## Condensed Interim Consolidated Financial Statements

For the three and six months ended January 31, 2018

(unaudited)

### NOTICE TO SHAREHOLDERS

#### MANAGEMENT'S RESPONSIBILITY FOR CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited condensed interim consolidated financial statements of Altitude Resources Inc. ("Altitude") are the responsibility of the Board of Directors. The unaudited condensed interim consolidated financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. These unaudited condensed interim consolidated financial statements do not include all of the disclosures required for annual financial statements and therefore should be read in conjunction with Altitude's audited annual financial statements and notes thereto for the year ended July 31, 2017. These unaudited condensed interim consolidated financial statements follow the same significant accounting policies and methods of application as those included in Altitude's most recent audited annual financial statements. Management acknowledges responsibility for the preparation and presentation of the financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to Altitude's circumstances. In the opinion of management, the unaudited condensed interim consolidated financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34, Interim Financial reporting using accounting policies consistent with IFRS appropriate in the circumstances.

Management has established processes, which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (i) the unaudited condensed interim consolidated financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the unaudited condensed interim consolidated financial statements and (ii) the unaudited condensed interim consolidated financial statements fairly present in all material respects the financial condition, results of operations and cash flows of Altitude, as of the date of, and for the period presented by, the unaudited condensed interim consolidated financial statements.

The Board of Directors is responsible for reviewing and approving the unaudited condensed interim consolidated financial statements and for ensuring that management fulfills its financial reporting responsibilities.

Management recognizes its responsibility for conducting Altitude's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

**1. NATURE OF OPERATIONS**

Altitude Resources Inc. (the "Company" or "Altitude") was incorporated under the Business Corporations Act (Ontario) on January 19, 2011. Shares of Altitude began trading on the TSX Venture Exchange under the symbol ALI on February 15, 2013.

Altitude is a junior coal exploration company with a current exploration focus in northwest Alberta. The primary office of the Company is located at #1100, 736 – 8th Avenue SW, Calgary, Alberta, Canada, T2P 1H4.

The Company is in the process of exploring, and has not yet fully determined the quality and quantity of coal resources on its properties. Accordingly, as is common with exploration companies, the Company is dependent upon obtaining necessary equity financing from time to time to finance its on-going and planned exploration activities and to cover administrative costs.

These financial statements were authorized for issue by the board of directors on April 2, 2018.

**2. GOING CONCERN**

These consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assume that Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. While the Company has been successful in securing financings in the past, there can be no assurance that it will be able to do so in the future. Accordingly, these Financial Statements do not give effect to adjustments, if any that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts that may differ from those shown in the consolidated financial statements.

The reader is also directed to review note 13(c) - ***Financial instruments – Liquidity risk***.

At January 31, 2018, the Company had working capital deficit of \$1,196,305, a net cash position of \$40,984 and an accumulated deficit of \$3,125,033. In order to meet its work commitments and planned exploration expenditures for its projects as well as further working capital requirements, it will be required to complete a financing (debt or equity). Management continues to work toward completing additional financing and is in discussions with several strategic investors. See Note 14, Subsequent event.

**3. BASIS OF PRESENTATION**

These unaudited condensed interim consolidated financial statements have been prepared in accordance with IAS 34 – Interim Financial Reporting on the basis of International Financial Reporting Standards ("IFRS"). IFRS represents standards and interpretations approved by the International Accounting Standards Board ("IASB"), and are comprised of IFRSs, International Accounting Standards ("IASs"), and interpretations issued by the IFRS Interpretations Committee ("IFRICs") or the former Standing Interpretations Committee ("SICs").

**Altitude Resources Inc.**  
**Notes to the Condensed Interim Consolidated Financial Statements**  
(Expressed in Canadian Dollars)  
**For the three and six months ended January 31, 2018**  
**(unaudited)**

---

These unaudited condensed interim consolidated financial statements do not include all of the disclosures required for annual financial statements and therefore should be read in conjunction with the Altitude's audited annual financial statements and notes thereto for the year ended July 31, 2017. These unaudited condensed interim consolidated financial statements follow the same significant accounting policies and methods of application as those included in Altitude's most recent audited annual financial statements.

These unaudited condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which have been measured at fair value. In the opinion of management, all adjustments considered necessary for a fair presentation have been included.

The presentation and functional currency of the Company is the Canadian dollar.

#### **4. SIGNIFICANT ACCOUNTING POLICIES**

The financial framework and accounting policies applied in the preparation of these unaudited condensed interim financial statements are consistent with those as disclosed in Altitude's most recently completed audited annual financial statements for the year ended July 31, 2017.

##### **Recent Accounting Pronouncements**

The accounting pronouncements detailed below have been issued but are not yet effective. The Company has not early adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its financial statements.

- Pronouncements effective for annual periods beginning on or after January 1, 2018:

In July 2014, the IASB issued the final version of IFRS 9, Financial Instruments. The new standard will replace IAS 39, Financial instruments: recognition and measurement. The final amendments made in the new version include guidance for the classification and measurement of financial assets and a third measurement category for financial assets, fair value through other comprehensive income. The standard also contains a new expected loss impairment model for debt instruments measured at amortized cost or fair value through other comprehensive income, lease receivables, contract assets and certain written loan commitments and financial guarantee contracts. The standard is effective for annual periods beginning on or after January 1, 2018 and must be applied retrospectively with some exceptions. Early adoption is permitted. Restatement of prior periods in relation to the classification and measurement, including impairment, is not required.

IFRS 16 - Leases sets out the principles for the recognition, measurement and disclosure of leases.

IFRS 16 provides revised guidance on identifying a lease and for separating lease and non-lease components of a contract. IFRS 16 introduces a single accounting model for all lessees and requires a lessee to recognize right-of-use assets and lease liabilities for leases with terms of more than 12-months, unless the underlying asset is of low value. Under IFRS 16, lessor accounting for operating and finance leases will remain substantially unchanged. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with earlier application permitted for entities that apply IFRS 15 Revenue from Contracts with Customers.

Palisades Property

The Company's 100% owned Palisades Property is comprised of six contiguous Alberta Crown Coal leases acquired directly from the Alberta Department of Energy between September 2010 and February 2011. Five of the leases are included within Alberta Department of Energy's Category 4 classification; the sixth lease is a combination of Category 4 and Category 2 lands. There are no work commitments associated with the Palisades Property. The only ongoing obligation is the payment of the annual lease (currently \$3.50 per hectare) for a 15 year period from the commencement of the leases.

The Palisades Property totals 4,648 hectares. It is located approximately 28 kilometres northwest of the town of Hinton, Alberta.

Palisades Extension Application

The Palisades Extension Application was acquired by the Company in October 2011. It is comprised of one Alberta Crown Coal lease application totaling 7,034 hectares. This property falls entirely in Coal Category 2 of A Coal Development Policy for Alberta. For Category 2 properties, a formal Alberta Crown Coal lease will not be issued until such time as the Alberta Department of Energy reaches a decision on its Coal Policy. Application holders are, however, free to perform some limited exploration work on the properties. The Palisades Extension Application is contiguous to the northeast of the Company's Palisades Property.

---

**5. EXPLORATION AND EVALUATION ASSETS (Cont'd)**

Moberley Creek Application

The Moberley Creek Application was acquired by the Company in January 2012. It is comprised of four Alberta Crown Coal lease applications totaling 5,376 hectares. This property falls entirely in Coal Category 2 of A Coal Development Policy for Alberta. The Moberley Creek Application is located approximately 12.5 kilometres from the northern tip of the Company's Palisades Extension Application.

Altitude North Applications

The Altitude North Applications were acquired by the Company in various tranches between October 2012 and August 2017. They are comprised of fourteen Alberta Crown Coal lease applications totaling 19,445 hectares. This property falls entirely in Coal Category 2 of A Coal Development Policy for Alberta. The Altitude North Application is located approximately 30 kilometres northwest from the northern tip of the Company's Moberly Creek Application.

2017 Activity

On April 8, 2015, the Company entered into the Joint Exploration Agreement with Japan Oil, Gas and Metals National Corporation ("JOGMEC") to explore Palisades metallurgical coal project in West Central Alberta, Canada. Through a joint exploration arrangement JOGMEC has agreed to acquire up to a 51% interest in the Company's Palisades Coal Project based on the three (3) farm in milestones which include field work, drilling and completion of mining study.

During the First Farm-in period (ended on March 31, 2016), JOGMEC contributed \$1,500,000 in cash towards exploration on the Palisades Project. During the second Farm-In period (ended March 31, 2017), JOGMEC contributed \$1,500,000 towards exploration on the Palisades Project. JOGMEC has now earned an unencumbered right, title and benefit to thirty-one point eight seven five percent (31.875%) of the Property. During the third Farm-In Period (ends March 31, 2018 or until the required contribution is received) JOGMEC shall contribute \$1,800,000 towards exploration on the Palisades Project.

JOGMEC has committed to fund the entire \$1,800,000 in accordance with its Third Farm-In obligation.

As of completion of the Earn-In Period, the respective actual or deemed equitable interests in the Palisades Project shall be: (i) if JOGMEC has contributed a total amount of \$3,000,000 by the end of second Farm-In Period: Altitude 68.125% JOGMEC 31.875% (ii) if JOGMEC has contributed a total amount of CAN\$4,800,000 by the end of third Farm-In Period: Altitude 49%, JOGMEC 51%.

**5. EXPLORATION AND EVALUATION ASSETS (Cont'd)**

Exploration and Option agreement with Elan Coal Ltd.

On August 8, 2013 the Company ("ALI") entered into an Exploration and Option Agreement with Elan Coal Ltd ("Elan"), a company with a related director who is a private non-arm's length party. Under the terms of the agreement the Company will acquire an option to earn up to 51% interest in Elan Coal Ltd's coal properties upon making an initial cash payment of \$200,000 (paid) to Elan to fund field work and completing a financing of a minimum of \$2,000,000. Due to poor financial market conditions ALI was not able to raise the minimum \$2,000,000. As of July 31, 2014, ALI had advanced a total of \$256,917 to Elan to fund certain early exploration activities.

On November 10, 2014, ALI and Elan signed a Limited Partnership Agreement ("LP Agreement") with Kuro Coal Limited ("Kuro") to develop the Elan Project. Elan Project comprises of 27 leases totaling approximately 25,612 hectares. Kuro has the opportunity to acquire up to a 70% interest in the Elan Project upon successful completion of, amongst other exploration requirements, financing and a feasibility study. Assuming Kuro fulfills all requirements to earn its 70% interest under the LP Agreement, ALI will retain an ownership equal to 12.5% and Elan will retain an ownership equal to 17.5%. The LP Agreement allows for additional earn-in options which could be exercised by Kuro upon completion of initial contribution. To earn an initial interest of 20%, Kuro had the following requirements:

- 1- Pay ALI \$150,000 as per LP Agreement (paid) and recorded by ALI as a credit against the previously capitalized assets of \$256,914.
- 2- Within 5 business days of Kuro listing its shares on a public exchange, enter into the subscription agreement with Elan and ALI to issue 1,312,500 and 187,500 shares respectively for no consideration at \$.20 per common share. If listing has not occurred after six months of the effective date of LP Agreement, Kuro will pay each Elan and ALI the cash equivalent value of such shares assuming an issue price of \$.20 per common share; (this has not been completed) and
- 3- Fund, no later than December 31, 2014, 100% of costs in relation to operations pursuant to adopted programs and budgets totaling in the aggregate no less than \$500,000 (this has been completed).

Kuro has not yet earned its 20% interest as the 2nd requirement above, the listing of the Shares of Kuro on a recognized stock exchange and then the issuance of shares to Elan and ALI, has not happened. Kuro is negotiating to extend the requirement to complete a public listing or pay the cash equivalent as per LP Agreement.

See also Note 14, Subsequent Event.

**(unaudited)**

---

**6. DUE TO AND FROM RELATED PARTIES**

All amounts due from/to related parties are to various shareholders and are non-interest bearing, unsecured and repayable on demand.

**7. DUE ON DEMAND LOAN**

The Due on demand loan is payable in the amount of \$30,000 to a company with a former related director. The principal was due December 15, 2014, bears an annual interest rate of 8% accrued monthly and added to the principal. The loan was convertible into the next financing at the option of the holder. Interest of \$1,210 (\$1,210 – 2017) is accrued in respect of the period ended January 31, 2018.

**8. SHARE CAPITAL**

Authorized, unlimited Class "A" Voting Common Shares

On December 30, 2016 the Company completed a private placement of 3,200,000 flow-through common shares at a price of \$0.10 per flow-through share by way of a non-brokered private placement for total gross proceeds of \$320,000. A flow-through share premium of \$32,000 was recorded as a result of the issuance of these flow-through common shares. The Company has spent all the required qualifying exploration expenditures as at July 31, 2017 and recognized \$32,000 in the statements of comprehensive loss.

In connection with the closing of the offering, the Company paid a cash finder's fee \$11,250.

**For the three and six months ended January 31, 2018**  
**(unaudited)**

---

**9. STOCK OPTIONS AND WARRANTS**

(a) Stock options

The Company has a stock option plan to provide officers, directors, employees and consultants of the Company with options to acquire up to 10% of the issued and outstanding common shares of the Company. Under the plan, the minimum exercise price of the options is the market price of the Company's stock on the date of grant. The maximum term of the options is five years and the options generally vest over a three year period, or as determined by the Company's board of directors.

On March 2, 2012, the Company granted an aggregate of 137,262 stock options to purchase common shares to its directors and officers, exercisable at a price of \$0.40 per common share for a period of five years from the date of grant and vesting over a three year period. During the year ended July 31, 2015, the Company recorded a related stock based compensation expense of \$4,681 (2014 – \$16,717) using the following assumptions: (stock price - \$0.49; exercise price - \$0.40; term 4.16 years; volatility (based on comparable companies) – 110%; risk free rate – 1.33%). These options have expired.

On July 31, 2016, the Company granted an aggregate of 2,000,000 stock options to purchase common shares to its directors and officers, exercisable at prices ranging from \$0.08 to \$0.12, expiring on May 30, 2021 and vesting over a three year period. The Black-Scholes option pricing model was used to determine the fair value of the issued options of \$52,221. The assumptions used were as follows: (stock price - \$0.09; average exercise price - \$0.10; term 5.0 years; volatility (based on comparable companies) – 130%; risk free rate – 0.75%; expected dividends of nil).

During the year ended July 31, 2017, 120,000 options were exercised at an exercise price of \$0.08 each. As at January 31, 2018, 1,880,000 options remain outstanding of which 1,220,000 are exercisable at that date. The average exercise price of options outstanding is \$0.10 and the remaining weighted average contractual life of the options is 3.29 years.

(b) Warrants

As at January 31, 2018 and July 31, 2017, there were no warrants outstanding.

#### **10. RELATED PARTY TRANSACTIONS**

During the three month period ended January 31, 2018, \$48,000 (2017 - \$48,000) was paid or accrued to the Chief Executive Officer and Chief Financial Officer as compensation. As at January 31, 2018, \$517,943 (2017 - \$390,943) is payable to the Chief Executive Officer and Chief Financial Officer and is included in accounts payable and accrued liabilities. In addition, during the year ended July 31, 2016, the Chief Executive Officer was granted 600,000 stock options with a fair value of \$46,764 and the Chief Financial Officer was granted 450,000 stock options with a fair value of \$35,073, exercisable at prices ranging from \$0.08 to \$0.12 (See Note 8).

#### **11. COMMITMENTS AND CONTINGENCIES**

##### **Exploration and evaluation assets**

Company's activities are subject to environmental regulation (including regular environmental impact assessments and permitting) in each of the jurisdictions in which its mineral properties are located. Such regulations cover a wide variety of matters including, without limitation, prevention of waste, pollution and protection of the environment, labour relations and worker safety. The Company may also be subject under such regulations to clean-up costs and liability for toxic or hazardous substances which may exist on or under any of its properties or which may be produced as a result of its operations. It is likely that environmental legislation and permitting will evolve in a manner which will require stricter standards and enforcement. This may include increased fines and penalties for non-compliance, more stringent environmental assessments of proposed projects and a higher degree of responsibility for companies, their directors and employees.

The Company has not determined and is not aware that any provision for such costs is required and is unable to determine the impact on its financial position, if any, of environmental laws and regulations that may be enacted in the future due to the uncertainty surrounding the form that these laws and regulations may take.

#### **12. CAPITAL RISK MANAGEMENT**

The Company considers its capital structure to consist of share capital and deficit.

The Company's objective when managing capital is to maintain adequate levels of funding to support its exploration activities and to maintain corporate and administrative functions necessary to support operational activities.

The Company manages its capital structure in a manner that provides sufficient funding for operational activities. Funds are primarily secured through equity capital raised by way of private placements. There can be no assurances that the Company will be able to continue raising equity capital in this manner.

The Company invests all capital that is surplus to its immediate operational needs in short-term, liquid and highly-rated financial instruments, such as cash and other short-term guaranteed deposits, and all are held in a major Canadian financial Institution.

There has been no change in management's capital policy during the period.

**(unaudited)**

---

The Company is not subject to any externally imposed capital requirements.

**13. FINANCIAL INSTRUMENTS AND RISK FACTORS**

The Company is exposed to credit risk, market risk (consisting of interest rate risk, and other price risk), and liquidity risk.

**(a) Credit Risk**

The financial instruments that potentially subject the Company to a significant concentration of credit risk consist primarily of cash and cash equivalents. The Company mitigates its exposure to credit loss by placing its cash with major financial institutions.

**(b) Liquidity Risk**

As at January 31, 2018, the Company had accounts payable and accrued liabilities of \$1,250,574 (July 31, 2017 - \$1,361,624) and cash and cash equivalents of \$40,984 (July 31, 2017 - \$58,305) to meet its current obligations.

**(c) Fair Value**

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect estimates.

The carrying values of cash and cash equivalents, accounts payable and accrued liabilities, and due from related parties approximate fair values due to the relatively short term maturities of these instruments.

**(d) Commodity Price Risk**

The ability of the Company to develop its mineral properties and the future profitability of the Company is directly related to the market price of coal and base metals.

**14. SUBSEQUENT EVENT**

As disclosed in Note 15 to the annual audited financial statements for the year ended July 31, 2017, on September 5, 2017, the Company announced that it, along with its partner shareholders of Elan Coal Ltd., had entered into a Share Sale Deed with Kuro Coal Canada Inc. to sell a 100% of the issued and outstanding shares of Elan Coal Ltd. Altitude has a 15% minority interest in Elan Coal Ltd. The Elan Coal Project is the only asset owned by Elan Coal Ltd.

Subsequent to the filing of the Company's annual financial statements, on December 13, 2017 the Company announced that it had agreed to an amendment of the Share Sale Deed. Under the amendment, the purchaser of Elan Coal Ltd. will now be Atrum Coal Limited ("Atrum"). Atrum is the parent company of Kuro Coal Canada. Atrum was assigned all the rights and obligations as purchaser under the amended Share Sale Deed.

On March 28, 2018 the transaction under the Share Sale Deed was closed successfully. In accordance with the terms of the Share Sale Deed, Altitude received a cash payment of \$450,000 and was issued 2,953,574 fully paid shares in the capital stock of Atrum Coal Limited (ASX: ATU). The shares are subject to a 12-month escrow period that will be released on March 28, 2019.
