to Present at RedChip's Global Online Growth Conference

Vancouver, B.C., October 18, 2016 – **MAG ONE PRODUCTS INC.** (the "Company"), (CSE: **MDD**, Frankfurt: **304 OTCQB: MGPRF**) is scheduled to present at RedChip's Global Online Growth Conference **on October 19th, 2016, at 12:30p.m. Eastern Time.** The presentation can be viewed at www.RedChip.com. A live Q&A session will follow the Investor Presentation. Mag One believes the exposure of its projects to such a new and wider audience at the conference will help provide an overview of the Company as well as explain its gameplan and answer many FAQs.

The conference includes a keynote from Thomas Jandt, branch manager and investment advisor at WestPark Capital. Jandt's presentation, titled "The Biggest Bubble in History?" will explore the history of the Fed Funds Rate, its impact on US Treasury rates, and possibilities of where we may go from here.

Jandt personally assists entrepreneurs and corporations with valuable advice, analysis and assistance in preparing for the process of raising growth capital, going public and/or merger and acquisition evaluation. Mr. Jandt has over 19 years of investment banking experience, having participated in over one billion dollars in private and public capital offerings during his career as an investment banker and stockbroker over the past two decades.

Jandt's presentation will air at **12:00 p.m. ET** on each day of the conference.

RedChip's Global Online Growth Conference brings together investors and executives of leading microcap companies, representing a broad spectrum of industries and sectors, including oil & gas, technology, mining, healthcare, consumer goods, energy, and more. More than 10,000 investors attend RedChip's microcap conference series each year. No registration is required to participate in the conference. Start times are subject to change.

MAG ONE PRODUCTS INC. is a technology, processing and production company that aims to be the diamond standard in the Magnesium (Mg) market by concentrating on three initial projects: I. Magnesium-based structural insulated sheathing panels; II. production of MgO, Mg(OH)₂ and other saleable co-products, byproducts and compounds; and III. production of 99.9% pure magnesium metal at the Company's ore and manufacturing plant site in southern Quebec, Canada. Mag One's advantages are its proprietary patent(s) pending technology, modular processing plant expansion concept and the fact that it has secured 50 Million tonnes of already mined, ongrade tailings which on average, contain 22% Mg (or 11 Million tonnes of Mg Metal) and pays only \$1.00/tonne, as it is used. This is sufficient ore for over 100 years of production at the targeted production levels of the Mg products.

Signed:

N. M. Skalbania, Chairman
