Forward-looking statements are often identified by terms such as "may", "should", "anticipate", "expect", "potential", "believe", "intend" or negatives of these terms and similar expressions. Other assumptions include industry trends, growth opportunities will be available, and general business, economic, competitive, political and social uncertainties will not prevent the Company from conducting its business. While Leviathan considers these assumptions to be reasonable based on information currently available, they are inherently subject to significant business, economic and competitive uncertainties and contingencies and they may prove to be incorrect. Readers are cautioned that the foregoing is not exhaustive. Readers are further cautioned not to place undue reliance on forward-looking statements as there can be no assurance that the plans, intentions or expectations upon which they are placed will occur.
