Chairman

About Mag One Products, Inc.:

Mag One Products is a technology, processing and production company that aims to be the diamond standard in the Magnesium (Mg) market by concentrating on three initial projects: I. Magnesium-based structural insulated sheathing panels; II. production of MgO, Mg(OH)₂ and other saleable co-products, byproducts and compounds; and III. production of 99.9% pure magnesium metal at the Company's ore and manufacturing plant site in southern Quebec, Canada. Mag One's advantages are its proprietary patent(s) pending technology, modular processing plant expansion concept and the fact that it has secured 50 Million tonnes of already mined, ongrade tailings which on average, contain 22% Mg (or 11 Million tonnes of Mg Metal) and pays only \$1.00/tonne, as it is used. This is sufficient ore for over 100 years of production at the targeted production levels of the Mg products.

Mag One listed on the CSE with symbol, "MDD", the Börse Frankfurt stock exchange ("Frankfurt") and the Xetra, both with the ticker symbol "304" and the OTCQB with ticker symbol "MgPRF". The listings on the Frankfurt and OTCQB exchanges provide the company exposure to the European and U.S. markets and investors.
