PlantX Announces Launch of Its Redesigned Canadian Website on Shopify Platform (CNW Group/PlantX Life Inc.)

The Company's redesigned Canadian website was developed to better represent the Company's brand strategy, promote community engagement, improve customer satisfaction and increase business reach. To help maximize the impact of its new platform, PlantX has engaged UI/UX specialists to augment its website's performance through increased navigational speed and optimized conversion rates. The Company aims to launch a redesigned United States website on the Shopify platform later this year.

"Our investments in the PlantX e-commerce websites will help increase our business effectiveness," said PlantX Chief Executive Officer, Lorne Rapkin. "This can allow PlantX to primarily focus its efforts on curating the best plant-based products and educational resources for its customers."

"The decision to transition to Shopify as the main e-commerce platform to host the PlantX online presence is a strategic move that complements the Company's mission and expansion plans," said PlantX Founder, Sean Dollinger. "By leveraging the Shopify embedded features, PlantX will be able to replicate its current Canadian model and launch additional websites in other countries."
