### GORILLA ANNOUNCES CLOSE OF PLAN OF ARRANGEMENT WITH NOOR ENERGY CORPORATION

**Vancouver, BC – Gorilla Resources Corp.** (“Gorilla”) is pleased to announce that it has completed the first part of its statutory arrangement (the “Arrangement”) with Noor Energy Corporation (“Noor Energy”) and Noor Resources Inc. (“Noor Resources”).

On May 4, 2012, Noor Energy completed the first part of its statutory arrangement (the “Arrangement”) with Gorilla Resources Corp. (“Gorilla”) and Noor Resources Inc. (“Noor Resources”).

Pursuant to the Plan of Arrangement, the Issuer issued 1,499,996 shares in the capital of the Issuer to Gorilla in exchange for 1 common share of Gorilla. Gorilla dividended the 1,499,996 common shares as follows:

- the three majority shareholders of Gorilla each received 100,000 common shares and waived their rights to a distribution that would be proportionate to their registered shareholdings in Gorilla; and
- a total of 1,199,996 common shares of the Issuer at an issue price of \$0.0001 were distributed on the remaining shareholdings of Gorilla at a rate of 1 Gorilla share to 0.436083 Noor Energy share (the “**Gorilla Shares**”), with fractions rounded for Gorilla holders of record on May 4, 2012 (the “**Record Date**”).

Further details concerning the Arrangement can be found in the Arrangement Agreement dated April 30, 2012 available on the Issuer’s SEDAR profile at [www.sedar.com](http://www.sedar.com).

As a result of completing the arrangement, Noor Energy is a reporting issuer in British Columbia and Alberta effective May 4, 2012, with its principal regulator being the British Columbia Securities Commission. The CUSIP of Noor Energy is 655381101.

Pursuant to the second part of the Arrangement, Noor Energy will complete a reverse merger (the “RTO”) with Noor Resources if Noor Resources is successful in arranging and completing the following to close concurrently with the RTO:

- a financing, whereby Noor Resources will raise up to \$10,000,000 by selling 20,000,000 common shares at a price of \$0.50 per share;

- the acquisition of an oil and gas property that is compliant with NI 51-101 at a purchase price of \$10,000,000 in cash and the issuance of shares in Noor Energy (the “Acquisition Shares”); and
- the Acquisition Shares will be subject to a stock restriction and lock-up agreement with a term of no less than 18 months and no more than 36 months, on terms approved by the Canadian National Stock Exchange (the “CNSX”).

If these conditions are met, the RTO will involve the issuance of 200,000,000 shares of Noor Energy to the Noor Resources shareholders through a 1 for 1 share exchange. There is a risk that Noor Resources may not be successful in completing the financing and acquisition of the oil and gas property and therefore that the RTO will not complete. Noor Resources is a newly incorporated entity and has not yet entered into agreements which would meet the Conditions required to complete the RTO. It is anticipated that Noor Energy will need to complete a listing on the CNSX in order for the Conditions to be met and the RTO to close.

Gorilla will not participate in the second part of the Arrangement.
