI") with Zimbabwe Lithium for a proposed reverse take-over between the Company and Zimbabwe Lithium (the "Transaction"). On October 31, 2018, the Company executed a share exchange agreement (the "Agreement") with the existing shareholders of ZIM. Pursuant to the terms of the LOI and the Agreement, the Transaction is defined into two distinctive phases: First Phase and Second Phase.

First Phase:

- The Company would issue its common shares to the existing shareholders of ZIM in exchange for 19% of the issued and outstanding shares in Zimbabwe Lithium. On October 31, 2018, the Company issued 9,185,040 common shares from its share capital with a fair value of \$826,654, representing an aggregate of 19% of the current issued and outstanding share capital of the Company. In return, ZIM issued to the Company 755 ZIM shares, representing an aggregate of 19% of the current issued and outstanding share capital of ZIM.
- The Company committed to advance the amount of US\$500,000 to ZIM allowing ZIM to cover historical test work and consultant expenditures that have been incurred bringing the project to its current state as well as expenditures as they are gradually incurred, project expenditures and

exploration on the Properties, including potential license and option payments to the Zimbabwe Mining Development Corporation ("ZMDC"), salaries and consultancy fees, drilling and assaying on the Properties along with the completion of a National Instrument 43-101 ("NI 43-101") compliant resource estimate of the Properties (the "Estimate"). As at December 31, 2018, the Company has advanced \$721,077 (US\$560,000). These cash advances were capitalized as cost of investment.

Second Phase:

- The proceeding to the Second Phase of the Transaction is subjected to the Estimate revealing that the resource contains a minimum of 11,111,000 cubic meters of tailings material at minimum 0.60 percent Lithia (Li₂O with the majority of the mineralization consisting of Spodumene) (the "Threshold Percentage") which is subject to an independent valuation certified by a Qualified Person under NI 43-101.
- Should the Estimate reveal that the Threshold Percentage is reached, ZIM shall be entitled to receive an additional share allocation of 51% of the current issued and outstanding share capital of the Company.

Up until December 31, 2019, the Company, through its shareholding and board representation in ZIM, exercises significant influence over that company, but not control. As a result, the investment in Zimbabwe Lithium is accounted for using the equity method up until December 31, 2019. As at January 1, 2020, the Company reclassified its investment in Zimbabwe Lithium from equity investment to investment at cost, the basis of which was that the Company's involvement with ZIM is extremely passive, its shareholding percentage continues to become diluted, and the Company has plans to divest itself of ZIM.

As at June 28, 2019, the Company and ZIM terminated the Second Phase and the Definitive Agreement. During the six months ended September 30, 2021, management assessed the fair value of the investment in associate to be \$nil and recognized an impairment of \$14,166 (September 30, 2020 - \$9,135).

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial risk management

The Company is exposed in varying degrees to a variety of financial instrument related risks.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts.

As most of the Company's cash is held by one bank there is a concentration of credit risk. This risk is managed by using a major Canadian bank that is a high credit quality financial institution as determined by rating agencies.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its Long-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash. Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements as well as related party loans. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

Currency risk

Currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company does not incur significant expenditures that are denominated in foreign currencies, and does not have any mineral property commitments that are denominated in foreign currencies. Therefore, the Company's exposure to currency risk is considered minimal.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk on its notes payable as the interest rate is dependent on Canada's prime interest rate. Since the Canadian prime interest rate is fairly stable, the Company's exposure to interest rate risk is not considered to be significant.

Fair value

The fair value of the Company's financial assets and liabilities approximates the carrying amount.

13. CORONAVIRUS (COVID-19) PANDEMIC

The outbreak of the COVID-19 virus and the worldwide pandemic has impacted the Company's plans and activities. The Company may face disruption to operations, supply chain delays, travel and trade restrictions, and impacts on economic activity in affected countries or regions can be expected and are difficult to quantify. Regional disease outbreaks and pandemics represent a serious threat to hiring and maintaining a skilled workforce and could be a major health-care challenge for the Company. There can be no assurance that the Company's personnel will not be impacted by these regional disease outbreaks and pandemics and ultimately that the Company would see its workforce productivity reduced or incur increased medical costs and insurance premiums as a result of these health risks.

In addition, the pandemic has created a dramatic slowdown in the global economy. The duration of the outbreak and the resulting travel restrictions, social distancing recommendations, government response actions, business disruptions and business closures may have an impact on the Company's exploration operations and access to capital. There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about by the pandemic's impact on global industrial and financial markets which may reduce metal prices, share prices and financial liquidity thereby severely limiting access to essential capital.

14. EVENT AFTER THE REPORTING PERIOD

On October 28, 2021, 2,500,000 share-purchase warrants exercisable at \$0.05 were expired.
