General Development of Business

Three Year History

History of the Company Prior to the RTO Transaction

Prior to the completion of the RTO Transaction, the Company was an exploration stage mining company engaged in the acquisition and exploration of mineral properties in Canada.

On May 31, 2017, the Company entered into a share exchange agreement (the “**GT Agreement**”) with GT Therapeutics Corporation (“**GTT**”) pursuant to which the Company intended to complete a reverse takeover and acquire from the shareholders of GTT all of the issued and outstanding shares of GTT, causing GTT

to become a wholly-owned subsidiary of the Company. Pursuant to the GT Agreement, the Company intended to issue an aggregate of 5,500,000 Common Shares to the existing shareholders of GTT, on a pro rata basis, at a deemed price of \$0.45 per share for total consideration of \$2,475,000.

On January 10, 2018, the Company assigned all of its rights and interests in the GT Agreement to Abattis Bioceuticals Corp. (“**Abattis**”) and certain shareholders of GTT pursuant an assignment and novation agreement. TargetCo was an emerging e-commerce company that marketed, sold and distributed plant-based foods, beverages and other products throughout North America.

To raise operating capital, on July 15, 2020, the Company completed a non-brokered private placement of 12,819,200 subscription receipts (“**Subscription Receipts**”) at a price of \$0.25 per Subscription Receipt for gross proceeds of \$3,204,800 (the “**Concurrent Financing**”). Each Subscription Receipt would, for no additional consideration, automatically be exchanged for one Common Share immediately prior to the closing of the RTO Transaction.

On July 17, 2020, the Company completed a consolidation of its Common Shares on the basis of one post-consolidation Common Share for every 10 pre-consolidation Common Shares held, and changed its corporate name to “Vegaste Technologies Corp.” (the “**Name Change**”) all in accordance with the terms of the RTO Transaction.

Description of the Business

General

Summary

The Company is primarily an e-commerce company that offers multiple plant-based brands at its “one-stop shop for everything plant-based”. The Company’s e-commerce platform is an online source for high-quality plant-based products including groceries, ingredients, food and beverages, cosmetics, pet foods and plants. The Company makes more than 10,000 plant-based products available to consumers throughout North America on its e-commerce websites.

The Company currently operates its business using a supply-chain management system known as “dropshipping” whereby Subsidiaries of the Company and/or its Subsidiaries facilitate the delivery of the goods from a third-party manufacturer to a third party distributor and then to the end-point consumer who places the associated order. Dropshipping typically does not require the Company to own inventory. Strategically, dropshipping enables the Company’s business to operate with limited overhead and inventory, thus improving margins and, ultimately, net revenue.

PlantX also seeks to create brand-awareness through its brick-and-mortar strategy. As of the date of this Prospectus, PlantX has announced brick-and-mortar locations in San Diego, California, Squamish, British Columbia, and Tel Aviv, Israel. With the exception of the Squamish location (which is corporate owned), the Company intends to execute its brick-and-mortar strategy through a franchising model. The purpose of the PlantX branded locations is to provide a customer-friendly experience where consumers can engage and become educated about the benefits of a plant-based lifestyle, sample and purchase featured plant-based products and engage in the PlantX community.

The PlantX platform also features a collaborative forum and blog to help like-minded consumers to engage through social media and via partnerships with top nutritionists, chefs and brands. By combining this online strategy with the opportunities to engage at brick-and-mortar locations, the Company seeks to cultivate a PlantX community that translates into increased sales through its e-commerce platform. Establishing a core consumer base that makes recurring purchases from the Company’s e-commerce platform is critical to the execution of the Company’s business model.

E-commerce Platforms

The Company has developed its e-commerce platforms, into an online source for high-quality plant-based products with distribution throughout Canada, the United States, the United Kingdom, and Germany and with expansion planned to Israel. Shortly after launching the online platform, PlantX introduced its collaborative forum and blog to help likeminded consumers connect with each other. On the website, users can now start a discussion with the entire community about plant-based health, nutrition, and recipes.

The U.S. PlantX website, www.plantx.com, is the Company's primary marketing and sales tool. Since launching on April 1, 2020, the site has received over 76,000 unique visitors, and has over 830 user accounts. The Canadian PlantX website, www.plantx.ca, focuses on the Canadian marketplace. Since launching on September 21, 2020, the Canadian site has received over 60,000 unique visitors, and has over 1,600 user accounts.

Through both websites, consumers can:

- establish an account;
- shop from a selection of plant-based products;
- order weekly meal deliveries of prepared or ready-to-cook vegan meals (currently available in Canada only);
- participate in online forums and discussion groups; and
- order houseplants directly from our greenhouse partners.

As the popularity of home-delivered prepared or ready-to-cook meal offerings continues to grow, the Company will use this delivery model to offer exclusively plant-based and vegan menus. The Company has also introduced a meal-subscription option that allows for a recurring revenue stream from consumers purchasing from PlantX meal delivery options. All meals will be pre-portioned with quality ingredients and delivered with step-by-step instructions that take only minutes to prepare. Ms. Amy Gensel has joined the Medical Advisory Board to oversee the nutritional elements and menu offerings of this business segment.

Brick-and-Mortar Locations

The PlantX brick-and-mortar locations, including its anticipated flagship stores, are expected to provide a sensory experience for customers to experience plant-based shopping. The locations are intended to attract new customers, build brand recognition, and create a loyal PlantX consumer base. All PlantX customers should expect a consistent experience – whether shopping on-line or at a flagship store. Certain brick-and-mortar stores will also be used as distribution centers that warehouse goods and ship directly to consumers from orders placed on the e-commerce platform.

The announced flagship locations in Squamish, British Columbia, San Diego, California and Tel Aviv, Israel are expected to feature plant-based education centres, cafés, and restaurants with plant-based meals designed by a team of executive chefs and nutritionists. These locations will be used as a training center for future staff. The design, layout and offerings will be another way to help make a plant-based lifestyle accessible to residents across North America and Israel.

The proposed PlantX flagship locations are strategically positioned to represent geographical locations where management believes that the plant-based lifestyle is most popular and where they believe there will be continued growth. These flagship locations complement and are integral to the broader North American strategy and expansion into Israel and Europe. The Squamish, British Columbia location is corporate-owned and it is the Company's intention to use a franchising model for the remaining locations. The Company does not currently have any agreements in place with franchisees and its franchise model is under development. See *"Use of Proceeds – Business Objectives and Milestones"*.

The Company's mobile app is currently in development and is expected to launch in March 2021 in conjunction with the US flagship brick-and-mortar store in San Diego, California. App users will be able to scan the QR codes in the PlantX stores, add items to their cart and check-out without going through a traditional check-out register. Additionally, the app will be available for general use, including purchasing products from the e-commerce platform, viewing recipes, and accessing the PlantX forum. See *"Use of Proceeds – Business Objectives and Milestones"*.

Competitive Conditions

The e-commerce marketplace is highly competitive. PlantX serves several high-growth industries, including online grocery delivery, online food delivery, online meal kit delivery, and online plant delivery. The Company offers product lines under a variety of brands using a centralized online platform, and fulfills orders that are predominantly fulfilled using dropshipping agreements. This allows the Company to address an array of customer needs and preferences, while mitigating risk and increasing opportunities for diversified sales. PlantX connects customers to brands they may not have previously discovered and provides partners the opportunity to expand their reach through the PlantX business.

To the knowledge of the Company, PlantX has a first mover advantage as being the first publicly-listed one-stop shop for all things plant-based. While there are numerous publicly-traded companies that offer plant-based products, PlantX is currently the only company that offers such combination of products and services through a dropshipping network. This unique integrated service provision increases PlantX's competitiveness and strengthens its capital markets profile.

The global dropshipping market was valued at US\$162.44 billion in 2019 and is projected to reach US\$591.77 billion by 2027. This market is expected to grow at a compound annual growth rate of 18.3% from 2020 to 2027.¹

The plant-based food market is also growing, with sales of plant-based foods growing significantly across all relevant categories. Globally, this industry is expected to reach US\$74.2 billion by 2027, according to Meticulous Research.² PlantX believes that it has a business model that is built with fundamentals appropriate to grow in sync with these two high-growth markets.

PlantX expects that competition will increase as the industry continues to evolve. It is likely that there will be new market entrants and some of the existing competitors might choose to merge or consolidate. Potential new competitors could have additional resources that PlantX does not yet have, such as larger

international infrastructure, greater marketing and technical capacity, or larger customer bases. All these factors could affect the market dynamics and potentially affect our market share, revenue, or stream of operations.

PlantX is consistently increasing its competitive profile by adding new product verticals, expanding its product and service base, creating new partnerships with logistics service providers to expand its operational infrastructure, and regularly engaging with new and existing investors.

Components

PlantX ensures efficient distribution of its products through its partnerships with third-party vendors and shipping companies. The Company is not reliant on any particular third-party service provider, which increases its distribution flexibility and efficiency. However, relying on external service providers involves logistics considerations such as performance issues, and contractual management.

PlantX has been actively monitoring and adapting to supply and demand market dynamics to determine the pricing of its products, which can be fixed or variable, based on trading prices. While plant-based products tend to be more expensive, the Company utilizes a competitive pricing strategy to improve product accessibility.

Intangible Properties

As of the date of this AIF, the Company has applied for the following trademarks:

- “The digital face of the plant-based community” (United States trademark serial No.90258516);
- PlantX (word mark) (United States trademark serial No. 90190237); and

Moreover, the Agency Agreement will provide that the Agent will offer and sell the Offered Units outside the United States to non-U.S. Persons only in accordance with Rule 903 of Regulation S under the U.S. Securities Act.

The Offered Units, Unit Shares, Warrants and Warrant Shares that are sold in the United States or to, or for the account or benefit of, U.S. Persons will be restricted securities within the meaning of Rule 144(a)(3) of the U.S. Securities Act and may only be offered, sold or otherwise transferred pursuant to certain exemptions from the registration requirements of the U.S. Securities Act. In addition, until 40 days after the commencement of the Offering, any offer or sale of the Offered Units within the United States by any dealer (whether or not participating in the Offering) may violate the registration requirement of the U.S. Securities Act if such offer or sale is made otherwise than in accordance with an exemption from the registration

requirement of the U.S. Securities Act. This Prospectus does not constitute an offer to sell or a solicitation of an offer to buy any of the Offered Units to, or for the account or benefit of, a person in the United States or a U.S. Person.

Warrants

The Warrants will be issued under and governed by the Warrant Indenture to be entered into on the Closing Date between the Company and Odyssey, as warrant agent. The following summary of certain anticipated provisions of the Warrant Indenture does not purport to be complete and is subject in its entirety to the detailed provisions of the Warrant Indenture. Reference is made to the Warrant Indenture for the full text of the attributes of the Warrants which will be filed by the Company under its corporate profile on SEDAR following the closing of the Offering. A register of holders will be maintained at the principal offices of Odyssey in Calgary, Alberta.

The Unit Shares and the Warrants comprising the Offered Units will separate upon the closing of the Offering. Each Warrant will entitle the holder to acquire, subject to adjustment in certain circumstances, one Warrant Share at an exercise price of \$1.45 until 4:00 p.m. (Vancouver time) on the date that is 24 months from the Closing Date (the “**Expiry Date**”), after which time the Warrants will be void and of no value, provided that , if, at any time, the daily volume weighted average trading price (or closing price on trading days when there are no trades) of the Common Shares on the CSE (or if the Common Shares are not listed on the CSE, then on such other recognized Canadian stock exchange on which the Common Shares are then listed) equals or exceeds \$2.50 per Common Share over any 10 consecutive trading days, the Company shall be entitled, at its option, within 10 business days following such 10-day period, to accelerate the exercise period of the Warrants through the issuance of a press release specifying the new expiry date (the “**Acceleration Notice**”) and, in such case, the new time of expiry shall be deemed to be 4:00 p.m. (Vancouver time) on the 30th day following the issuance of the Acceleration Notice. From and after the new time of expiry specified in such Acceleration Notice, no Warrants may be issued or exercised, and all

unexercised Warrants shall be void and of no effect following the new Expiry Date (the “**Acceleration Provision**”).

There is no market through which the Warrants may be sold.

The number of Warrant Shares issuable upon the exercise of the Warrants and the exercise price per Warrant Share are subject to adjustment from time to time upon the occurrence of certain events, including:

- (a) the subdivision, redivision or change of the Common Shares into a greater number of Common Shares;
- (b) the reduction, combination or consolidation of the Common Shares into a lesser number of Common Shares;
- (c) the issuance of Common Shares or securities exchangeable for or convertible into Common Shares to all or substantially all of the holders of the Common Shares as a stock dividend or other distribution (other than a distribution of Common Shares upon the exercise of Warrants or any outstanding options);
- (d) the issuance to all or substantially all of the holders of the outstanding Common Shares of rights, options or warrants under which such holders are entitled, during a period expiring not more than 45 days after the record date for such issuance, to subscribe for or purchase Common Shares, or securities exchangeable for or convertible into Common Shares, at a price per Common Share (or at an exchange or conversion price per share) of less than 95% of the Current Market Price, as this term is defined in the Warrant Indenture, for the Common Shares on such record date;
- (e) the distribution to all or substantially all or substantially all of the holders of the outstanding Common Shares of securities of any class other than the Common Shares; rights, options or warrants to acquire Common Shares or securities exchangeable or convertible into Common Shares; evidences of indebtedness, or any property or other assets;
- (f) a (i) reclassification of the Common Shares or a capital reorganization of the Company (other than as described in clauses (a), (b) or (c) above), (ii) consolidation, amalgamation, arrangement, merger or other business combination of the Company with or into another entity, in which case each holder of a Warrant which is thereafter exercised will receive, in lieu of Common Shares, the kind and number or amount of other securities or property which such holder would have been entitled to receive as a result of such event if such holder had exercised the Warrants prior to the event.

The Company will also covenant in the Warrant Indenture that, during the period in which the Warrants are exercisable, it will give notice to Odyssey and to the registered holders of Warrants of its intention to fix a record date for any matter for which an adjustment may be required, at least 14 days prior to such record date. The Company will further covenant in the Warrant Indenture that it will not close its transfer books or take any other corporate action which might deprive the registered holders of Warrant holder of the opportunity to exercise its right of acquisition pursuant thereto during the period of 14 days after the giving of the notice.

No fractional Common Shares will be issuable to any holder of Warrants upon the exercise thereof, and no cash or other consideration will be paid in lieu of fractional Common Shares. Nothing in the Warrant Indenture or in the holding of a certificate representing Warrants will make the holder thereof a shareholder of the Company or entitle such holder to any right or interest as a shareholder except as expressly provided in the Warrant Indenture. Holders of Warrants will not have any voting rights, the right to receive notice of, or to attend, meetings of shareholders or any other proceedings of the Company, or the right to dividends and other allocations.

The Warrant Indenture will provide that, from time to time, Odyssey and the Company may be able to supplement the Warrant Indenture for certain purposes, including: (i) setting forth any adjustments resulting from the application of the adjustment provisions of the Warrant Indenture; adding to the provisions hereof such additional covenants and enforcement provisions (provided that the same are not prejudicial to the interests of the registered holders of Warrants); (ii) giving effect to any Extraordinary Resolution (as defined therein); (iii) making such provisions as may be necessary or desirable with respect to matters or questions arising or for the purpose of obtaining a listing or quotation of the Warrants on any stock exchange (provided that such provisions are not prejudicial to the interests of the registered Holders of Warrants); (iv) adding to or altering the provisions in respect of the transfer of Warrants, making provision for the exchange of Warrants, and making any modification in the form of the certificates representing the Warrants which does not affect the substance thereof; (v) modifying any of the provisions of the Warrant Indenture, including relieving the Company from any of the obligations, conditions or restrictions contained therein (provided that such modification or relief shall be effective only if such modification or relief in no way prejudices any of the rights of the registered holders of Warrants or of Odyssey; (vi) providing for the issuance of additional Warrants and any consequential amendments to the Warrant Indenture as may be required by Odyssey; and (vii) for any other purpose not inconsistent with the terms of the Warrant Indenture, including the correction or rectification of any ambiguities, defective or inconsistent provisions, errors, mistakes or omissions therein (provided that the rights of Odyssey and of the registered holders of Warrants are in no way prejudiced).

The Warrants and the Warrant Shares issuable upon the exercise of the Warrants have not been and will not be registered under the U.S. Securities Act or any state securities laws. The Warrants will not be exercisable by, or on behalf of, a person in the United States or a U.S. Person, nor will any certificates representing the Warrant Shares issuable upon exercise of the Warrants be registered or delivered to an address in the United States, unless an exemption from the registration requirements of the U.S. Securities Act and any applicable state securities laws is available and the Company has received an opinion of counsel of recognized standing to such effect in form and substance reasonably satisfactory to the Company; provided, however, that a U.S. Purchaser that purchased Warrants in the Offering for its own account, or for the account of another U.S. Purchaser for which it exercised sole investment discretion with respect to such original purchase (an "Original Beneficial Purchaser"), will not be required to deliver an opinion of counsel or such other evidence if it exercises those Warrants for its own account or for the account of the Original Beneficial Purchaser, if any, if each of it and such Original Beneficial Purchaser, if any, is a U.S. Accredited Investor at the time of exercise of such Warrants. Certificates representing Warrant Shares issued in the United States or to, or for the account or benefit of, U.S. persons will bear a legend restricting the transfer and exercise of such securities under applicable United States federal and state securities laws.

Registered holders of Warrants may, by Extraordinary Resolution: (a) agree to any modification of the rights of registered holders of Warrants or Odyssey or on behalf of the registered holders of Warrants against the Company; (b) amend any Extraordinary Resolution previously passed; (c) direct Odyssey to enforce any of the covenants of the Company or to enforce any of the rights of the registered holders of Warrants or to refrain from enforcing any such covenant or right; (d) waive, and direct Odyssey to waive, any default on the part of the Company; (e) restrain any registered holder of Warrants from taking or instituting any proceeding against the Company for the enforcement of any of the covenants of the Company or to enforce any of the rights of the registered holders of Warrants; (f) direct any registered holder of Warrants who has brought any proceeding to stay or to discontinue same; (g) assent to any change in or omission from the provisions contained in the Warrant Indenture or any supplement, and to authorize Odyssey to concur in and execute any supplemental indenture embodying the change or omission; (h) with the consent of the Company, remove Odyssey or its successor in office and to appoint a new warrant agent; and (i) assent to any compromise or arrangement with any creditor(s) or holders of any shares or other securities of the Company.

An "Extraordinary Resolution" will be defined in the Warrant Indenture as a resolution that is either: (i) passed at a meeting of the holders of Warrants at which there are holders of Warrants present in person or represented by proxy representing at least 25% of the aggregate number of Common Shares that could be acquired at the meeting and voted on the poll upon such resolution; or (ii) in writing signed by the holders

of at least 66 2/3% of the then outstanding Warrants on any matter that would otherwise be voted upon at a meeting called to approve such resolution.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Gowling WLG (Canada) LLP, counsel to the Company and MLT Aikins LLP, counsel to the Agent, the following is, as of the date hereof, a general summary of the principal Canadian federal income tax considerations under the *Income Tax Act* (Canada) (the “**Tax Act**”) and the regulations thereunder (the “**Regulations**”) generally applicable to a holder who acquires Unit Shares and Warrants comprising the Offered Units pursuant to the Offering, and Warrant Shares upon exercise of the Warrants, as beneficial owner pursuant to this Prospectus and who, at all relevant times, for the purposes of the Tax Act, deals at arm’s length with the Company and the Agent, is not affiliated with the Company or the Agent, and will acquire and hold Unit Shares, Warrants, and Warrant Shares acquired on the exercise of Warrants

(collectively with the Unit Shares referred to as the “**Shares**”) as capital property (each, a “**Holder**”), all within the meaning of the Tax Act. The Shares and Warrants will generally be considered to be capital property to a Holder unless the Holder holds or uses the Shares or Warrants, or is deemed to hold or use the Shares or Warrants, in the course of carrying on a business of trading or dealing in securities or has acquired them or deemed to have acquired them in a transaction or transactions considered to be an adventure in the nature of trade.

This summary does not apply to a Holder (a) that is a “financial institution” for purposes of the mark-to-market rules contained in the Tax Act; (b) an interest in which is or would constitute a “tax shelter investment” as defined in the Tax Act; (c) that is a “specified financial institution” as defined in the Tax Act; (d) that is a corporation resident in Canada (for the purpose of the Tax Act) or a corporation that does not deal at arm’s length (for purposes of the Tax Act) with a corporation resident in Canada, and that is or becomes as part of a transaction or event or series of transactions or events that includes the acquisition of the Offered Units, controlled by a non-resident person or a group of non-resident persons not dealing with each other at arm’s length for the purposes of the foreign affiliate dumping rules in Section 212.3 of the Tax Act; (e) that reports its “Canadian tax results” in a currency other than Canadian currency, all as defined in the Tax Act; (f) that is exempt from tax under the Tax Act; (g) that has entered into, or will enter into, a “synthetic disposition arrangement” or a “derivative forward agreement” with respect to the Shares or the Warrants, as those terms are defined in the Tax Act; or (h) that receives dividends on the Shares under or as part of a “dividend rental arrangement”, as defined in the Tax Act. Such Holders should consult their own tax advisors with respect to an investment in Offered Units.

This summary does not address the deductibility of interest by a Holder who has borrowed money or otherwise incurred debt in connection with the acquisition of Offered Units.

This summary is based upon the current provisions of the Tax Act and the Regulations in force as of the date hereof, specific proposals to amend the Tax Act and the Regulations (the “**Tax Proposals**”) which have been announced by or on behalf the Minister of Finance (Canada) prior to the date hereof, the current provisions of the *Canada-United States Income Tax Convention (1980)* (the “**Canada-U.S. Tax Convention**”), and counsel’s understanding of the current published administrative policies and assessing practices of the Canada Revenue Agency (the “**CRA**”).

This summary assumes that the Tax Proposals will be enacted in the form proposed and does not take into account or anticipate any other changes in law, whether by way of judicial, legislative or governmental decision or action, nor does it take into account provincial, territorial or foreign income tax legislation or considerations, which may differ from the Canadian federal income tax considerations discussed herein. No assurances can be given that the Tax Proposals will be enacted as proposed or at all, or that legislative, judicial or administrative changes will not modify or change the statements expressed herein. **This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in Offered Units. This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal, business, or income tax advice to any particular Holder. Holders should consult their own income tax advisors with respect to the tax consequences applicable to them based on their own particular circumstances.**

Amounts Determined in Canadian Dollars

For purposes of the Tax Act, all amounts relating to the Shares or Warrants must be expressed in Canadian dollars, including cost, adjusted cost base, proceeds of disposition and dividends, and amounts denominated in U.S. dollars must be converted to Canadian dollars using the daily exchange rate published by the Bank of Canada on the particular date the particular amount arose or such other rate of exchange as may be accepted by the CRA. Holders may therefore realize additional income or gain by virtue of changes in foreign exchange rates, and are advised to consult with their own tax advisors in this regard. Currency tax issues are not discussed further in this summary.

Allocation of Purchase Price of Units

The total purchase price of an Offered Unit to a Holder must be allocated on a reasonable basis between the Unit Share and the Warrant which comprise that Offered Unit to determine the cost of each to the Holder for purposes of the Tax Act.

For its purposes, the Company intends to allocate \$0.875 of the Offering Price of each Offered Unit as consideration for the issue of each Unit Share and \$0.375 of the Offering Price of each Offered Unit for the Warrant comprising part of the Offered Unit. Although the Company believes that its allocation is reasonable, it is not binding on the CRA or the Holder. The Holder's adjusted cost base of the Unit Share comprising a part of each Offered Unit will be determined by averaging the cost allocated to the Unit Share with the adjusted cost base to the Holder of all Common Shares of the Company owned by the Holder as capital property immediately prior to such acquisition.

Exercise of Warrants

No gain or loss will be realized by a Holder upon the exercise of a Warrant to acquire a Warrant Share. When a Warrant is exercised, the Holder's cost of the Warrant Share acquired thereby will be the aggregate of the Holder's adjusted cost base of such Warrant and the exercise price paid for the Warrant Share. The Holder's adjusted cost base of the Warrant Share so acquired will be determined by averaging such cost with the adjusted cost base to the Holder of all Common Shares of the Company owned by the Holder as capital property immediately prior to such acquisition.

Residents of Canada

The following portion of this summary is generally applicable to a Holder who, for the purposes of the Tax Act, is resident or deemed to be resident in Canada at all relevant times (each, a "**Resident Holder**"). Certain Resident Holders whose Shares might not otherwise qualify as capital property may be entitled to make an irrevocable election pursuant to subsection 39(4) of the Tax Act to have the Shares, and every other "Canadian security" (as defined by the Tax Act) owned by such Resident Holder in the taxation year of the election and in all subsequent taxation years, deemed to be capital property. This election does not apply to Warrants. Resident Holders should consult their own tax advisors for advice as to whether an election under subsection 39(4) of the Tax Act is available or advisable in their particular circumstances.

Expiry of Warrants

In the event of the expiry of an unexercised Warrant, a Resident Holder generally will realize a capital loss equal to the Resident Holder's adjusted cost base of such Warrant. The tax treatment of capital gains and capital losses is discussed in greater detail below under the subheading "Taxation of Capital Gains and Losses".

Taxation of Dividends Received by Resident Holders

In the case of a Resident Holder who is an individual (including certain trusts), dividends (including deemed dividends) received on the Shares will be included in the Resident Holder's income and be subject to the gross-up and dividend tax credit rules applicable to taxable dividends received by an individual from taxable Canadian corporations, including the enhanced gross-up and dividend tax credit for "eligible dividends" properly designated as such by the Company. Taxable dividends received by such Resident Holder may give rise to minimum tax under the Tax Act.

In the case of a Resident Holder that is a corporation, such dividends (including deemed dividends) received on the Shares will be included in the Resident Holder's income and will normally be deductible in computing such Resident Holder's taxable income. In certain circumstances, subsection 55(2) of the Tax Act will treat a taxable dividend received by a Resident Holder that is a corporation as proceeds of disposition or a capital gain. Resident Holders that are corporations should consult their own tax advisors having regard to their own circumstances.

A Resident Holder that is a “private corporation” or “subject corporation” (as such terms are defined in the Tax Act) may be liable to pay a refundable tax under Part IV of the Tax Act on dividends received or deemed to be received on the Shares to the extent that such dividends are deductible in computing the Resident Holder’s taxable income for the year.

Disposition of Shares and Warrants

A Resident Holder who disposes of, or is deemed to have disposed of, a Share (other than to the Company, unless purchased by the Company in the open market in the manner in which shares are normally purchased by any member of the public in the open market) or a Warrant (other than on the exercise thereof) will realize a capital gain (or incur a capital loss) equal to the amount by which the proceeds of disposition in respect of such Share or Warrant, as applicable, exceed (or are exceeded by) the aggregate of the adjusted cost base to the Resident Holder of such Share or Warrant, as applicable, immediately before the disposition or deemed disposition and any reasonable expenses incurred for the purpose of making the disposition. The adjusted cost base to a Resident Holder of a Share will be determined by averaging the cost of that Share with the adjusted cost base (determined immediately before the acquisition of the Share) of all other Common Shares held as capital property at that time by the Resident Holder. The tax treatment of capital gains and capital losses is discussed in greater detail below under the subheading “Taxation of Capital Gains and Losses”.

Taxation of Capital Gains and Losses

Generally, one-half of any capital gain (a “**taxable capital gain**”) realized by a Resident Holder must be included in the Resident Holder’s income for the taxation year in which the disposition occurs. Subject to and in accordance with the provisions of the Tax Act, one-half of any capital loss incurred by a Resident Holder (an “**allowable capital loss**”) must generally be deducted from taxable capital gains realized by the Resident Holder in the taxation year in which the disposition occurs. Allowable capital losses in excess of taxable capital gains for the taxation year of disposition generally may be carried back and deducted in the three preceding taxation years or carried forward and deducted in any subsequent year against taxable capital gains realized in such years, in the circumstances and to the extent provided in the Tax Act.

A capital loss realized on the disposition of a Share by a Resident Holder that is a corporation may in certain circumstances be reduced by the amount of dividends which have been previously received or deemed to have been received by the Resident Holder on the Share. Similar rules may apply where a corporation is, directly or indirectly through a trust or partnership, a member of a partnership or a beneficiary of a trust that owns Shares. A Resident Holder to which these rules may be relevant is urged to consult its own tax advisor.

Capital gains realized by an individual (including certain trusts) may result in the individual paying minimum tax under the Tax Act.

A Resident Holder that is throughout the relevant taxation year a “Canadian-controlled private corporation” (as defined in the Tax Act) may be liable to pay an additional refundable tax on its “aggregate investment income” (as defined in the Tax Act) for the year, which is defined to include an amount in respect of taxable capital gains.

Non-Residents of Canada

The following portion of this summary is generally applicable to a Holder who, for purposes of the Tax Act and at all relevant times, is neither resident nor deemed to be resident in Canada and does not use or hold, and will not be deemed to use or hold, Shares or Warrants in a business carried on in Canada (each, a “**Non-Resident Holder**”). The term “**U.S. Holder**”, for the purposes of this summary, means a Non-Resident Holder who, for purposes of the Canada-U.S. Tax Convention, is at all relevant times a resident of the United States and is a “qualifying person” within the meaning of the Canada-U.S. Tax Convention. In some circumstances, persons deriving amounts through fiscally transparent entities (including limited liability

companies) may be entitled to benefits under the Canada-U.S. Tax Convention. U.S. Holders are urged to consult their own tax advisors to determine their entitlement to benefits under the Canada-U.S. Tax Convention based on their particular circumstances.

Special considerations, which are not discussed in this summary, may apply to a Non-Resident Holder that is an insurer that carries on an insurance business in Canada and elsewhere or an authorized foreign bank (as defined in the Tax Act). Such Non-Resident Holders should consult their own advisors.

Taxation of Dividends

Subject to an applicable tax treaty or convention, dividends paid or credited, or deemed to be paid or credited, to a Non-Resident Holder on the Shares will be subject to Canadian withholding tax under the Tax Act at the rate of 25% of the gross amount of the dividend. Such rate is generally reduced under the Canada-U.S. Tax Convention to 15% if the beneficial owner of such dividend is a U.S. Holder. The rate of withholding tax is further reduced to 5% if the beneficial owner of such dividend is a U.S. Holder that is a company that owns, directly or indirectly, at least 10% of the voting stock of the Company. In addition, under the Canada-U.S. Tax Convention, dividends may be exempt from such Canadian withholding tax if paid to certain U.S. Holders that are qualifying religious, scientific, literary, educational or charitable tax-exempt organizations or qualifying trusts, companies, organizations or arrangements operated exclusively to administer or provide pension, retirement or employee benefits or benefits for the self-employed under one or more funds or plans established to provide pension or retirement benefits or other employee benefits that are exempt from tax in the United States and that have complied with specific administrative procedures.

Disposition of Shares and Warrants

A Non-Resident Holder will not be subject to tax under the Tax Act in respect of any capital gain realized by such Non-Resident Holder on a disposition of Shares or Warrants, unless the Shares or Warrants constitute “taxable Canadian property” (as defined in the Tax Act) of the Non-Resident Holder at the time of the disposition and are not “treaty-protected property” (as defined in the Tax Act) of the Non-Resident Holder at the time of the disposition.

Generally, as long as the Shares are then listed on a designated stock exchange (which currently includes the CSE), the Shares and Warrants will not constitute taxable Canadian property of a Non-Resident Holder, unless at any time during the 60-month period immediately preceding the disposition the following two conditions are met concurrently: (a) the Non-Resident Holder, persons with which the Non-Resident Holder does not deal at arm’s length, partnerships whose members include, either directly or indirectly through one or more partnerships, the Non-Resident Holder or persons which do not deal at arm’s length with the Non-Resident Holder, or any combination of them, owned 25% or more of the issued shares of any class or series of shares of the capital stock of the Company, and (b) more than 50% of the fair market value of the Shares was derived directly or indirectly, from one or any combination of real or immovable property situated in Canada, “Canadian resource properties”, “timber resource properties” (each as defined in the Tax Act), and options in respect of or interests in, or for civil law rights in, any such property (whether or not such property exists). The Tax Act may also deem the Shares to be taxable Canadian property in certain circumstances.

In the case of a U.S. Holder, the Shares of such U.S. Holder will generally constitute “treaty-protected property” for purposes of the Tax Act unless the value of the Shares is derived principally from real property situated in Canada. For this purpose, “real property” has the meaning that term has under the laws of Canada and includes any option or similar right in respect thereof and usufruct of real property, rights to explore for or to exploit mineral deposits, sources and other natural resources and rights to amounts computed by reference to the amount or value of production from such resources.

If Shares or Warrants are taxable Canadian property of a Non-Resident Holder and are not treaty-protected property of the Non-Resident Holder at the time of their disposition, the consequences above under “Residents of Canada — Taxation of Capital Gains and Losses” will generally apply.

Non-Resident Holders whose Shares or Warrants are taxable Canadian property should consult their own advisors.

RISK FACTORS

An investment in the Offered Units is speculative and involves certain risks. When evaluating the Company and its business, prospective purchasers of the Offered Units should consider carefully the information set out in this Prospectus and the risks described below and in the documents incorporated by reference in this Prospectus, including those risks identified and discussed under the heading “*Risk Factors*” in the Annual Information Form, which is incorporated by reference herein.

The risks and uncertainties described or incorporated by reference herein are not the only ones the Company faces. Additional risks and uncertainties, including those that the Company is unaware of or that are currently deemed immaterial, may also adversely affect the Company and its business.

Risks Related to the Offering

Disease Outbreaks May Negatively Impact the Company

A local, regional, national or international outbreak of a contagious disease, including the novel coronavirus COVID-19, Middle East Respiratory Syndrome, Severe Acute Respiratory Syndrome, H1N1 influenza virus, avian flu or any other similar illness, could cause staff shortages, supply shortages and increased government regulation all of which may negatively impact the business, financial condition and results of operations of the Company. A pandemic could cause temporary or long-term disruptions in the Company’s supply chains and/or delays in the delivery of the Company’s inventory. Further, such risks could also adversely affect the Company’s customers’ financial condition, resulting in reduced spending for the products the Company sells. Moreover, an epidemic, pandemic, outbreak or other public health crisis, such as COVID-19, could cause employees to avoid the Company’s properties, which could adversely affect the Company’s ability to adequately staff and manage its businesses. “Shelter-in-place” or other such orders by governmental entities could also disrupt the Company’s operations, if employees who cannot perform their responsibilities from home, are not able to report to work. Risks related to an epidemic, pandemic or other health crisis, such as COVID-19, could also lead to the complete or partial closure of one or more of the Company’s facilities or operations of its sourcing partners. The ultimate extent of the impact of any epidemic, pandemic or other health crisis on the Company’s business, financial condition and results of operations will depend on future developments, which are highly uncertain and cannot be predicted, including new information that may emerge concerning the severity of such epidemic, pandemic or other health crisis and actions taken to contain or prevent their further spread, among others. These and other potential impacts of an epidemic, pandemic or other health crisis, such as COVID-19, could therefore materially and adversely affect the Company’s business, financial condition and results of operations.

An investment in the Offered Units is speculative

An investment in the Offered Units and the Company’s prospects generally, are speculative due to the risky nature of its business and the present stage of its development. Investors may lose their entire investment and should carefully consider the risk factors described below and under the heading “*Risk Factors*” in the Annual Information Form. The risks described below and in the Annual Information Form are not the only ones facing the Company. Additional risks not currently known to the Company, or that the Company currently deems immaterial, may also impair the Company’s operations. There is no assurance that risk management steps taken will avoid future loss due to the occurrence of the risks described below (or incorporated by reference herein) or other unforeseen risks. If any of the risks described below or in the Annual Information Form actually occur, then the Company’s business, financial condition and operating results could be adversely affected. Investors should carefully consider the risks below and in the Annual Information Form and the other information elsewhere in this Prospectus and consult with their professional advisors to assess any investment in the Company.

Discretion in the Use of Proceeds

Management will have discretion concerning the use of the proceeds of the Offering as well as the timing of their expenditure. As a result, an investor will be relying on the judgment of management for the application of the proceeds of the Offering. Management may use the net proceeds of the Offering other than as described under the heading "*Use of Proceeds*" if they believe it would be in the Company's best interest to do so and in ways that an investor may not consider desirable. The results and the effectiveness of the application of the proceeds are uncertain. If the proceeds are not applied effectively, the Company's results of operations may suffer.

Additional Financing

The continued development of the Company will require additional financing. There is no guarantee that the Company will be able to achieve its business objectives. The Company intends to fund its business objectives by way of additional offerings of equity and/or debt financing as well as through anticipated positive cash flow from operations in the future. The failure to raise or procure such additional funds or the failure to achieve positive cash flow could result in the delay or indefinite postponement of current business objectives. There can be no assurance that additional capital or other types of financing will be available if needed or that, if available, will be on terms acceptable to the Company. If additional funds are raised by offering equity securities, existing shareholders could suffer significant dilution. The Company will require additional financing to fund its operations until positive cash flow is achieved, see "*Risk Factors – Negative Cash Flow from Operations*".

Volatile Market Price of the Common Shares

The market price of the Common Shares may be volatile and subject to wide fluctuations in response to numerous factors, many of which are beyond the Company's control. This volatility may affect the ability of holders of Common Shares to sell their securities at an advantageous price. Market price fluctuations in the Common Shares may be due to the Company's operating results failing to meet expectations of securities analysts or investors in any period, downward revision in securities analysts' estimates, adverse changes in general market conditions or economic trends, acquisitions, dispositions or other material public announcements by government and regulatory authorities, the Company or its competitors, along with a variety of additional factors. These broad market fluctuations may adversely affect the market price of the Common Shares.

Financial markets have at times historically experienced significant price and volume fluctuations that have particularly affected the market prices of equity securities of companies and that have often been unrelated to the operating performance, underlying asset values or prospects of such companies. Accordingly, the market price of the Common Shares may decline even if the Company's operating results, underlying asset values or prospects have not changed. Additionally, these factors, as well as other related factors, may cause decreases in asset values that are deemed to be other than temporary, which may result in impairment losses. There can be no assurance that continuing fluctuations in price and volume will not occur. If such increased levels of volatility and market turmoil continue, the Company's operations could be adversely impacted and the trading price of the Common Shares may be materially adversely affected.

Risk Factors Related to Dilution

The Company may issue additional securities in the future, which may dilute a shareholder's holdings in the Company. The Company's articles permit the issuance of an unlimited number of Common Shares, and shareholders will have no pre-emptive rights in connection with such further issuance. The directors of the Company have discretion to determine the price and the terms of further issuances. Moreover, additional Common Shares will be issued by the Company on the exercise of options under the Company's stock option plan and upon the exercise of outstanding warrants.

Negative Cash Flow from Operations

The Company had a negative operating cash flow for the financial year ended July 31, 2020 and 2019, for the six months ended September 30, 2020 and for the period from October 11, 2019 (date of incorporation) to March 31, 2020 and for the nine months ended December 31, 2020. Although the Company anticipates it will have positive cash flow from operating activities in future periods, the Company cannot guarantee it will have a cash flow positive status from operating activities in future periods. To the extent that the Company has negative cash flow in any future period, certain of the proceeds from the Offering may be used to fund such negative cash flow from operating activities, see “*Use of Proceeds*”.

There is an absence of a public market for the Warrants

There is no public market for the Warrants to be issued in the Offering and the Company does not intend to apply for listing of the Warrants on any securities exchanges.

ELIGIBILITY FOR INVESTMENT

In the opinion of Gowling WLG (Canada) LLP, counsel to the Company and MLT Aikins LLP, counsel to the Agent, based on the current provisions of the Tax Act and the Regulations, if the Shares were issued on the date hereof and listed on a “designated stock exchange” as defined in the Tax Act (which includes the CSE), then the Shares and Warrants would, at that time, be a “qualified investment” under the Tax Act and the Regulations for a trust governed by a “registered retirement savings plan” (“**RRSP**”), “registered retirement income fund” (“**RRIF**”), “tax-free savings account” (“**TFSA**”), “registered education savings plan” (“**RESP**”), “deferred profit sharing plan” or “registered disability savings plan” (“**RDSP**”), as those terms are defined in the Tax Act (collectively but not including a “deferred profit sharing plan”, the “**Registered Plans**”), provided that, in the case of the Warrants, the Company deals at arm’s length with each person who is an annuitant, a beneficiary, an employer, or a subscriber under, or a holder of, such Registered Plan. The Warrants, if issued on the date hereof and listed on a “designated stock exchange”, would also at that time be a “qualified investment” for a trust governed by a Registered Plan or a “deferred profit sharing plan”.

Notwithstanding that a Share or Warrant may be a qualified investment for a Registered Plan, if the Share or Warrant is a “prohibited investment” within the meaning of the Tax Act for a Registered Plan, the holder, annuitant or subscriber of the Registered Plan, as the case may be, will be subject to penalty taxes as set out in the Tax Act. The Shares or Warrants will generally be a “prohibited investment” for a Registered Plan if the holder, annuitant or subscriber, as the case may be, does not deal at arm’s length with the Company for the purposes of the Tax Act or has a “significant interest” (as defined in the Tax Act) in the Company. However, the Shares will not be a prohibited investment if the Shares are “excluded property” within the meaning of the Tax Act for the Registered Plan.

Holders and annuitants of Registered Plans should consult their own tax advisors with respect to whether Shares or Warrants would be prohibited investments having regard to their particular circumstances.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain provinces of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces of Canada, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province for the particulars of these rights or consult with a legal adviser.

In an offering of convertible, exchangeable or exercisable securities, investors are cautioned that the statutory right of action for damages for a misrepresentation contained in the Prospectus is limited, in securities legislation of certain provinces, to the price at which the convertible, exchangeable or exercisable securities is offered to the public under an Offering. This means that, under the securities legislation of certain provinces, if the purchaser pays additional amounts upon conversion, exchange or exercise of the security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of this right of action for damages or consult with a legal adviser.

DIVIDEND POLICY

The Company has not declared or paid any cash dividends on the Common Shares since its inception. The Company currently intends to retain future earnings, if any, to finance the operation and expansion of its business and does not anticipate paying any cash dividends in the foreseeable future. Payment of any future dividends, if any, will be at the discretion of the Board of Directors and will depend on the financial condition, results of operations, capital requirements, restrictions contained in current or future financing instruments of the Company, provisions of applicable law and other factors the Board of Directors deems relevant.
