### News Release

#### Zadar Appoints Jeremy S. Brett M.Sc., P.Geo to Advisory Board

ZAD.V

ZAV.F

**May 30, 2013 – Vancouver, British Columbia.** Zadar Ventures Ltd. (the “Company”) is pleased to welcome Mr. Jeremy Brett, a senior Geophysical Consultant with MPH Consulting Limited, to the advisory board of Zadar Ventures Ltd.

Mr. Brett is a senior consulting geophysicist with MPH Consulting, has a strong geological and management background and over 18 years of experience in mineral exploration. He is a graduate of the University of Toronto, with degrees in Physics and Geology. Mr. Brett has designed, supervised, quality assured and interpreted ground and airborne geophysical surveys for uranium, base metals, nickel/PGE, gold, silver, iron ore, diamonds, oil and gas, graphite and rare earth elements exploration, in North America, Africa, Southeast Asia, Central America and South America. He has explored for uranium in the Athabasca, Thelon, Baker Lake and Otish Basins. He has worked for many of Canada’s leading junior and major exploration and mining companies and has designed, implemented and supervised geophysical programs, while working closely with geological exploration teams. Mr. Brett is extensively experienced in magnetic and gravity methods, VLF, frequency-domain and time-domain electromagnetics, electrical methods (IP and resistivity), radiometrics, ground penetrating radar, physical properties measurements, and a variety of geographic and satellite remote sensing methods. His specialty has been in the imaging, synthesis and interpretation of geophysical data and its direct integration with ore deposit models and structural/tectonic frameworks, for target identification and testing.

“We are delighted to welcome Jeremy to the team. We believe his extensive experience in Uranium and in the Athabasca basin combined with the extensive data base of MPH will greatly benefit the company’s exploration and compilation of its recently acquired projects” Stated Mr. Tommasi, President of Zadar Ventures.

Zadar Ventures Ltd. is a junior Uranium exploration company focused on acquiring and exploring for economically viable mineral resources in the prolific Uranium producing Athabasca Basin.
