Notes to the Financial Statements

(Unaudited – Prepared by Management)

April 30, 2014

1. Nature of Operations

Zadar Ventures Ltd. (“Zadar” or the “Company”) was incorporated on August 6, 2008 under the Business Corporations Act of British Columbia and its principal activity is the exploration of mineral properties. Zadar is a public company with shares listed on the TSX Venture Exchange. The head office, principal address and records office of the Company are located at 888 Dunsmuir Street, Suite 1500, Vancouver, British Columbia, Canada V6C 3K4.

Going concern of operations

These financial statements have been prepared assuming the Company will continue on a going concern basis. The Company has incurred losses since its inception and the ability of the Company to continue as going-concern depends on its ability to raise adequate financing and to develop profitable operations. This raises substantial doubt about the Company’s ability to continue as a going concern.

Management is actively targeting sources of additional financing. Although the Company has been successful in past financings, there is no assurance that future financings will be successful. As the Company is in the exploration and evaluation stage, the Company has not identified a known body of commercial grade mineral on any of its properties. The ability of the Company to realize the costs it has incurred to date on these properties is dependent upon the Company identifying a commercial mineral body, to finance its development costs and to resolve any environmental, regulatory or other constraints which may hinder the successful development of the property.

2. Basis of Preparation

These interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The interim financial statements should be read in conjunction with the annual financial statements for the year ended July 31, 2013, which have been prepared in accordance with IFRS as issued by the IASB.

The accounting policies adopted are consistent with those of the previous financial year. The interim financial statements were approved by the Board of Directors on June 30, 2014.

All dollar amounts are presented in Canadian dollars unless otherwise specified.

3. Investments

Investments comprise 652,293 ordinary shares of Global Resource Investments Trust Plc.

4. Exploration and Evaluation Assets

Whiskey Gap

The Company entered into an option agreement with 1177129 Alberta Ltd., (the “Optionor”), a company controlled by a company having an officer in common with Zadar, in April 2010, subsequently amended May 30, 2011, September 30, 2011 and June 1, 2012, to acquire up to a 75% interest in certain mineral interests located in Alberta, known as the Whiskey Gap Project.

To earn a 60% interest, the Company must make payments and issue shares as follows:

- a) \$12,500 (paid) and issue and allot to the Optionor 100,000 shares of the Company (issued);
- b) on or before the first anniversary of the execution of the Agreement, a further \$12,500 (paid) and issue and allot to the Optionor a further 200,000 shares (issued);
- c) on or before the second anniversary of the execution of the Agreement, a further \$25,000 (paid) and issue and allot to the Optionor a further 300,000 shares (issued);
- d) on or before September 30, 2010, the Company shall expend not less than \$100,000 on Exploration Expenditures on the Property; (incurred)
- e) on or before June 30, 2012, the Company shall pay \$100,000 to the Optionor (paid);
- f) on or before December 31, 2012, the Company shall pay a further \$50,000 (paid) and issue and allot to the Optionor a further 500,000 shares (issued).

The Company has a further option to acquire an additional 15% interest in the Property by issuing the Optionor an additional 1,000,000 shares (issued) and expending an additional \$500,000 for Exploration Expenditures on or before September 30, 2013. The Optionor has extended the payment terms until completion of the private placement being undertaken by the Company (Note 10).

Upon earning either a 60% or 75% interest, the Company and the Optionor will form a joint venture with standard dilution clauses.

Bullrun Uranium Project

On April 12, 2013, the Company entered into a purchase agreement with an arm’s length vendor to acquire a 100% interest in the Bullrun uranium project, located in the southwestern Athabasca Basin in Saskatchewan, Canada.

To earn the 100% interest, the Company must make payments and issue shares as follows:

- a) \$5,000 non-refundable due diligence deposit (paid);

- c) Issue 200,000 shares by April 12, 2014;
- d) Issue 250,000 shares by April 12, 2015; and
- e) \$250,000 cash payment by April 12, 2019.

A finder's fee comprising \$1,500 in cash and 10,000 shares (fair value \$3,000) was paid/issued.

Bullrun Blocks D and E

On May 10, 2013, pursuant to a purchase agreement with an unrelated party, the Company acquired a 100% interest in certain mineral claims known as the Bullrun Blocks D and E properties, in exchange for issuance of 250,000 common shares of the Company (issued, fair value \$75,000), and reservation to the vendor of a 2% net smelter revenue royalty. A finder's fee of 25,000 shares was issued (fair value \$7,500).

Upper Poulton Lake

On April 22, 2013 and as amended on October 10, 2013, the Company entered into an option agreement with an arm's length vendor (the "Vendor"), whereby the Company can earn a 100% interest in the Upper Poulton Lake Property located in the Athabasca Basin in Saskatchewan, Canada.

To earn a 100% interest, the Company must make payments, issue shares and incur exploration expenditures as follows:

- a) \$10,000 non-refundable due diligence deposit (paid);
- b) \$40,000 cash payment (paid) and issuance of 100,000 shares (issued, fair value \$28,000) by April 20, 2013;
- c) \$50,000 cash payment by January 18, 2014;
- d) \$25,000 cash payment and issuance of 300,000 shares by April 10, 2014;
- e) \$50,000 cash payment and issuance of 250,000 shares by April 10, 2015;
- f) \$50,000 cash payment and issuance of 250,000 shares by April 10, 2016;
- g) \$1,000,000 cash payment by April 10, 2017; and

6. Financial Instruments and Risk Management

Fair Values

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities

Level 2 – Inputs other than quoted prices that are directly or indirectly observable for the asset or liability; and

Level 3 – Inputs that are not based on observable market data.

The carrying values of cash, due from/to related parties, accounts payable and accrued liabilities approximate their fair value due to the short-term nature of these instruments.

Credit risk

Credit risk refers to the risk that another entity will default on its contractual obligations resulting in financial loss to the Company. The Company's only significant financial asset is cash which is on deposit at a high credit-worthy financial institution.

Market risk

Market risk includes currency risk, interest rate risk and price risk. The Company's activities expose it primarily to the financial risks of changes in the price of resources. The Company does not currently hold any financial instruments that mitigate this risk.

6. Financial Instruments and Risk Management (continued)

Liquidity risk

Liquidity risk refers to the risk that the Company will not be able to meet its financial obligations when they become due, or can only do so at excessive cost. The Company expects to satisfy obligations under accounts payable and accrued liabilities. Management intends to continue to finance its activities by raising funds by private equity investments. Even if it has succeeded in financing its activities in the past, management cannot comment on the success of its future fund raising and believes that liquidity risk is high.

7. Capital Management

The Company includes cash and equity, comprising issued common shares, contributed surplus and deficit in the definition of capital.

The Company manages its capital to ensure it will be able to continue as a going concern largely through equity financing. These stock issues depend on numerous factors including a positive mineral exploration environment, positive stock market conditions, a company's track record, and the experience of management. The Company is not exposed to externally imposed capital requirements. There were no changes in the Company's approach to capital management during the period ended April 30, 2014.

8. Related Party Transactions

Certain of the Company's officers and directors render services to the Company through companies in which they are an officer or director.
