TORONTO, May 1, 2019 /CNW/ - High Hampton Holdings Corp. (CSE: HC) (FSE: 0HCN) ("**High Hampton**" or the "**Company**"), a cannabis brand and distribution company in the U.S. market, today announced that it has filed its Consolidated Unaudited Financial Statements for the quarter ended February 28, 2019. The Consolidated Financial Statements and Management Discussion and Analysis are available on SEDAR at www.sedar.com.

Quarter ended February 28, 2018 Highlights:

- The reduction in liquidity reflects the onetime acquisition costs associated with the Mojave Jane acquisition as well as the continued build out and licensing of existing assets. In January, 2019, High Hampton announced that it had been granted six new state licenses on its property in Cudahy for cultivation, distribution, manufacturing, and non-storefront retail.
- In February 2019, High Hampton announced that CALIGOLD, its wholly owned subsidiary, had released three new products to the market that build on its award-winning brand.
- In February 2019, High Hampton entered into a binding letter of intent to acquire 40% of the 2083 Group, a leader in California's cannabis delivery and brand space. When closed, the deal will provide 2083 with growth capital to expand its delivery presence and will provide High Hampton with access to 2083's delivery customers and consumer data.

- In February 2019, High Hampton announced the evolution of its strategy to focus on consumers and brands, consistent with the overall growth and evolution of California's recreational and wellness-focused cannabis markets.

Subsequent to the quarter:

- In April, 2019, High Hampton announced that it had received a conditional use permit and development agreement to build out its 15,000 ft facility and distribution operations in West Sacramento. When operational in late 2019, the facility will serve the lucrative Central and Northern California markets and serve as the company's primary distribution hub.
- In April, 2019, High Hampton announced that demolition of its 15,000 ft facility in Cudahy had concluded and that construction was to begin in fiscal Q3, 2019.

"We concluded Q2 with additional licenses and permits to operate in both southern and northern California," commented Gary Latham, Chief Executive Officer of High Hampton. "We also saw the addition of higher capacity extraction equipment for Mojave Jane's operations. That capacity buildout will conclude in Q3, 2019 and Mojave Jane will be up to operating capacity and producing roughly 100 liters of distillate monthly. The substantial ramp up of our overall business operations this year is tied to a sensible spending strategy aimed at scaling expenditures proportional to operational activity.

We are also very excited to close the loop of consumer demand to product and brand production through the investment in the 2083 Group and their delivery platform, SpeedWeed, a transaction we expect to close soon. With this addition, High Hampton will be able to fully understand the consumer markets for recreational and wellness products and produce what the markets demand. Further, through delivery, we can then take those products and brands directly to the market. The future looks very promising, and I am excited to begin taking products to market at scale."
