DESCRIPTION OF THE BUSINESS

Overview

The Company is incorporated under the laws of the province of British Columbia. PlantX was formerly an exploration stage company engaged in the acquisition and exploration of mineral resource properties in Canada.

On August 5, 2020, the Company completed the acquisition of privately-held PlantX Living Inc. (formerly PlantX Life Inc.) ("**PlantX Living**"). The acquisition constituted a reverse takeover of the Company and the Company would carry on the business of PlantX Living (the "**RTO Transaction**"). Pursuant to the RTO Transaction, the Company changed its name from "Winston Resources Inc." to "Vegaste Technologies Corp."

On September 28, 2020, the Company changed its name to "PlantX Life Inc." PlantX is a reporting issuer in the jurisdictions of British Columbia, Alberta and Ontario and lists its common shares (**"Common Shares"**) for trading on the Canadian Securities Exchange ("CSE") under the symbol "VEGA", on the OTCQB® Venture Market under the symbol "PLTXF" and on the Frankfurt Stock Exchange under the symbol "WNT1".

The head office of the Company is located at 504-100 Park Royal South, West Vancouver, BC, V7T 1A2, Canada.

Strategy

The Company is primarily an e-commerce company that offers multiple plant-based brands at its "one-stop shop for everything plant-based". The Company's e-commerce platform is an online source for high-quality plant-based products including groceries, ingredients, food and beverages, cosmetics, pet-foods and plants. The Company makes more than 5,000 plant-based products available to consumers throughout North America on its e-commerce websites.

The Company currently operates its business under a direct shipping model, whereby the Company facilitates the delivery of the goods from its warehouses directly to the end-point consumer who places the order. Additionally, the Company, under its wholly-owned subsidiary Bloomboxclub Limited (**"Bloombox Club"**), also operates its business relevant to Bloombox Club using a supply-chain management system known as "dropshipping" whereby Bloombox Club facilitates the delivery of the goods from a third-party manufacturer to a third party distributor and then to the end-point consumer who places the associated order. Dropshipping typically does not require Bloombox Club to own inventory. Strategically, dropshipping enables the Company's business to operate with limited overhead and inventory, thus maximizing margins and, ultimately, net profit.

During the three-month period ended September 30, 2022 the Company's management focused on building certain verticals, including, but not limited to, Bloombox Club, XMarket Chicago and Little West. The focus was on rebranding the brick and mortar locations to XMarket and equipping each location with the ability to fulfill orders under the direct shipping models. PlantX also seeks to create brand-awareness and customer engagement through its brick-and-mortar strategy. As of the date of this MD&A, PlantX has announced or opened brick-and-mortar locations in, Squamish, British Columbia, Venice Beach, California, Toronto, Ontario, Ottawa, Ontario, Plainfield, Illinois, Chicago, Illinois and Tel Aviv, Israel. The purpose of the PlantX branded locations is to provide a customer-friendly experience where consumers can engage and become educated about the benefits of a plant-based lifestyle, sample and purchase featured plant-based products and engage in the PlantX community.

Additionally, PlantX has acquired majority equity interests in each of Eh Coffee Corp. ("Eh Coffee") and Portfolio Coffee Inc to expand its verticals. With this acquisition, PlantX plans to sell the Companies' products on its online platform and its physical locations. PlantX will also exclusively use these curated beans to make the coffee beverages in its state-of-the-art cafe's located in XMarket Squamish, XMarket Venice Beach, XMarket Tel Aviv, and the two XMarkets located in Hudson's Bay stores (Yorkdale & Rideau). By featuring the Portfolio brand at the XMarket Cafés, PlantX can offer same day delivery throughout Vancouver, Los Angeles, Venice Beach, Tel Aviv, Toronto and Ottawa.

Furthermore, PlantX, through its wholly owned subsidiary, PlantX Midwest, the Company has acquired substantially all of the assets and assumed certain of the liabilities of Peter Rubi, LLC. PlantX intends to relaunch both Peter Rubi retail locations under the Company's "XMarket" brand. In line with the XMarket e-commerce enhancing strategy, the Company will leverage Peter Rubi's warehousing facilities, operational potential, extensive customer base, and plant-based merchandising expertise to boost its e-commerce growth in the US. The stores will serve

as new storage and fulfillment centers that will increase and diversify the Company's distribution capabilities. This will enable the Company to serve e-commerce customers more efficiently across the Midwestern US, while driving online sales. Additionally, the stores will be capitalizing on the XMarket interactive shopping model to help expand PlantX brand awareness and foster online customer engagement.

The PlantX platform also features a collaborative forum and blog to help like-minded consumers to engage through social media and via partnerships with top nutritionists, chefs and brands. By combining this online strategy with the opportunities to engage at brick-and-mortar locations, the Company seeks to cultivate a PlantX community that translates into increased sales through its e-commerce platform. Establishing a core consumer base that makes recurring purchases from the Company's e-commerce platform is critical to the execution of the Company's business model.

MANAGEMENT CHANGES

There were no management changes during the period ended September 30, 2022.

FINANCIAL STATEMENTS GOING CONCERN ASSUMPTION

The condensed interim consolidated financial statements of the Company have been prepared on the basis of accounting principles applicable to a going concern under IFRS. The use of these principles under IFRS assumes that the Company will continue in operation for the foreseeable future and will be able to realize assets and discharge its liabilities in the normal course of operations. The Company incurs operating losses, which casts significant doubt about the Company's ability to continue as a going concern.

Management's current strategy is careful cost control while pursuing opportunities within various market sectors. Management recognizes the Company's need to increase its cash reserves in the coming year if it intends to adhere to its plans and has evaluated its potential sources of funds. Although management intends to assess and act on these options throughout the course of the year, there can be no assurance that the steps management takes will be successful.

In the event that cash flow from operations, together with the proceeds from any future financings are insufficient to cover planned expenditures, management will allocate available resources in such manner as deemed to be in the Company's best interest. This may result in a significant reduction in the scope of existing and planned operations.

During the three and six months ended September 30, 2022, the Company generated revenue of \$3,853,855 and \$8,869,579 (September 30, 2021(Restated) - \$2,826,790 and \$4,707,259 and as of September 30, 2022 had a deficit of \$91,804,381 (March 31, 2022 - \$82,873,822). The revenue growth of \$4,162,320 compared to the same period of the prior year was driven by increasing sales on the e-commerce sites along with the strategic acquisitions that were able to service customer needs by providing food and plant deliveries to homes and other businesses.

In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of uncertainties related to events or conditions that may cast significant doubt upon its ability to continue as a going concern that these uncertainties are material and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business.

Accordingly, the condensed interim consolidated financial statements do not give effect to adjustments that would be necessary, should the Company be unable to continue as a going concern and therefore to realize its assets and discharge its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying condensed interim consolidated financial statements. These adjustments could be material

PLANTX LIFE INC. MD&A FOR THE THREE AND SIX MONTHS ENDED SEPTEMBER 30, 2022

As a recently established company, lead generation of new consumers that are linked to the ecommerce platform is expected to serve as a correlated driver of sales and revenue. To increase brand awareness and promote 'lead generation' to the Company's e-commerce platform, the Company has made and continues to make, key partnerships with plant-based online influencers, athletes, and celebrities. This strategy is not only to generate leads to the website but also to educate potential customers about the benefit of a plant-based diet. One way the company aims to achieve this strategy is through key partnerships and expanded product categories to create a differentiated one-stop shop. Media and publicity have also served as important tools through unique content creation, such as the Company's YouTube channel with programming led by Adam Kruger.

In addition to organic growth, the Company completed strategic acquisitions of highly synergistic plant-based companies. These companies operate in high-growth segments, exhibit strong business fundamentals, provide valuable know-how, integrate an existing customer base and supply chains, and are complementary to the existing e-commerce platform. These acquired companies have generated revenue, expanded the customer base, and geographic reach and enhanced the Company platform.

Depending on future events, the rate of expenditures and general and administrative costs could increase or decrease.

Competitive Risk

There is competition within the innovative plant-based food, meal delivery, and beverages market. The Company will compete with other companies, many of which have been on the market longer, have greater financial, technical, and other resources than the Company, for, among other things, the recruitment and retention of qualified employees and other personnel.

Industry Risk

The Company is operating in comparison with other industries in a relatively young market. Typically, emerging industries grow faster but face greater uncertainty than mature industries. The plant-based industry is not fully developed yet, which means there is the growth potential for companies in this sector. On the other hand, the overall acceptance and education about the plant-based industry is still relatively low, which makes companies in that industry face a higher risk than in more mature industries.

Intellectual Property Risk

The Company has developed online platforms offering plant-based products available for fast home delivery. The Company may be unable to prevent competitors from independently developing e-commerce and online platforms similar to or duplicate of the Company, and there can be no assurance that the resources invested by the Company to protect the intellectual property will be sufficient. The Company may be unable to secure or retain ownership or rights.

Reliance on Management, Dependence on Key Personnel, and Conflict of Interest

The success of the Company will be largely dependent upon the performance of the directors and officers and the ability to attract and retain key personnel. The loss of the services of these persons may have a material adverse effect on the Company's business and prospects. The Company will compete with numerous other companies for the recruitment and retention of qualified employees and contractors. There is no assurance that the Company can maintain the service of its directors and officers, or other qualified personnel required to operate its business. Failure to do so could have a material adverse effect on the Company and its prospects.

Certain directors and officers of the Company may also serve as directors and officers of other companies involved in similar offering of plant-based products and its development and consequently the possibility of conflict exists. Any decisions made by such directors or officers involving the Company will be made in accordance with the duties and obligations of directors and officers to deal fairly and in good faith with the Company and such other companies. In addition, such directors declare their interest and refrain from voting on any matters in which such directors may have a conflict of interest.
