Unlike in Canada which has Federal legislation uniformly governing the cultivation, distribution, sale and possession of medical cannabis under the Cannabis Act (Federal), readers are cautioned that in the U.S., cannabis is largely regulated at the State level. To the knowledge of Vibe Growth Corporation, there are to date a total of 33 states, plus the District of Columbia, that

have legalized cannabis in some form. Notwithstanding the permissive regulatory environment of medical cannabis at the State level, cannabis continues to be categorized as a controlled substance under the Controlled Substances Act in the U.S. and as such, cannabis-related practices or activities, including without limitation, the manufacture, importation, possession, use or distribution of cannabis are illegal under U.S. Federal law. Strict compliance with State laws with respect to cannabis will neither absolve Vibe of liability under the U.S. Federal law, nor will it provide a defense to any Federal proceeding, which may be brought against Vibe Growth Corporation. Any such proceedings brought against Vibe may adversely affect its operations and financial performance.
