#### **1. NATURE OF BUSINESS**

Mojave Brands Inc., (the “Company”) was incorporated in British Columbia on November 12, 2010. The registered office address of the Company is 1500 – 1055 West Georgia Street, P.O. Box 11117, Vancouver, BC, V6E 4N7. The principal place of business address is 2050 – 1055 West Georgia Street, P.O. Box 11121, Royal Centre, Vancouver, BC, V6E 3P3. The Company is a reporting issuer in British Columbia, Ontario and Alberta, and its common shares are traded on the Canadian Securities Exchange under the symbol “MOJO” and on the Frankfurt Exchange under symbol “FSE: 0HCN”.

The Company’s principal business was the manufacturing, processing and sale of cannabis extracts. Currently the Company is not generating revenues as it has closed down all its operations in the US, and plans to seek out other potential strategic alliances, joint venture, acquisition, or merger opportunities.

These consolidated financial statements have been prepared based on accounting principles applicable to a going concern, which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception with an accumulated deficit as at May 31, 2022 of \$62,209,825. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal business operations as they become due. These material uncertainties cast significant doubt on the entity’s ability to continue as a going concern.

These consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

#### COVID-19 uncertainty

In March 2020, the COVID-19 outbreak was declared a global pandemic by the World Health Organization. Due to the rapid developments and uncertainty surrounding COVID-19, it is not possible to predict the impact that COVID-19 will have on the Company’s business, financial position and operating results in the future. Additionally, it is possible that estimates in the Company’s consolidated financial statements will change in the near term as a result of COVID-19. The Company is closely monitoring the impact of the pandemic on all aspects of its business but anticipates that COVID-19 may impact the Company’s ability to raise financing.

These condensed interim consolidated financial statements were approved by the Board of Directors and authorized for issuance by the Board of Directors on July 26, 2022.

#### **2. BASIS OF PREPARATION**

##### **Statement of compliance**

These condensed unaudited interim consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”), applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34 *Interim Financial Reporting*.

The condensed interim consolidated financial statements do not include all of the disclosures required for a complete set of annual financial statements and should be read in conjunction with the audited annual financial statements for the year ended August 31, 2021, which have been prepared in accordance with IFRS as issued by the IASB.

---

**2. BASIS OF PREPARATION (cont'd...)**

**Basis of consolidation**

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Coachellagro Corp. The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All inter-company transactions, balances, income and expenses are eliminated in full on consolidation.

**Functional and presentation currency**

These consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company. The functional currency for the subsidiary of the Company is the United States dollar (“USD”), and the financial statement items of the subsidiary are measured using that functional currency.

**Basis of measurement**

These consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments that are measured at revalued amounts or fair values. In addition these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

**Significant accounting estimates and judgments**

The preparation of the Company’s consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from those estimates and judgments. The impacts of such estimates are pervasive throughout the financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised.

Areas requiring a significant degree of estimation and judgment by the Company’s management relate to but are not limited to:

- judgments used in determining if an acquisition constitutes a business combination or asset acquisition;
- judgments used in determining whether the Company has acquired significant influence over an entity;
- the collectability of accounts receivable;
- the fair value measurements for financial instruments;
- the recoverability and measurement of deferred tax assets and liabilities;
- the fair value estimation of share-based payments and awards; and
- whether the Company has sufficient financing to operate as a going concern.

Actual results may differ from those estimates and judgments.

**13. FINANCIAL INSTRUMENTS**

As of May 31, 2022, the carrying amounts of accounts payables, amounts due to related parties, loan payable and loan from related party carried at amortized cost are considered a reasonable approximation of their fair values due to the relatively short period to maturity of these financial instruments.

**Financial risk management**

The Company's financial risks arising from its financial instruments are credit risk, liquidity risk, and interest rate risk. Risk management is carried out by the Company's management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

*Credit risk*

Credit risk is the risk of potential loss to the Company if the counter party to a financial instrument fails to meet its contractual obligations. The credit risk of the Company is associated with cash and GST recoverable. The credit risk with respect to its cash is minimal as they are held with high-credit quality financial institutions. The GST recoverable is due from the Canadian Government. Management does not expect these counterparties to fail to meet their obligations.

*Liquidity risk*

The Company's approach to managing liquidity risk is to ensure that it will have enough liquidity to meet liabilities when due, as they fall due. As at May 31, 2022, the Company has a cash balance of \$896,281 and current liabilities of \$123,105. The Company's financial liabilities include trade payables and amounts due to related parties which have contractual maturities of 30 days or are due on demand. **14. FAIR VALUE MEASUREMENTS**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity). The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

Financial instruments measured at fair value on the statement of financial position are summarized in levels of fair value hierarchy as follows. There have been no changes in these levels and no changes in classifications during the nine months ended May 31, 2022.
